#	ARTICLE	IF	CITATIONS
1	Dental Attendances to General Medical Practitioners in Wales: A 44 Year-Analysis. <i>Journal of Dental Research</i> , 2022, 101, 407-413.	2.5	5
2	The effects of radiofrequency exposure on male fertility and adverse reproductive outcomes: A protocol for two systematic reviews of human observational studies with meta-analysis. <i>Environment International</i> , 2022, 158, 106968.	4.8	5
3	The effects of different parenteral nutrition lipid formulations on clinical and laboratory endpoints in patients receiving home parenteral nutrition: A systematic review. <i>Clinical Nutrition</i> , 2022, 41, 80-90.	2.3	6
4	Activity interference in patients with Sjögren's syndrome: a cross-sectional study of 149 patients in the UK. <i>Rheumatology</i> , 2022, 61, 4065-4075.	0.9	2
5	Urgent dental care use in the North East and Cumbria: predicting repeat attendance. <i>British Dental Journal</i> , 2022, 232, 164-171.	0.3	5
6	Real-World Visual and Neovascularisation Outcomes from anti-VEGF in Central Retinal Vein Occlusion. <i>Ophthalmic Epidemiology</i> , 2021, 28, 70-76.	0.8	10
7	The Biological and Social Determinants of Childhood Obesity: Comparison of 2 Cohorts 50 Years Apart. <i>Journal of Pediatrics</i> , 2021, 228, 138-146.e5.	0.9	4
8	Childhood DNA methylation as a marker of early life rapid weight gain and subsequent overweight. <i>Clinical Epigenetics</i> , 2021, 13, 8.	1.8	11
9	Early diet in preterm infants and later cognition: 10-year follow-up of a randomized controlled trial. <i>Pediatric Research</i> , 2021, 89, 1442-1446.	1.1	12
10	Moderate-To-Vigorous Intensity Physical Activity and Sedentary Behaviour across Childhood and Adolescence, and Their Combined Relationship with Obesity Risk: A Multi-Trajectory Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7421.	1.2	4
11	Osteoporosis, fracture, osteoarthritis & sarcopenia: A systematic review of circulating microRNA association. <i>Bone</i> , 2021, 152, 116068.	1.4	25
12	Ranibizumab and aflibercept intravitreal injection for treatment naïve and refractory macular oedema in branch retinal vein occlusion. <i>European Journal of Ophthalmology</i> , 2021, 31, 548-555.	0.7	4
13	Local Inequalities in Health Behaviours: Longitudinal Findings from the Stockton-On-Tees Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 11018.	1.2	0
14	Predictive factors of in-hospital mortality in patients with laboratory-confirmed <i>Escherichia coli</i> , <i>Klebsiella</i> species or <i>Pseudomonas aeruginosa</i> bloodstream infections. <i>PLoS ONE</i> , 2021, 16, e0259305.	1.1	1
15	Failure to Launch: Predictors of Unfavourable Physical Activity and Sedentary Behaviour Trajectories from Childhood to Adolescence: The Gateshead Millennium Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 13283.	1.2	3
16	Objectively-measured sedentary time, habitual physical activity and bone strength in adults aged 62 years: the Newcastle Thousand Families Study. <i>Journal of Public Health</i> , 2020, 42, 325-332.	1.0	11
17	Communication disorders in young children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2020, 62, 1161-1169.	1.1	18
18	Global prevalence estimates of three chronic musculoskeletal conditions: club foot, juvenile idiopathic arthritis and juvenile systemic lupus erythematosus. <i>Pediatric Rheumatology</i> , 2020, 18, 49.	0.9	34

#	ARTICLE	IF	CITATIONS
19	Differentiated thyroid cancer mortality by disease stage in northern England. <i>Clinical Endocrinology</i> , 2020, 93, 61-66.	1.2	2
20	The HARMONIC project: Study design for assessment of cancer risks following cardiac fluoroscopy in childhood. <i>Journal of Radiological Protection</i> , 2020, , .	0.6	6
21	Facilitating transition of young people with long-term health conditions from children's to adults' healthcare services – implications of a 5-year research programme. <i>Clinical Medicine</i> , 2020, 20, 74-80.	0.8	31
22	Non-linear longitudinal associations between moderate-to-vigorous physical activity and adiposity across the adiposity distribution during childhood and adolescence: Gateshead Millennium Study. <i>International Journal of Obesity</i> , 2019, 43, 744-750.	1.6	19
23	Radiation dose to the lens from CT of the head in young people. <i>Clinical Radiology</i> , 2019, 74, 816.e9-816.e17.	0.5	15
24	Patterns and trends in outpatient diagnostic imaging studies of the Brazilian public healthcare system, 2002–2014. <i>Health Policy and Technology</i> , 2019, 8, 254-260.	1.3	2
25	Health-Related Quality of Life and Emotional Health in X-Linked Carriers of Chronic Granulomatous Disease in the United Kingdom. <i>Journal of Clinical Immunology</i> , 2019, 39, 195-199.	2.0	9
26	Gram-negative bloodstream infections and sepsis: risk factors, screening tools and surveillance. <i>British Medical Bulletin</i> , 2019, 132, 5-15.	2.7	8
27	Obesity, bone density relative to body weight and prevalent vertebral fracture at age 62 years: the Newcastle thousand families study. <i>Osteoporosis International</i> , 2019, 30, 829-836.	1.3	24
28	Birth weight and adolescent blood pressure measured at age 12 years in the Gateshead Millennium Study. <i>Journal of Developmental Origins of Health and Disease</i> , 2019, 10, 621-626.	0.7	1
29	ORGAN DOSE ESTIMATION ACCOUNTING FOR UNCERTAINTY FOR PEDIATRIC AND YOUNG ADULT CT SCANS IN THE UNITED KINGDOM. <i>Radiation Protection Dosimetry</i> , 2019, 184, 44-53.	0.4	9
30	Cohort Profile: the EPI-CT study: a European pooled epidemiological study to quantify the risk of radiation-induced cancer from paediatric CT. <i>International Journal of Epidemiology</i> , 2019, 48, 379-381g.	0.9	49
31	Tuberculosis and diabetes: bidirectional association in a UK primary care data set. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 142-147.	2.0	17
32	Longitudinal changes in vigorous intensity physical activity from childhood to adolescence: Gateshead Millennium Study. <i>Journal of Science and Medicine in Sport</i> , 2019, 22, 450-455.	0.6	16
33	Facilitating the transition of young people with long-term conditions through health services from childhood to adulthood: the Transition research programme. <i>Programme Grants for Applied Research</i> , 2019, 7, 1-244.	0.4	21
34	The impact of iodinated contrast media on intravascular and extravascular absorbed doses in X-ray imaging: A microdosimetric analysis. <i>Physica Medica</i> , 2018, 46, 140-147.	0.4	9
35	Suggestion of reduced cancer risks following cardiac x-ray exposures is unconvincing. <i>European Journal of Epidemiology</i> , 2018, 33, 427-428.	2.5	2
36	Trends in mammography use in the Brazilian public healthcare system. <i>Journal of Cancer Policy</i> , 2018, 16, 43-48.	0.6	6

#	ARTICLE	IF	CITATIONS
37	Cancer incidence among children and young adults who have undergone x-ray guided cardiac catheterization procedures. <i>European Journal of Epidemiology</i> , 2018, 33, 393-401.	2.5	26
38	Timing of the decline in physical activity in childhood and adolescence: Gateshead Millennium Cohort Study. <i>British Journal of Sports Medicine</i> , 2018, 52, 1002-1006.	3.1	255
39	Treosulfan and Fludarabine Conditioning for Hematopoietic Stem Cell Transplantation in Children with Primary Immunodeficiency: UK Experience. <i>Biology of Blood and Marrow Transplantation</i> , 2018, 24, 529-536.	2.0	75
40	Development of the MapMe intervention body image scales of known weight status for 4-5 and 10-11 year old children. <i>Journal of Public Health</i> , 2018, 40, 582-590.	1.0	11
41	Bidirectional Associations Between Adiposity, Sedentary Behavior, and Physical Activity: A Longitudinal Study in Children. <i>Journal of Physical Activity and Health</i> , 2018, 15, 918-926.	1.0	15
42	Social determinants of emotional well-being in new refugees in the UK. <i>Public Health</i> , 2018, 164, 72-81.	1.4	31
43	A longitudinal, observational study examining the relationships of patient satisfaction with services and mental well-being to their clinical course in young people with Type 1 diabetes mellitus during transition from child to adult health services. <i>Diabetic Medicine</i> , 2018, 35, 1216-1222.	1.2	8
44	A longitudinal, observational study of the features of transitional healthcare associated with better outcomes for young people with long-term conditions. <i>BMC Medicine</i> , 2018, 16, 111.	2.3	91
45	Leukaemia and myeloid malignancy among people exposed to low doses (<100 mSv) of ionising radiation during childhood: a pooled analysis of nine historical cohort studies. <i>Lancet Haematology</i> , 2018, 5, e346-e358.	2.2	103
46	Quality of life at the retirement transition: Life course pathways in an early "baby boom" birth cohort. <i>Social Science and Medicine</i> , 2018, 207, 11-18.	1.8	16
47	Long-Term Health Outcome and Quality of Life Post-HSCT for IL7R±, Artemis-, RAG1- and RAG2-Deficient Severe Combined Immunodeficiency: a Single Center Report. <i>Journal of Clinical Immunology</i> , 2018, 38, 727-732.	2.0	32
48	No Association between Radiation Dose from Pediatric CT Scans and Risk of Subsequent Hodgkin Lymphoma. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2017, 26, 804-806.	1.1	19
49	Long-term outcome of hematopoietic stem cell transplantation for IL2RG/JAK3 SCID: a cohort report. <i>Blood</i> , 2017, 129, 2198-2201.	0.6	54
50	Survival adjusted cancer risks attributable to radiation exposure from cardiac catheterisations in children. <i>Heart</i> , 2017, 103, 341-346.	1.2	33
51	Total and Visceral Adiposity Are Associated With Prevalent Vertebral Fracture in Women but Not Men at Age 62 Years: The Newcastle Thousand Families Study. <i>Journal of Bone and Mineral Research</i> , 2017, 32, 1109-1115.	3.1	26
52	Blood pressure variability and cognitive decline in older people. <i>Journal of Hypertension</i> , 2017, 35, 140-147.	0.3	54
53	Requirements for and current provision of rehabilitation services for children after severe acquired brain injury in the UK: a population-based study. <i>Archives of Disease in Childhood</i> , 2017, 102, 813-820.	1.0	29
54	Can changes in population mixing and socio-economic deprivation in Cumbria, England explain changes in cancer incidence around Sellafield?. <i>Spatial and Spatio-temporal Epidemiology</i> , 2017, 21, 25-36.	0.9	2

#	ARTICLE	IF	CITATIONS
55	Protocol of a feasibility study for cognitive assessment of an ageing cohort within the Southeast Asia Community Observatory (SEACO), Malaysia. <i>BMJ Open</i> , 2017, 7, e013635.	0.8	2
56	Longitudinal study of the associations between change in sedentary behavior and change in adiposity during childhood and adolescence: Gateshead Millennium Study. <i>International Journal of Obesity</i> , 2017, 41, 1042-1047.	1.6	50
57	Providing evidence to support the development of whole grain dietary recommendations in the United Kingdom. <i>Proceedings of the Nutrition Society</i> , 2017, 76, 369-377.	0.4	20
58	Enhanced radiation dose and DNA damage associated with iodinated contrast media in diagnostic X-ray imaging. <i>British Journal of Radiology</i> , 2017, 90, 20170028.	1.0	17
59	Projected cancer risks potentially related to past, current, and future practices in paediatric CT in the United Kingdom, 1990â€“2020. <i>British Journal of Cancer</i> , 2017, 116, 109-116.	2.9	40
60	Reply to Comment on â€“A geographical study of thyroid cancer incidence in north-west England following the Windscale nuclear reactor fire of 1957â€™. <i>Journal of Radiological Protection</i> , 2017, 37, 553-554.	0.6	0
61	The long-term psychosocial impact of cancer: the views of young adult survivors of childhood cancer. <i>European Journal of Cancer Care</i> , 2016, 25, 428-439.	0.7	29
62	Can't play, won't play: longitudinal changes in perceived barriers to participation in sports clubs across the childâ€“adolescent transition. <i>BMJ Open Sport and Exercise Medicine</i> , 2016, 2, e000079.	1.4	22
63	A geographical study of thyroid cancer incidence in north-west England following the Windscale nuclear reactor fire of 1957. <i>Journal of Radiological Protection</i> , 2016, 36, 934-952.	0.6	14
64	Patterns and trends of computed tomography usage in outpatients of the Brazilian public healthcare system, 2001â€“2011. <i>Journal of Radiological Protection</i> , 2016, 36, 547-560.	0.6	15
65	Development of sedentary behavior across childhood and adolescence: longitudinal analysis of the Gateshead Millennium Study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016, 13, 88.	2.0	80
66	A prospective study of the association between orthostatic hypotension and falls: definition matters. <i>Age and Ageing</i> , 2016, 46, 439-445.	0.7	18
67	Patient radiation doses in paediatric interventional cardiology procedures: a review. <i>Journal of Radiological Protection</i> , 2016, 36, R131-R144.	0.6	32
68	Catch-up growth and metabolic outcomes in adolescents born preterm. <i>Archives of Disease in Childhood</i> , 2016, 101, 1026-1031.	1.0	91
69	Modified criteria for carotid sinus hypersensitivity are associated with increased mortality in a population-based study. <i>Europace</i> , 2016, 18, 1101-1107.	0.7	4
70	How does childhood socioeconomic hardship affect reproductive strategy? Pathways of development. <i>American Journal of Human Biology</i> , 2016, 28, 356-363.	0.8	51
71	Medical conditions associated with the use of CT in children and young adults, Great Britain, 1995â€“2008. <i>British Journal of Radiology</i> , 2016, 89, 20160532.	1.0	10
72	Assessment of adult body composition using bioelectrical impedance: comparison of researcher calculated to machine outputted values. <i>BMJ Open</i> , 2016, 6, e008922.	0.8	16

#	ARTICLE	IF	CITATIONS
73	Relationship between paediatric CT scans and subsequent risk of leukaemia and brain tumours: assessment of the impact of underlying conditions. <i>British Journal of Cancer</i> , 2016, 114, 388-394.	2.9	191
74	Reduction in radiation doses from paediatric CT scans in Great Britain. <i>British Journal of Radiology</i> , 2016, 89, 20150305.	1.0	32
75	Trends and patterns in the use of computed tomography in children and young adults in Catalonia " results from the EPI-CT study. <i>Pediatric Radiology</i> , 2016, 46, 119-129.	1.1	37
76	Ambulatory Blood Pressure Variability Increases Over a 10-Year Follow-Up in Community-Dwelling Older People. <i>American Journal of Hypertension</i> , 2016, 29, 560-567.	1.0	14
77	Parental Perception of Weight Status: Influence on Children's Diet in the Gateshead Millennium Study. <i>PLoS ONE</i> , 2016, 11, e0144931.	1.1	31
78	Parental perception of weight status: Influence on children's diet in the Gateshead Millennium Study. <i>Proceedings of the Nutrition Society</i> , 2015, 74, .	0.4	0
79	Low whole grain intake in the UK: results from the National Diet and Nutrition Survey rolling programme 2008-11. <i>British Journal of Nutrition</i> , 2015, 113, 1643-1651.	1.2	85
80	Whole grain intake and its association with intakes of other foods, nutrients and markers of health in the National Diet and Nutrition Survey rolling programme 2008-11. <i>British Journal of Nutrition</i> , 2015, 113, 1595-1602.	1.2	36
81	Characteristics of young people with long term conditions close to transfer to adult health services. <i>BMC Health Services Research</i> , 2015, 15, 435.	0.9	18
82	Evidence for ASD Recurrence Rates and Reproductive Stoppage From Large UK ASD Research Family Databases. <i>Autism Research</i> , 2015, 8, 73-81.	2.1	38
83	EPI-CT: design, challenges and epidemiological methods of an international study on cancer risk after paediatric and young adult CT. <i>Journal of Radiological Protection</i> , 2015, 35, 611-628.	0.6	48
84	Admission for osteoporotic pelvic fractures and predictors of length of hospital stay, mortality and loss of independence. <i>Age and Ageing</i> , 2015, 44, 258-261.	0.7	50
85	A cluster randomised trial testing an intervention to improve parents' recognition of their child's weight status: study protocol. <i>BMC Public Health</i> , 2015, 15, 549.	1.2	13
86	Aberrations in DNA methylation are detectable during remission of acute lymphoblastic leukemia and predict patient outcome. <i>Epigenomics</i> , 2015, 7, 35-45.	1.0	5
87	Radiation doses from fluoroscopically guided cardiac catheterization procedures in children and young adults in the United Kingdom: a multicentre study. <i>British Journal of Radiology</i> , 2015, 88, 20140852.	1.0	35
88	The Effect of Childhood Infection on Hearing Function at Age 61 to 63 Years in the Newcastle Thousand Families Study. <i>Ear and Hearing</i> , 2015, 36, 185-190.	1.0	6
89	Socioeconomic patterning in the incidence and survival of teenage and young adult men aged between 15 and 24 years diagnosed with non-seminoma testicular cancer in northern England. <i>Urologic Oncology: Seminars and Original Investigations</i> , 2015, 33, 506.e9-506.e14.	0.8	9
90	Objective measurement of sedentary behavior: impact of non-wear time rules on changes in sedentary time. <i>BMC Public Health</i> , 2015, 15, 504.	1.2	41

#	ARTICLE	IF	CITATIONS
91	Longitudinal associations between sports participation, body composition and physical activity from childhood to adolescence. <i>Journal of Science and Medicine in Sport</i> , 2015, 18, 178-182.	0.6	55
92	Paternal Occupational Exposure to Endocrine-Disrupting Chemicals as a Risk Factor for Leukaemia in Children: A Case-Control Study from the North of England. <i>Advances in Epidemiology</i> , 2014, 2014, 1-7.	0.6	2
93	Updated investigations of cancer excesses in individuals born or resident in the vicinity of Sellafield and Dounreay. <i>British Journal of Cancer</i> , 2014, 111, 1814-1823.	2.9	19
94	Physical activity, diet and BMI in children aged 6-8 years: a cross-sectional analysis. <i>BMJ Open</i> , 2014, 4, e005001-e005001.	0.8	33
95	Lung function and plasma fibrinogen concentrations in the Newcastle and Tyneside families birth cohort between age 49 and 51 years. <i>Respirology</i> , 2014, 19, 53-57.	1.3	4
96	Birth weight and cognitive function in early adulthood: the Australian aboriginal birth cohort study. <i>Journal of Developmental Origins of Health and Disease</i> , 2014, 5, 240-247.	0.7	7
97	Prevalence and validity of self-reported smoking in Indigenous and non-Indigenous young adults in the Australian Northern Territory. <i>BMC Public Health</i> , 2014, 14, 861.	1.2	6
98	Population prevalence of ultrasound features of osteoarthritis in the hand, knee and hip at age 63 years: the Newcastle thousand families birth cohort. <i>BMC Musculoskeletal Disorders</i> , 2014, 15, 162.	0.8	37
99	Secondary Malignant Neoplasms Following Radiotherapy for Primary Cancer in Children and Young Adults. <i>Pediatric Hematology and Oncology</i> , 2014, 31, 259-267.	0.3	14
100	Comparison of type 2 diabetes prevalence estimates in Saudi Arabia from a validated Markov model against the International Diabetes Federation and other modelling studies. <i>Diabetes Research and Clinical Practice</i> , 2014, 103, 496-503.	1.1	56
101	Spatial variation in the risk of hospitalization with childhood pneumonia and empyema in the North of England. <i>Epidemiology and Infection</i> , 2014, 142, 388-398.	1.0	21
102	Health Related Quality of Life and Emotional Health in Children with Chronic Granulomatous Disease: A Comparison of Those Managed Conservatively with Those That Have Undergone Haematopoietic Stem Cell Transplant. <i>Journal of Clinical Immunology</i> , 2013, 33, 8-13.	2.0	74
103	No improvement in socioeconomic inequalities in birthweight and preterm birth over four decades: a population-based cohort study. <i>BMC Public Health</i> , 2013, 13, 345.	1.2	29
104	Clinical outcome in children with chronic granulomatous disease managed conservatively or with hematopoietic stem cell transplantation. <i>Journal of Allergy and Clinical Immunology</i> , 2013, 132, 1150-1155.	1.5	120
105	Growth and metabolic outcome in adolescents born preterm (GROWMORE): follow-up protocol for the Newcastle preterm birth growth study (PTBGS). <i>BMC Pediatrics</i> , 2013, 13, 213.	0.7	5
106	Deprivation, timing of preschool infections and H. pylori seropositivity at age 49-51 years: the Newcastle thousand families birth cohort. <i>BMC Infectious Diseases</i> , 2013, 13, 422.	1.3	2
107	Study protocol: longitudinal study of the transition of young people with complex health needs from child to adult health services. <i>BMC Public Health</i> , 2013, 13, 675.	1.2	53
108	Childhood infections, but not early life growth, influence hearing in the Newcastle thousand families birth cohort at age 14 years. <i>BMC Ear, Nose and Throat Disorders</i> , 2013, 13, 9.	2.6	2

#	ARTICLE	IF	CITATIONS
109	Differing lifecourse associations with sport-, occupational- and household-based physical activity at age 49â€“51Âyears: the Newcastle Thousand Families Study. <i>International Journal of Public Health</i> , 2013, 58, 79-88.	1.0	10
110	IQ in childhood and atherosclerosis in middle-age: 40 Year follow-up of the Newcastle Thousand Families Cohort Study. <i>Atherosclerosis</i> , 2013, 231, 234-237.	0.4	7
111	Childhood infectious disease and premature death from cancer: a prospective cohort study. <i>European Journal of Epidemiology</i> , 2013, 28, 257-265.	2.5	6
112	Cognitive Ability in Children with Chronic Granulomatous Disease: A Comparison of Those Managed Conservatively with Those Who Have Undergone Hematopoietic Stem Cell Transplant. <i>Neuropediatrics</i> , 2013, 44, 230-232.	0.3	12
113	Creation of an Adiposity Index for Children Aged 6â€“8 Years: The Gateshead Millennium Study. <i>BioMed Research International</i> , 2013, 2013, 1-7.	0.9	1
114	What Are the Barriers Which Discourage 15-16 Year-Old Girls from Participating in Team Sports and How Can We Overcome Them?. <i>BioMed Research International</i> , 2013, 2013, 1-8.	0.9	32
115	Global LINE-1 DNA methylation is associated with blood glycaemic and lipid profiles. <i>International Journal of Epidemiology</i> , 2013, 42, 919-919.	0.9	1
116	The price of failure: triage after apparently minor head injury. <i>Archives of Disease in Childhood</i> , 2013, 98, 925-926.	1.0	4
117	Socioeconomic variation in survival from childhood leukaemia in northern England, 1968â€“2010. <i>British Journal of Cancer</i> , 2013, 108, 2339-2345.	2.9	31
118	Tracking of fruit and vegetable consumption from childhood to adolescence: The Gateshead Millennium Study. <i>Proceedings of the Nutrition Society</i> , 2013, 72, .	0.4	0
119	Diet, physical activity and sedentary behaviour in 11â€“13 year old UK adolescents: The Gateshead Millennium Study. <i>Proceedings of the Nutrition Society</i> , 2013, 72, .	0.4	0
120	Improving parental recognition of childhood overweight: The Map Me Study. <i>Proceedings of the Nutrition Society</i> , 2013, 72, .	0.4	2
121	Birthweight and fasting glucose and insulin levels: results from the Aboriginal Birth Cohort Study. <i>Medical Journal of Australia</i> , 2013, 199, 112-116.	0.8	8
122	Early Life Influences Kidney Function at Age 63â€“64 Years, but So Does Adult Body Size: Results from the Newcastle Thousand Families Birth Cohort. <i>PLoS ONE</i> , 2013, 8, e66660.	1.1	3
123	Predictors of Survival in Children Born With Down Syndrome: A Registry-Based Study. <i>Pediatrics</i> , 2012, 129, e1373-e1381.	1.0	54
124	CT Scans in Young People in Great Britain: Temporal and Descriptive Patterns, 1993â€“2002. <i>Radiology Research and Practice</i> , 2012, 2012, 1-8.	0.6	29
125	Registration of cancer in girls remains lower than expected in countries with low/middle incomes and low female education rates. <i>British Journal of Cancer</i> , 2012, 107, 183-188.	2.9	18
126	To what extent do weight gain and eating avidity during infancy predict later adiposity?. <i>Public Health Nutrition</i> , 2012, 15, 656-662.	1.1	20
