#	ARTICLE	IF	CITATIONS
1	Alleviating work-family conflict for female employees in Iran: The effect of a multimedia educational intervention. <i>Current Psychology</i> , 2023, 42, 18832-18845.	2.8	1
2	Flexibility to manage and enhance quality of life among people with motor neurone disease. <i>Disability and Rehabilitation</i> , 2022, 44, 2752-2762.	1.9	3
3	Structural equation modeling of safety performance based on personality traits, job and organizational-related factors. <i>International Journal of Occupational Safety and Ergonomics</i> , 2022, 28, 644-658.	2.0	9
4	Comparison of the work ability index and the work ability score for predicting health-related quality of life. <i>International Archives of Occupational and Environmental Health</i> , 2022, 95, 213-221.	2.4	12
5	Understanding quality of life across different clinical subtypes of multiple sclerosis: a thematic analysis. <i>Quality of Life Research</i> , 2022, 31, 2035-2046.	3.2	4
6	Effects of an ergonomic intervention program based on the PRECEDEâ€“PROCEED model for reducing work-related health problems and exposure risks among emergency medical dispatchers. <i>International Archives of Occupational and Environmental Health</i> , 2022, 95, 1389-1399.	2.4	2
7	Assessing the ergonomic status of commonly used chairs in Iranâ€™s universities based on combinational equations and anthropometric indices. <i>Work</i> , 2022, 71, 1087-1095.	1.2	1
8	Developing the Persian version of the Anticipated Turnover Scale (P-ATS) and measuring its psychometric properties among Iranian industrial workers. <i>Journal of Workplace Behavioral Health</i> , 2022, 37, 131-145.	1.4	3
9	Experience of telehealth in people with motor neurone disease using noninvasive ventilation. <i>Disability and Rehabilitation: Assistive Technology</i> , 2021, 16, 490-496.	2.3	20
10	Understanding the role of configural processing in face emotion recognition in Parkinsonâ€™s disease. <i>Journal of Neuropsychology</i> , 2021, 15, 8-26.	1.6	3
11	Understanding the role of oxidative stress in the incidence of metabolic syndrome and obstructive sleep apnea. <i>BMC Endocrine Disorders</i> , 2021, 21, 77.	2.3	10
12	Development and validation of a Nurse Station Ergonomics Assessment (NSEA) tool. <i>BMC Nursing</i> , 2021, 20, 83.	2.5	5
13	Study protocol for a randomized controlled trial to improve the quality of life of housewives with musculoskeletal disorders: a health promotion intervention based on a participatory ergonomic approachâ€”the Housewives Ergonomic Intervention (HEI) trial. <i>Trials</i> , 2021, 22, 490.	1.6	1
14	Understanding job stress in The Iranian oil industry: A qualitative analysis based on the work systems model and macroergonomics approach. <i>Applied Ergonomics</i> , 2021, 94, 103407.	3.2	4
15	Presenteeism and work ability: development of the Persian version of the Stanford Presenteeism Scale (P-SPS-6) and measurement of its psychometric properties. <i>BMC Psychology</i> , 2021, 9, 120.	2.2	5
16	Understanding uptake of prevention and mitigation of COVID-19 at work actions in Iran. <i>Work</i> , 2021, 70, 777-784.	1.2	4
17	Prediction of metabolic syndrome based on sleep and work-related risk factors using an artificial neural network. <i>BMC Endocrine Disorders</i> , 2020, 20, 169.	2.3	10
18	Development and validation of dust exposure prevention questionnaire for cardiovascular patients based on the health belief model. <i>BMC Public Health</i> , 2020, 20, 1779.	3.0	1

#	ARTICLE	IF	CITATIONS
19	Development and validation of the tool for the evaluation of the behavioral factors affecting the prevalence of musculoskeletal disorders in Iranian students. <i>BMC Pediatrics</i> , 2020, 20, 551.	1.7	5
20	Let's get back to work: Preventive biological cycle management of COVID-19 in the workplace. <i>Work</i> , 2020, 66, 713-716.	1.2	8
21	Excessive Daytime Sleepiness and Safety Performance: Comparing Proactive and Reactive Approaches. <i>International Journal of Occupational and Environmental Medicine</i> , 2020, 11, 95-107.	4.2	14
22	Exploring and Addressing "Concerns" for Significant Others to Extend the Understanding of Quality of Life With Amyotrophic Lateral Sclerosis: A Qualitative Study. <i>Journal of Central Nervous System Disease</i> , 2019, 11, 117957351985936.	2.0	9
23	Incorporating self-reported questions for telemonitoring to optimize care of patients with MND on noninvasive ventilation (MND OptNIVent). <i>Amyotrophic Lateral Sclerosis and Frontotemporal Degeneration</i> , 2019, 20, 336-347.	1.8	11
24	Why don't they accept non-invasive ventilation?: Insight into the interpersonal perspectives of patients with motor neurone disease. <i>British Journal of Health Psychology</i> , 2015, 20, 341-359.	3.7	31
25	Experience of long-term use of non-invasive ventilation in motor neuron disease: an interpretative phenomenological analysis. <i>BMJ Supportive and Palliative Care</i> , 2014, 4, 50-56.	1.6	19
26	Achieving Saturation in Thematic Analysis: Development and Refinement of a Codebook. <i>Comprehensive Psychology</i> , 2014, 3, 03.CP.3.4.	0.3	275
27	Prosopagnosia After Stroke: Potentials for Impairment and Treatment. <i>Topics in Stroke Rehabilitation</i> , 2013, 20, 471-477.	2.0	12
28	Determinants of accepting non-invasive ventilation treatment in motor neurone disease: a quantitative analysis at point of need. <i>Health Psychology and Behavioral Medicine</i> , 2013, 1, 47-58.	1.8	16
