

Carl R May

List of Publications by Citations

Source: <https://exaly.com/author-pdf/2610490/carl-r-may-publications-by-citations.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
279	Implementing, Embedding, and Integrating Practices: An Outline of Normalization Process Theory. <i>Sociology</i> , 2009 , 43, 535-554	2.6	901
278	Development of a theory of implementation and integration: Normalization Process Theory. <i>Implementation Science</i> , 2009 , 4, 29	8.4	618
277	Normalisation process theory: a framework for developing, evaluating and implementing complex interventions. <i>BMC Medicine</i> , 2010 , 8, 63	11.4	584
276	We need minimally disruptive medicine. <i>BMJ, The</i> , 2009 , 339, b2803	5.9	415
275	Understanding the implementation of complex interventions in health care: the normalization process model. <i>BMC Health Services Research</i> , 2007 , 7, 148	2.9	388
274	Implementation, context and complexity. <i>Implementation Science</i> , 2016 , 11, 141	8.4	363
273	Towards a general theory of implementation. <i>Implementation Science</i> , 2013 , 8, 18	8.4	347
272	Factors that promote or inhibit the implementation of e-health systems: an explanatory systematic review. <i>Bulletin of the World Health Organization</i> , 2012 , 90, 357-64	8.2	347
271	Cumulative complexity: a functional, patient-centered model of patient complexity can improve research and practice. <i>Journal of Clinical Epidemiology</i> , 2012 , 65, 1041-51	5.7	332
270	Systematic review of cost effectiveness studies of telemedicine interventions. <i>BMJ, The</i> , 2002 , 324, 1434-7	5.7	300
269	Rethinking the patient: using Burden of Treatment Theory to understand the changing dynamics of illness. <i>BMC Health Services Research</i> , 2014 , 14, 281	2.9	297
268	A rational model for assessing and evaluating complex interventions in health care. <i>BMC Health Services Research</i> , 2006 , 6, 86	2.9	241
267	Promoting professional behaviour change in healthcare: what interventions work, and why? A theory-led overview of systematic reviews. <i>BMJ Open</i> , 2015 , 5, e008592	3	230
266	Understanding patients' experiences of treatment burden in chronic heart failure using normalization process theory. <i>Annals of Family Medicine</i> , 2011 , 9, 235-43	2.9	214
265	From compliance to concordance: barriers to accomplishing a re-framed model of health care interactions. <i>Social Science and Medicine</i> , 2004 , 58, 851-62	5.1	202
264	Disclosing a diagnosis of dementia: a systematic review. <i>International Journal of Geriatric Psychiatry</i> , 2004 , 19, 151-69	3.9	190
263	Resisting and promoting new technologies in clinical practice: the case of telepsychiatry. <i>Social Science and Medicine</i> , 2001 , 52, 1889-901	5.1	184

262	An open letter to The BMJ editors on qualitative research. <i>BMJ, The</i> , 2016 , 352, i563	5.9	179
261	Using Normalization Process Theory in feasibility studies and process evaluations of complex healthcare interventions: a systematic review. <i>Implementation Science</i> , 2018 , 13, 80	8.4	176
260	Barriers to advance care planning at the end of life: an explanatory systematic review of implementation studies. <i>PLoS ONE</i> , 2015 , 10, e0116629	3.7	168
259	Building a measurement framework of burden of treatment in complex patients with chronic conditions: a qualitative study. <i>Patient Related Outcome Measures</i> , 2012 , 3, 39-49	2.9	165
258	Why is it difficult to implement e-health initiatives? A qualitative study. <i>Implementation Science</i> , 2011 , 6, 6	8.4	149
257	Collaborative deliberation: a model for patient care. <i>Patient Education and Counseling</i> , 2014 , 97, 158-64	3.1	148
256	Limitations of patient satisfaction studies in telehealthcare: a systematic review of the literature. <i>Telemedicine Journal and E-Health</i> , 2001 , 7, 293-316	5.9	146
255	Framing the doctor-patient relationship in chronic illness: a comparative study of general practitioners' accounts. <i>Sociology of Health and Illness</i> , 2004 , 26, 135-58	3	137
254	Evaluating complex interventions and health technologies using normalization process theory: development of a simplified approach and web-enabled toolkit. <i>BMC Health Services Research</i> , 2011 , 11, 245	2.9	133
253	Integrating telecare for chronic disease management in the community: what needs to be done?. <i>BMC Health Services Research</i> , 2011 , 11, 131	2.9	132
252	Medically unexplained symptoms and the problem of power in the primary care consultation: a qualitative study. <i>Family Practice</i> , 2002 , 19, 178-82	1.9	125
251	Transforming general practice: the redistribution of medical work in primary care. <i>Sociology of Health and Illness</i> , 2003 , 25, 71-92	3	123
250	Types of centredness in health care: themes and concepts. <i>Medicine, Health Care and Philosophy</i> , 2008 , 11, 455-63	2	120
249	Qualitative research and the problem of judgement: lessons from interviewing fellow professionals. <i>Family Practice</i> , 2002 , 19, 285-9	1.9	115
248	Agency and implementation: understanding the embedding of healthcare innovations in practice. <i>Social Science and Medicine</i> , 2013 , 78, 26-33	5.1	110
247	Uncovering treatment burden as a key concept for stroke care: a systematic review of qualitative research. <i>PLoS Medicine</i> , 2013 , 10, e1001473	11.6	110
246	Understanding the normalization of telemedicine services through qualitative evaluation. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2003 , 10, 596-604	8.6	110
245	Young adults' (16-25 years) suggestions for providing developmentally appropriate diabetes services: a qualitative study. <i>Health and Social Care in the Community</i> , 2005 , 13, 409-19	2.6	109

244	Health technology assessment in its local contexts: studies of telehealthcare. <i>Social Science and Medicine</i> , 2003 , 57, 697-710	5.1	105
243	Arduous implementation: does the Normalisation Process Model explain why it's so difficult to embed decision support technologies for patients in routine clinical practice. <i>Implementation Science</i> , 2008 , 3, 57	8.4	103
242	The burden of comorbidity in people with chronic kidney disease stage 3: a cohort study. <i>BMC Nephrology</i> , 2015 , 16, 193	2.7	102
241	A patient decision aid to support shared decision-making on anti-thrombotic treatment of patients with atrial fibrillation: randomised controlled trial. <i>Quality and Safety in Health Care</i> , 2007 , 16, 216-23		100
240	Remote Doctors and Absent Patients: Acting at a Distance in Telemedicine?. <i>Science Technology and Human Values</i> , 2003 , 28, 274-295	2.5	99
239	Process evaluation for complex interventions in primary care: understanding trials using the normalization process model. <i>BMC Family Practice</i> , 2007 , 8, 42	2.6	98
238	Technogovernance: evidence, subjectivity, and the clinical encounter in primary care medicine. <i>Social Science and Medicine</i> , 2006 , 62, 1022-30	5.1	98
237	Stroke, multimorbidity and polypharmacy in a nationally representative sample of 1,424,378 patients in Scotland: implications for treatment burden. <i>BMC Medicine</i> , 2014 , 12, 151	11.4	94
236	Models of transitional care for young people with complex health needs: a scoping review. <i>Child: Care, Health and Development</i> , 2011 , 37, 780-91	2.8	93
235	Development and validation of the Patient Experience with Treatment and Self-management (PETS): a patient-reported measure of treatment burden. <i>Quality of Life Research</i> , 2017 , 26, 489-503	3.7	88
234	Using digital interventions for self-management of chronic physical health conditions: A meta-ethnography review of published studies. <i>Patient Education and Counseling</i> , 2017 , 100, 616-635	3.1	87
233	Chronic low back pain in general practice: the challenge of the consultation. <i>Family Practice</i> , 1999 , 16, 46-9	1.9	82
232	Improving the normalization of complex interventions: measure development based on normalization process theory (NoMAD): study protocol. <i>Implementation Science</i> , 2013 , 8, 43	8.4	81
231	Chronic diseases and multi-morbidity--a conceptual modification to the WHO ICCC model for countries in health transition. <i>BMC Public Health</i> , 2014 , 14, 575	4.1	80
230	Research on nurse-patient relationships: problems of theory, problems of practice. <i>Journal of Advanced Nursing</i> , 1990 , 15, 307-15	3.1	80
229	Finalizing a measurement framework for the burden of treatment in complex patients with chronic conditions. <i>Patient Related Outcome Measures</i> , 2015 , 6, 117-26	2.9	74
228	Patient satisfaction with teledermatology is related to perceived quality of life. <i>British Journal of Dermatology</i> , 2001 , 145, 911-7	4	74
227	Nursing work, nurses' knowledge, and the subjectification of the patient. <i>Sociology of Health and Illness</i> , 1992 , 14, 472-487	3	73

226	Experiencing depression, experiencing the depressed: The separate worlds of patients and doctors. <i>Journal of Mental Health</i> , 2001 , 10, 317-333	2.7	73
225	Intervention planning for a digital intervention for self-management of hypertension: a theory-, evidence- and person-based approach. <i>Implementation Science</i> , 2017 , 12, 25	8.4	72
224	Integrating service development with evaluation in telehealthcare: an ethnographic study. <i>BMJ, The</i> , 2003 , 327, 1205-9	5.9	72
223	Preventing type 2 diabetes after gestational diabetes: women's experiences and implications for diabetes prevention interventions. <i>Diabetic Medicine</i> , 2013 , 30, 986-93	3.5	71
222	Making and Unmaking Telepatients: Identity and Governance in New Health Technologies. <i>Science Technology and Human Values</i> , 2009 , 34, 9-33	2.5	67
221	Still a difficult business? Negotiating alcohol-related problems in general practice consultations. <i>Social Science and Medicine</i> , 2006 , 63, 2418-28	5.1	66
220	Patients' perceptions of a telemedicine specialty clinic. <i>Journal of Telemedicine and Telecare</i> , 2000 , 6, 36-40	6.8	66
219	Overwhelmed patients: a videographic analysis of how patients with type 2 diabetes and clinicians articulate and address treatment burden during clinical encounters. <i>Diabetes Care</i> , 2012 , 35, 47-9	14.6	65
218	Patient capacity and constraints in the experience of chronic disease: a qualitative systematic review and thematic synthesis. <i>BMC Family Practice</i> , 2016 , 17, 127	2.6	64
217	From theory to 'measurement' in complex interventions: methodological lessons from the development of an e-health normalisation instrument. <i>BMC Medical Research Methodology</i> , 2012 , 12, 69	4.7	64
216	Managing depression in primary care: another example of the inverse care law?. <i>Family Practice</i> , 2002 , 19, 632-7	1.9	64
215	Towards a wireless patient: chronic illness, scarce care and technological innovation in the United Kingdom. <i>Social Science and Medicine</i> , 2005 , 61, 1485-94	5.1	62
214	Individual Care? Power and Subjectivity in Therapeutic Relationships. <i>Sociology</i> , 1992 , 26, 589-602	2.6	62
213	Patient, carer and professional perspectives on barriers and facilitators to quality care in advanced heart failure. <i>PLoS ONE</i> , 2014 , 9, e93288	3.7	61
212	Regulatory Objectivity in Action: Mild Cognitive Impairment and the Collective Production of Uncertainty. <i>Social Studies of Science</i> , 2009 , 39, 665-690	2.4	61
211	When protocols fail: technical evaluation, biomedical knowledge, and the social production of 'facts' about a telemedicine clinic. <i>Social Science and Medicine</i> , 2001 , 53, 989-1002	5.1	60
210	Systematic review and meta-analysis of maintenance of physical activity behaviour change in cancer survivors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 37	8.4	59
209	Embedding effective depression care: using theory for primary care organisational and systems change. <i>Implementation Science</i> , 2010 , 5, 62	8.4	59

208	Improving the normalization of complex interventions: part 2 - validation of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018 , 18, 135	4.7	59
207	Using computer decision support systems in NHS emergency and urgent care: ethnographic study using normalisation process theory. <i>BMC Health Services Research</i> , 2013 , 13, 111	2.9	58
206	Tele dermatology in the UK: lessons in service innovation. <i>British Journal of Dermatology</i> , 2007 , 156, 521-7		58
205	Doctors' understanding of palliative care. <i>Palliative Medicine</i> , 2006 , 20, 493-7	5.5	58
204	The professional imagination: narrative and the symbolic boundaries between medicine and nursing. <i>Journal of Advanced Nursing</i> , 1997 , 25, 1094-100	3.1	56
203	Experiences of abortion: a narrative review of qualitative studies. <i>BMC Health Services Research</i> , 2008 , 8, 150	2.9	56
202	A web-based intervention (RESTORE) to support self-management of cancer-related fatigue following primary cancer treatment: a multi-centre proof of concept randomised controlled trial. <i>Supportive Care in Cancer</i> , 2016 , 24, 2445-53	3.9	54
201	Dealing with doubt. How patients account for non-specific chronic low back pain. <i>Journal of Psychosomatic Research</i> , 2000 , 49, 223-5	4.1	54
200	Digital Health Interventions for Adults With Type 2 Diabetes: Qualitative Study of Patient Perspectives on Diabetes Self-Management Education and Support. <i>Journal of Medical Internet Research</i> , 2018 , 20, e40	7.6	54
199	Mobilising modern facts: health technology assessment and the politics of evidence. <i>Sociology of Health and Illness</i> , 2006 , 28, 513-32	3	53
198	Interventions for compassionate nursing care: A systematic review. <i>International Journal of Nursing Studies</i> , 2016 , 62, 137-55	5.8	53
197	The Clinical Encounter and the Problem of Context. <i>Sociology</i> , 2007 , 41, 29-45	2.6	52
196	Qualitative study of patients' perceptions of the quality of care for depression in general practice. <i>British Journal of General Practice</i> , 2003 , 53, 278-83	1.6	52
195	Incontinence and sexuality: findings from a qualitative perspective. <i>Journal of Advanced Nursing</i> , 1999 , 30, 573-9	3.1	51
194	Affective neutrality and involvement in nurse-patient relationships: perceptions of appropriate behaviour among nurses in acute medical and surgical wards. <i>Journal of Advanced Nursing</i> , 1991 , 16, 552-8	3.1	51
193	Experiences of long-term life-limiting conditions among patients and carers: what can we learn from a meta-review of systematic reviews of qualitative studies of chronic heart failure, chronic obstructive pulmonary disease and chronic kidney disease?. <i>BMJ Open</i> , 2016 , 6, e011694	3	50
192	Established users and the making of telecare work in long term condition management: implications for health policy. <i>Social Science and Medicine</i> , 2011 , 72, 1077-84	5.1	50
191	Clinical terminology: anxiety and confusion amongst families undergoing genetic counseling. <i>Patient Education and Counseling</i> , 1997 , 32, 81-91	3.1	50

190	Which quality of life score is best for glaucoma patients and why?. <i>BMC Ophthalmology</i> , 2008 , 8, 2	2.3	50
189	Lay understanding of genetic disease: a British study of families attending a genetic counseling service. <i>Journal of Genetic Counseling</i> , 1995 , 4, 281-300	2.5	50
188	Normative models of health technology assessment and the social production of evidence about telehealth care. <i>Health Policy</i> , 2003 , 64, 39-54	3.2	49
187	The nursing work of hospital-based clinical practice guideline implementation: an explanatory systematic review using Normalisation Process Theory. <i>International Journal of Nursing Studies</i> , 2014 , 51, 289-99	5.8	48
186	Improving the normalization of complex interventions: part 1 - development of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018 , 18, 133	4.7	48
185	A conceptual model of treatment burden and patient capacity in stroke. <i>BMC Family Practice</i> , 2018 , 19, 9	2.6	47
184	Medical knowledge and the intractable patient: the case of chronic low back pain. <i>Social Science and Medicine</i> , 1999 , 48, 523-34	5.1	46
183	Development and formative evaluation of the e-Health Implementation Toolkit (e-HIT). <i>BMC Medical Informatics and Decision Making</i> , 2010 , 10, 61	3.6	45
182	The harmful consequences of elevating the doctor-patient relationship to be a primary goal of the general practice consultation. <i>Family Practice</i> , 2004 , 21, 229-31	1.9	45
181	Qualitative systematic reviews of treatment burden in stroke, heart failure and diabetes - methodological challenges and solutions. <i>BMC Medical Research Methodology</i> , 2013 , 13, 10	4.7	44
180	Implementing nutrition guidelines for older people in residential care homes: a qualitative study using Normalization Process Theory. <i>Implementation Science</i> , 2012 , 7, 106	8.4	44
179	Web-based self-management support for people with type 2 diabetes (HeLP-Diabetes): randomised controlled trial in English primary care. <i>BMJ Open</i> , 2017 , 7, e016009	3	43
178	Pathology, Identity and the Social Construction of Alcohol Dependence. <i>Sociology</i> , 2001 , 35, 385-401	2.6	43
177	The place of information and communication technology-mediated consultations in primary care: GPs' perspectives. <i>Family Practice</i> , 2012 , 29, 361-6	1.9	42
176	A feasibility study of implementing grip strength measurement into routine hospital practice (GRIMP): study protocol. <i>Pilot and Feasibility Studies</i> , 2016 , 2, 27	1.9	41
175	Work of being an adult patient with chronic kidney disease: a systematic review of qualitative studies. <i>BMJ Open</i> , 2018 , 8, e023507	3	41
174	Health professionals' responses to the introduction of a home telehealth service. <i>Journal of Telemedicine and Telecare</i> , 2004 , 10, 226-30	6.8	39
173	'They leave at least believing they had a part in the discussion': understanding decision aid use and patient-clinician decision-making through qualitative research. <i>Patient Education and Counseling</i> , 2013 , 93, 86-94	3.1	38

172	Patients or research subjects? A qualitative study of participation in a randomised controlled trial of a complex intervention. <i>Patient Education and Counseling</i> , 2006 , 62, 260-70	3.1	38
171	The influence of diabetes upon adolescent and young adult development: a qualitative study. <i>British Journal of Health Psychology</i> , 2007 , 12, 75-91	8.3	36
170	What general practitioners find satisfying in their work: implications for health care system reform. <i>Annals of Family Medicine</i> , 2006 , 4, 500-5	2.9	36
169	Patient autonomy and the politics of professional relationships. <i>Journal of Advanced Nursing</i> , 1995 , 21, 83-7	3.1	36
168	Developing an implementation strategy for a digital health intervention: an example in routine healthcare. <i>BMC Health Services Research</i> , 2018 , 18, 794	2.9	36
167	'Your whole life is lived through your teeth': biographical disruption and experiences of tooth loss and replacement. <i>Sociology of Health and Illness</i> , 2014 , 36, 462-76	3	35
166	Seeing through the glass darkly? A qualitative exploration of GPs' drinking and their alcohol intervention practices. <i>Family Practice</i> , 2006 , 23, 481-7	1.9	35
165	Negotiating palliative care expertise in the medical world. <i>Social Science and Medicine</i> , 2003 , 57, 277-88	5.1	35
164	Optimising impact and sustainability: a qualitative process evaluation of a complex intervention targeted at compassionate care. <i>BMJ Quality and Safety</i> , 2017 , 26, 970-977	5.4	34
163	Telepsychiatry evaluation in the north-west of England: preliminary results of a qualitative study. <i>Journal of Telemedicine and Telecare</i> , 2000 , 6 Suppl 1, S20-2	6.8	33
162	Identifying treatment burden as an important concept for end of life care in those with advanced heart failure. <i>Current Opinion in Supportive and Palliative Care</i> , 2013 , 7, 3-7	2.6	31
161	Future patients? Telehealthcare, roles and responsibilities. <i>Health and Social Care in the Community</i> , 2008 , 16, 86-95	2.6	31
160	Patient satisfaction with store-and-forward teledermatology. <i>Journal of Telemedicine and Telecare</i> , 2001 , 7 Suppl 1, 45-6	6.8	31
159	Patients' influence on doctors' behavior: a case study of patient strategies in somatization. <i>International Journal of Psychiatry in Medicine</i> , 1995 , 25, 319-29	1	31
158	Supporting insulin initiation in type 2 diabetes in primary care: results of the Stepping Up pragmatic cluster randomised controlled clinical trial. <i>BMJ, The</i> , 2017 , 356, j783	5.9	29
157	Parental guilt: The part played by the clinical geneticist. <i>Journal of Genetic Counseling</i> , 1995 , 4, 179-91	2.5	29
156	Subjectivity and culpability in the constitution of nurse-patient relationships. <i>International Journal of Nursing Studies</i> , 1993 , 30, 181-92	5.8	29
155	What is the patient acceptability of real time 1:1 videoconferencing in an orthopaedics setting? A systematic review. <i>Physiotherapy</i> , 2018 , 104, 178-186	3	28

154	Negotiations of distress between East Timorese and Vietnamese refugees and their family doctors in Melbourne. <i>Sociology of Health and Illness</i> , 2010 , 32, 511-27	3	28
153	Chronic illness and intractability: professional-patient interactions in primary care. <i>Chronic Illness</i> , 2005 , 1, 15-20	1.4	28
152	Disclosure of terminal prognoses in a general hospital: the nurse's view. <i>Journal of Advanced Nursing</i> , 1993 , 18, 1362-8	3.1	28
151	Barriers and facilitators to discontinuing antidepressant use: A systematic review and thematic synthesis. <i>Journal of Affective Disorders</i> , 2019 , 245, 38-62	6.6	28
150	Home and Online Management and Evaluation of Blood Pressure (HOME BP) using a digital intervention in poorly controlled hypertension: randomised controlled trial. <i>BMJ, The</i> , 2021 , 372, m4858 ^{5.9}	5.9	28
149	Patients and informal caregivers' experiences of burden of treatment in lung cancer and chronic obstructive pulmonary disease (COPD): a systematic review and synthesis of qualitative research. <i>BMJ Open</i> , 2019 , 9, e020515	3	27
148	Food work and feeding assistance on hospital wards. <i>Sociology of Health and Illness</i> , 2013 , 35, 628-42	3	27
147	Why do telemedicine systems fail to normalize as stable models of service delivery?. <i>Journal of Telemedicine and Telecare</i> , 2003 , 9 Suppl 1, S25-6	6.8	27
146	Implementation of secondary fracture prevention services after hip fracture: a qualitative study using extended Normalization Process Theory. <i>Implementation Science</i> , 2015 , 10, 57	8.4	26
145	Doctor-patient interaction in a randomised controlled trial of decision-support tools. <i>Social Science and Medicine</i> , 2006 , 62, 2267-78	5.1	25
144	Medical communication and technology: a video-based process study of the use of decision aids in primary care consultations. <i>BMC Medical Informatics and Decision Making</i> , 2007 , 7, 2	3.6	24
143	The impact of decision aids to enhance shared decision making for diabetes (the DAD study): protocol of a cluster randomized trial. <i>BMC Health Services Research</i> , 2012 , 12, 130	2.9	23
142	Domains of consultation research in primary care. <i>Patient Education and Counseling</i> , 2001 , 45, 3-11	3.1	23
141	Resistance to peer group pressure: an inadequate basis for alcohol education. <i>Health Education Research</i> , 1993 , 8, 159-165	1.8	23
140	Pediatric regional examination of the musculoskeletal system: a practice- and consensus-based approach. <i>Arthritis Care and Research</i> , 2011 , 63, 1503-10	4.7	22
139	Art, Science and Placebo: Incorporating Homeopathy in General Practice. <i>Sociology of Health and Illness</i> , 1998 , 20, 168-190	3	22
138	Review Essay : Personal Identity and Social Change: Some Theoretical Considerations. <i>Acta Sociologica</i> , 1995 , 38, 75-85	1.7	22
137	The listening loop: a model of choice about cues within primary care consultations. <i>Medical Education</i> , 2005 , 39, 999-1005	3.7	21

136	Telecare: perspectives on the changing role of patients and citizens. <i>Journal of Telemedicine and Telecare</i> , 2005 , 11 Suppl 1, 51-3	6.8	21
