#	ARTICLE	IF	CITATIONS
1	Exploring barriers to participation and adoption of telehealth and telecare within the Whole System Demonstrator trial: a qualitative study. BMC Health Services Research, 2012, 12, 220.	0.9	358
2	Reporting on quality of life in randomised controlled trials: bibliographic study. BMJ: British Medical Journal, 1998, 317, 1191-1194.	2.4	259
3	The significance and consequences of having painful and disabled joints in older age: co-existing accounts of normal and disrupted biographies. Sociology of Health and Illness, 2002, 24, 227-253.	1.1	209
4	Implementation of self management support for long term conditions in routine primary care settings: cluster randomised controlled trial. BMJ, The, 2013, 346, f2882-f2882.	3.0	195
5	Effect of telehealth on quality of life and psychological outcomes over 12 months (Whole Systems) Tj ETQq1 1 0.784314 rgBT /Overl... pragmatic, cluster randomised controlled trial. BMJ, The, 2013, 346, f653-f653.	3.0	191
6	Social networks, social capital and chronic illness self-management: a realist review. Chronic Illness, 2011, 7, 60-86.	0.6	167
7	Shifting priorities in multimorbidity: a longitudinal qualitative study of patient's prioritization of multiple conditions. Chronic Illness, 2011, 7, 147-161.	0.6	153
8	Qualitative Meta-Synthesis of User Experience of Computerised Therapy for Depression and Anxiety. PLoS ONE, 2014, 9, e84323.	1.1	148
9	Patient Perspectives on Sharing Anonymized Personal Health Data Using a Digital System for Dynamic Consent and Research Feedback: A Qualitative Study. Journal of Medical Internet Research, 2016, 18, e66.	2.1	139
10	Social Networks, the "Work" and Work Force of Chronic Illness Self-Management: A Survey Analysis of Personal Communities. PLoS ONE, 2013, 8, e59723.	1.1	132
11	Social networks, work and network-based resources for the management of long-term conditions: a framework and study protocol for developing self-care support. Implementation Science, 2011, 6, 56.	2.5	106
12	A comprehensive evaluation of the impact of telemonitoring in patients with long-term conditions and social care needs: protocol for the whole systems demonstrator cluster randomised trial. BMC Health Services Research, 2011, 11, 184.	0.9	105
13	An organisational analysis of the implementation of telecare and telehealth: the whole systems demonstrator. BMC Health Services Research, 2012, 12, 403.	0.9	104
14	Re-thinking the relationship between long-term condition self-management education and the utilisation of health services. Social Science and Medicine, 2007, 65, 934-945.	1.8	102
15	Dynamic Consent: A Possible Solution to Improve Patient Confidence and Trust in How Electronic Patient Records Are Used in Medical Research. JMIR Medical Informatics, 2015, 3, e3.	1.3	95
16	Using social media for support and feedback by mental health service users: thematic analysis of a twitter conversation. BMC Psychiatry, 2015, 15, 29.	1.1	92
17	Quantifying beliefs regarding telehealth: Development of the Whole Systems Demonstrator Service User Technology Acceptability Questionnaire. Journal of Telemedicine and Telecare, 2017, 23, 460-469.	1.4	91
18	Experiences of front-line health professionals in the delivery of telehealth: a qualitative study. British Journal of General Practice, 2014, 64, e401-e407.	0.7	84

#	ARTICLE	IF	CITATIONS
19	Unmet need for joint replacement: a qualitative investigation of barriers to treatment among individuals with severe pain and disability of the hip and knee. <i>British Journal of Rheumatology</i> , 2003, 43, 353-357.	2.5	82
20	The Contradictions of Telehealth User Experience in Chronic Obstructive Pulmonary Disease (COPD): A Qualitative Meta-Synthesis. <i>PLoS ONE</i> , 2015, 10, e0139561.	1.1	82
21	Providing "the bigger picture": benefits and feasibility of integrating remote monitoring from smartphones into the electronic health record. <i>Rheumatology</i> , 2020, 59, 367-378.	0.9	75
22	Professional status in a changing world: The case of medicines use reviews in English community pharmacy. <i>Social Science and Medicine</i> , 2010, 71, 451-458.	1.8	73
23	Parent-to-parent peer support for parents of children with a disability: A mixed method study. <i>Patient Education and Counseling</i> , 2017, 100, 1537-1543.	1.0	71
24	Blame the Patient, Blame the Doctor or Blame the System? A Meta-Synthesis of Qualitative Studies of Patient Safety in Primary Care. <i>PLoS ONE</i> , 2015, 10, e0128329.	1.1	69
25	Cloudy with a Chance of Pain: Engagement and Subsequent Attrition of Daily Data Entry in a Smartphone Pilot Study Tracking Weather, Disease Severity, and Physical Activity in Patients With Rheumatoid Arthritis. <i>JMIR MHealth and UHealth</i> , 2017, 5, e37.	1.8	60
26	The effect of telecare on the quality of life and psychological well-being of elderly recipients of social care over a 12-month period: the Whole Systems Demonstrator cluster randomised trial. <i>Age and Ageing</i> , 2014, 43, 334-341.	0.7	58
27	Personal recovery within forensic settings " Systematic review and meta-synthesis of qualitative methods studies. <i>Criminal Behaviour and Mental Health</i> , 2016, 26, 59-75.	0.4	53
28	Trust, temporality and systems: how do patients understand patient safety in primary care? A qualitative study. <i>Health Expectations</i> , 2016, 19, 253-263.	1.1	53
29	Hidden caring, hidden carers? Exploring the experience of carers for people with long-term conditions. <i>Health and Social Care in the Community</i> , 2016, 24, 203-213.	0.7	52
30	A cluster randomised controlled trial of the clinical and cost-effectiveness of a 'whole systems' model of self-management support for the management of long- term conditions in primary care: trial protocol. <i>Implementation Science</i> , 2012, 7, 7.	2.5	51
31	A core outcome set for clinical trials of chemoradiotherapy interventions for anal cancer (CORMAC): a patient and health-care professional consensus. <i>The Lancet Gastroenterology and Hepatology</i> , 2018, 3, 865-873.	3.7	51
32	How the weather affects the pain of citizen scientists using a smartphone app. <i>Npj Digital Medicine</i> , 2019, 2, 105.	5.7	49
33	Routes to total joint replacement surgery: Patients' and clinicians' perceptions of need. <i>Arthritis Care and Research</i> , 2010, 62, 1252-1257.	1.5	48
34	Issues arising following a referral and subsequent wait for extraction under general anaesthetic: impact on children. <i>BMC Oral Health</i> , 2015, 15, 3.	0.8	48
35	Engagement and Participant Experiences With Consumer Smartwatches for Health Research: Longitudinal, Observational Feasibility Study. <i>JMIR MHealth and UHealth</i> , 2020, 8, e14368.	1.8	43
36	Recruitment and Ongoing Engagement in a UK Smartphone Study Examining the Association Between Weather and Pain: Cohort Study. <i>JMIR MHealth and UHealth</i> , 2017, 5, e168.	1.8	41

#	ARTICLE	IF	CITATIONS
37	Planning for end of life care within lay-led chronic illness self-management training: The significance of "death awareness"™ and biographical context in participant accounts. <i>Social Science and Medicine</i> , 2008, 66, 982-993.	1.8	40
38	A narrative systematic review of factors affecting diabetes prevention in primary care settings. <i>PLoS ONE</i> , 2017, 12, e0177699.	1.1	39
39	Tea, talk and technology: patient and public involvement to improve connected health "wearables"™ research in dementia. <i>Research Involvement and Engagement</i> , 2017, 3, 12.	1.1	38
40	Empowering people to help speak up about safety in primary care: Using codesign to involve patients and professionals in developing new interventions for patients with multimorbidity. <i>Health Expectations</i> , 2018, 21, 539-548.	1.1	38
41	Patient safety in marginalised groups: a narrative scoping review. <i>International Journal for Equity in Health</i> , 2020, 19, 26.	1.5	38
42	Development of a peer education programme for advance end-of-life care planning. <i>International Journal of Palliative Nursing</i> , 2006, 12, 216-223.	0.2	37
43	Unstated factors in orthopaedic decision-making: a qualitative study. <i>BMC Musculoskeletal Disorders</i> , 2010, 11, 213.	0.8	36
44	Relationship continuity: when and why do primary care patients think it is safer?. <i>British Journal of General Practice</i> , 2014, 64, e758-e764.	0.7	36
45	Children's Independent Mobility and Physical Activity during the COVID-19 Pandemic: A Qualitative Study with Families. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4481.	1.2	36
46	Sensemaking and the co-production of safety: a qualitative study of primary medical care patients. <i>Sociology of Health and Illness</i> , 2016, 38, 270-285.	1.1	35
47	The influence of social factors on help-seeking for people with lung cancer. <i>European Journal of Cancer Care</i> , 2013, 22, 709-713.	0.7	34
48	Embedding shared decision-making in the care of patients with severe and enduring mental health problems: The EQUIP pragmatic cluster randomised trial. <i>PLoS ONE</i> , 2018, 13, e0201533.	1.1	33
49	Accessing support and empowerment online: The experiences of individuals with diabetes. <i>Health Expectations</i> , 2017, 20, 1088-1095.	1.1	32
50	Ethnic inequalities in COVID-19 vaccine uptake and comparison to seasonal influenza vaccine uptake in Greater Manchester, UK: A cohort study. <i>PLoS Medicine</i> , 2022, 19, e1003932.	3.9	30
51	Perceptions of recovery and prognosis from long-term conditions: The relevance of hope and imagined futures. <i>Chronic Illness</i> , 2015, 11, 3-20.	0.6	28
52	Is it time to abandon care planning in mental health services? A qualitative study exploring the views of professionals, service users and carers. <i>Health Expectations</i> , 2018, 21, 597-605.	1.1	28
53	Are some more equal than others? Social comparison in self-management skills training for long-term conditions. <i>Chronic Illness</i> , 2009, 5, 305-317.	0.6	27
54	"You get to know the people and whether they're talking sense or not": Negotiating trust on health-related forums. <i>Social Science and Medicine</i> , 2016, 162, 151-157.	1.8	27

#	ARTICLE	IF	CITATIONS
55	Changes to financial incentives in English dentistry 2006–2009: a qualitative study. <i>Community Dentistry and Oral Epidemiology</i> , 2012, 40, 468-473.	0.9	26
56	Social status and living with a chronic illness: An exploration of assessment and meaning attributed to work and employment. <i>Chronic Illness</i> , 2014, 10, 273-290.	0.6	26
57	A study of the provision of hospital based dental general anaesthetic services for children in the northwest of England: part 1 - a comparison of service delivery between six hospitals. <i>BMC Oral Health</i> , 2015, 15, 50.	0.8	25
58	Smartphone-Enhanced Symptom Management In Psychosis: Open, Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e17019.	2.1	25
59	“Always Vet Things”: Navigating Privacy and the Presentation of Self on Health Discussion Boards Among Individuals with Long-Term Conditions. <i>Journal of Medical Internet Research</i> , 2016, 18, e274.	2.1	25
60	The role of information in supporting self-care in vascular conditions: a conceptual and empirical review. <i>Health and Social Care in the Community</i> , 2011, 19, 449-459.	0.7	24
61	Evolving “self” management: exploring the role of social network typologies on individual long-term condition management. <i>Health Expectations</i> , 2016, 19, 1044-1061.	1.1	24
62	Core outcome research measures in anal cancer (CORMAC): protocol for systematic review, qualitative interviews and Delphi survey to develop a core outcome set in anal cancer. <i>BMJ Open</i> , 2017, 7, e018726.	0.8	24
63	Threats to patient safety in primary care reported by older people with multimorbidity: baseline findings from a longitudinal qualitative study and implications for intervention. <i>BMC Health Services Research</i> , 2017, 17, 754.	0.9	24
64	What influences withdrawal because of rejection of telehealth “the whole systems demonstrator evaluation. <i>Journal of Assistive Technologies</i> , 2013, 7, 219-227.	0.9	20
65	A cluster randomised controlled trial and process evaluation of a training programme for mental health professionals to enhance user involvement in care planning in service users with severe mental health issues (EQUIP): study protocol for a randomised controlled trial. <i>Trials</i> , 2015, 16, 348.	0.7	20
66	Re-inventing care planning in mental health: stakeholder accounts of the imagined implementation of a user/carer involved intervention. <i>BMC Health Services Research</i> , 2015, 15, 490.	0.9	20
67	A dynamic model of patient consent to sharing of medical record data. <i>BMJ, The</i> , 2014, 348, g1294-g1294.	3.0	19
68	Managing “difficult emotions” and family life: exploring insights and social support within online self-management training. <i>Chronic Illness</i> , 2011, 7, 134-146.	0.6	18
69	Collecting Symptoms and Sensor Data With Consumer Smartwatches (the Knee OsteoArthritis, Linking) Tj ETQq1 1 0.784314 rgBT /Ov Protocols, 2019, 8, e10238.	0.5	18
70	Exploring the experiences of changes to support access to primary health care services and the impact on the quality and safety of care for homeless people during the COVID-19 pandemic: a study protocol for a qualitative mixed methods approach. <i>International Journal for Equity in Health</i> , 2021, 20, 29.	1.5	17
71	Personal recovery in personality disorder: Systematic review and meta-synthesis of qualitative methods studies. <i>International Journal of Social Psychiatry</i> , 2016, 62, 41-50.	1.6	16
72	“On the borderline of diabetes”: understanding how individuals resist and reframe diabetes risk. <i>Health, Risk and Society</i> , 2021, 23, 34-51.	0.9	16

#	ARTICLE	IF	CITATIONS
73	Remote primary care during the COVID-19 pandemic for people experiencing homelessness: a qualitative study. <i>British Journal of General Practice</i> , 2022, 72, e492-e500.	0.7	16
74	A study of the provision of hospital based dental General Anaesthetic services for children in the North West of England: Part 2 - the views and experience of families and dentists regarding service needs, treatment and prevention. <i>BMC Oral Health</i> , 2015, 15, 47.	0.8	14
75	Dementia and mild cognitive impairment in prisoners aged over 50 years in England and Wales: a mixed-methods study. <i>Health Services and Delivery Research</i> , 2020, 8, 1-116.	1.4	14
76	“You don't get told anything, they don't do anything and nothing changes”™. Medicine as a resource and constraint in progressive ataxia. <i>Health Expectations</i> , 2015, 18, 177-187.	1.1	13
77	A case of tightrope walking. <i>International Journal of Workplace Health Management</i> , 2016, 9, 238-250.	0.8	13
78	Understanding the diagnosis of pre-diabetes in patients aged over 85 in English primary care: a qualitative study. <i>BMC Family Practice</i> , 2019, 20, 90.	2.9	12
79	Trouble with ataxia: A longitudinal qualitative study of the diagnosis and medical management of a group of rare, progressive neurological conditions. <i>SAGE Open Medicine</i> , 2013, 1, 205031211350556.	0.7	11
80	Seeking to understand lived experiences of personal recovery in personality disorder in community and forensic settings – a qualitative methods investigation. <i>BMC Psychiatry</i> , 2017, 17, 282.	1.1	11
81	Implementing a digital patient feedback system: an analysis using normalisation process theory. <i>BMC Health Services Research</i> , 2020, 20, 387.	0.9	11
82	Bodies in Context: Potential Avenues of Inquiry for the Sociology of Chronic Illness and Disability Within a New Policy Era. <i>Handbooks of Sociology and Social Research</i> , 2011, , 483-504.	0.1	11
83	An evaluation of a referral management and triage system for oral surgery referrals from primary care dentists: a mixed-methods study. <i>Health Services and Delivery Research</i> , 2018, 6, 1-126.	1.4	11
84	Evaluating a peer education programme for advance end-of-life care planning for older adults: The peer educators' perspective. <i>International Journal on Disability and Human Development</i> , 2009, 8, .	0.2	10
85	Getting a diagnosis v. learning to live with it? The case of the progressive ataxias. <i>Chronic Illness</i> , 2011, 7, 120-133.	0.6	10
86	Enacting person-centredness in integrated care: A qualitative study of practice and perspectives within multidisciplinary groups in the care of older people. <i>Health Expectations</i> , 2018, 21, 1066-1074.	1.1	10
87	The mediation of social influences on smoking cessation and awareness of the early signs of lung cancer. <i>BMC Public Health</i> , 2014, 14, 1043.	1.2	9
88	Evaluating a telehealth intervention for urinalysis monitoring in children with neurogenic bladder. <i>Journal of Child Health Care</i> , 2019, 23, 45-62.	0.7	9
89	Improving care for older people with long-term conditions and social care needs in Salford: the CLASSIC mixed-methods study, including RCT. <i>Health Services and Delivery Research</i> , 2018, 6, 1-188.	1.4	9
90	Theorising inequalities in the experience and management of chronic illness: Bringing social networks and social capital back in (critically). <i>Research in the Sociology of Health Care</i> , 2007, , 15-42.	0.1	8

#	ARTICLE	IF	CITATIONS
91	â€œKnowing the Places of Careâ€: How Nurses Facilitate Transition of Children with Complex Health Care Needs from Hospital to Home. <i>Comprehensive Child and Adolescent Nursing</i> , 2016, 39, 139-153.	0.4	8
92	Public Perspectives of Using Social Media Data to Improve Adverse Drug Reaction Reporting: A Mixed-Methods Study. <i>Drug Safety</i> , 2021, 44, 553-564.	1.4	8
93	Training to enhance user and carer involvement in mental health-care planning: the EQUIP research programme including a cluster RCT. <i>Programme Grants for Applied Research</i> , 2019, 7, 1-140.	0.4	8
94	Creating 'good' self-managers?: Facilitating and governing an online self care skills training course. <i>BMC Health Services Research</i> , 2009, 9, 93.	0.9	7
95	Experience of contractual change in UK general practice: a qualitative study of salaried GPs. <i>British Journal of General Practice</i> , 2012, 62, e282-e287.	0.7	7
96	How potentially serious symptom changes are talked about and managed in COPD clinical review consultations: A micro-analysis. <i>Social Science and Medicine</i> , 2014, 113, 120-136.	1.8	7
97	Implementing and evaluating a primary care service for oral surgery: a case study. <i>BMC Health Services Research</i> , 2018, 18, 636.	0.9	7
98	Connecting local support: A qualitative study exploring the role of voluntary organisations in long-term condition management. <i>Chronic Illness</i> , 2015, 11, 140-155.	0.6	5
99	Exploring implementation of an electronic referral management system and enhanced primary care service for oral surgery: perspectives of patients, providers and practitioners. <i>BMC Health Services Research</i> , 2018, 18, 646.	0.9	5
100	Critical moments in long-term condition management: A longitudinal qualitative social network study. <i>Chronic Illness</i> , 2018, 14, 119-134.	0.6	5
101	Exploring engagement with digital screens for collecting patient feedback in clinical waiting rooms: The role of touch and place. <i>Health (United Kingdom)</i> , 2021, 25, 454-474.	0.9	5
102	Co-designing new tools for collecting, analysing and presenting patient experience data in NHS services: working in partnership with patients and carers. <i>Research Involvement and Engagement</i> , 2021, 7, 85.	1.1	5
103	Primary Care Providers Involvement in Caring for Young Adults with Complex Chronic Conditions Exiting Pediatric Care: An Integrative Literature Review. <i>Comprehensive Child and Adolescent Nursing</i> , 2023, 46, 201-222.	0.4	4
104	The perceptions of general practice among Central and Eastern Europeans in the United Kingdom: A systematic scoping review. <i>Health Expectations</i> , 2022, , .	1.1	4
105	Lifespan healthcare transitions among individuals with intersex traits in Canada: a mixed-methods and qualitative study. <i>BMJ Open</i> , 2022, 12, e055759.	0.8	4
106	A Constellation of Misfortune. <i>SAGE Open</i> , 2014, 4, 215824401455804.	0.8	3
107	A review of menstrual sex education and management in women with congenital adrenal hyperplasia. <i>Sex Education</i> , 0, , 1-17.	1.5	3
108	Digital methods to enhance the usefulness of patient experience data in services for long-term conditions: the DEPEND mixed-methods study. <i>Health Services and Delivery Research</i> , 2020, 8, 1-128.	1.4	3
