#	ARTICLE	IF	CITATIONS
1	Clinical characteristics and in-hospital outcomes of acute decompensated heart failure patients with and without atrial fibrillation. <i>Anatolian Journal of Cardiology</i> , 2020, 23, 260-267.	0.5	3
2	The Relationship Between Plasma Whole Blood Viscosity and Cardiovascular Events in Patients With Chronic Kidney Disease. <i>Clinical and Applied Thrombosis/Hemostasis</i> , 2017, 23, 663-670.	0.7	8
3	Is left ventricular diastolic function impaired in patients with ankylosing spondylitis?. <i>International Journal of Rheumatic Diseases</i> , 2017, 20, 1802-1802.	0.9	0
4	The Relation Between No-Reflow Phenomenon and Complete Blood Count Parameters. <i>Angiology</i> , 2017, 68, 381-388.	0.8	28
5	Percutaneous transapical closure of cardiac apex and mitral prosthetic paravalvular leak is feasible and alternative approach to the septal approach. <i>General Thoracic and Cardiovascular Surgery</i> , 2016, 64, 633-633.	0.4	1
6	Nebivolol and Endothelial Dysfunction in Patients With Essential Hypertension: A Reputation Saver of β -Blockers?. <i>Journal of Clinical Hypertension</i> , 2016, 18, 1258-1259.	1.0	0
7	Survival of the young patients with acute ST segment elevation myocardial infarction treated with primary percutaneous coronary intervention: Does gender matters?. <i>International Journal of Cardiology</i> , 2016, 210, 54-55.	0.8	3
8	The best treatment option in the management of patients with chronic total occlusion of a single coronary artery: Debate continues. <i>International Journal of Cardiology</i> , 2016, 214, 79-80.	0.8	1
9	Coronary Obstruction During Transcatheter Aortic Valve Replacement: Related to Calcification or Thrombus?. <i>Revista Espanola De Cardiologia (English Ed)</i> , 2016, 69, 456-457.	0.4	1
10	Left subclavian artery dissection and repair after transcatheter aortic valve implantation; the diameter of the axillary artery is important for axillary intervention. <i>International Journal of Cardiology</i> , 2016, 204, 77-80.	0.8	3
11	Late embolization of the atrial septal occluder device into the abdominal aorta. <i>Indian Heart Journal</i> , 2016, 68, 200-201.	0.2	4
12	The role of combined electrocardiogram criteria in differential diagnosis of acute pericarditis: PR segment and QT interval. <i>American Journal of Emergency Medicine</i> , 2016, 34, 1309.	0.7	1
13	The relation between monocyte to HDL ratio and no-reflow phenomenon in the patients with acute ST-segment elevation myocardial infarction. <i>American Journal of Emergency Medicine</i> , 2016, 34, 1542-1547.	0.7	47
14	A new route to life in patients with circulatory shock: intraosseous route. <i>American Journal of Emergency Medicine</i> , 2016, 34, 922-923.	0.7	1
15	The effectiveness of bilirubin for the treatment of ischemia-reperfusion injury in an experimental model: Can it be extrapolated to humans?. <i>International Journal of Cardiology</i> , 2016, 215, 173-174.	0.8	0
16	Coronary microvascular dysfunction in patients with cardiac syndrome X: Ongoing debate. <i>International Journal of Cardiology</i> , 2016, 218, 233-234.	0.8	3
17	The best treatment option in the management of patients with acute massive pulmonary embolism: surgery or thrombolysis?. <i>International Journal of Cardiology</i> , 2016, 214, 286-287.	0.8	5
18	The more proximal implantation of percutaneous mitral annuloplasty device due to the circumflex artery compression may be less beneficial. <i>International Journal of Cardiology</i> , 2016, 209, 46-48.	0.8	1

#	ARTICLE	IF	CITATIONS
19	Sodium bicarbonate dilemma in patients with out-of-hospital cardiac arrest: A double-edged sword. American Journal of Emergency Medicine, 2016, 34, 1314-1315.	0.7	0
20	Qrs prolongation and long-term prognosis in patients with dilated cardiomyopathy: Reflections from diphtheritic myocarditis. International Journal of Cardiology, 2016, 212, 295.	0.8	1
21	Acute anterior myocardial infarction after heavy exercise in a young sportsman: Importance of intravascular ultrasonography on differential diagnosis. International Journal of Cardiology, 2016, 215, 169-172.	0.8	1
22	The relation between coronary artery ectasia and psychological environmental factors. Journal of the Saudi Heart Association, 2016, 28, 127-128.	0.2	1
23	Percutaneous closure of ventricular septal defect with membranous pouch and changing the device due to severe aortic regurgitation. International Journal of Cardiology, 2016, 209, 42-45.	0.8	2
24	The successful management of early rupture of abdominal aortic aneurysm with endovascular stenting and instent stenting for endoleak following EVAR; a case report. International Journal of Cardiology, 2016, 207, 152-156.	0.8	0
25	Duration of antiplatelet or anticoagulant therapy after transcatheter aortic valve implantation in high risk patients; longer or shorter. International Journal of Cardiology, 2016, 210, 14-15.	0.8	3
26	The association of severe aortic stenosis and narrow aortic root in a young patient What is the etiology: Rheumatic valvulitis or Lambl's excrescences?. International Journal of Cardiology, 2016, 208, 87-91.	0.8	1
27	Right ventricular function in patients undergoing surgical or transcatheter aortic valve replacement. European Journal of Cardio-thoracic Surgery, 2016, 49, 1296.1-1296.	0.6	6
28	Predictors of No-Reflow Phenomenon in Young Patients With Acute ST-Segment Elevation Myocardial Infarction Undergoing Primary Percutaneous Coronary Intervention. Angiology, 2016, 67, 683-689.	0.8	35
29	The progressed atrioventricular block associated with ticagrelor therapy may not require permanent pacemaker after acute coronary syndrome; it may be reversible. International Journal of Cardiology, 2016, 203, 822-824.	0.8	9
30	The combination of percutaneous transapical and transseptal closure of cardiac apex and prosthetic mitral paravalvular leak with loop technique. International Journal of Cardiology, 2016, 203, 221-224.	0.8	3
31	The spontaneous coronary artery dissection may need intervention in the proximal segment of the arteries. International Journal of Cardiology, 2016, 202, 943-944.	0.8	5
32	A case of double fistulas of right coronary artery to LVOT and LAD. International Journal of Cardiology, 2016, 203, 379-380.	0.8	0
33	Long distance walking man after a combination of percutaneous mitral annuloplasty and coronary revascularization. International Journal of Cardiology, 2016, 203, 1122-1124.	0.8	1
34	Relationship between epicardial fat thickness and hypertension. Turk Kardiyoloji Dernegi Arsivi, 2016, 44, 355-6.	0.6	0
35	Do spontaneous coronary artery dissections always need intervention in patients with no atherosclerosis?. Anatolian Journal of Cardiology, 2016, 16, 365-6.	0.5	0
36	A new anomaly of the left anterior descending artery: Type X dual LAD. Indian Heart Journal, 2015, 67, S14-S17.	0.2	18

#	ARTICLE	IF	CITATIONS
37	Tricuspid Annular Plane Systolic Excursion and Its Association with Mortality in Critically Ill Patients. <i>Echocardiography</i> , 2015, 32, 1330-1330.	0.3	2
38	Utility of Isovolumic Contraction Peak Velocity for Evaluation of Adult Patient Status after Transcatheter Closure of Atrial Septal Defect. <i>Echocardiography</i> , 2015, 32, 1742-1742.	0.3	0
39	Age and Aortic Diameters in Pilots. <i>Military Medicine</i> , 2015, 180, 1262-1267.	0.4	2
40	Computed tomography guided percutaneous transapical closure of cardiac apex after prosthetic mitral paravalvular leak closure. <i>International Journal of Cardiology</i> , 2015, 198, 37-39.	0.8	6
41	Progressive aortic dissection following RCA instent angioplasty. <i>International Journal of Cardiology</i> , 2015, 187, 309-310.	0.8	2
42	The healing of spontaneous coronary artery dissection with conservative treatment: When to stop. <i>International Journal of Cardiology</i> , 2015, 189, 249-251.	0.8	5
43	Mobile mass lesion in the aorta after transcatheter aortic valve implantation: Thrombus or residue calcification. <i>International Journal of Cardiology</i> , 2015, 198, 45-46.	0.8	9
44	High altitude may affect cardiac structure in smoking subjects. <i>International Journal of Cardiology</i> , 2015, 184, 416.	0.8	0
45	Percutaneous transapical closure of cardiac apex with an ADO-II device after successful transapical transcatheter prosthetic mitral paravalvular leak closure. <i>International Journal of Cardiology</i> , 2015, 189, 289-292.	0.8	7
46	Aortic and right ventricular rupture in a patient after transcatheter aortic valve implantation; The direction of the calcification predicts aortic annulus rupture. <i>International Journal of Cardiology</i> , 2015, 193, 49-52.	0.8	8
47	Multimodality imaging of isolated bicuspid pulmonary valve leading to pulmonary stenosis. <i>Anatolian Journal of Cardiology</i> , 2015, 15, E5.	0.4	1
48	The association of ventricular noncompaction and apical long tunnel type ventricular septal defect causes electrocardiographic abnormality. <i>International Journal of Cardiology</i> , 2015, 187, 673-675.	0.8	1
49	Cardiac resynchronization therapy in a patient with percutaneous mitral annuloplasty and prior aortic valve surgery. <i>International Journal of Cardiology</i> , 2015, 187, 532-533.	0.8	3
50	Percutaneous mitral annuloplasty in a patient with coronary sinus stenosis and coronary artery compression during procedure; they will not interfere. <i>International Journal of Cardiology</i> , 2015, 191, 84-86.	0.8	2
51	Significant left hemothorax after transapical closure of cardiac apex with minithoracotomy and transapical transcatheter prosthetic mitral paravalvular leak closure. <i>International Journal of Cardiology</i> , 2015, 199, 274-276.	0.8	4
52	Right ventricular diastolic function in patients with community-acquired pneumonia. <i>American Journal of Emergency Medicine</i> , 2015, 33, 1521-1522.	0.7	0
53	The association of intracardiac hydatid cyst and muscle bridge cause electrocardiographic abnormality detected by multimodality imaging. <i>Anatolian Journal of Cardiology</i> , 2014, 14, E17-8.	0.4	0
54	Multiple pseudoaneurysms of aortic arch in a patient with Behcet's disease. <i>European Heart Journal Cardiovascular Imaging</i> , 2014, 15, 1028-1028.	0.5	2

#	ARTICLE	IF	CITATIONS
55	The main argument about the etiology of coronary artery ectasia: is it inflammation or not?. Turk Kardiyoloji Dernegi Arsivi, 2014, 42, 119-20.	0.6	5
56	Spontaneous Intimal Dissection in a Patient with Post-Infarct Angina: Identification with Intravascular Ultrasound and Treatment with Coronary Stenting. International Heart Journal, 2003, 44, 557-564.	0.6	6
57	A Diffusely Aneurysmal, Giant Right Coronary Artery. Echocardiography, 2001, 18, 21-23.	0.3	1
