#	Paper	IF	Citations
83	Positive couple interactions and daily cortisol: on the stress-protecting role of intimacy. <i>Psychosomatic Medicine</i> , 2008 , 70, 883-9	3.7	170
82	Neuroticism and conscientiousness are associated with cortisol diurnal profiles in adults--role of positive and negative affect. <i>Psychoneuroendocrinology</i> , 2010 , 35, 1573-7	5	104
81	Cohort differences in cognitive aging and terminal decline in the Seattle Longitudinal Study. <i>Developmental Psychology</i> , 2011 , 47, 1026-41	3.7	96
80	Spousal interrelations in old age--a mini-review. <i>Gerontology</i> , 2009 , 55, 449-59	5.5	88
79	Diurnal profiles of salivary cortisol and alpha-amylase change across the adult lifespan: evidence from repeated daily life assessments. <i>Psychoneuroendocrinology</i> , 2013 , 38, 3167-71	5	85
78	Linking possible selves and behavior: do domain-specific hopes and fears translate into daily activities in very old age?. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2007 , 62, P104-11	4.6	49
77	Dynamic links of cognitive functioning among married couples: longitudinal evidence from the Australian Longitudinal Study of Ageing. <i>Psychology and Aging</i> , 2009 , 24, 296-309	3.6	45
76	The nature and correlates of self-esteem trajectories in late life. <i>Journal of Personality and Social Psychology</i> , 2013 , 105, 139-53	6.5	44
75	Spousal interrelations in happiness in the Seattle Longitudinal Study: considerable similarities in levels and change over time. <i>Developmental Psychology</i> , 2011 , 47, 1-8	3.7	43
74	Spousal associations between functional limitation and depressive symptom trajectories: Longitudinal findings from the study of Asset and Health Dynamics Among the Oldest Old (AHEAD). <i>Health Psychology</i> , 2011 , 30, 153-62	5	43
73	Ambulatory Assessment in Lifespan Psychology. <i>European Psychologist</i> , 2009 , 14, 98-108	4.4	39
72	Social partners and momentary affect in the oldest-old: the presence of others benefits affect depending on who we are and who we are with. <i>Developmental Psychology</i> , 2014 , 50, 728-40	3.7	37
71	Memory and depressive symptoms are dynamically linked among married couples: longitudinal evidence from the AHEAD study. <i>Developmental Psychology</i> , 2009 , 45, 1595-610	3.7	36
70	Division of Labor in German Dual-Earner Families: Testing Equity Theoretical Hypotheses. <i>Journal of Marriage and Family</i> , 2006 , 68, 870-882	4.5	34
69	How We Experience Being Alone: Age Differences in Affective and Biological Correlates of Momentary Solitude. <i>Gerontology</i> , 2017 , 63, 55-66	5.5	33
68	The Promise and Challenges of Integrating Multiple Time-Scales in Adult Developmental Inquiry. <i>Research in Human Development</i> , 2014 , 11, 75-90	1.9	32
67	Future time perspective: opportunities and limitations are differentially associated with subjective well-being and hair cortisol concentration. <i>Gerontology</i> , 2015 , 61, 166-74	5.5	31

66	Daily goal pursuits predict cortisol secretion and mood states in employed parents with preschool children. <i>Psychosomatic Medicine</i> , 2006 , 68, 887-94	3.7	31
65	Associations Among Individuals' Perceptions of Future Time, Individual Resources, and Subjective Well-Being in Old Age. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2017 , 72, 388-399	4.6	29
64	Spousal social activity trajectories in the Australian longitudinal study of ageing in the context of cognitive, physical, and affective resources. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2008 , 63, P41-50	4.6	29
63	Terminal decline in well-being: The role of social orientation. <i>Psychology and Aging</i> , 2016 , 31, 149-65	3.6	28
62	Reciprocal relationship between acute stress and acute fatigue in everyday life in a sample of university students. <i>Biological Psychology</i> , 2015 , 110, 42-9	3.2	27
61	By myself and liking it? Predictors of distinct types of solitude experiences in daily life. <i>Journal of Personality</i> , 2019 , 87, 633-647	4.4	25
60	Spousal Goals, Affect Quality, and Collaborative Problem Solving: Evidence from a Time-Sampling Study With Older Couples. <i>Research in Human Development</i> , 2013 , 10, 70-87	1.9	25
59	Self-esteem is relatively stable late in life: the role of resources in the health, self-regulation, and social domains. <i>Developmental Psychology</i> , 2015 , 51, 136-49	3.7	23
58	Levels of and changes in life satisfaction predict mortality hazards: Disentangling the role of physical health, perceived control, and social orientation. <i>Psychology and Aging</i> , 2017 , 32, 507-520	3.6	23
57	Trajectories of depressive symptoms in old age: Integrating age-, pathology-, and mortality-related changes. <i>Psychology and Aging</i> , 2015 , 30, 940-51	3.6	22
56	Biobehavioral pathways underlying spousal health dynamics: its nature, correlates, and consequences. <i>Gerontology</i> , 2014 , 60, 458-65	5.5	20
55	Longitudinal change in spousal similarities in mental health: between-couple and within-couple perspectives. <i>Psychology and Aging</i> , 2013 , 28, 540-54	3.6	20
54	Work hours affect spouse's cortisol secretion--for better and for worse. <i>Psychosomatic Medicine</i> , 2006 , 68, 742-6	3.7	20
53	Finding the middle ground: Curvilinear associations between positive affect variability and daily cortisol profiles. <i>Emotion</i> , 2015 , 15, 705-20	4.1	19
52	Exploring older adults' patterns and perceptions of exercise after hip fracture. <i>Physiotherapy Canada</i> <i>Physiotherapie Canada</i> , 2013 , 65, 86-93	0.8	18
51	Correspondence between retrospective and momentary ratings of positive and negative affect in old age: findings from a one-year measurement burst design. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2011 , 66, 411-5	4.6	18
50	Goals and everyday problem solving: manipulating goal preferences in young and older adults. <i>Developmental Psychology</i> , 2010 , 46, 1433-1443	3.7	18
49	Subjective well-being dynamics in couples from the Australian longitudinal study of aging. <i>Gerontology</i> , 2011 , 57, 153-60	5.5	17

48	Social relationship quality buffers negative affective correlates of everyday solitude in an adult lifespan and an older adult sample. <i>Psychology and Aging</i> , 2018 , 33, 728-738	3.6	17
47	Social Interrelations in Aging 2016 , 263-277		16
46	Problem-solving variability in older spouses: how is it linked to problem-, person-, and couple-characteristics?. <i>Psychology and Aging</i> , 2011 , 26, 525-31	3.6	15
45	Everyday associations between older adults' physical activity, negative affect, and cortisol. <i>Health Psychology</i> , 2019 , 38, 494-501	5	15
44	Empathic accuracy for happiness in the daily lives of older couples: Fluid cognitive performance predicts pattern accuracy among men. <i>Psychology and Aging</i> , 2016 , 31, 545-52	3.6	15
43	Moving in Sync: Hourly Physical Activity and Sedentary Behavior are Synchronized in Couples. <i>Annals of Behavioral Medicine</i> , 2020 , 54, 10-21	4.5	15
42	Choosing Solitude: Age Differences in Situational and Affective Correlates of Solitude-Seeking in Midlife and Older Adulthood. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020 , 75, 483-493	4.6	15
41	Neuroticism and Extraversion Magnify Discrepancies Between Retrospective and Concurrent Affect Reports. <i>Journal of Personality</i> , 2017 , 85, 817-829	4.4	14
40	Goals and everyday problem solving: examining the link between age-related goals and problem-solving strategy use. <i>Aging, Neuropsychology, and Cognition</i> , 2008 , 15, 401-23	2.1	14
39	Grandparental investment facilitates harmonization of work and family in employed parents: A lifespan psychological perspective. <i>Behavioral and Brain Sciences</i> , 2010 , 33, 27-28	0.9	12
38	Everyday solitude, affective experiences, and well-being in old age: the role of culture versus immigration. <i>Aging and Mental Health</i> , 2019 , 23, 1095-1104	3.5	11
37	Daily management of work and family goals in employed parents. <i>Journal of Vocational Behavior</i> , 2012 , 81, 191-198	6	11
36	Gender Differences in Pain-Physical Activity Linkages among Older Adults: Lessons Learned from Daily Life Approaches. <i>Pain Research and Management</i> , 2016 , 2016, 1931590	2.6	10
35	Developmental associations between short-term variability and long-term changes: Intraindividual correlation of positive and negative affect in daily life and cognitive aging. <i>Developmental Psychology</i> , 2015 , 51, 987-97	3.7	9
34	Satisfaction with social support in older adulthood: the influence of social support changes and goal adjustment capacities. <i>Psychology and Aging</i> , 2013 , 28, 875-85	3.6	9
33	Dyadic interrelations in lifespan development and aging: how does 1 + 1 make a couple? - introduction. <i>Gerontology</i> , 2011 , 57, 144-7	5.5	9
32	Personality: Life Span Compass for Health. <i>Annual Review of Gerontology and Geriatrics</i> , 2010 , 30, 201-232		8
31	Linked Lives: Dyadic Associations of Mastery Beliefs With Health (Behavior) and Health (Behavior) Change Among Older Partners. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2018 , 73, 787-798	4.6	8

30	Cumulative Load of Depressive Symptoms Is Associated With Cortisol Awakening Response in Very Old Age. <i>Research in Human Development</i> , 2014 , 11, 126-141	1.9	7
29	Spousal neuroticism moderates everyday problem--wellbeing associations in older couples. <i>Health Psychology</i> , 2014 , 33, 803-12	5	7
28	Group Medical Visits (GMVs) in primary care: an RCT of group-based versus individual appointments to reduce HbA1c in older people. <i>BMJ Open</i> , 2015 , 5, e007441	3	7
27	Life-history related differences in possible selves in very old age. <i>International Journal of Aging and Human Development</i> , 2007 , 64, 109-27	1.8	7
26	The More We Are in Control, the Merrier? Partner Perceived Control and Negative Affect in the Daily Lives of Older Couples. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020 , 75, 338-348	4.6	6
25	We are in this together: Dyadic patterns of self-esteem change in late-life couples. <i>International Journal of Behavioral Development</i> , 2018 , 42, 34-42	2.6	6
24	Associations Between Perceived Support in Older Adult Marriages and Dyadic Covariations in Momentary Affect and Aches. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2016 , 71, 425-30	4.6	6
23	Solitude in context: On the role of culture, immigration, and acculturation in the experience of time to oneself. <i>International Journal of Psychology</i> , 2020 , 55, 562-571	1.9	6
22	Cortisol Synchrony in Older Couples: Daily Socioemotional Correlates and Interpersonal Differences. <i>Psychosomatic Medicine</i> , 2020 , 82, 669-677	3.7	6
21	Future time perspective: Dimensions of opportunities, life, and time are differentially associated with physical health, cognitive functioning, and well-being in old age. <i>Aging and Mental Health</i> , 2020 , 24, 1487-1495	3.5	6
20	Technology, Physical Activity, Loneliness, and Cognitive Functioning in Old Age. <i>GeroPsych: the Journal of Gerontopsychology and Geriatric Psychiatry</i> , 2019 , 32, 111-123	1	5
19	Partner dissimilarity in life satisfaction: Stability and change, correlates, and outcomes. <i>Psychology and Aging</i> , 2016 , 31, 327-39	3.6	5
18	Healthy Aging-Relevant Goals: The Role of Person-Context Co-construction. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2021 , 76, S181-S190	4.6	4
17	Defining and implementing patient-centered care: An umbrella review. <i>Patient Education and Counseling</i> , 2021 ,	3.1	3
16	Social Isolation, Loneliness, and Solitude in Older Adulthood 2021 , 178-189		3
15	COVID-19, time to oneself, and loneliness: Creativity as a resource. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2021 ,	4.6	3
14	Linked Lives: Exploring Gender and Sedentary Behaviors in Older Adult Couples. <i>Journal of Applied Gerontology</i> , 2020 , 39, 1106-1114	3.3	3
13	YouTe under my skin: Long-term relationship and health correlates of cortisol synchrony in older couples. <i>Journal of Family Psychology</i> , 2021 , 35, 69-79	2.7	3

12	Dyadic conflict in goal-relevant activities affects well-being and psychological functioning in employed parents: Evidence from daily time-samples. <i>Time and Society</i> , 2013 , 22, 356-370	1.2	2
11	A developmental-contextual model of couple synchrony across adulthood and old age. <i>Psychology and Aging</i> , 2021 , 36, 943-956	3.6	2
10	Attributions for physical activity in very old adults: predicting everyday physical activity and mortality risk. <i>Psychology and Health</i> , 2019 , 34, 216-231	2.9	2
9	Intraindividual Variability and Empathic Accuracy for Happiness in Older Couples. <i>GeroPsych: the Journal of Gerontopsychology and Geriatric Psychiatry</i> , 2020 , 33, 139-154	1	1
8	I Feel You, We Can Do This. <i>GeroPsych: the Journal of Gerontopsychology and Geriatric Psychiatry</i> , 2020 , 33, 125-137	1	1
7	Conscientiousness, Activity Engagement, and Momentary Affect in Oldest-Old Adulthood. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2021 , 76, 1049-1059	4.6	1
6	Political context is associated with everyday cortisol synchrony in older couples. <i>Psychoneuroendocrinology</i> , 2021 , 124, 105082	5	1
5	Joint Goals in Older Couples: Associations With Goal Progress, Allostatic Load, and Relationship Satisfaction. <i>Frontiers in Psychology</i> , 2021 , 12, 623037	3.4	0
4	Positive and negative affect are associated with salivary cortisol in the everyday life of older adults: A quantitative synthesis of four aging studies. <i>Psychoneuroendocrinology</i> , 2021 , 133, 105403	5	0
3	Ecological Momentary Assessment 2015 , 1-5		
2	Couples and Illness 2021 ,		
1	Having a Good Time Together: The Role of Companionship in Older CouplesTEveryday Life.. <i>Gerontology</i> , 2022 , 1-12	5.5
