#	ARTICLE	IF	CITATIONS
1	Primary ciliary dyskinesia: state of the problem and prospects. Meditsinskiy Sovet, 2021, , 276-285.	0.5	8
2	Modern combined plant remedies in pulmonologist's practice. Meditsinskiy Sovet, 2019, , 82-88.	0.5	7
3	Primary ciliary dyskinesia: modern approaches to the diagnostics and treatment. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2019, 64, 123-133.	0.3	6
4	Persistent and prolonged cough in children: differential diagnosis and treatment algorithms. Meditsinskiy Sovet, 2019, , 58-75.	0.5	6
5	Anti-leukotriene drugs in modern pediatric practice. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2019, 64, 128-132.	0.3	4
6	Pathogenetic Reasoning for Use of Monteleukast (Singlon) in Acute Respiratory Viral Infections with Broncho-Obstructive Syndrome in Infants and Preschool Age Children. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2021, 65, 129-132.	0.3	3
7	Combination therapy for cough and bronchial obstruction in childhood. Meditsinskiy Sovet, 2019, , 83-89.	0.5	3
8	EFFICACY AND SAFETY OF DRY IVY EXTRACT (PROSPANÂ®) IN TREATMENT OF BRONCHITIS IN CHILDREN (ACCORDING TO THE RESULTS OF PROSPIRO OBSERVATIONAL STUDY). Pediatriia, 2019, 98, 119-126.	0.2	3
9	Mepolizumab in the treatment of bronchial asthma in children. Meditsinskiy Sovet, 2020, , 81-86.	0.5	3
10	LUNG TRANSPLANTATION IN AN ADOLESCENT WITH PULMONARY FIBROSIS AS A RESULT OF INTERSTITIAL LUNG DISEASE (HYPERSENSITIVITY PNEUMONITIS). Pediatriia, 2020, 99, 287-293.	0.2	2
11	Prospects for the drug use based on common ivy for bronchopulmonary pathology in childhood. Meditsinskiy Sovet, 2021, , 122-127.	0.5	2
12	Dependence of thymic stromal lymphopoietin serum concentration from bronchial asthma control level and lung function results in patients of different age groups. Meditsinskiy Sovet, 2022, , 319-326.	0.5	2
13	Experience in Course of Anti-IgE Therapy of Bronchial Asthma in Children. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2021, 65, 116-121.	0.3	1
14	Modern problems of interstitial lung diseases in children. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2021, 66, 5-11.	0.3	1
15	Anti-leukotriene agents in modern therapy of bronchial asthma in children. Meditsinskiy Sovet, 2020, , 134-138.	0.5	1
16	Hamman-Rich syndrome in a young child. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2019, 64, 83-87.	0.3	1
17	Association of polymorphisms of NO synthases and arginase genes, clinical, laboratory and functional indicators with the level of nitrogen oxide in exhaled air in children with bronchial asthma. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2019, 64, 55-68.	0.3	1
18	Multiple subpleural cysts in the lungs in a child with Down's syndrome. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2021, 66, 95-100.	0.3	0

#	ARTICLE	IF	CITATIONS
19	Rare mutation of the CCNO gene in patients with primary ciliary dyskinesia. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2018, 63, 83-87.	0.3	0
20	Allergic bronchopulmonary mycosis in a child caused by <i>Paecilomyces lilacinus</i> . Rossiyskiy Vestnik Perinatologii I Pediatrii, 2019, 64, 102-109.	0.3	0
21	Clinical efficacy of the affinity purified antibodies to the protein S100 in the complex rehabilitation of the infants with acute obstructive bronchitis affected by perinatal pathology of central nervous system. Pacific Medical Journal, 2019, , 42-46.	0.3	0
22	The state of the capillary bed in children with allergic diseases of the respiratory tract according to computer capillaroscopy of the nail bed. Regional Blood Circulation and Microcirculation, 2020, 19, 51-58.	0.3	0
23	The clinical significance of computer capillaroscopy for differential diagnosis of the respiratory tract diseases in children. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2020, 65, 85-93.	0.3	0
24	Pulmonary hypertension in children with chronic bronchopulmonary pathology: a pulmonologist's perspective to the problem. Meditsinskiy Sovet, 2021, , 300-309.	0.5	0
25	Clinical and genetic associations of NO-synthase and arginase gene polymorphisms and gene-gene interactions in children with bronchial asthma. Voprosy Prakticheskoi Pediatrii, 2020, 15, 7-17.	0.2	0
26	Advantages and disadvantages of combined mucolytic therapy in children. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2020, 64, 114-118.	0.3	0
27	Macrolides in the modern therapy of community-acquired pneumonia in children. Meditsinskiy Sovet, 2020, , 80-85.	0.5	0
28	Mizernitskaya Olga Nikolaevna (on the 100 <sup>th</sup> anniversary of her birth). Rossiyskiy Vestnik Perinatologii I Pediatrii, 2020, 65, 179-185.	0.3	0
29	Bronchial obstruction in pre-school children. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2022, 66, 17-22.	0.3	0
30	The clinical significance of the parameters of the capillary bed, heart rate variability, and computer bronchophonography in the differential diagnosis of diseases accompanied by prolonged cough in children. Pulmonologiya, 2021, 31, 739-748.	0.8	0
31	Clinical features of bronchial asthma in children with mental disorders. Rossiyskiy Vestnik Perinatologii I Pediatrii, 2022, 67, 125-131.	0.3	0
32	Thymic stromal lymphopoietin in bronchial asthma patients of different age groups: correlation with other markers, lung function results and disease control. Medical Herald of the South of Russia, 2022, 13, 113-121.	0.4	0
