#	Paper	IF	Citations
72	Is a pandemic as good as a rest? Comparing athlete burnout and stress before and after the suspension of organised team sport due to Covid-19 restrictions, and investigating the impact of athletes' responses to this period.. <i>Psychology of Sport and Exercise</i> , 2022 , 60, 102168	4.2	1
71	Development of an Internet of Things Technology Platform (the NEX System) to Support Older Adults to Live Independently: Protocol for a Development and Usability Study.. <i>JMIR Research Protocols</i> , 2022 , 11, e35277	2	0
70	Unmet supportive care needs associated with quality of life for people with lung cancer: A systematic review of the evidence 2007-2020. <i>European Journal of Cancer Care</i> , 2021 , e13525	2.4	1
69	"You just need to learn": A qualitative study on the information needs of family caregivers of people with lung cancer. <i>European Journal of Oncology Nursing</i> , 2021 , 56, 102082	2.8	0
68	Negative emotions and cancer fatalism are independently associated with uptake of Faecal Immunochemical Test-based colorectal cancer screening: Results from a population-based study. <i>Preventive Medicine</i> , 2021 , 145, 106430	4.3	4
67	Variables associated with distress amongst informal caregivers of people with lung cancer: A systematic review of the literature. <i>Psycho-Oncology</i> , 2021 , 30, 1246-1261	3.9	8
66	The impact of assistive technology use for students with disabilities in higher education: a systematic review. <i>Disability and Rehabilitation: Assistive Technology</i> , 2021 , 16, 130-143	1.8	24
65	Health literacy impacts self-management, quality of life and fear of recurrence in head and neck cancer survivors. <i>Journal of Cancer Survivorship</i> , 2021 , 15, 855-865	5.1	5
64	Risk and Protective Factors for Social Anxiety Among Sexual Minority Individuals. <i>Archives of Sexual Behavior</i> , 2021 , 50, 1015-1032	3.5	3
63	Assistive technologies, educational engagement and psychosocial outcomes among students with disabilities in higher education. <i>Disability and Rehabilitation: Assistive Technology</i> , 2020 , 1-9	1.8	1
62	The role of healthcare professionals in HPV communication with head and neck cancer patients: A narrative synthesis of qualitative studies. <i>European Journal of Cancer Care</i> , 2020 , 29, e13241	2.4	0
61	Probability of major depression diagnostic classification based on the SCID, CIDI and MINI diagnostic interviews controlling for Hospital Anxiety and Depression Scale - Depression subscale scores: An individual participant data meta-analysis of 73 primary studies. <i>Journal of Psychosomatic Research</i> , 2020 , 129, 109892	4.1	22
60	Depression prevalence using the HADS-D compared to SCID major depression classification: An individual participant data meta-analysis. <i>Journal of Psychosomatic Research</i> , 2020 , 139, 110256	4.1	4
59	Reflections and future directions for psychological science in. <i>Prosthetics and Orthotics International</i> , 2020 , 44, 402-407	1.5	
58	Ways Ahead: developing a supported self-management programme for people living with low- and intermediate-grade gliomas - a protocol for a multi-method study. <i>BMJ Open</i> , 2020 , 10, e041465	3	0
57	Investigating the impact of self-management behaviours on quality of life and fear of recurrence in head and neck cancer survivors: A population-based survey. <i>Psycho-Oncology</i> , 2019 , 28, 742-749	3.9	8
56	Integrating self-management into daily life following primary treatment: head and neck cancer survivors' perspectives. <i>Journal of Cancer Survivorship</i> , 2019 , 13, 43-55	5.1	6

55	Perceptions and experiences of diabetic foot ulceration and foot care in people with diabetes: A qualitative meta-synthesis. <i>International Wound Journal</i> , 2019 , 16, 183-210	2.6	25
54	Comprehensive Neuropsychological Assessment of Cognitive Functioning of Adults With Lower Limb Amputation in Rehabilitation. <i>Archives of Physical Medicine and Rehabilitation</i> , 2019 , 100, 278-288.e2	2.8	4
53	Staying "just normal": preservation strategies in prosthesis use. <i>Disability and Rehabilitation: Assistive Technology</i> , 2019 , 14, 379-385	1.8	
52	Development and psychometric evaluation of the youth and parent versions of the Epilepsy Disclosure Scale (EDS). <i>Epilepsy and Behavior</i> , 2018 , 82, 111-118	3.2	1
51	Being "just normal": a grounded theory of prosthesis use. <i>Disability and Rehabilitation</i> , 2018 , 40, 1754-1763	2.3	4
50	Barriers to active self-management following treatment for head and neck cancer: Survivors'U perspectives. <i>Psycho-Oncology</i> , 2018 , 27, 2382-2388	3.9	10
49	Work Outcomes in Patients Who Stay at Work Despite Musculoskeletal Pain. <i>Journal of Occupational Rehabilitation</i> , 2018 , 28, 559-567	3.6	14
48	Socio-economic variations in anticipated adverse reactions to testing HPV positive: Implications for the introduction of primary HPV-based cervical screening. <i>Preventive Medicine</i> , 2018 , 115, 90-96	4.3	9
47	Assistive technology and people: a position paper from the first global research, innovation and education on assistive technology (GREAT) summit. <i>Disability and Rehabilitation: Assistive Technology</i> , 2018 , 13, 437-444	1.8	58
46	Parent perspectives of the challenging aspects of disclosing a child's epilepsy diagnosis to others: Why don't they tell?. <i>Chronic Illness</i> , 2017 , 13, 28-48	1.4	12
45	Psychological variables associated with quality of life following primary treatment for head and neck cancer: a systematic review of the literature from 2004 to 2015. <i>Psycho-Oncology</i> , 2017 , 26, 149-160	3.9	58
44	Self-management strategies used by head and neck cancer survivors following completion of primary treatment: A directed content analysis. <i>Psycho-Oncology</i> , 2017 , 26, 2194-2200	3.9	14
43	Early interventions to promote work participation in people with regional musculoskeletal pain: a systematic review and meta-analysis. <i>Clinical Rehabilitation</i> , 2017 , 31, 1466-1481	3.3	10
42	The stigma experiences and perceptions of families living with epilepsy: Implications for epilepsy-related communication within and external to the family unit. <i>Patient Education and Counseling</i> , 2016 , 99, 1473-81	3.1	29
41	Exploring women's sensory experiences of undergoing colposcopy and related procedures: implications for preparatory sensory information provision. <i>Journal of Psychosomatic Obstetrics and Gynaecology</i> , 2016 , 37, 137-146	3.6	2
40	Impact of gender on decisions to participate in faecal immunochemical test-based colorectal cancer screening: a qualitative study. <i>Psycho-Oncology</i> , 2016 , 25, 1456-1462	3.9	15
39	Talking about epilepsy: Challenges parents face when communicating with their child about epilepsy and epilepsy-related issues. <i>Epilepsy and Behavior</i> , 2016 , 57, 9-15	3.2	11
38	Trends in, and predictors of, anxiety and specific worries following colposcopy: a 12-month longitudinal study. <i>Psycho-Oncology</i> , 2016 , 25, 597-604	3.9	11

37	Cancer survivors' perspectives on adjustment-focused self-management interventions: a qualitative meta-synthesis. <i>Journal of Cancer Survivorship</i> , 2016 , 10, 1012-1034	5.1	26
36	"I don't want them to look at me and think of my illness, I just want them to look at me and see me": Child perspectives on the challenges associated with disclosing an epilepsy diagnosis to others. <i>Epilepsy and Behavior</i> , 2015 , 53, 83-91	3.2	25
35	Understanding Women's Differing Experiences of Distress after Colposcopy: A Qualitative Interview Study. <i>Women's Health Issues</i> , 2015 , 25, 528-34	2.6	10
34	Beyond function: Using assistive technologies following lower limb loss. <i>Journal of Rehabilitation Medicine</i> , 2015 , 47, 561-8	3.4	14
33	Goal pursuit and goal adjustment as predictors of disability and quality of life among individuals with a lower limb amputation: a prospective study. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014 , 95, 244-52	2.8	33
32	Goal management tendencies predict trajectories of adjustment to lower limb amputation up to 15 months post rehabilitation discharge. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014 , 95, 1895-902	2.8	17
31	Quality of life in urban and rural settings: a study of head and neck cancer survivors. <i>Oral Oncology</i> , 2014 , 50, 676-82	4.4	18
30	A prospective study of the importance of life goal characteristics and goal adjustment capacities in longer term psychosocial adjustment to lower limb amputation. <i>Clinical Rehabilitation</i> , 2014 , 28, 196-205	3.3	11
29	"If I can do it I will do it, if I can't, I can't": a study of adaptive self-regulatory strategies following lower limb amputation. <i>Disability and Rehabilitation</i> , 2014 , 36, 1990-7	2.4	22
28	Goal pursuit, goal adjustment, and affective well-being following lower limb amputation. <i>British Journal of Health Psychology</i> , 2014 , 19, 409-24	8.3	27
27	Identifying successful outcomes and important factors to consider in upper limb amputation rehabilitation: an international web-based Delphi survey. <i>Disability and Rehabilitation</i> , 2013 , 35, 1726-33	2.4	20
26	The Paralympic athlete: a systematic review of the psychosocial literature. <i>Prosthetics and Orthotics International</i> , 2012 , 36, 278-89	1.5	27
25	Cognitive functioning in persons with lower limb amputations: a review. <i>Disability and Rehabilitation</i> , 2012 , 34, 1950-64	2.4	36
24	Limb Amputation 2012 ,		3
23	Embodiment and Appearance 2012 ,		1
22	Sensitivity and specificity of the Distress Thermometer and a two-item depression screen (Patient Health Questionnaire-2) with a help question for psychological distress and psychiatric morbidity in patients with advanced cancer. <i>Psycho-Oncology</i> , 2012 , 21, 1275-84	3.9	50
21	Developing consensus on important factors associated with lower limb prosthetic prescription and use. <i>Disability and Rehabilitation</i> , 2012 , 34, 2085-94	2.4	51
20	Understanding the benefits of prosthetic prescription: exploring the experiences of practitioners and lower limb prosthetic users. <i>Disability and Rehabilitation</i> , 2011 , 33, 1314-23	2.4	58

19	Environmental barriers, activity limitations and participation restrictions experienced by people with major limb amputation. <i>Prosthetics and Orthotics International</i> , 2011 , 35, 278-84	1.5	50
18	Trinity amputation and prosthesis experience scales: a psychometric assessment using classical test theory and rasch analysis. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2010 , 89, 487-96	2.6	56
17	Identifying the values and preferences of prosthetic users: a case study series using the repertory grid technique. <i>Prosthetics and Orthotics International</i> , 2009 , 33, 157-66	1.5	29
16	Barriers, activities and participation: Incorporating ICF into service planning datasets. <i>Disability and Rehabilitation</i> , 2009 , 31, 2073-2080	2.4	4
15	Pain and psychosocial adjustment to lower limb amputation amongst prosthesis users. <i>Prosthetics and Orthotics International</i> , 2008 , 32, 244-52	1.5	28
14	Psychological Fit of a Prosthetic Arm: An Illustrative Case Study Using Repertory Grid Analysis with a User of a High-Tech Upper Limb Prosthesis 2008 , 155-161		2
13	Psychoprosthetics: An Introduction 2008 , 1-10		2
12	Coping and Psychosocial Adjustment to Amputation 2008 , 11-21		4
11	Measuring quality of life in prosthetic practice: benefits and challenges. <i>Prosthetics and Orthotics International</i> , 2007 , 31, 167-76	1.5	22
10	Body image in people with lower-limb amputation: a Rasch analysis of the Amputee Body Image Scale. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2007 , 86, 205-15	2.6	39
9	Levels of ability and functioning: using the WHODAS II in an Irish context. <i>Disability and Rehabilitation</i> , 2004 , 26, 506-17	2.4	22
8	The Trinity Amputation and Prosthesis Experience Scales and quality of life in people with lower-limb amputation. <i>Archives of Physical Medicine and Rehabilitation</i> , 2004 , 85, 730-6	2.8	90
7	Imagining the body 2004 , 3-20		3
6	Thinking through enabling technologies: guidelines for development and implementation 2004 , 259-264		1
5	Evaluating a written emotional disclosure homework intervention for lower-limb amputees. <i>Archives of Physical Medicine and Rehabilitation</i> , 2002 , 83, 1464-6	2.8	13
4	Adjustment to an artificial limb: a qualitative perspective. <i>Journal of Health Psychology</i> , 2001 , 6, 85-100	3.1	120
3	Development and psychometric evaluation of the Trinity Amputation and Prosthesis Experience Scales (TAPES).. <i>Rehabilitation Psychology</i> , 2000 , 45, 130-154	2.7	121
2	Psychological adjustment and coping in adults with prosthetic limbs. <i>Behavioral Medicine</i> , 1999 , 25, 117-244		50

1 Social Anxiety Among Sexual Minority Individuals: A Systematic Review. *Psychology and Sexuality*, 1-45 1.3 3
