#	ARTICLE	IF	CITATIONS
1	Modern Tendencies of the Use and Development of Drugs of Bacteriophages. Vestnik Rossiiskoi Akademii Meditsinskikh Nauk, 2021, 76, 351-360.	0.6	3
2	Superhydrophobic copper in biological liquids: Antibacterial activity and microbiologically induced or inhibited corrosion. Colloids and Surfaces B: Biointerfaces, 2020, 185, 110622.	5.0	38
3	Development of a Bacteriophage Complex with Superhydrophilic and Superhydrophobic Nanotextured Surfaces of Metals Preventing Healthcare-Associated Infections (HAI). Bulletin of Experimental Biology and Medicine, 2019, 167, 500-503.	0.8	2
4	Bactericidal Activity of Superhydrophobic and Superhydrophilic Copper in Bacterial Dispersions. Langmuir, 2019, 35, 2832-2841.	3.5	33
5	Characterization of myophage AM24 infecting Acinetobacter baumannii of the K9 capsular type. Archives of Virology, 2019, 164, 1493-1497.	2.1	18
6	Fibrin glue as a local drug-delivery system for bacteriophage PA5. Scientific Reports, 2019, 9, 2091.	3.3	39
7	Molecular-genetic biomarkers and pathogenetic predictors of complications of urinary tract infections in pregnant women. Voprosy Ginekologii, Akusherstva I Perinatologii, 2019, 18, 70-81.	0.3	0
8	Identification of Bordetella holmesii among the patients hospitalized with suspicion of pertussis and pertussis-like illnesses. Jurnal Infektologii, 2019, 11, 45-52.	0.3	0
9	Effective Antibacterial Nanotextured Surfaces Based on Extreme Wettability and Bacteriophage Seeding. ACS Applied Nano Materials, 2018, 1, 1348-1359.	5.0	44
10	Experimental Application of Organic-Inorganic Hybrid Coatings with Adsorbed Bacteriophages for Reducing the Risk of STEC Infections. Bulletin of Experimental Biology and Medicine, 2018, 165, 478-481.	0.8	1
11	THE ROLE OF INNATE IMMUNITY RECEPTORS (TLRs) IN MAINTAINING THE HOMEOSTASIS OF THE FEMALE GENITAL TRACT IN DEVELOPING PREGNANCY AND INTRAUTERINE INFECTION. Russian Journal of Infection and Immunity, 2018, 8, 251-262.	0.7	2
12	Potential of phage therapy in digestive diseases in children. Voprosy Prakticheskoi Pediatrii, 2018, 13, 82-90.	0.2	3
13	CONCEPT OF PERSONALIZED PHAGE THERAPY FOR INTENSIVE CARE UNIT PATIENTS WITH HEALTHCARE-ASSOCIATED INFECTIONS. Fundamental and Clinical Medicine, 2018, 3, 66-74.	0.3	9
14	The role of innate immunity receptors in infectious diseases and maintenance of organism homeostasis. Infektsionnye Bolezni, 2018, 16, 70-78.	0.4	1
15	The role of pathogens and innate immune factors in the pathogenesis of urogenital infection in pregnant women. Voprosy Ginekologii, Akusherstva I Perinatologii, 2018, 17, 77-88.	0.3	0
16	TLRs-dependence of infection by viruses of the Herpesviridae family in urogenital infection of pregnant women. Voprosy Ginekologii, Akusherstva I Perinatologii, 2018, 17, 33-40.	0.3	0
17	Anti-phage Φ antibody response in phage therapy against healthcare-associated infections (HAIs). Infektsionnye Bolezni, 2017, 15, 35-40.	0.4	12
18	Concept of individualized medicine based on personalized phage therapy for intensive care unit patients suffering from healthcare-associated infections. Infektsionnye Bolezni, 2017, 15, 49-54.	0.4	1

#	ARTICLE	IF	CITATIONS
19	Role of organism reactivity and mucosal immunity in modulating of pathogenicity and virulence of opportunistic microflora in dynamics of infectious process and also in macro- and microorganisms gene pools maintenance. <i>Infektsionnye Bolezni</i> , 2017, 15, 41-48.	0.4	1
20	TLR role in pathogenesis and diagnosis of urogenital infections in women. <i>Voprosy Ginekologii, Akusherstva i Perinatologii</i> , 2017, 16, 35-41.	0.3	2
21	The role of TLR and mucosal immunity factors in the pathogenesis and prevention of miscarriage in urogenital infection. <i>Infektsionnye Bolezni</i> , 2017, 15, 82-90.	0.4	1
22	Bacteriophages as probiotics: phage-based probiotic dietary supplement in prophylaxis against foodborne infections. <i>Infektsionnye Bolezni</i> , 2016, 14, 31-40.	0.4	5
23	Bacteriophages in therapy and prevention of acute intestinal infections in children. <i>Voprosy Prakticheskoi Pediatrii</i> , 2016, 2016, 52-56.	0.2	1
24	Identification of Phylogenetic Position in the Chlamydiaceae Family for Chlamydia Strains Released from Monkeys and Humans with Chlamydial Pathology. <i>Infectious Diseases in Obstetrics and Gynecology</i> , 2010, 2010, 1-11.	1.5	0
