

Carl R May

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2610490/carl-r-may-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
279	Patient, clinician and manager experience of the accelerated implementation of virtual consultations following COVID-19: A qualitative study of preferences in a tertiary orthopaedic rehabilitation setting.. <i>Health Expectations</i> , 2022 ,	3.7	1
278	Minimally Disruptive Medicine: Progress 10 Years Later.. <i>Mayo Clinic Proceedings</i> , 2022 , 97, 210-220	6.4	0
277	Translational framework for implementation evaluation and research: a normalisation process theory coding manual for qualitative research and instrument development.. <i>Implementation Science</i> , 2022 , 17, 19	8.4	0
276	Process evaluations of mental health and psychosocial support interventions for populations affected by humanitarian crises.. <i>Social Science and Medicine</i> , 2022 , 303, 114994	5.1	1
275	A Complex Intervention for Alcohol Misuse Among Conflict-Affected Populations in Uganda and Ukraine: Study Protocol for the Qualitative Components in the CHANGE Trial. <i>International Journal of Qualitative Methods, The</i> , 2021 , 20, 160940692110630	3.3	
274	How do social and economic vulnerabilities shape the work of participating in care? Everyday experiences of people living with kidney failure in Argentina.. <i>Social Science and Medicine</i> , 2021 , 293, 114666	5.1	1
273	Digital transformation could increase the burden of treatment on patients. <i>BMJ, The</i> , 2021 , 375, n2909	5.9	2
272	'Snakes & Ladders': factors influencing access to appropriate care for children and young people with suspected juvenile idiopathic arthritis - a qualitative study. <i>Pediatric Rheumatology</i> , 2021 , 19, 43	3.5	0
271	Patient Work and Treatment Burden in Type 2 Diabetes: A Mixed-Methods Study. <i>Mayo Clinic Proceedings Innovations, Quality & Outcomes</i> , 2021 , 5, 359-367	3.1	1
270	The Early Youth Engagement in first episode psychosis (EYE-2) study: pragmatic cluster randomised controlled trial of implementation, effectiveness and cost-effectiveness of a team-based motivational engagement intervention to improve engagement. <i>Trials</i> , 2021 , 22, 272	2.8	3
269	Implementing a digital intervention for managing uncontrolled hypertension in Primary Care: a mixed methods process evaluation. <i>Implementation Science</i> , 2021 , 16, 57	8.4	2
268	Remote shared decision making through telemedicine: A systematic review of the literature. <i>Patient Education and Counseling</i> , 2021 ,	3.1	3
267	A Digital Intervention for Primary Care Practitioners to Support Antidepressant Discontinuation (Advisor for Health Professionals): Development Study. <i>Journal of Medical Internet Research</i> , 2021 , 23, e25537	7.6	1
266	Do chronic heart failure symptoms interact with burden of treatment? Qualitative literature systematic review. <i>BMJ Open</i> , 2021 , 11, e047060	3	1
265	Home and Online Management and Evaluation of Blood Pressure (HOME BP) using a digital intervention in poorly controlled hypertension: randomised controlled trial. <i>BMJ, The</i> , 2021 , 372, m4858	5.9	28
264	Factors that influence patient preferences for virtual consultations in an orthopaedic rehabilitation setting: a qualitative study. <i>BMJ Open</i> , 2021 , 11, e041038	3	9
263	Patient preferences for use of virtual consultations in an orthopaedic rehabilitation setting: Results from a discrete choice experiment. <i>Journal of Health Services Research and Policy</i> , 2021 , 13558196211035427	2.4	4

262	A qualitative investigation into the results of a discrete choice experiment and the impact of COVID-19 on patient preferences for virtual consultations. <i>Archives of Physiotherapy</i> , 2021 , 11, 20	2.5	2
261	Kidney failure, status passage, and the transitional nature of living with the disease: A qualitative study in Argentina. <i>Health (United Kingdom)</i> , 2021 , 13634593211046842	1.9	1
260	Making sense of diabetes medication decisions: a mixed methods cluster randomized trial using a conversation aid intervention. <i>Endocrine</i> , 2021 , 1	4	1
259	Evaluation of the usability, accessibility and acceptability for a family support intervention (Family-Focused Support Conversation) for end of life care discharge planning from hospital: A participatory learning and action research study. <i>International Journal of Nursing Studies Advances</i> , 2021 , 3, 100022	5.5	
258	Malnutrition in community-dwelling older people: lessons learnt using a new procedure. <i>British Journal of Community Nursing</i> , 2020 , 25, 193-195	0.6	0
257	Normalization of a conversation tool to promote shared decision making about anticoagulation in patients with atrial fibrillation within a practical randomized trial of its effectiveness: a cross-sectional study. <i>Trials</i> , 2020 , 21, 395	2.8	2
256	Patient-reported outcome measures for monitoring primary care patients with depression (PROMDEP): study protocol for a randomised controlled trial. <i>Trials</i> , 2020 , 21, 441	2.8	5
255	REDUCE (Reviewing long-term antidepressant use by careful monitoring in everyday practice) internet and telephone support to people coming off long-term antidepressants: protocol for a randomised controlled trial. <i>Trials</i> , 2020 , 21, 419	2.8	6
254	Effectiveness of nurse-led group CBT for hot flushes and night sweats in women with breast cancer: Results of the MENOS4 randomised controlled trial. <i>Psycho-Oncology</i> , 2020 , 29, 1514-1523	3.9	9
253	Supporting antidepressant discontinuation: the development and optimisation of a digital intervention for patients in UK primary care using a theory, evidence and person-based approach. <i>BMJ Open</i> , 2020 , 10, e032312	3	11
252	Exploring maintenance of physical activity behaviour change among people living with and beyond gastrointestinal cancer: a cross-sectional qualitative study and typology. <i>BMJ Open</i> , 2020 , 10, e037136	3	1
251	Patients' and kidney care team's perspectives of treatment burden and capacity in older people with chronic kidney disease: a qualitative study. <i>BMJ Open</i> , 2020 , 10, e042548	3	3
250	Choosing to listen 2020 , 29-34		
249	Normalization Process Theory 2020 , 144-167		6
248	Coordinating Compassionate Care Across Nursing Teams: The Implementation Journey of a Planned Intervention. <i>Organizational Behaviour in Health Care</i> , 2020 , 29-51	0.6	2
247	Use of virtual consultations in an orthopaedic rehabilitation setting: how do changes in the work of being a patient influence patient preferences? A systematic review and qualitative synthesis. <i>BMJ Open</i> , 2020 , 10, e036197	3	9
246	Managing patient preferences and clinical responses in acute pathophysiological deterioration: What do clinicians think treatment escalation plans do?. <i>Social Science and Medicine</i> , 2020 , 258, 113143	5.1	5
245	Creating pre-conditions for change in clinical practice: the influence of interactions between multiple contexts and human agency. <i>Journal of Health Organization and Management</i> , 2020 , ahead-of-print,	1.9	2

244	Tailored implementation of internet-based cognitive behavioural therapy in the multinational context of the ImpleMentAll project: a study protocol for a stepped wedge cluster randomized trial. <i>Trials</i> , 2020 , 21, 893	2.8	10
243	How do SYMPtoms and management tasks in chronic heart failure imPACT a person's life (SYMPACT)? Protocol for a mixed-methods study. <i>ESC Heart Failure</i> , 2020 , 7, 4472	3.7	2
242	Co-construction of the family-focused support conversation: a participatory learning and action research study to implement support for family members whose relatives are being discharged for end-of-life care at home or in a nursing home. <i>BMC Palliative Care</i> , 2020 , 19, 146	3	2
241	The Potential Added Value of Novel Hearing Therapeutics: An Early Health Economic Model for Hearing Loss. <i>Otology and Neurotology</i> , 2020 , 41, 1033-1041	2.6	2
240	Interdisciplinary team working in the Irish primary healthcare system: Analysis of 'invisible' bottom up innovations using Normalisation Process Theory. <i>Health Policy</i> , 2019 , 123, 1083-1092	3.2	5
239	What factors promote or inhibit implementation of a new procedure for screening and treatment of malnutrition in community settings? A prospective process evaluation of the (INSCCOPE) project (UK). <i>BMJ Open</i> , 2019 , 9, e023362	3	2
238	A digital self-management intervention for adults with type 2 diabetes: Combining theory, data and participatory design to develop HeLP-Diabetes. <i>Internet Interventions</i> , 2019 , 17, 100241	4.4	15
237	Systematic review and meta-analysis of maintenance of physical activity behaviour change in cancer survivors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 37	8.4	59
236	Patients and informal caregivers' experiences of burden of treatment in lung cancer and chronic obstructive pulmonary disease (COPD): a systematic review and synthesis of qualitative research. <i>BMJ Open</i> , 2019 , 9, e020515	3	27
235	What is the acceptability of real time 1:1 videoconferencing between clinicians and patients for a follow-up consultation for multi-directional shoulder instability?. <i>Shoulder and Elbow</i> , 2019 , 11, 53-59	1.8	10
234	Burden of treatment in chronic heart failure: does symptom burden play a role?. <i>British Journal of Cardiac Nursing</i> , 2019 , 14, 91-93	0.2	3
233	Implementation of self-management support in cancer care and normalization into routine practice: a systematic scoping literature review protocol. <i>Systematic Reviews</i> , 2019 , 8, 37	3	14
232	Implementing and Embedding Health Informatics Systems - Understanding Organizational Behaviour Change Using Normalization Process Theory (NPT). <i>Studies in Health Technology and Informatics</i> , 2019 , 263, 171-190	0.5	4
231	HORIZONS protocol: a UK prospective cohort study to explore recovery of health and well-being in adults diagnosed with cancer. <i>BMJ Open</i> , 2019 , 9, e029662	3	2
230	Helping people discontinue long-term antidepressants: views of health professionals in UK primary care. <i>BMJ Open</i> , 2019 , 9, e027837	3	11
229	Ethnographic study using Normalization Process Theory to understand the implementation process of infection prevention and control guidelines in Ireland. <i>BMJ Open</i> , 2019 , 9, e029514	3	3
228	Protocol for the CONNECT project: a mixed methods study investigating patient preferences for communication technology use in orthopaedic rehabilitation consultations. <i>BMJ Open</i> , 2019 , 9, e035210 ³		7
227	Implementing professional behaviour change in teams under pressure: results from phase one of a prospective process evaluation (the (INSCCOPE) project). <i>BMJ Open</i> , 2019 , 9, e025966	3	3

226	Health care professionals' views towards self-management and self-management education for people with type 2 diabetes. <i>BMJ Open</i> , 2019 , 9, e029961	3	9
225	Barriers and facilitators to discontinuing antidepressant use: A systematic review and thematic synthesis. <i>Journal of Affective Disorders</i> , 2019 , 245, 38-62	6.6	28
224	What is the patient acceptability of real time 1:1 videoconferencing in an orthopaedics setting? A systematic review. <i>Physiotherapy</i> , 2018 , 104, 178-186	3	28
223	Using Normalization Process Theory in feasibility studies and process evaluations of complex healthcare interventions: a systematic review. <i>Implementation Science</i> , 2018 , 13, 80	8.4	176
222	A conceptual model of treatment burden and patient capacity in stroke. <i>BMC Family Practice</i> , 2018 , 19, 9	2.6	47
221	Implementation of grip strength measurement in medicine for older people wards as part of routine admission assessment: identifying facilitators and barriers using a theory-led intervention. <i>BMC Geriatrics</i> , 2018 , 18, 79	4.1	17
220	MENOS4 trial: a multicentre randomised controlled trial (RCT) of a breast care nurse delivered cognitive behavioural therapy (CBT) intervention to reduce the impact of hot flushes in women with breast cancer: Study Protocol. <i>BMC Women's Health</i> , 2018 , 18, 63	2.9	7
219	Qualitative process study to explore the perceived burdens and benefits of a digital intervention for self-managing high blood pressure in Primary Care in the UK. <i>BMJ Open</i> , 2018 , 8, e020843	3	10
218	Digital Health Interventions for Adults With Type 2 Diabetes: Qualitative Study of Patient Perspectives on Diabetes Self-Management Education and Support. <i>Journal of Medical Internet Research</i> , 2018 , 20, e40	7.6	54
217	A web-based self-management programme for people with type 2 diabetes: the HeLP-Diabetes research programme including RCT. <i>Programme Grants for Applied Research</i> , 2018 , 6, 1-242	1.5	5
216	Supporting carers to manage pain medication in cancer patients at the end of life: A feasibility trial. <i>Palliative Medicine</i> , 2018 , 32, 246-256	5.5	13
215	Escalation-related decision making in acute deterioration: a retrospective case note review. <i>BMJ Open</i> , 2018 , 8, e022021	3	5
214	Improving the normalization of complex interventions: part 1 - development of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018 , 18, 133	4.7	48
213	Improving the normalization of complex interventions: part 2 - validation of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018 , 18, 135	4.7	59
212	Developing an implementation strategy for a digital health intervention: an example in routine healthcare. <i>BMC Health Services Research</i> , 2018 , 18, 794	2.9	36
211	Work of being an adult patient with chronic kidney disease: a systematic review of qualitative studies. <i>BMJ Open</i> , 2018 , 8, e023507	3	41
210	Digitized patient-provider interaction: How does it matter? A qualitative meta-synthesis. <i>Social Science and Medicine</i> , 2018 , 215, 36-44	5.1	16
209	A two phased study on health care professionals' perceptions of single or multi-use of intermittent catheters. <i>International Journal of Nursing Studies</i> , 2017 , 72, 83-90	5.8	6

208	Web-based self-management support for people with type 2 diabetes (HeLP-Diabetes): randomised controlled trial in English primary care. <i>BMJ Open</i> , 2017 , 7, e016009	3	43
207	Managing expectations: cognitive authority and experienced control in complex healthcare processes. <i>BMC Health Services Research</i> , 2017 , 17, 459	2.9	13
206	Integrating acute stroke telemedicine consultations into specialists' usual practice: a qualitative analysis comparing the experience of Australia and the United Kingdom. <i>BMC Health Services Research</i> , 2017 , 17, 751	2.9	14
205	Can routine clinical data identify older patients at risk of poor healthcare outcomes on admission to hospital?. <i>BMC Research Notes</i> , 2017 , 10, 384	2.3	3
204	Optimising impact and sustainability: a qualitative process evaluation of a complex intervention targeted at compassionate care. <i>BMJ Quality and Safety</i> , 2017 , 26, 970-977	5.4	34
203	Organizing Practice and Practicing Organization: An Outline of Translational Mobilization Theory. <i>SAGE Open</i> , 2017 , 7, 215824401770799	1.5	12
202	Implementing communication and decision-making interventions directed at goals of care: a theory-led scoping review. <i>BMJ Open</i> , 2017 , 7, e017056	3	11
201	Understanding how primary care practitioners perceive an online intervention for the management of hypertension. <i>BMC Medical Informatics and Decision Making</i> , 2017 , 17, 5	3.6	20
200	Intervention planning for a digital intervention for self-management of hypertension: a theory-, evidence- and person-based approach. <i>Implementation Science</i> , 2017 , 12, 25	8.4	72
199	Using digital interventions for self-management of chronic physical health conditions: A meta-ethnography review of published studies. <i>Patient Education and Counseling</i> , 2017 , 100, 616-635	3.1	87
198	Development and validation of the Patient Experience with Treatment and Self-management (PETS): a patient-reported measure of treatment burden. <i>Quality of Life Research</i> , 2017 , 26, 489-503	3.7	88
197	Successfully implementing and embedding guidelines to improve the nutrition and growth of preterm infants in neonatal intensive care: a prospective interventional study. <i>BMJ Open</i> , 2017 , 7, e017727	2.7	16
196	Supporting insulin initiation in type 2 diabetes in primary care: results of the Stepping Up pragmatic cluster randomised controlled clinical trial. <i>BMJ, The</i> , 2017 , 356, j783	5.9	29
195	Debt Counselling for Depression in Primary Care: an adaptive randomised controlled pilot trial (DeCoDer study). <i>Health Technology Assessment</i> , 2017 , 21, 1-164	4.4	11
194	Supporting family caregivers in the transition between hospital and their relative preferred place for end of life care. <i>BMJ Supportive and Palliative Care</i> , 2016 , 6, 404.3-405	2.2	
193	Patient capacity and constraints in the experience of chronic disease: a qualitative systematic review and thematic synthesis. <i>BMC Family Practice</i> , 2016 , 17, 127	2.6	64
192	Experiences of long-term life-limiting conditions among patients and carers: what can we learn from a meta-review of systematic reviews of qualitative studies of chronic heart failure, chronic obstructive pulmonary disease and chronic kidney disease?. <i>BMJ Open</i> , 2016 , 6, e011694	3	50
191	Implementation, context and complexity. <i>Implementation Science</i> , 2016 , 11, 141	8.4	363

190	Assessing the feasibility of a web-based domestic violence intervention using chronic disease frameworks: reducing the burden of 'treatment' and promoting capacity for action in women abused by a partner. <i>BMC Womens Health</i> , 2016 , 16, 73	2.9	5
189	An open letter to The BMJ editors on qualitative research. <i>BMJ, The</i> , 2016 , 352, i563	5.9	179
188	A web-based intervention (RESTORE) to support self-management of cancer-related fatigue following primary cancer treatment: a multi-centre proof of concept randomised controlled trial. <i>Supportive Care in Cancer</i> , 2016 , 24, 2445-53	3.9	54
187	Recovering the self: a manifesto for primary care. <i>British Journal of General Practice</i> , 2016 , 66, 582-583	1.6	10
186	A feasibility study of implementing grip strength measurement into routine hospital practice (GRIMP): study protocol. <i>Pilot and Feasibility Studies</i> , 2016 , 2, 27	1.9	41
185	Illness identity as an important component of candidacy: Contrasting experiences of help-seeking and access to care in cancer and heart disease. <i>Social Science and Medicine</i> , 2016 , 168, 101-110	5.1	18
184	Interventions for compassionate nursing care: A systematic review. <i>International Journal of Nursing Studies</i> , 2016 , 62, 137-55	5.8	53
183	'It was like he was in the room with us': patients' and carers' perspectives of telemedicine in acute stroke. <i>Health Expectations</i> , 2016 , 19, 98-111	3.7	13
182	The burden of comorbidity in people with chronic kidney disease stage 3: a cohort study. <i>BMC Nephrology</i> , 2015 , 16, 193	2.7	102
181	RESTORE: an exploratory trial of a web-based intervention to enhance self-management of cancer-related fatigue: findings from a qualitative process evaluation. <i>BMC Medical Informatics and Decision Making</i> , 2015 , 15, 94	3.6	18
180	Implementation of secondary fracture prevention services after hip fracture: a qualitative study using extended Normalization Process Theory. <i>Implementation Science</i> , 2015 , 10, 57	8.4	26
179	Finalizing a measurement framework for the burden of treatment in complex patients with chronic conditions. <i>Patient Related Outcome Measures</i> , 2015 , 6, 117-26	2.9	74
178	Barriers to advance care planning at the end of life: an explanatory systematic review of implementation studies. <i>PLoS ONE</i> , 2015 , 10, e0116629	3.7	168
177	Making sense of technology adoption in healthcare: meso-level considerations. <i>BMC Medicine</i> , 2015 , 13, 92	11.4	15
176	Promoting professional behaviour change in healthcare: what interventions work, and why? A theory-led overview of systematic reviews. <i>BMJ Open</i> , 2015 , 5, e008592	3	230
175	EXPERTS 1-experiences of long-term life-limiting conditions among patients and carers: protocol for a qualitative meta-synthesis and conceptual modelling study. <i>BMJ Open</i> , 2015 , 5, e007372	3	6
174	Can primary care team-based transition to insulin improve outcomes in adults with type 2 diabetes: the stepping up to insulin cluster randomized controlled trial protocol. <i>Implementation Science</i> , 2014 , 9, 20	8.4	13
173	Evaluating the implementation of HeLP-Diabetes within NHS services: study protocol. <i>BMC Health Services Research</i> , 2014 , 14, 51	2.9	9

172	Collaborative deliberation: a model for patient care. <i>Patient Education and Counseling</i> , 2014 , 97, 158-64	3.1	148
171	Chronic diseases and multi-morbidity--a conceptual modification to the WHO ICCM model for countries in health transition. <i>BMC Public Health</i> , 2014 , 14, 575	4.1	80
170	Rethinking the patient: using Burden of Treatment Theory to understand the changing dynamics of illness. <i>BMC Health Services Research</i> , 2014 , 14, 281	2.9	297
169	Foresight Mental Capital and Wellbeing Project 2014 , 1-90		1
168	Patient, carer and professional perspectives on barriers and facilitators to quality care in advanced heart failure. <i>PLoS ONE</i> , 2014 , 9, e93288	3.7	61
167	CANCER CARERS MEDICINES MANAGEMENT: A FEASIBILITY TRIAL OF AN EDUCATIONAL INTERVENTION FOR MANAGING END OF LIFE PAIN MEDICATION. <i>BMJ Supportive and Palliative Care</i> , 2014 , 4, A7.2-A7	2.2	2
166	'Your whole life is lived through your teeth': biographical disruption and experiences of tooth loss and replacement. <i>Sociology of Health and Illness</i> , 2014 , 36, 462-76	3	35
165	Stroke, multimorbidity and polypharmacy in a nationally representative sample of 1,424,378 patients in Scotland: implications for treatment burden. <i>BMC Medicine</i> , 2014 , 12, 151	11.4	94
164	The nursing work of hospital-based clinical practice guideline implementation: an explanatory systematic review using Normalisation Process Theory. <i>International Journal of Nursing Studies</i> , 2014 , 51, 289-99	5.8	48
163	The work, workforce, technology and organisational implications of the 111 single point of access telephone number for urgent (non-emergency) care: a mixed-methods case study. <i>Health Services and Delivery Research</i> , 2014 , 2, 1-140	1.5	11
162	Improving the normalization of complex interventions: measure development based on normalization process theory (NoMAD): study protocol. <i>Implementation Science</i> , 2013 , 8, 43	8.4	81
161	Towards a general theory of implementation. <i>Implementation Science</i> , 2013 , 8, 18	8.4	347
160	RESTORE: an exploratory trial of an online intervention to enhance self-efficacy to manage problems associated with cancer-related fatigue following primary cancer treatment: study protocol for a randomized controlled trial. <i>Trials</i> , 2013 , 14, 184	2.8	18
159	Qualitative systematic reviews of treatment burden in stroke, heart failure and diabetes - methodological challenges and solutions. <i>BMC Medical Research Methodology</i> , 2013 , 13, 10	4.7	44
158	Using computer decision support systems in NHS emergency and urgent care: ethnographic study using normalisation process theory. <i>BMC Health Services Research</i> , 2013 , 13, 111	2.9	58
157	The challenges of implementing a telestroke network: a systematic review and case study. <i>BMC Medical Informatics and Decision Making</i> , 2013 , 13, 125	3.6	18
156	Food work and feeding assistance on hospital wards. <i>Sociology of Health and Illness</i> , 2013 , 35, 628-42	3	27
155	Agency and implementation: understanding the embedding of healthcare innovations in practice. <i>Social Science and Medicine</i> , 2013 , 78, 26-33	5.1	110

154	'They leave at least believing they had a part in the discussion': understanding decision aid use and patient-clinician decision-making through qualitative research. <i>Patient Education and Counseling</i> , 2013 , 93, 86-94	3.1	38
153	Examining health promotion interventions for patients with chronic conditions using a novel patient-centered complexity model: protocol for a systematic review and meta-analysis. <i>Systematic Reviews</i> , 2013 , 2, 29	3	5
152	Preventing type 2 diabetes after gestational diabetes: women's experiences and implications for diabetes prevention interventions. <i>Diabetic Medicine</i> , 2013 , 30, 986-93	3.5	71
151	Uncovering treatment burden as a key concept for stroke care: a systematic review of qualitative research. <i>PLoS Medicine</i> , 2013 , 10, e1001473	11.6	110
150	Identifying treatment burden as an important concept for end of life care in those with advanced heart failure. <i>Current Opinion in Supportive and Palliative Care</i> , 2013 , 7, 3-7	2.6	31
149	Detecting deterioration in patients with chronic disease using telemonitoring: navigating the 'trough of disillusionment'. <i>Journal of Evaluation in Clinical Practice</i> , 2012 , 18, 896-903	2.5	17
148	'Let the computer choose?': the experience of participants in a randomised preference trial of medical versus surgical termination of pregnancy. <i>Sociology of Health and Illness</i> , 2012 , 34, 746-60	3	3
147	The impact of decision aids to enhance shared decision making for diabetes (the DAD study): protocol of a cluster randomized trial. <i>BMC Health Services Research</i> , 2012 , 12, 130	2.9	23
146	Implementing nutrition guidelines for older people in residential care homes: a qualitative study using Normalization Process Theory. <i>Implementation Science</i> , 2012 , 7, 106	8.4	44
145	Cumulative complexity: a functional, patient-centered model of patient complexity can improve research and practice. <i>Journal of Clinical Epidemiology</i> , 2012 , 65, 1041-51	5.7	332
