#	ARTICLE	IF	CITATIONS
1	A rapid review of mental and physical health effects of working at home: how do we optimise health?. BMC Public Health, 2020, 20, 1825.	2.9	261
2	Allied Health Professionals and Work-Related Musculoskeletal Disorders: A Systematic Review. Safety and Health at Work, 2016, 7, 259-267.	0.6	90
3	Workplace interventions to improve work ability: A systematic review and meta-analysis of their effectiveness. Scandinavian Journal of Work, Environment and Health, 2018, 44, 134-146.	3.4	84
4	Requirements for more effective prevention of work-related musculoskeletal disorders. BMC Musculoskeletal Disorders, 2015, 16, 293.	1.9	66
5	Working at Home. Journal of Occupational and Environmental Medicine, 2021, 63, 938-943.	1.7	62
6	WHO/ILO work-related burden of disease and injury: Protocol for systematic reviews of exposure to occupational ergonomic risk factors and of the effect of exposure to occupational ergonomic risk factors on osteoarthritis of hip or knee and selected other musculoskeletal diseases. Environment International, 2019, 125, 554-566.	10.0	61
7	Supporting workers with disabilities: a scoping review of the role of human resource management in contemporary organisations. Asia Pacific Journal of Human Resources, 2017, 55, 6-43.	3.9	58
8	Retirement intentions: what is the role of push factors in predicting retirement intentions?. Ageing and Society, 2013, 33, 988-1008.	1.7	56
9	Developing a comprehensive approach to risk management of musculoskeletal disorders in non-nursing health care sector employees. Applied Ergonomics, 2014, 45, 1634-1640.	3.1	56
10	The prevalence of occupational exposure to ergonomic risk factors: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. Environment International, 2021, 146, 106157.	10.0	54
11	Gender, Cultural Influences, and Coping with Musculoskeletal Pain at Work: The Experience of Malaysian Female Office Workers. Journal of Occupational Rehabilitation, 2017, 27, 228-238.	2.2	51
12	The effect of occupational exposure to ergonomic risk factors on osteoarthritis of hip or knee and selected other musculoskeletal diseases: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. Environment International, 2021, 150, 106349.	10.0	41
13	Workplace risk management practices to prevent musculoskeletal and mental health disorders: What are the gaps?. Safety Science, 2018, 101, 220-230.	4.9	38
14	Risk management: Where should we target strategies to reduce work-related musculoskeletal disorders?. Safety Science, 2015, 73, 99-105.	4.9	37
15	Barriers to more effective prevention of work-related musculoskeletal and mental health disorders. Applied Ergonomics, 2019, 75, 184-192.	3.1	33
16	Developmental pathways of multisite musculoskeletal pain: what is the influence of physical and psychosocial working conditions?. Occupational and Environmental Medicine, 2017, 74, 468-475.	2.8	32
17	Working with Persistent Pain: An Exploration of Strategies Utilised to Stay Productive at Work. Journal of Occupational Rehabilitation, 2017, 27, 4-14.	2.2	31
18	Work-related determinants of multi-site musculoskeletal pain among employees in the health care sector. Work, 2016, 54, 689-697.	1.1	29

#	ARTICLE	IF	CITATIONS
19	Prevalence and predictors for musculoskeletal discomfort in Malaysian office workers: Investigating explanatory factors for a developing country. <i>Applied Ergonomics</i> , 2016, 53, 252-257.	3.1	29
20	Work characteristics predict the development of multi-site musculoskeletal pain. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 653-661.	2.3	28
21	Working longer: What is the relationship between person-environment fit and retirement intentions?. <i>Asia Pacific Journal of Human Resources</i> , 2016, 54, 207-229.	3.9	27
22	Intervention development to reduce musculoskeletal disorders: Is the process on target?. <i>Applied Ergonomics</i> , 2016, 56, 179-186.	3.1	27
23	Does age matter in predicting musculoskeletal disorder risk? An analysis of workplace predictors over 40 years. <i>International Archives of Occupational and Environmental Health</i> , 2016, 89, 1127-1136.	2.3	24
24	What constitutes effective support in obtaining and maintaining employment for individuals with intellectual disability? A scoping review. <i>Journal of Intellectual and Developmental Disability</i> , 2018, 43, 317-327.	1.6	23
25	The work-life interface: a critical factor between work stressors and job satisfaction. <i>Personnel Review</i> , 2019, 48, 880-897.	2.7	22
26	Predictors of musculoskeletal discomfort: A cross-cultural comparison between Malaysian and Australian office workers. <i>Applied Ergonomics</i> , 2017, 60, 52-57.	3.1	20
27	Flexible working arrangements in residential aged care: applying a person-environment fit model. <i>Asia Pacific Journal of Human Resources</i> , 2017, 55, 356-374.	3.9	19
28	Persistent musculoskeletal pain and productive employment; a systematic review of interventions. <i>Occupational and Environmental Medicine</i> , 2016, 73, 206-214.	2.8	18
29	Self-reported musculoskeletal disorder pain: The role of job hazards and work-life interaction. <i>American Journal of Industrial Medicine</i> , 2018, 61, 130-139.	2.1	18
30	Intention to Retire in Employees over 50 Years. What is the Role of Work Ability and Work Life Satisfaction?. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2500.	2.6	18
31	How can organisations influence their older employees' decision of when to retire?. <i>Work</i> , 2013, 45, 389-397.	1.1	17
32	The stage of change approach for implementing ergonomics advice - Translating research into practice. <i>Applied Ergonomics</i> , 2017, 59, 225-233.	3.1	16
33	Working from home in Australia during the COVID-19 pandemic: cross-sectional results from the Employees Working From Home (EWFH) study. <i>BMJ Open</i> , 2022, 12, e052733.	1.9	15
34	Workplace physical and psychosocial hazards: A systematic review of evidence informed hazard identification tools. <i>Applied Ergonomics</i> , 2022, 100, 103614.	3.1	14
35	Self-Adapting Chatbot Personalities for Better Peer Support. , 2019, , .		13
36	Workstyle and Musculoskeletal Discomfort (MSD): Exploring the Influence of Work Culture in Malaysia. <i>Journal of Occupational Rehabilitation</i> , 2015, 25, 696-706.	2.2	12

#	ARTICLE	IF	CITATIONS
37	Occupational health and safety management practices and musculoskeletal disorders in aged care. <i>Journal of Health Organization and Management</i> , 2017, 31, 331-346.	1.3	12
38	The APHIRM toolkit: an evidence-based system for workplace MSD risk management. <i>BMC Musculoskeletal Disorders</i> , 2019, 20, 504.	1.9	12
39	Are organisational factors affecting the emotional withdrawal of community nurses?. <i>Australian Health Review</i> , 2017, 41, 359.	1.1	11
40	A Robot Assisted Stress Management Framework: Using Conversation to Measure Occupational Stress. , 2018, , .		11
41	What Are the Key Workplace Influences on Pathways of Work Ability? A Six-Year Follow Up. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2363.	2.6	11
42	Recurrent pain and work disability: a record linkage study. <i>International Archives of Occupational and Environmental Health</i> , 2020, 93, 421-432.	2.3	11
43	Can organisational work-life policies improve work-life interaction? A scoping review. <i>Australian Psychologist</i> , 2020, 55, 425-439.	1.6	11
44	Development of normative data for hand strength and anthropometric dimensions in a population of automotive workers. <i>Work</i> , 2007, 28, 267-78.	1.1	11
45	Aging and the Future of Decent Work. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 8898.	2.6	10
46	Are occupational physical activities tailored to the age of cleaners and manufacturing workers?. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 185-193.	2.3	9
47	Tertiary education in ergonomics and human factors: quo vadis?. <i>Ergonomics</i> , 2020, 63, 243-252.	2.1	9
48	Objectively measured occupational physical activity in blue-collar workers: What is the role of job type, gender and psychosocial resources?. <i>Applied Ergonomics</i> , 2020, 82, 102948.	3.1	8
49	Work-related musculoskeletal and mental health disorders: Are workplace policies and practices based on contemporary evidence?. <i>Safety Science</i> , 2021, 138, 105098.	4.9	8
50	Low back and neck pain: objective and subjective measures of workplace psychosocial and physical hazards. <i>International Archives of Occupational and Environmental Health</i> , 2021, 94, 1637-1644.	2.3	8
51	Does work-life family conflict play a role in the relationship between work-related hazards and musculoskeletal pain?. <i>American Journal of Industrial Medicine</i> , 2021, 64, 781-791.	2.1	8
52	The relationship between workplace characteristics and work ability in residential aged care: What is the role of work-life interaction?. <i>Journal of Advanced Nursing</i> , 2019, 75, 1427-1438.	3.3	7
53	Exploring the experience of reablement: A systematic review and qualitative evidence synthesis of older people's and carers' views. <i>Health and Social Care in the Community</i> , 2022, 30, .	1.6	7
54	Musculoskeletal pain trajectories of employees working from home during the COVID-19 pandemic. <i>International Archives of Occupational and Environmental Health</i> , 2022, 95, 1891-1901.	2.3	7

#	ARTICLE	IF	CITATIONS
55	Effectiveness of health consumer representative involvement in implementation of interventions to change health professional behaviour. <i>International Journal for Quality in Health Care</i> , 2021, 33, .	1.8	6
56	The problem with "ergonomics injuries": What can ergonomists do?. <i>Applied Ergonomics</i> , 2022, 103, 103774.	3.1	6
57	Occupational Health and Safety in Australia. <i>Industrial Health</i> , 2012, 50, 172-179.	1.0	5
58	Workplace injuries in the Australian allied health workforce. <i>Australian Health Review</i> , 2019, 43, 49.	1.1	5
59	Influential factors for access to and participation in rehabilitation for people with lower limb amputation in East, South, and Southeast Asian developing countries: a scoping review. <i>Disability and Rehabilitation</i> , 2022, 44, 8094-8109.	1.8	5
60	A qualitative exploration of tools used by WHS professionals for the prevention of musculoskeletal disorders. <i>Safety Science</i> , 2022, 149, 105685.	4.9	5
61	Perceived Work Ability during Enforced Working from Home Due to the COVID-19 Pandemic among Finnish Higher Educational Staff. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 6230.	2.6	5
62	Physical and environmental hazards in the prosthetics and orthotics workshop: a pilot study. <i>Industrial Health</i> , 2017, 55, 285-292.	1.0	4
63	Using evidence to support the design of submarine control console workstations. <i>Applied Ergonomics</i> , 2019, 79, 54-65.	3.1	4
64	Oral health professionals: An exploration of the physical and psychosocial working environment. <i>Work</i> , 2020, 65, 789-797.	1.1	4
65	Do organisational and ward-level factors explain the variance in multi-site musculoskeletal pain in eldercare workers? A multi-level cross-sectional study. <i>International Archives of Occupational and Environmental Health</i> , 2020, 93, 891-898.	2.3	4
66	A STAMP analysis of the staff safety management system in residential Aged Care. <i>Safety Science</i> , 2022, 146, 105563.	4.9	3
67	Work-related musculoskeletal injuries in prosthetists and orthotists in Australia. <i>International Journal of Occupational Safety and Ergonomics</i> , 2021, 27, 708-713.	1.9	2
68	The Work Organisation Assessment Questionnaire: validation for use with community nurses and paramedics. <i>International Journal of Evidence-Based Healthcare</i> , 2020, 18, 222-230.	0.5	2
69	Staying at work with musculoskeletal pain: What supporting resources do people need?. <i>Musculoskeletal Care</i> , 2021, .	1.4	1
70	Beyond Coursework: Developing Communities in an Online Program of Study. <i>Journal of Information Technology Education: Innovations in Practice</i> , 0, 15, 167-179.	0.0	1
71	State of the Art: The Context of Psychosocial Factors at Work in the Asia Pacific?. , 2016, , 3-22.		1
72	Pain management in eldercare employees " the role of managers in addressing musculoskeletal pain and pain-related sickness absence. <i>BMC Public Health</i> , 2022, 22, 432.	2.9	1

#	ARTICLE	IF	CITATIONS
73	Psychosocial Hazards and Musculoskeletal Disorders: Are There Different Roles for Workplace Factors Between Office Workers in Malaysia and Australia?. , 2016, , 173-186.		0
74	Key Contributions and Future Research Directions. , 2016, , 361-369.		0
75	Work-related musculoskeletal pain in prosthetists and orthotists: a comparison between Australia and other countries. Prosthetics and Orthotics International, 2021, 45, 538-543.	1.0	0
76	Work-from-home physical ergonomics and trajectories of perceived work capacity among higher education employees due to the COVID-19 pandemic. Safety and Health at Work, 2022, 13, S184.	0.6	0
