#	ARTICLE	IF	CITATIONS
1	Becoming breastfeeding friendly in Wales: Recommendations for scaling up breastfeeding support. <i>Maternal and Child Nutrition</i> , 2023, 19, e13355.	1.4	7
2	Estimated energy and nutrient intake for infants following baby-led and traditional weaning approaches. <i>Journal of Human Nutrition and Dietetics</i> , 2022, 35, 325-336.	1.3	13
3	41 Patient safety consequences of medication incidents in palliative care: mixed method analysis of incident reports. , 2022, , .		0
4	Physical and Psychological Childbirth Experiences and Early Infant Temperament. <i>Frontiers in Psychology</i> , 2022, 13, 792392.	1.1	3
5	Breastfeeding, social work and the rights of infants who have been removed. <i>Qualitative Social Work</i> , 2022, 21, 3-14.	0.9	1
6	Receiving screened donor human milk for their infant supports parental wellbeing: a mixed-methods study. <i>BMC Pregnancy and Childbirth</i> , 2022, 22, .	0.9	11
7	The benefits, challenges and impacts of accessing social media group support for breastfeeding: A systematic review. <i>Maternal and Child Nutrition</i> , 2022, 18, .	1.4	9
8	Experiences of breastfeeding during COVID-19: Lessons for future practical and emotional support. <i>Maternal and Child Nutrition</i> , 2021, 17, e13088.	1.4	210
9	Breastfeeding and the origins of health: Interdisciplinary perspectives and priorities. <i>Maternal and Child Nutrition</i> , 2021, 17, e13109.	1.4	37
10	The challenges of medically complex breastfed children and their families: A systematic review. <i>Maternal and Child Nutrition</i> , 2021, 17, e13182.	1.4	12
11	The systemic inflammatory response and clinicopathological characteristics in patients admitted to hospital with COVID-19 infection: Comparison of 2 consecutive cohorts. <i>PLoS ONE</i> , 2021, 16, e0251924.	1.1	13
12	Accessing local support online: Mothers' experiences of local Breastfeeding Support Facebook groups. <i>Maternal and Child Nutrition</i> , 2021, 17, e13227.	1.4	19
13	Marketing of breastmilk substitutes during the COVID-19 pandemic. <i>Lancet</i> , The, 2020, 396, e58.	6.3	20
14	Spoonfeeding is associated with increased infant weight but only amongst formula-fed infants. <i>Maternal and Child Nutrition</i> , 2020, 16, e12941.	1.4	13
15	Individual and healthcare system factors influencing antenatal care attendance in Saudi Arabia. <i>BMC Health Services Research</i> , 2020, 20, 49.	0.9	14
16	Does childbirth experience affect infant behaviour? Exploring the perceptions of maternity care providers. <i>Midwifery</i> , 2019, 78, 131-139.	1.0	6
17	Experiences of online breastfeeding support: Support and reassurance versus judgement and misinformation. <i>Maternal and Child Nutrition</i> , 2019, 15, e12874.	1.4	50
18	The association between baby care books that promote strict care routines and infant feeding, nighttime care, and maternal-infant interactions. <i>Maternal and Child Nutrition</i> , 2019, 15, e12858.	1.4	6

#	ARTICLE	IF	CITATIONS
19	Exploring maternal and health professional beliefs about the factors that affect whether women in Saudi Arabia attend antenatal care clinic appointments. <i>Midwifery</i> , 2019, 76, 36-44.	1.0	9
20	Very lowâ€energy and lowâ€energy formula diets: Effects on weight loss, obesity coâ€morbidity and type 2 diabetes remission â€“ an update on the evidence for their use in clinical practice. <i>Nutrition Bulletin</i> , 2019, 44, 7-24.	0.8	32
21	Differences in dietary composition between infants introduced to complementary foods using Babyâ€led weaning and traditional spoon feeding. <i>Journal of Human Nutrition and Dietetics</i> , 2019, 32, 11-20.	1.3	27
22	Feasibility and acceptability of a motivational interviewing breastfeeding peer support intervention. <i>Maternal and Child Nutrition</i> , 2019, 15, e12703.	1.4	15
23	The association between use of infant parenting books that promote strict routines, and maternal depression, self-efficacy, and parenting confidence. <i>Early Child Development and Care</i> , 2019, 189, 1339-1350.	0.7	14
24	Significant differences in maternal childâ€feeding style between ethnic groups in the UK: the role of deprivation and parenting styles. <i>Journal of Human Nutrition and Dietetics</i> , 2018, 31, 625-633.	1.3	9
25	Development of a novel motivational interviewing (MI) informed peer-support intervention to support mothers to breastfeed for longer. <i>BMC Pregnancy and Childbirth</i> , 2018, 18, 90.	0.9	12
26	Availability of breastfeeding peer support in the United Kingdom: A crossâ€sectional study. <i>Maternal and Child Nutrition</i> , 2018, 14, .	1.4	34
27	No difference in selfâ€reported frequency of choking between infants introduced to solid foods using a babyâ€led weaning or traditional spoonâ€feeding approach. <i>Journal of Human Nutrition and Dietetics</i> , 2018, 31, 496-504.	1.3	44
28	Maternal eating behaviour differs between ethnic groups: Considerations for research and practice. <i>Maternal and Child Nutrition</i> , 2018, 14, e12630.	1.4	6
29	What Do Women Lose if They Are Prevented From Meeting Their Breastfeeding Goals?. <i>Clinical Lactation</i> , 2018, 9, 200-207.	0.2	30
30	Baby-Led Weaning: The Evidence to Date. <i>Current Nutrition Reports</i> , 2017, 6, 148-156.	2.1	77
31	Breastfeeding as a public health responsibility: a review of the evidence. <i>Journal of Human Nutrition and Dietetics</i> , 2017, 30, 759-770.	1.3	98
32	Lysophosphatidic acid receptor mRNA levels in heart and white adipose tissue are associated with obesity in mice and humans. <i>PLoS ONE</i> , 2017, 12, e0189402.	1.1	15
33	A novel peer-support intervention using motivational interviewing for breastfeeding maintenance: a UK feasibility study. <i>Health Technology Assessment</i> , 2017, 21, 1-138.	1.3	10
34	Maternal and infant factors associated with reasons for introducing solid foods. <i>Maternal and Child Nutrition</i> , 2016, 12, 500-515.	1.4	32
35	Differences in eating behaviour, wellâ€being and personality between mothers following babyâ€led vs. traditional weaning styles. <i>Maternal and Child Nutrition</i> , 2016, 12, 826-837.	1.4	34
36	What Do Women Really Want? Lessons for Breastfeeding Promotion and Education. <i>Breastfeeding Medicine</i> , 2016, 11, 102-110.	0.8	67

#	ARTICLE	IF	CITATIONS
37	High dose versus low dose opioid epidural regimens for pain relief in labour. The Cochrane Library, 2016, , .	1.5	1
38	Understanding the relationship between breastfeeding and postnatal depression: the role of pain and physical difficulties. Journal of Advanced Nursing, 2016, 72, 273-282.	1.5	129
39	Higher Facebook use predicts greater body image dissatisfaction during pregnancy: The role of self-comparison. Midwifery, 2016, 40, 132-140.	1.0	29
40	Infant Sleep and Night Feeding Patterns During Later Infancy: Association with Breastfeeding Frequency, Daytime Complementary Food Intake, and Infant Weight. Breastfeeding Medicine, 2015, 10, 246-252.	0.8	36
41	Breast is best, but not in my back-yard. Trends in Molecular Medicine, 2015, 21, 57-59.	3.5	18
42	Among women planning to exclusively breastfeed, in-hospital formula supplementation is associated with almost tripled risk of breastfeeding cessation by 2â€¦months. Evidence-based Nursing, 2015, 18, 68-68.	0.1	5
43	Early influences on child satietyâ€™responsiveness: the role of weaning style. Pediatric Obesity, 2015, 10, 57-66.	1.4	123
44	Body image concerns during pregnancy are associated with a shorter breast feeding duration. Midwifery, 2015, 31, 80-89.	1.0	61
45	Breastfeeding Duration and Early Parenting Behaviour: The Importance of an Infant-Led, Responsive Style. PLoS ONE, 2014, 9, e83893.	1.1	59
46	Active Management of the Third Stage of Labor May Reduce Breastfeeding Duration Due to Pain and Physical Complications. Breastfeeding Medicine, 2014, 9, 494-502.	0.8	16
47	HIV and depression in Eastern Nigeria: The role of HIV-related stigma. AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV, 2014, 26, 653-657.	0.6	46
48	Fathers' experiences of supporting breastfeeding: challenges for breastfeeding promotion and education. Maternal and Child Nutrition, 2014, 10, 510-526.	1.4	121
49	Maternal trait personality and breastfeeding duration: the importance of confidence and social support. Journal of Advanced Nursing, 2014, 70, 587-598.	1.5	69
50	Cultural Variations in Interpretation of Postnatal Illness: Jinn Possession Amongst Muslim Communities. Community Mental Health Journal, 2014, 50, 348-353.	1.1	8
51	Exploring child-feeding style in childcare settings: How might nursery practitioners affect child eating style and weight?. Eating Behaviors, 2014, 15, 314-317.	1.1	18
52	Maternal restraint and external eating behaviour are associated with formula use or shorter breastfeeding duration. Appetite, 2014, 76, 30-35.	1.8	14
53	Impact of birth complications on breastfeeding duration: an internet survey. Journal of Advanced Nursing, 2013, 69, 828-839.	1.5	85
54	An exploration of experiences of mothers following a babyâ€™led weaning style: developmental readiness for complementary foods. Maternal and Child Nutrition, 2013, 9, 233-243.	1.4	65

#	ARTICLE	IF	CITATIONS
55	Maternal trait personality and childbirth: The role of extraversion and neuroticism. <i>Midwifery</i> , 2013, 29, 1244-1250.	1.0	41
56	Maternal experience of musculoskeletal pain during pregnancy and birth outcomes: Significance of lower back and pelvic pain. <i>Midwifery</i> , 2013, 29, 1346-1351.	1.0	29
57	An Exploration of the Experiences of Mothers Who Breastfeed Long-Term: What Are the Issues and Why Does It Matter?. <i>Breastfeeding Medicine</i> , 2013, 8, 45-52.	0.8	46
58	An Exploration of Parenting Behaviours and Attitudes During Early Infancy: Association with Maternal and Infant Characteristics. <i>Infant and Child Development</i> , 2013, 22, 349-361.	0.9	13
59	Breastfeeding Is Associated with a Maternal Feeding Style Low in Control from Birth. <i>PLoS ONE</i> , 2013, 8, e54229.	1.1	35
60	Breastfeeding during the first year promotes satiety responsiveness in children aged 18â€“24 months. <i>Pediatric Obesity</i> , 2012, 7, 382-390.	1.4	103
61	An Exploration of the Attitudes and Experiences of Mothers in the United Kingdom Who Chose to Breastfeed Exclusively for 6 Months Postpartum. <i>Breastfeeding Medicine</i> , 2011, 6, 197-204.	0.8	37
62	Maternal child-feeding style during the weaning period: Association with infant weight and maternal eating style. <i>Eating Behaviors</i> , 2011, 12, 108-111.	1.1	60
63	Young mothers who choose to breast feed: the importance of being part of a supportive breast-feeding community. <i>Midwifery</i> , 2011, 27, 53-59.	1.0	74
64	Healthcare professionalsâ€™ and mothersâ€™ perceptions of factors that influence decisions to breastfeed or formula feed infants: a comparative study. <i>Journal of Advanced Nursing</i> , 2011, 67, 1993-2003.	1.5	103
65	Maternal control of child-feeding during breast and formula feeding in the first 6 months post-partum. <i>Journal of Human Nutrition and Dietetics</i> , 2011, 24, 177-186.	1.3	52
66	A descriptive study investigating the use and nature of baby-led weaning in a UK sample of mothers. <i>Maternal and Child Nutrition</i> , 2011, 7, 34-47.	1.4	116
67	Maternal Control of Child Feeding During the Weaning Period: Differences Between Mothers Following a Baby-led or Standard Weaning Approach. <i>Maternal and Child Health Journal</i> , 2011, 15, 1265-1271.	0.7	75
68	Indices of Multiple Deprivation predict breastfeeding duration in England and Wales. <i>European Journal of Public Health</i> , 2010, 20, 231-235.	0.1	36
69	Impact of consuming a milk drink containing a probiotic on mood and cognition. <i>European Journal of Clinical Nutrition</i> , 2007, 61, 355-361.	1.3	460
70	Domestic violence. Working with the spouse abuser. <i>North Carolina Medical Journal</i> , 1997, 58, 324-5.	0.1	0
71	Polylysine cross-links axoplasmic neurofilaments into tight bundles. <i>Cytoskeleton</i> , 1995, 31, 9-21.	4.4	4
72	Breastfeeding and modern parenting culture: , 0, , 131-146.		1
