#	ARTICLE	IF	CITATIONS
1	Pregnancy Outcomes of First Nations Women in Relation to Pregravid Weight and Pregnancy Weight Gain. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2005, 27, 936-944.	0.7	47
2	Twelve-month outcomes following midurethral sling procedures for stress incontinence: impact of obesity. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2015, 122, 1705-1712.	2.3	37
3	Transobturator tape versus retropubic tension-free vaginal tape for stress urinary incontinence: 5-year safety and effectiveness outcomes following a randomised trial. <i>International Urogynecology Journal</i> , 2016, 27, 879-886.	1.4	33
4	Five years after midurethral sling surgery for stress incontinence: obesity continues to have an impact on outcomes. <i>International Urogynecology Journal</i> , 2017, 28, 621-628.	1.4	23
5	Uterosacral vault suspension (USLS) at the time of hysterectomy: laparoscopic versus vaginal approach. <i>International Urogynecology Journal</i> , 2019, 30, 611-621.	1.4	22
6	Absorbable Mesh Augmentation Compared With No Mesh for Anterior Prolapse. <i>Obstetrics and Gynecology</i> , 2014, 123, 288-294.	2.4	20
7	Vaginal Laceration From a High-Pressure Water Jet in a Prepubescent Girl. <i>Pediatric Emergency Care</i> , 2007, 23, 112-114.	0.9	19
8	Evaluation of the Effect of Surgeon's Operative Volume and Specialty on Likelihood of Revision After Mesh Midurethral Sling Placement. <i>Obstetrics and Gynecology</i> , 2019, 133, 1099-1108.	2.4	17
9	Teaching Vaginal Surgery to Junior Residents: Initial Validation of 3 Novel Procedure-Specific Low-Fidelity Models. <i>Journal of Surgical Education</i> , 2016, 73, 157-161.	2.5	16
10	Early voiding dysfunction after midurethral sling surgery: comparison of two management approaches. <i>International Urogynecology Journal</i> , 2017, 28, 1515-1526.	1.4	16
11	Urinary leakage during exercise: problematic activities, adaptive behaviors, and interest in treatment for physically active Canadian women. <i>International Urogynecology Journal</i> , 2018, 29, 497-503.	1.4	14
12	Anchor placement and subsequent movement in a mesh kit with self-fixating tips: 6-month follow-up of a prospective cohort. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2014, 121, 634-640.	2.3	8
13	Surgical Simulation and Competency. <i>Obstetrics and Gynecology Clinics of North America</i> , 2016, 43, 575-590.	1.9	8
14	Disability is associated with sexually transmitted infection: Severity and female sex are important risk factors. <i>Canadian Journal of Human Sexuality</i> , 2022, 31, 91-102.	1.6	8
15	A randomized clinical trial of how to best position retropubic slings for stress urinary incontinence: Development of a study protocol for the mid-urethral sling tensioning (MUST) trial. <i>Contemporary Clinical Trials Communications</i> , 2016, 3, 60-64.	1.1	6
16	Comment on "A constricted midurethral sling needs loosening within 48-72 hours". <i>International Urogynecology Journal</i> , 2018, 29, 611-612.	1.4	6
17	Protocol for a prospective multisite cohort study investigating hysterectomy versus uterine preservation for pelvic organ prolapse surgery: the HUPPS study. <i>BMJ Open</i> , 2021, 11, e053679.	1.9	5
18	Association between chronic conditions and urinary incontinence in females: a cross-sectional study using national survey data. <i>CMAJ Open</i> , 2022, 10, E296-E303.	2.4	5

#	ARTICLE	IF	CITATIONS
19	“Broken” How Identities as Women, Mothers and Partners Are Intertwined with the Experience of Living with and Seeking Treatment for Pelvic Organ Prolapse. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 5179.	2.6	4
20	Two Intraoperative Techniques for Midurethral Sling Tensioning. <i>Obstetrics and Gynecology</i> , 2020, 136, 471-481.	2.4	3
21	Patients Seeking “Vaginoplasty” Deserve Assessment and Treatment by Experts in Female Pelvic Medicine and Reconstructive Surgery. <i>Aesthetic Surgery Journal</i> , 2021, 41, NP148-NP149.	1.6	3
22	Predictors of length of stay after urogynecological surgery at a tertiary referral center. <i>International Urogynecology Journal</i> , 2017, 28, 267-273.	1.4	2
23	Female Pelvic Medicine and Reconstructive Surgery challenges on behalf of the Collaborative Research in Pelvic Surgery Consortium: managing complicated cases. <i>International Urogynecology Journal</i> , 2020, 31, 1747-1754.	1.4	2
24	Pelvic Organ Prolapse Takes Up Space in the Bedroom: A Mixed Method Exploration of the Circular Sexual Response Cycle in Women With Pelvic Organ Prolapse. <i>Female Pelvic Medicine and Reconstructive Surgery</i> , 2022, 28, 315-320.	1.1	2
25	Reporting Race and Ethnicity In Research Presented at the Society of Gynecologic Surgeons' Annual Meeting. <i>Journal of Gynecologic Surgery</i> , 0, , .	0.1	2
26	Letter to the Editor regarding: “Treatment patterns and survival outcomes in patients with cervical cancer complicated by complete uterine prolapse: a systematic review of literature” <i>International Urogynecology Journal</i> , 2016, 27, 1283-1283.	1.4	1
27	A prospective study investigating the diagnostic agreement between urodynamics and dynamic cystoscopy in women presenting with mixed urinary incontinence. <i>International Urogynecology Journal</i> , 2019, 30, 823-829.	1.4	1
28	Prevalence of Hysterectomy by Self-Reported Disability Among Canadian Women: Findings from a National Cross-Sectional Survey. <i>Women S Health Reports</i> , 2021, 2, 557-565.	0.8	1
29	Does Size Matter? Opioid Use after Laparoscopy for Apical Pelvic Organ Prolapse Using an 8 mm versus 10”12 mm Accessory Port. <i>Journal of Minimally Invasive Gynecology</i> , 2022, 29, 528-534.	0.6	1
30	Authors' reply re: Twelve-month outcomes following midurethral sling procedures for stress incontinence: impact of obesity. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2016, 123, 1404-1404.	2.3	0
31	Re: Does body mass index influence the outcome of midurethral sling procedures for stress urinary incontinence?. <i>International Urogynecology Journal</i> , 2018, 29, 173-174.	1.4	0
32	Female Pelvic Medicine & Reconstructive Surgery (FPMRS) challenges on behalf of the collaborative research in pelvic surgery consortium (CoRPS): managing complicated cases series 2: management of urinary incontinence in a neurogenic patient. <i>International Urogynecology Journal</i> , 2019, 30, 193-196.	1.4	0
33	Letter: Canadian Society of Pelvic Medicine Response to the Collège des Médecins du Québec Rapport d'Enquête. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2021, 43, 298-299.	0.7	0
34	Authors' Reply. <i>Journal of Minimally Invasive Gynecology</i> , 2022, , .	0.6	0
35	Gender expression is associated with selection of uterine preservation or hysterectomy for pelvic organ prolapse surgery: Novel methodology for sex- and gender-based analysis in gynecologic research. <i>International Journal of Gynecology and Obstetrics</i> , 2022, , .	2.3	0
36	Development of symptomatic pelvic organ prolapse over 10 years of mid-life follow-up is affected by occupational lifting and/or pushing for parous women. <i>Maturitas</i> , 2022, 164, 9-14.	2.4	0
