#	Paper	IF	Citations
67	Physical and Psychological Childbirth Experiences and Early Infant Temperament.. <i>Frontiers in Psychology</i> , 2022 , 13, 792392	3.4	0
66	Breastfeeding, social work and the rights of infants who have been removed. <i>Qualitative Social Work</i> , 2022 , 21, 3-14	1.3	
65	Becoming breastfeeding friendly in Wales: Recommendations for scaling up breastfeeding support.. <i>Maternal and Child Nutrition</i> , 2022 , e13355	3.4	1
64	The challenges of medically complex breastfed children and their families: A systematic review. <i>Maternal and Child Nutrition</i> , 2021 , 17, e13182	3.4	3
63	The systemic inflammatory response and clinicopathological characteristics in patients admitted to hospital with COVID-19 infection: Comparison of 2 consecutive cohorts. <i>PLoS ONE</i> , 2021 , 16, e0251924	3.7	6
62	Accessing local support online: Mothers' experiences of local Breastfeeding Support Facebook groups. <i>Maternal and Child Nutrition</i> , 2021 , 17, e13227	3.4	3
61	Experiences of breastfeeding during COVID-19: Lessons for future practical and emotional support. <i>Maternal and Child Nutrition</i> , 2021 , 17, e13088	3.4	84
60	Breastfeeding and the origins of health: Interdisciplinary perspectives and priorities. <i>Maternal and Child Nutrition</i> , 2021 , 17, e13109	3.4	13
59	Spoonfeeding is associated with increased infant weight but only amongst formula-fed infants. <i>Maternal and Child Nutrition</i> , 2020 , 16, e12941	3.4	5
58	Individual and healthcare system factors influencing antenatal care attendance in Saudi Arabia. <i>BMC Health Services Research</i> , 2020 , 20, 49	2.9	7
57	Marketing of breastmilk substitutes during the COVID-19 pandemic. <i>Lancet, The</i> , 2020 , 396, e58	4.0	11
56	The association between baby care books that promote strict care routines and infant feeding, night-time care, and maternal-infant interactions. <i>Maternal and Child Nutrition</i> , 2019 , 15, e12858	3.4	3
55	Exploring maternal and health professional beliefs about the factors that affect whether women in Saudi Arabia attend antenatal care clinic appointments. <i>Midwifery</i> , 2019 , 76, 36-44	2.8	2
54	Does childbirth experience affect infant behaviour? Exploring the perceptions of maternity care providers. <i>Midwifery</i> , 2019 , 78, 131-139	2.8	3
53	Experiences of online breastfeeding support: Support and reassurance versus judgement and misinformation. <i>Maternal and Child Nutrition</i> , 2019 , 15, e12874	3.4	24
52	Very low-energy and low-energy formula diets: Effects on weight loss, obesity co-morbidities and type 2 diabetes remission – an update on the evidence for their use in clinical practice. <i>Nutrition Bulletin</i> , 2019 , 44, 7-24	3.5	19
51	Differences in dietary composition between infants introduced to complementary foods using Baby-led weaning and traditional spoon feeding. <i>Journal of Human Nutrition and Dietetics</i> , 2019 , 32, 11-20	3.1	14

50	Feasibility and acceptability of a motivational interviewing breastfeeding peer support intervention. <i>Maternal and Child Nutrition</i> , 2019 , 15, e12703	3.4	11
49	The association between use of infant parenting books that promote strict routines, and maternal depression, self-efficacy, and parenting confidence. <i>Early Child Development and Care</i> , 2019 , 189, 1339-1350	3.9	8
48	Significant differences in maternal child-feeding style between ethnic groups in the UK: the role of deprivation and parenting styles. <i>Journal of Human Nutrition and Dietetics</i> , 2018 , 31, 625-633	3.1	4
47	Development of a novel motivational interviewing (MI) informed peer-support intervention to support mothers to breastfeed for longer. <i>BMC Pregnancy and Childbirth</i> , 2018 , 18, 90	3.2	8
46	Availability of breastfeeding peer support in the United Kingdom: A cross-sectional study. <i>Maternal and Child Nutrition</i> , 2018 , 14,	3.4	22
45	Maternal eating behaviour differs between ethnic groups: Considerations for research and practice. <i>Maternal and Child Nutrition</i> , 2018 , 14, e12630	3.4	3
44	What Do Women Lose if They Are Prevented From Meeting Their Breastfeeding Goals?. <i>Clinical Lactation</i> , 2018 , 9, 200-207	0.2	14
43	No difference in self-reported frequency of choking between infants introduced to solid foods using a baby-led weaning or traditional spoon-feeding approach. <i>Journal of Human Nutrition and Dietetics</i> , 2018 , 31, 496-504	3.1	21
42	Baby-Led Weaning: The Evidence to Date. <i>Current Nutrition Reports</i> , 2017 , 6, 148-156	6	43
41	Breastfeeding as a public health responsibility: a review of the evidence. <i>Journal of Human Nutrition and Dietetics</i> , 2017 , 30, 759-770	3.1	53
40	Lysophosphatidic acid receptor mRNA levels in heart and white adipose tissue are associated with obesity in mice and humans. <i>PLoS ONE</i> , 2017 , 12, e0189402	3.7	8
39	A novel peer-support intervention using motivational interviewing for breastfeeding maintenance: a UK feasibility study. <i>Health Technology Assessment</i> , 2017 , 21, 1-138	4.4	7
38	Higher Facebook use predicts greater body image dissatisfaction during pregnancy: The role of self-comparison. <i>Midwifery</i> , 2016 , 40, 132-40	2.8	17
37	Maternal and infant factors associated with reasons for introducing solid foods. <i>Maternal and Child Nutrition</i> , 2016 , 12, 500-15	3.4	25
36	Differences in eating behaviour, well-being and personality between mothers following baby-led vs. traditional weaning styles. <i>Maternal and Child Nutrition</i> , 2016 , 12, 826-37	3.4	14
35	What Do Women Really Want? Lessons for Breastfeeding Promotion and Education. <i>Breastfeeding Medicine</i> , 2016 , 11, 102-10	2.1	50
34	High dose versus low dose opioid epidural regimens for pain relief in labour. <i>The Cochrane Library</i> , 2016 ,	5.2	1
33	Understanding the relationship between breastfeeding and postnatal depression: the role of pain and physical difficulties. <i>Journal of Advanced Nursing</i> , 2016 , 72, 273-82	3.1	80

32	Among women planning to exclusively breastfeed, in-hospital formula supplementation is associated with almost tripled risk of breastfeeding cessation by 2 months. <i>Evidence-based Nursing</i> , 2015 , 18, 68	0.3	4
31	Early influences on child satiety-responsiveness: the role of weaning style. <i>Pediatric Obesity</i> , 2015 , 10, 57-66	4.6	92
30	Body image concerns during pregnancy are associated with a shorter breast feeding duration. <i>Midwifery</i> , 2015 , 31, 80-9	2.8	37
29	Infant sleep and night feeding patterns during later infancy: association with breastfeeding frequency, daytime complementary food intake, and infant weight. <i>Breastfeeding Medicine</i> , 2015 , 10, 246-52	2.1	29
28	Breast is best, but not in my back-yard. <i>Trends in Molecular Medicine</i> , 2015 , 21, 57-9	11.5	16
27	Fathers' experiences of supporting breastfeeding: challenges for breastfeeding promotion and education. <i>Maternal and Child Nutrition</i> , 2014 , 10, 510-26	3.4	89
26	Maternal trait personality and breastfeeding duration: the importance of confidence and social support. <i>Journal of Advanced Nursing</i> , 2014 , 70, 587-98	3.1	52
25	Cultural variations in interpretation of postnatal illness: Jinn possession amongst Muslim communities. <i>Community Mental Health Journal</i> , 2014 , 50, 348-53	2.1	5
24	Exploring child-feeding style in childcare settings: how might nursery practitioners affect child eating style and weight?. <i>Eating Behaviors</i> , 2014 , 15, 314-7	3	13
23	Maternal restraint and external eating behaviour are associated with formula use or shorter breastfeeding duration. <i>Appetite</i> , 2014 , 76, 30-5	4.5	10
22	Breastfeeding duration and early parenting behaviour: the importance of an infant-led, responsive style. <i>PLoS ONE</i> , 2014 , 9, e83893	3.7	41
21	Active management of the third stage of labor may reduce breastfeeding duration due to pain and physical complications. <i>Breastfeeding Medicine</i> , 2014 , 9, 494-502	2.1	13
20	HIV and depression in Eastern Nigeria: the role of HIV-related stigma. <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2014 , 26, 653-7	2.2	34
19	Impact of birth complications on breastfeeding duration: an internet survey. <i>Journal of Advanced Nursing</i> , 2013 , 69, 828-39	3.1	64
18	An exploration of experiences of mothers following a baby-led weaning style: developmental readiness for complementary foods. <i>Maternal and Child Nutrition</i> , 2013 , 9, 233-43	3.4	45
17	Maternal trait personality and childbirth: the role of extraversion and neuroticism. <i>Midwifery</i> , 2013 , 29, 1244-50	2.8	31
16	Maternal experience of musculoskeletal pain during pregnancy and birth outcomes: significance of lower back and pelvic pain. <i>Midwifery</i> , 2013 , 29, 1346-51	2.8	18
15	An exploration of the experiences of mothers who breastfeed long-term: what are the issues and why does it matter?. <i>Breastfeeding Medicine</i> , 2013 , 8, 45-52	2.1	35

14	An Exploration of Parenting Behaviours and Attitudes During Early Infancy: Association with Maternal and Infant Characteristics. <i>Infant and Child Development</i> , 2013 , 22, 349-361	1.4	10
13	Breastfeeding is associated with a maternal feeding style low in control from birth. <i>PLoS ONE</i> , 2013 , 8, e54229	3.7	33
12	Breastfeeding during the first year promotes satiety responsiveness in children aged 18-24 months. <i>Pediatric Obesity</i> , 2012 , 7, 382-90	4.6	74
11	Maternal child-feeding style during the weaning period: association with infant weight and maternal eating style. <i>Eating Behaviors</i> , 2011 , 12, 108-11	3	51
10	Young mothers who choose to breast feed: the importance of being part of a supportive breast-feeding community. <i>Midwifery</i> , 2011 , 27, 53-9	2.8	58
9	Healthcare professionals and mothers' perceptions of factors that influence decisions to breastfeed or formula feed infants: a comparative study. <i>Journal of Advanced Nursing</i> , 2011 , 67, 1993-2003	3.1	78
8	Maternal control of child-feeding during breast and formula feeding in the first 6 months post-partum. <i>Journal of Human Nutrition and Dietetics</i> , 2011 , 24, 177-86	3.1	46
7	A descriptive study investigating the use and nature of baby-led weaning in a UK sample of mothers. <i>Maternal and Child Nutrition</i> , 2011 , 7, 34-47	3.4	83
6	Maternal control of child feeding during the weaning period: differences between mothers following a baby-led or standard weaning approach. <i>Maternal and Child Health Journal</i> , 2011 , 15, 1265-74	3.4	56
5	An exploration of the attitudes and experiences of mothers in the United Kingdom who chose to breastfeed exclusively for 6 months postpartum. <i>Breastfeeding Medicine</i> , 2011 , 6, 197-204	2.1	28
4	Indices of Multiple Deprivation predict breastfeeding duration in England and Wales. <i>European Journal of Public Health</i> , 2010 , 20, 231-5	2.1	32
3	Impact of consuming a milk drink containing a probiotic on mood and cognition. <i>European Journal of Clinical Nutrition</i> , 2007 , 61, 355-61	5.2	366
2	Domestic violence. Working with the spouse abuser. <i>North Carolina Medical Journal</i> , 1997 , 58, 324-5	0.6	
1	Polylysine cross-links axoplasmic neurofilaments into tight bundles. <i>Cytoskeleton</i> , 1995 , 31, 9-21		4
