

Beata Kaleta

List of Publications by Citations

Source: <https://exaly.com/author-pdf/2728704/beata-kaleta-publications-by-citations.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

21
papers

185

#	Paper	IF	Citations
21	Role of osteopontin in systemic lupus erythematosus. <i>Archivum Immunologiae Et Therapiae Experimentalis</i> , 2014 , 62, 475-82	4	36
20	The role of osteopontin in kidney diseases. <i>Inflammation Research</i> , 2019 , 68, 93-102	7.2	36
19	Bmp-12 activates tenogenic pathway in human adipose stem cells and affects their immunomodulatory and secretory properties. <i>BMC Cell Biology</i> , 2017 , 18, 13		27
18	Vitamin D Receptor Gene BsmI Polymorphism in Polish Patients with Systemic Lupus Erythematosus. <i>Isrn Endocrinology</i> , 2013 , 2013, 427818		20
17	Selenium-containing polysaccharides from <i>Lentinula edodes</i> -Biological activity. <i>Carbohydrate Polymers</i> , 2019 , 223, 115078	10.3	12
16	Anti-Müllerian hormone level is associated with vitamin D receptor polymorphisms in women with polycystic ovary syndrome. <i>Journal of Assisted Reproduction and Genetics</i> , 2019 , 36, 1281-1289	3.4	11
15	Mesenchymal Stem Cells From Human Amniotic Membrane and Umbilical Cord Can Diminish Immunological Response in an in vitro Allograft Model. <i>Gynecologic and Obstetric Investigation</i> , 2017 , 82, 267-275	2.5	9
14	Toll-Like Receptor 4 Gene Polymorphism C1196T in Polish Women with Postmenopausal Osteoporosis - Preliminary Investigation. <i>Advances in Clinical and Experimental Medicine</i> , 2015 , 24, 239-43	1.8	5
13	Osteopontin Gene Polymorphism and Urinary OPN Excretion in Patients with Immunoglobulin A Nephropathy. <i>Cells</i> , 2019 , 8,	7.9	4
12	Sildenafil, a Phosphodiesterase Type 5 Inhibitor, Downregulates Osteopontin in Human Peripheral Blood Mononuclear Cells. <i>Archivum Immunologiae Et Therapiae Experimentalis</i> , 2017 , 65, 347-353	4	3
11	Vadadustat, a HIF Prolyl Hydroxylase Inhibitor, Improves Immunomodulatory Properties of Human Mesenchymal Stromal Cells. <i>Cells</i> , 2020 , 9,	7.9	3
10	Sildenafil Citrate Influences Production of TNF- in Healthy Men Lymphocytes. <i>Journal of Immunology Research</i> , 2019 , 2019, 8478750	4.5	3
9	Comparative Study of Immunomodulatory Agents to Induce Human T Regulatory (Treg) Cells: Preferential Treg-Stimulatory Effect of Prednisolone and Rapamycin. <i>Archivum Immunologiae Et Therapiae Experimentalis</i> , 2020 , 68, 20	4	2
8	Sildenafil does not affect the proliferation of human lymphocytes in the in vitro transplant model. <i>Acta Biochimica Polonica</i> , 2019 , 66, 115-117	2	2
7	Glucocorticoid Receptor Gene Polymorphisms Are Associated with Membranous and IgA Nephropathies. <i>Cells</i> , 2021 , 10,	7.9	2
6	Osteopontin enhances donor-specific alloreactivity of human peripheral blood mononuclear cells. <i>Journal of Pre-Clinical and Clinical Research</i> , 2019 , 13, 106-109	1.8	2
5	SILDENAFIL UPREGULATES TUMOR NECROSIS FACTOR α PRODUCTION IN PERIPHERAL BLOOD MONONUCLEAR CELLS OF HEALTHY MEN - PRELIMINARY REPORT. <i>Acta Poloniae Pharmaceutica</i> , 2019 , 76, 123-128	1.3	2

4	Increased serum levels of progranulin (PGRN) in patients with haemophilic arthropathy. <i>Clinical and Experimental Pharmacology and Physiology</i> , 2019 , 46, 373-379	3	2
3	Osteopontin and Transplantation: Where Are We Now?. <i>Archivum Immunologiae Et Therapiae Experimentalis</i> , 2021 , 69, 15	4	0
2	The preliminary association study of osteopontin 707 C/T polymorphism with systemic lupus erythematosus in a Polish population. <i>Postepy Dermatologii I Alergologii</i> , 2020 , 37, 190-194	1.5	
1	Osteopontin Gene Polymorphisms rs1126616 C>T and rs1126772 A>G are Associated with Atopic Dermatitis in Polish Population. <i>The Application of Clinical Genetics</i> , 2021 , 14, 417-425	3.1
