Boaz M Ben-David

List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/2582770/boaz-m-ben-david-publications-by-year.pdf

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
66	More Than Words: the Relative Roles of Prosody and Semantics in the Perception of Emotions in Spoken Language by Postlingual Cochlear Implant Users <i>Ear and Hearing</i> , 2022 ,	3.4	5
65	Brief cognitive-behavioral training for tinnitus relief using a mobile application: A pilot open trial Health Informatics Journal, 2022 , 28, 14604582221083483	3	0
64	Safe and Sound: The Effects of Experimentally Priming the Sense of Attachment Security on Pure-Tone Audiometric Thresholds Among Young and Older Adults <i>Psychological Science</i> , 2022 , 95679	76211	042008
63	"Post-lockdown Depression": Adaptation Difficulties, Depressive Symptoms, and the Role of Positive Solitude When Returning to Routine After the Lifting of Nation-Wide COVID-19 Social Restrictions <i>Frontiers in Psychiatry</i> , 2022 , 13, 838903	5	2
62	Processing of Spoken Emotions in Schizophrenia: Forensic and Non-forensic Patients Differ in Emotional Identification and Integration but Not in Selective Attention <i>Frontiers in Psychiatry</i> , 2022 , 13, 847455	5	O
61	A Cross-Linguistic Validation of the Test for Rating Emotions in Speech: Acoustic Analyses of Emotional Sentences in English, German, and Hebrew <i>Journal of Speech, Language, and Hearing Research</i> , 2022 , 1-10	2.8	4
60	Vaccine and Psychological Booster: Factors Associated With Older AdultsSCompliance to the Booster COVID-19 Vaccine in Israel <i>Journal of Applied Gerontology</i> , 2022 , 7334648221081982	3.3	2
59	One Size Does Not Fit All: Examining the Effects of Working Memory Capacity on Spoken Word Recognition in Older Adults Using Eye Tracking <i>Frontiers in Psychology</i> , 2022 , 13, 841466	3.4	О
58	Age-Related Changes in the Perception of Emotions in Speech: Assessing Thresholds of Prosody and Semantics Recognition in Noise for Young and Older Adults <i>Frontiers in Neuroscience</i> , 2022 , 16, 846117	5.1	O
57	Response to McKenzie et al. 2021: Keep It Simple; Young Adults With Autism Spectrum Disorder Without Intellectual Disability Can Process Basic Emotions <i>Journal of Autism and Developmental Disorders</i> , 2022 ,	4.6	О
56	COVID-19 Vaccinations and Anxiety in Middle-Aged and Older Jews and Arabs in Israel: The Moderating Roles of Ethnicity and Subjective Age <i>Journal of Applied Gerontology</i> , 2022 , 733464822109	930329	1
55	Oral-diadochokinetic rates among healthy Malaysian-Mandarin speakers: A cross linguistic comparison. <i>International Journal of Speech-Language Pathology</i> , 2021 , 23, 419-429	2.1	4
54	No psychological vaccination: Vaccine hesitancy is associated with negative psychiatric outcomes among Israelis who received COVID-19 vaccination. <i>Journal of Affective Disorders</i> , 2021 , 287, 352-353	6.6	23
53	Keep it simple: Identification of basic versus complex emotions in spoken language in individuals with autism spectrum disorder without intellectual disability: A meta-analysis study. <i>Autism Research</i> , 2021 , 14, 1948-1964	5.1	6
52	Commentary: Working Memory Load Affects Processing Time in Spoken Word Recognition: Test Retest Reliability of the E-WINDMIL Eyetracking Paradigm. <i>Frontiers in Neuroscience</i> , 2021 , 15, 663930	5.1	1
51	Evaluating rate and accuracy of real word vs. non-word diadochokinetic productions from childhood to early adulthood in Hebrew speakers. <i>Journal of Communication Disorders</i> , 2021 , 92, 106112	1.9	4
50	Challenges and opportunities for telehealth assessment during COVID-19: iT-RES, adapting a remote version of the test for rating emotions in speech. <i>International Journal of Audiology</i> , 2021 , 60, 319-321	2.6	8

(2018-2021)

Age-Related Differences in the Online Processing of Spoken Semantic Context and the Effect of Semantic Competition: Evidence From Eye Gaze. <i>Journal of Speech, Language, and Hearing Research</i> , 2021 , 64, 315-327	2.8	7
Vaccination anxiety when vaccinations are available: The role of existential concerns. <i>Stress and Health</i> , 2021 ,	3.7	6
Oral diadochokinetic rates across languages: Multilingual speakers comparison. <i>International Journal of Language and Communication Disorders</i> , 2021 , 56, 1026	2.9	1
Aging Impairs Inhibitory Control Over Incidental Cues: A Construal-Level Perspective. <i>Psychological Science</i> , 2021 , 32, 1442-1451	7.9	2
Focusing on Emotional and Social Intelligence Stimulation of People With Dementia by Playing a Serious Game P roof of Concept Study. <i>Frontiers in Computer Science</i> , 2020 , 2,	3.4	1
Tinnitus affects the relative roles of semantics and prosody in the perception of emotions in spoken language. <i>International Journal of Audiology</i> , 2020 , 59, 195-207	2.6	9
The Perception of Emotions in Spoken Language in Undergraduates with High Functioning Autism Spectrum Disorder: A Preserved Social Skill. <i>Journal of Autism and Developmental Disorders</i> , 2020 , 50, 741-756	4.6	7
Processing of Emotions in Speech in Forensic Patients With Schizophrenia: Impairments in Identification, Selective Attention, and Integration of Speech Channels. <i>Frontiers in Psychiatry</i> , 2020 , 11, 601763	5	4
Synchrony in Old Age: Playing the Mirror Game Improves Cognitive Performance. <i>Clinical Gerontologist</i> , 2020 , 1-15	2.7	2
Small numbers are not predictive: Congenital blindness may or may not be protective for schizophrenia. <i>Schizophrenia Research</i> , 2019 , 209, 274	3.6	2
Differences in Working Memory Capacity Affect Online Spoken Word Recognition: Evidence From Eye Movements. <i>Trends in Hearing</i> , 2019 , 23, 2331216519839624	3.2	14
How well do older adults recognise mental illness? A literature review. <i>Psychogeriatrics</i> , 2019 , 19, 491-5	04 8	5
Does emotion matter? The role of alexithymia in violent recidivism: A systematic literature review. <i>Criminal Behaviour and Mental Health</i> , 2019 , 29, 94-110	1.4	14
Age-Related Differences in the Perception of Emotion in Spoken Language: The Relative Roles of Prosody and Semantics. <i>Journal of Speech, Language, and Hearing Research</i> , 2019 , 62, 1188-1202	2.8	19
The Effect of Practice and Visual Feedback on Oral-Diadochokinetic Rates for Younger and Older Adults. <i>Language and Speech</i> , 2018 , 61, 113-134	1.5	11
Evidence-Based Clinical Recommendations for the Administration of the Sequential Motion Rates Task. <i>Communication Disorders Quarterly</i> , 2018 , 39, 442-448	0.6	7
Ageism and Neuropsychological Tests. International Perspectives on Aging, 2018, 277-297	0.5	18
Sibilant production in Hebrew-speaking adults: Apical versus laminal. <i>Clinical Linguistics and Phonetics</i> , 2018 , 32, 193-212	1.4	6
	Semantic Competition: Evidence From Eye Gaze. Journal of Speech, Language, and Hearing Research, 2021, 64, 315-327 Vaccination anxiety when vaccinations are available: The role of existential concerns. Stress and Health, 2021. Oral diadochokinetic rates across languages: Multilingual speakers comparison. International Journal of Language and Communication Disorders, 2021, 56, 1026 Aging Impairs Inhibitory Control Over Incidental Cues: A Construal-Level Perspective. Psychological Science, 2021, 32, 1442-1451 Focusing on Emotional and Social Intelligence Stimulation of People With Dementia by Playing a Serious GameBroof of Concept Study. Frontiers in Computer Science, 2020, 2, Tinnitus affects the relative roles of semantics and prosody in the perception of emotions in spoken language. International Journal of Audiology, 2020, 59, 195-207 The Perception of Emotions in Spoken Language in Undergraduates with High Functioning Autism Spectrum Disorder: A Preserved Social Skill. Journal of Autism and Developmental Disorders, 2020, 50, 741-756 Processing of Emotions in Speech in Forensic Patients With Schizophrenia: Impairments in Identification, Selective Attention, and Integration of Speech Channels. Frontiers in Psychiatry, 2020, 11, 601763 Synchrony in Old Age: Playing the Mirror Game Improves Cognitive Performance. Clinical Gerantologist, 2020, 1-15 Small numbers are not predictive: Congenital blindness may or may not be protective for schizophrenia. Schizophrenia Research, 2019, 209, 274 Differences in Working Memory Capacity Affect Online Spoken Word Recognition: Evidence From Eye Movements. Trends in Hearing, 2019, 23, 2331216519839624 How well do older adults recognise mental illness? A literature review. Psychogeriatrics, 2019, 19, 491-5 Does emotion matter? The role of alexithymia in violent recidivism: A systematic literature review. Criminal Behaviour and Mental Health, 2019, 29, 94-110 Age-Related Differences in the Perception of Emotion in Spoken Language: The Relative Roles of Prosody and S	Semantic Competition: Evidence From Eye Gaze. Journal of Speech, Language, and Hearing Research, 28201, 64, 315-327 Vaccination anxiety when vaccinations are available: The role of existential concerns. Stress and Health, 2021, Oral diadochokinetic rates across languages: Multilingual speakers comparison. International Journal of Language and Communication Disorders, 2021, 56, 1026 Aging Impairs Inhibitory Control Over Incidental Cues: A Construal-Level Perspective. Psychological Science, 2021, 32, 1442-1451 Focusing on Emotional and Social Intelligence Stimulation of People With Dementia by Playing a Serious GameBroof of Concept Study. Frontiers in Computer Science, 2020, 2, Tinnitus affects the relative roles of semantics and prosody in the perception of emotions in spoken language. International Journal of Audiology, 2020, 59, 195-207 The Perception of Emotions in Spoken Language in Undergraduates with High Functioning Autism Spectrum Disorder: A Preserved Social Skill. Journal of Autism and Developmental Disorders, 2020, 59, 1741-756 Processing of Emotions in Speech in Forensic Patients With Schizophrenia: Impairments in Identification, Selective Attention, and Integration of Speech Channels. Frontiers in Psychiatry, 2020, 1, 11, 601763 Synchrony in Old Age: Playing the Mirror Game Improves Cognitive Performance. Clinical Gerontologist, 2020, 1-15 Small numbers are not predictive: Congenital blindness may or may not be protective for schizophrenia. Schizophrenia Research, 2019, 209, 274 How well do older adults recognise mental Illness? A literature review. Psychogeriatrics, 2019, 19, 491-5048 Does emotion matter? The role of alexithymia in violent recidivism: A systematic literature review. Criminal Behaviour and Mental Health, 2019, 29, 94-110 Age-Related Differences in the Perception of Emotion in Spoken Language: The Relative Roles of Prosody and Semantics. Journal of Speech, Language, and Hearing Research, 2019, 62, 1188-1202 The Effect of Practice and Visual Feedback on Oral-Diadochokinet

31	Can We Help Care Providers Communicate More Effectively With Persons Having Dementia Living in Long-Term Care Homes?. <i>American Journal of Alzheimerns Disease and Other Dementias</i> , 2017 , 32, 41-	5 2 .5	32
30	Oral-diadochokinetic rates for Hebrew-speaking healthy ageing population: non-word versus real-word repetition. <i>International Journal of Language and Communication Disorders</i> , 2017 , 52, 301-310) ^{2.9}	22
29	THE IMPACT OF NOISE AND WORKING MEMORY ON ONLINE PROCESSING OF SPOKEN WORDS: EYETRACKING EVIDENCE. <i>Innovation in Aging</i> , 2017 , 1, 476-477	0.1	78
28	Designing Serious Computer Games for People With Moderate and Advanced Dementia: Interdisciplinary Theory-Driven Pilot Study. <i>JMIR Serious Games</i> , 2017 , 5, e16	3.4	18
27	Voice Changes in Real Speaking Situations During a Day, With and Without Vocal Loading: Assessing Call Center Operators. <i>Journal of Voice</i> , 2016 , 30, 247.e1-11	1.9	18
26	Does the degree of linguistic experience (native versus nonnative) modulate the degree to which listeners can benefit from a delay between the onset of the maskers and the onset of the target speech?. <i>Hearing Research</i> , 2016 , 341, 9-18	3.9	14
25	Sensory source for stroop effects in persons after TBI: support from fNIRS-based investigation. Brain Imaging and Behavior, 2016 , 10, 1135-1136	4.1	3
24	Prosody and Semantics Are Separate but Not Separable Channels in the Perception of Emotional Speech: Test for Rating of Emotions in Speech. <i>Journal of Speech, Language, and Hearing Research</i> , 2016 , 59, 72-89	2.8	32
23	Working Memory Load Affects Processing Time in Spoken Word Recognition: Evidence from Eye-Movements. <i>Frontiers in Neuroscience</i> , 2016 , 10, 221	5.1	24
22	The Linguistic Acoustic ThreaT Effect (LATTE): Screening tool for the impact of semantic threat in speech processing after a brain injury. <i>Brain Injury</i> , 2016 , 30, 237-9	2.1	O
21	The sense of relational entitlement among adolescents toward their parents (SREap) - Testing an adaptation of the SRE. <i>Journal of Adolescence</i> , 2016 , 53, 127-140	3.4	10
20	Linguistic and emotional-valence characteristics of reading passages for clinical use and research. Journal of Fluency Disorders, 2016 , 49, 1-12	2.3	6
19	Oral-diadochokinetic rates for Hebrew-speaking school-age children: real words vs. non-words repetition. <i>Clinical Linguistics and Phonetics</i> , 2015 , 29, 102-14	1.4	23
18	"Older is always better": Age-related differences in vocabulary scores across 16 years. <i>Psychology and Aging</i> , 2015 , 30, 856-62	3.6	41
17	Oral-diadochokinesis rates across languages: English and Hebrew norms. <i>Journal of Communication Disorders</i> , 2014 , 48, 27-37	1.9	47
16	The impact of threat and cognitive stress on speech motor control in people who stutter. <i>Journal of Fluency Disorders</i> , 2014 , 40, 93-109	2.3	38
15	Effects of aging and distractors on detection of redundant visual targets and capacity: do older adults integrate visual targets differently than younger adults?. <i>PLoS ONE</i> , 2014 , 9, e113551	3.7	25
14	Stroop effects in Alzheimer's disease: selective attention speed of processing, or color-naming? A meta-analysis. <i>Journal of Alzheimeris Disease</i> , 2014 , 38, 923-38	4.3	24

Persuasive Technology for Healthy Aging and Wellbeing 2014, 5 13 A resource of validated digital audio recordings to assess identification of emotion in spoken 12 2.1 13 language after a brain injury. Brain Injury, 2013, 27, 248-50 Does it take older adults longer than younger adults to perceptually segregate a speech target 11 3.9 59 from a background masker?. Hearing Research, 2012, 290, 55-63 The Pale Shades of Emotion: A Signal Detection Theory Analysis of the Emotional Stroop Task. 10 0.5 15 Psychology, 2012, 03, 537-541 Auditory evoked potentials dissociate rapid perceptual learning from task repetition without 9 4.1 35 learning. Psychophysiology, 2011, 48, 797-807 A resource of validated affective and neutral sentences to assess identification of emotion in 36 2.1 spoken language after a brain injury. Brain Injury, 2011, 25, 206-20 Stroop effects in persons with traumatic brain injury: selective attention, speed of processing, or 7 color-naming? A meta-analysis. Journal of the International Neuropsychological Society, **2011**, 17, 354-63 $^{3.1}$ 49 Effects of aging and noise on real-time spoken word recognition: evidence from eye movements. 2.8 73 Journal of Speech, Language, and Hearing Research, 2011, 54, 243-62 A sensory origin for color-word stroop effects in aging: simulating age-related changes in 38 5 color-vision mimics age-related changes in Stroop. Aging, Neuropsychology, and Cognition, 2010, 17, 730-46 Perceived altruism: a neglected factor in initial intervention. International Journal of Offender 18 1.3 Therapy and Comparative Criminology, 2009, 53, 191-210 A sensory origin for color-word Stroop effects in aging: a meta-analysis. Aging, Neuropsychology, 2.1 42 3 and Cognition, 2009, 16, 505-34 Species of redundancy in visual target detection. Journal of Experimental Psychology: Human 2.6 Perception and Performance, **2009**, 35, 958-76 Youth volunteering for youth: Who are they serving? How are they being served?. Children and 2 28 1 Youth Services Review, 2008, 30, 834-846
