| #  | ARTICLE                                                                                                                                                                                                                 | IF  | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Defining the “Tipping Point” to Success as a Surgeon-scientist. <i>Annals of Surgery</i> , 2022, 275, e678-e682.                                                                                                        | 2.1 | 2         |
| 2  | The Long Road to Parenthood. <i>Annals of Surgery</i> , 2022, 275, 106-114.                                                                                                                                             | 2.1 | 12        |
| 3  | Pediatric traumatic brain injury: Resource utilization and outcomes at adult versus pediatric trauma centers. <i>Surgery Open Science</i> , 2022, 7, 68-73.                                                             | 0.5 | 4         |
| 4  | Current understanding of Hirschsprung-associated enterocolitis: Pathogenesis, diagnosis and treatment. <i>Seminars in Pediatric Surgery</i> , 2022, 31, 151162.                                                         | 0.5 | 12        |
| 5  | Association of Economic Recession and Social Distancing With Pediatric Non-accidental Trauma During COVID-19. <i>Journal of Surgical Research</i> , 2022, 276, 110-119.                                                 | 0.8 | 4         |
| 6  | Association between COVID-19 related elective surgery cancellations and pediatric inguinal hernia complications: A nationwide multicenter cohort study. <i>Surgery</i> , 2022, 172, 989-996.                            | 1.0 | 3         |
| 7  | Postpartum Depression in Surgeons and Workplace Support for Obstetric and Neonatal Complication: Results of a National Study of US Surgeons. <i>Journal of the American College of Surgeons</i> , 2022, 234, 1051-1061. | 0.2 | 2         |
| 8  | Pregnancy During Surgical Training: Are Residency Programs Truly Supporting Their Trainees?. <i>Journal of Surgical Education</i> , 2022, 79, e92-e102.                                                                 | 1.2 | 5         |
| 9  | An algorithmic approach to an impactful specific aims page. <i>Surgery</i> , 2021, 169, 816-820.                                                                                                                        | 1.0 | 5         |
| 10 | Impact of the coronavirus disease 2019 pandemic on surgical research and lessons for the future. <i>Surgery</i> , 2021, 169, 257-263.                                                                                   | 1.0 | 14        |
| 11 | Management of intussusception in children: A systematic review. <i>Journal of Pediatric Surgery</i> , 2021, 56, 587-596.                                                                                                | 0.8 | 46        |
| 12 | Virtual Interviews May Fall Short for Pediatric Surgery Fellowships: Lessons Learned From COVID-19/SARS-CoV-2. <i>Journal of Surgical Research</i> , 2021, 259, 326-331.                                                | 0.8 | 35        |
| 13 | Association of Sex and Race/Ethnicity With National Institutes of Health Funding of Surgeon-Scientists. <i>JAMA Surgery</i> , 2021, 156, 195.                                                                           | 2.2 | 26        |
| 14 | Risk for deep venous thrombosis in pediatric cancer patients undergoing surgery. <i>Journal of Pediatric Surgery</i> , 2021, 56, 2360-2363.                                                                             | 0.8 | 2         |
| 15 | Association of Surgeon Representation on NIH Study Sections With Receipt of Funding by Surgeon-scientists. <i>Annals of Surgery</i> , 2021, 273, 1042-1048.                                                             | 2.1 | 11        |
| 16 | The gut mycobiome of healthy mice is shaped by the environment and correlates with metabolic outcomes in response to diet. <i>Communications Biology</i> , 2021, 4, 281.                                                | 2.0 | 60        |
| 17 | The Influence of the COVID-19 Pandemic on Pediatric Firearm Injuries. <i>Pediatrics</i> , 2021, 148, .                                                                                                                  | 1.0 | 9         |
| 18 | Proteobacteria abundance during nursing predicts physical growth and brain volume at one year of age in young rhesus monkeys. <i>FASEB Journal</i> , 2021, 35, e21682.                                                  | 0.2 | 8         |

| #  | ARTICLE                                                                                                                                                                                                                              | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | The effects of early anesthesia on neurodevelopment: A systematic review. <i>Journal of Pediatric Surgery</i> , 2021, 56, 851-861.                                                                                                   | 0.8 | 29        |
| 20 | Venous thromboembolic risk stratification in pediatric trauma: A Pediatric Trauma Society Research Committee multicenter analysis. <i>Journal of Trauma and Acute Care Surgery</i> , 2021, 91, 605-611.                              | 1.1 | 3         |
| 21 | Reducing Underdiagnosis of Hirschsprung-Associated Enterocolitis: A Novel Scoring System. <i>Journal of Surgical Research</i> , 2021, 261, 253-260.                                                                                  | 0.8 | 9         |
| 22 | Considerations for Reducing Bias While Addressing Racial/Ethnic Disparities in Academic Surgery—Reply. <i>JAMA Surgery</i> , 2021, 156, 991.                                                                                         | 2.2 | 0         |
| 23 | Top ten strategies to enhance grant-writing success. <i>Surgery</i> , 2021, 170, 1727-1731.                                                                                                                                          | 1.0 | 9         |
| 24 | Incidence of Infertility and Pregnancy Complications in US Female Surgeons. <i>JAMA Surgery</i> , 2021, 156, 905.                                                                                                                    | 2.2 | 135       |
| 25 | Climbing the grants ladder: Funding opportunities for surgeons. <i>Surgery</i> , 2021, 170, 707-712.                                                                                                                                 | 1.0 | 2         |
| 26 | The Pediatric Trauma Society Annual Meeting: An Analysis of Scholarly Output From the First 5 Years. <i>Journal of Trauma Nursing: the Official Journal of the Society of Trauma Nurses</i> , 2021, 28, 316-322.                     | 0.3 | 0         |
| 27 | Management and outcomes for long-segment Hirschsprung disease: A systematic review from the APSA Outcomes and Evidence Based Practice Committee. <i>Journal of Pediatric Surgery</i> , 2021, 56, 1513-1523.                          | 0.8 | 19        |
| 28 | Significance and innovation: cornerstones of a successful grant application. <i>Surgery</i> , 2021, 170, 1080-1082.                                                                                                                  | 1.0 | 1         |
| 29 | Lyticase Facilitates Mycobiome Resolution Without Disrupting Microbiome Fidelity in Primates. <i>Journal of Surgical Research</i> , 2021, 267, 336-341.                                                                              | 0.8 | 1         |
| 30 | Reinventing Yourself Virtually: Fifth Annual Society of Asian Academic Surgeons Virtual Conference. <i>Journal of Surgical Research</i> , 2021, 267, 612-618.                                                                        | 0.8 | 1         |
| 31 | The Impact of Pregnancy Complications on Wellness and Career Satisfaction: Results of a National Survey of US Surgeons. <i>Journal of the American College of Surgeons</i> , 2021, 233, e68-e69.                                     | 0.2 | 0         |
| 32 | Invited commentary on Ahmad et Al.: Routine botulinum toxin injection one month after a Swenson pull-through does not change the incidence of Hirschsprung associated enterocolitis. <i>Journal of Pediatric Surgery</i> , 2021, , . | 0.8 | 0         |
| 33 | TGR5 signaling mitigates parenteral nutrition-associated liver disease. <i>American Journal of Physiology - Renal Physiology</i> , 2020, 318, G322-G335.                                                                             | 1.6 | 15        |
| 34 | Pediatric trauma triage: A Pediatric Trauma Society Research Committee systematic review. <i>Journal of Trauma and Acute Care Surgery</i> , 2020, 89, 623-630.                                                                       | 1.1 | 21        |
| 35 | 37/67—aminin receptor facilitates neural crest cell migration during enteric nervous system development. <i>FASEB Journal</i> , 2020, 34, 10931-10947.                                                                               | 0.2 | 6         |
| 36 | Existing Scoring Systems for Hirschsprung-Associated Enterocolitis Result in Underdiagnosis and Overtreatment. <i>Journal of the American College of Surgeons</i> , 2020, 231, S196.                                                 | 0.2 | 0         |

| #  | ARTICLE                                                                                                                                                                                                                                         | IF  | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Surgeon Representation on NIH Study Sections is Strongly Associated with Receipt of Funding by Surgeon-Scientists. Journal of the American College of Surgeons, 2020, 231, S148-S149.                                                           | 0.2 | 0         |
| 38 | Defining the "Tipping Point" to Success as a Surgeon-Scientist: An Analysis of Applicants and Awardees of the American College of Surgeons Jacobson Promising Investigator Award. Journal of the American College of Surgeons, 2020, 231, S243. | 0.2 | 0         |
| 39 | Resection margin histology may predict intermediate-term outcomes in children with rectosigmoid Hirschsprung disease. Pediatric Surgery International, 2020, 36, 875-882.                                                                       | 0.6 | 9         |
| 40 | Invited commentary for "Outpatient thyroidectomy in the pediatric population". American Journal of Surgery, 2020, 219, 888-889.                                                                                                                 | 0.9 | 1         |
| 41 | The Pediatric Surgeon-Scientist: Succeeding in Today's Academic Environment. Journal of Surgical Research, 2019, 244, 502-508.                                                                                                                  | 0.8 | 7         |
| 42 | Non-operative management of solid organ injuries in children: An American Pediatric Surgical Association Outcomes and Evidence Based Practice Committee systematic review. Journal of Pediatric Surgery, 2019, 54, 1519-1526.                   | 0.8 | 67        |
| 43 | Hirschsprung-Associated Enterocolitis. , 2019, , 209-223.                                                                                                                                                                                       |     | 0         |
| 44 | Management and outcomes of peripancreatic fluid collections and pseudocysts following non-operative management of pancreatic injuries in children. Pediatric Surgery International, 2019, 35, 861-867.                                          | 0.6 | 17        |
| 45 | Comparison of Pediatric and Adult Solid Pseudopapillary Neoplasms of the Pancreas. Journal of Surgical Research, 2019, 242, 312-317.                                                                                                            | 0.8 | 14        |
| 46 | Correlation Between Altmetric Score and Citations in Pediatric Surgery Core Journals. Journal of Surgical Research, 2019, 243, 52-58.                                                                                                           | 0.8 | 79        |
| 47 | B-lymphocyte "intrinsic and "extrinsic defects in secretory immunoglobulin A production in the neural crest "conditional deletion of endothelin receptor B model of Hirschsprung-associated enterocolitis. FASEB Journal, 2019, 33, 7615-7624.  | 0.2 | 9         |
| 48 | The management of pilonidal disease: A systematic review. Journal of Pediatric Surgery, 2019, 54, 2210-2221.                                                                                                                                    | 0.8 | 52        |
| 49 | Guidelines for synoptic reporting of surgery and pathology in Hirschsprung disease. Journal of Pediatric Surgery, 2019, 54, 2017-2023.                                                                                                          | 0.8 | 34        |
| 50 | Surgical and anesthetic management for hepatectomy in two pediatric patients with trisomy 18, pulmonary hypertension, and hepatoblastoma. Pediatric Blood and Cancer, 2019, 66, e27678.                                                         | 0.8 | 5         |
| 51 | Management of long gap esophageal atresia: A systematic review and evidence-based guidelines from the APSA Outcomes and Evidence Based Practice Committee. Journal of Pediatric Surgery, 2019, 54, 675-687.                                     | 0.8 | 59        |
