#	ARTICLE	IF	CITATIONS
1	Assessing anxiety-linked impairment in attentional control without eye-tracking: The masked-target antisaccade task. Behavior Research Methods, 2023, 55, 135-142.	4.0	5
2	<scp>ENIGMAâ€œanxiety</scp> working group: Rationale for and organization of <scp>largeâ€œscale</scp> neuroimaging studies of anxiety disorders. Human Brain Mapping, 2022, 43, 83-112.	3.6	31
3	<scp>Megaâ€œanalysis</scp> methods in <scp>ENIGMA</scp>: The experience of the generalized anxiety disorder working group. Human Brain Mapping, 2022, 43, 255-277.	3.6	51
4	Whatâ€™s Worrying Our Students? Increasing Worry Levels over Two Decades and a New Measure of Student Worry Frequency and Domains. Cognitive Therapy and Research, 2022, 46, 406-419.	1.9	2
5	Cortical thickness and restingâ€œstate cardiac function across the lifespan: A crossâ€œsectional pooled megaâ€œanalysis. Psychophysiology, 2021, 58, e13688.	2.4	33
6	Looking on the bright side reduces worry in pregnancy: Training interpretations in pregnant women. Clinical Psychology in Europe, 2021, 3, .	1.1	1
7	Internet-delivered interpretation training reduces worry and anxiety in individuals with generalized anxiety disorder: A randomized controlled experiment.. Journal of Consulting and Clinical Psychology, 2021, 89, 575-589.	2.0	23
8	Cortical and subcortical brain structure in generalized anxiety disorder: findings from 28 research sites in the ENIGMA-Anxiety Working Group. Translational Psychiatry, 2021, 11, 502.	4.8	24
9	tDCS increases anxiety reactivity to intentional worry. Journal of Psychiatric Research, 2020, 120, 34-39.	3.1	14
10	Impact of imagery-enhanced interpretation training on offline and online interpretations in worry. Behaviour Research and Therapy, 2020, 124, 103497.	3.1	12
11	Repetitive negative thinking and interpretation bias in pregnancy. Clinical Psychology in Europe, 2020, 2, .	1.1	5
12	Using event-related potential and behavioural evidence to understand interpretation bias in relation to worry. Biological Psychology, 2019, 148, 107746.	2.2	10
13	Response time as a proxy of ongoing mental state: A combined fMRI and pupillometry study in Generalized Anxiety Disorder. NeuroImage, 2019, 191, 380-391.	4.2	16
14	Cortical morphometric predictors of autonomic dysfunction in generalized anxiety disorder. Autonomic Neuroscience: Basic and Clinical, 2019, 217, 41-48.	2.8	24
15	Computerized Exposure Therapy for Spider Phobia: Effects of Cardiac Timing and Interoceptive Ability on Subjective and Behavioral Outcomes. Psychosomatic Medicine, 2019, 81, 90-99.	2.0	12
16	The verbal nature of worry in generalized anxiety: Insights from the brain. NeuroImage: Clinical, 2018, 17, 882-892.	2.7	20
17	â€œI had a sort of epiphany!â€™ An exploratory study of group mindfulness-based cognitive therapy for older people with depression. Aging and Mental Health, 2018, 22, 208-217.	2.8	13
18	Network abnormalities in generalized anxiety pervade beyond the amygdala-pre-frontal cortex circuit: Insights from graph theory. Psychiatry Research - Neuroimaging, 2018, 281, 107-116.	1.8	17

#	ARTICLE	IF	CITATIONS
19	Goal Directed Worry Rules Are Associated with Distinct Patterns of Amygdala Functional Connectivity and Vagal Modulation during Perseverative Cognition. <i>Frontiers in Human Neuroscience</i> , 2016, 10, 553.	2.0	24
20	Amygdala functional connectivity as a longitudinal biomarker of symptom changes in generalized anxiety. <i>Social Cognitive and Affective Neuroscience</i> , 2016, 11, 1719-1728.	3.0	45
21	The perseverative worry bout: A review of cognitive, affective and motivational factors that contribute to worry perseveration. <i>Biological Psychology</i> , 2016, 121, 233-243.	2.2	24
22	Resolving Ambiguity in Emotional Disorders: The Nature and Role of Interpretation Biases. <i>Annual Review of Clinical Psychology</i> , 2016, 12, 281-305.	12.3	198
23	Neurobiological substrates of cognitive rigidity and autonomic inflexibility in generalized anxiety disorder. <i>Biological Psychology</i> , 2016, 119, 31-41.	2.2	65
24	Neurostructural abnormalities associated with axes of emotion dysregulation in generalized anxiety. <i>NeuroImage: Clinical</i> , 2016, 10, 172-181.	2.7	46
25	Alterations in Amygdala-Prefrontal Functional Connectivity Account for Excessive Worry and Autonomic Dysregulation in Generalized Anxiety Disorder. <i>Biological Psychiatry</i> , 2016, 80, 786-795.	1.3	146
26	The Effect of Facial Expressions on the Evaluation of Ambiguous Statements. <i>Journal of Experimental Psychopathology</i> , 2015, 6, 253-263.	0.8	5
27	Interpretation of Ambiguous Bodily Sensations: The Roles of Mood and Perseveration. <i>Journal of Social and Clinical Psychology</i> , 2015, 34, 95-116.	0.5	1
28	Evaluation of a brief 4-session psychoeducation procedure for high worriers based on the mood-as-input hypothesis. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 46, 126-132.	1.2	5
29	An Exploratory Study of Group Mindfulness-Based Cognitive Therapy for Older People with Depression. <i>Mindfulness</i> , 2015, 6, 467-474.	2.8	15
30	The Role of Facial Feedback in the Modulation of Clinically-Relevant Ambiguity Resolution. <i>Cognitive Therapy and Research</i> , 2013, 37, 284-295.	1.9	7
31	Systematic information processing style and perseverative worry. <i>Clinical Psychology Review</i> , 2013, 33, 1041-1056.	11.4	14
32	Does a "Singing Together Group"™ improve the quality of life of people with a dementia and their carers? A pilot evaluation study. <i>Dementia</i> , 2013, 12, 157-176.	2.0	117
33	Investigating the effect of intolerance of uncertainty on catastrophic worrying and mood. <i>Behaviour Research and Therapy</i> , 2012, 50, 690-698.	3.1	38
34	Mood as Input and Perseverative Worrying Following the Induction of Discrete Negative Moods. <i>Behavior Therapy</i> , 2012, 43, 393-406.	2.4	10
35	Mood-as-input hypothesis and perseverative psychopathologies. <i>Clinical Psychology Review</i> , 2011, 31, 1259-1275.	11.4	44
