#	Paper	IF	Citations
125	Research diagnostic criteria for temporomandibular disorders: a systematic review of axis I epidemiologic findings. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2011 , 112, 453-62		354
124	Temporomandibular disorders, sleep bruxism, and primary headaches are mutually associated. <i>Journal of Orofacial Pain</i> , 2013 , 27, 14-20		319
123	Relationship between bruxism and temporomandibular disorders: a systematic review of literature from 1998 to 2008. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2010 , 109, e26-50		244
122	Efficacy of botulinum toxin in treating myofascial pain in bruxers: a controlled placebo pilot study. <i>Cranio - Journal of Craniomandibular Practice</i> , 2008 , 26, 126-35	1.2	113
121	Psychosocial impairment in temporomandibular disorders patients. RDC/TMD axis II findings from a multicentre study. <i>Journal of Dentistry</i> , 2010 , 38, 765-72	4.8	112
120	Age peaks of different RDC/TMD diagnoses in a patient population. <i>Journal of Dentistry</i> , 2010 , 38, 392-9	4.8	108
119	Management of sleep bruxism in adults: a qualitative systematic literature review. <i>Journal of Oral Rehabilitation</i> , 2015 , 42, 862-74	3.4	91
118	Is bruxism a risk factor for dental implants? A systematic review of the literature. <i>Clinical Implant Dentistry and Related Research</i> , 2014 , 16, 460-9	3.9	71
117	Arthrocentesis of the temporomandibular joint: a proposal for a single-needle technique. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2008 , 106, 483-6		71
116	Self-reported bruxism mirrors anxiety and stress in adults. <i>Medicina Oral, Patologia Oral Y Cirugia Bucal</i> , 2013 , 18, e7-11	2.6	68
115	A one-year case series of arthrocentesis with hyaluronic acid injections for temporomandibular joint osteoarthritis. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2007 , 103, e14-22		66
114	Current Concepts of Bruxism. <i>International Journal of Prosthodontics</i> , 2017 , 30, 437-438	1.9	61
113	Myofascial pain of the jaw muscles: comparison of short-term effectiveness of botulinum toxin injections and fascial manipulation technique. <i>Cranio - Journal of Craniomandibular Practice</i> , 2012 , 30, 95-102	1.2	58
112	Hyaluronic acid in the treatment of TMJ disorders: a systematic review of the literature. <i>Cranio - Journal of Craniomandibular Practice</i> , 2010 , 28, 166-76	1.2	56
111	Theories on possible temporal relationships between sleep bruxism and obstructive sleep apnea events. An expert opinion. <i>Sleep and Breathing</i> , 2015 , 19, 1459-65	3.1	55
110	Distribution of diagnoses in a population of patients with temporomandibular disorders. <i>Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology</i> , 2012 , 114, e35-41	2	53
109	Prevalence of psychosocial impairment in temporomandibular disorder patients: A systematic review. <i>Journal of Oral Rehabilitation</i> , 2018 , 45, 881-889	3.4	49

108	Temporomandibular Joint Disorders in Patients With Different Facial Morphology. A Systematic Review of the Literature. <i>Journal of Oral and Maxillofacial Surgery</i> , 2016 , 74, 29-46	1.8	48
107	Age-related differences in temporomandibular disorder diagnoses. <i>Cranio - Journal of Craniomandibular Practice</i> , 2012 , 30, 103-9	1.2	48
106	Correlation of RDC/TMD axis I diagnoses and axis II pain-related disability. A multicenter study. <i>Clinical Oral Investigations</i> , 2011 , 15, 749-56	4.2	47
105	Evaluation of the effectiveness of biobehavioral therapy in the treatment of temporomandibular disorders: a literature review. <i>Behavioral Medicine</i> , 2007 , 33, 101-18	4.4	46
104	Is there enough evidence to use botulinum toxin injections for bruxism management? A systematic literature review. <i>Clinical Oral Investigations</i> , 2017 , 21, 727-734	4.2	41
103	Comparison of 2 hyaluronic acid drugs for the treatment of temporomandibular joint osteoarthritis. <i>Journal of Oral and Maxillofacial Surgery</i> , 2012 , 70, 2522-30	1.8	40
102	Etiopathogenesis of disk displacement of the temporomandibular joint: a review of the mechanisms. <i>Indian Journal of Dental Research</i> , 2009 , 20, 212-21	0.8	39
101	The bruxism construct: From cut-off points to a continuum spectrum. <i>Journal of Oral Rehabilitation</i> , 2019 , 46, 991-997	3.4	37
100	Dental malocclusion is not related to temporomandibular joint clicking: a logistic regression analysis in a patient population. <i>Angle Orthodontist</i> , 2014 , 84, 310-5	2.6	37
99	Bruxism: overview of current knowledge and suggestions for dental implants planning. <i>Cranio - Journal of Craniomandibular Practice</i> , 2011 , 29, 304-12	1.2	35
98	Association between magnetic resonance signs of temporomandibular joint effusion and disk displacement. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2009 , 107, 266-71		33
97	Towards a Standardized Tool for the Assessment of Bruxism (STAB)-Overview and general remarks of a multidimensional bruxism evaluation system. <i>Journal of Oral Rehabilitation</i> , 2020 , 47, 549-556	3.4	33
96	Orthodontics is temporomandibular disorder-neutral. <i>Angle Orthodontist</i> , 2016 , 86, 649-54	2.6	30
95	Distribution of depression, somatization and pain-related impairment in patients with chronic temporomandibular disorders. <i>Journal of Applied Oral Science</i> , 2019 , 27, e20180210	3.3	30
94	Treatment effectiveness of arthrocentesis plus hyaluronic acid injections in different age groups of patients with temporomandibular joint osteoarthritis. <i>Journal of Oral and Maxillofacial Surgery</i> , 2012 , 70, 2048-56	1.8	29
93	Temporomandibular joint click sound and magnetic resonance-depicted disk position: which relationship?. <i>Journal of Dentistry</i> , 2008 , 36, 256-60	4.8	29
92	Predictive value of combined clinically diagnosed bruxism and occlusal features for TMJ pain. <i>Cranio - Journal of Craniomandibular Practice</i> , 2010 , 28, 105-13	1.2	26
91	Bruxism is unlikely to cause damage to the periodontium: findings from a systematic literature assessment. <i>Journal of Periodontology</i> , 2015 , 86, 546-55	4.6	25

90	Surface electromyography findings in unilateral myofascial pain patients: comparison of painful vs. non painful sides. <i>Pain Medicine</i> , 2013 , 14, 1848-53	2.8	24
89	Prosthetic planning in patients with temporomandibular disorders and/or bruxism: A systematic review. <i>Journal of Prosthetic Dentistry</i> , 2017 , 117, 606-613	4	23
88	Total temporomandibular joint replacement: a clinical case with a proposal for post-surgical rehabilitation. <i>Journal of Cranio-Maxillo-Facial Surgery</i> , 2008 , 36, 403-9	3.6	23
87	Assessment of Anxiety and Coping Features in Bruxers: A Portable Electromyographic and Electrocardiographic Study. <i>Journal of Oral and Facial Pain and Headache</i> , 2016 , 30, 249-54	2.5	23
86	Ecological Momentary Assessment and Intervention Principles for the Study of Awake Bruxism Behaviors, Part 1: General Principles and Preliminary Data on Healthy Young Italian Adults. <i>Frontiers in Neurology</i> , 2019 , 10, 169	4.1	22
85	Kinesiographic recordings of jaw movements are not accurate to detect magnetic resonance-diagnosed temporomandibular joint (TMJ) effusion and disk displacement: findings from a validation study. <i>Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology</i> , 2012 , 114, 457-63	2	19
84	Short-term effects of arthrocentesis plus viscosupplementation in the management of signs and symptoms of painful TMJ disc displacement with reduction. A pilot study. <i>Oral and Maxillofacial Surgery</i> , 2010 , 14, 29-34	1.6	19
83	Association between signs and symptoms of bruxism and presence of tori: a systematic review. <i>Clinical Oral Investigations</i> , 2017 , 21, 2789-2799	4.2	18
82	Associations between tooth wear and dental sleep disorders: A narrative overview. <i>Journal of Oral Rehabilitation</i> , 2019 , 46, 765-775	3.4	18
81	Frequency of temporomandibular disorders diagnoses based on RDC/TMD in a Polish patient population. <i>Cranio - Journal of Craniomandibular Practice</i> , 2018 , 36, 304-310	1.2	18
80	Diagnostic accuracy of the use of parental-reported sleep bruxism in a polysomnographic study in children. <i>International Journal of Paediatric Dentistry</i> , 2017 , 27, 318-325	3.1	17
79	Efficacy and Safety of Botulinum Toxin Type A on Persistent Myofascial Pain: A Randomized Clinical Trial. <i>Toxins</i> , 2020 , 12,	4.9	16
78	Are occlusal features associated with different temporomandibular disorder diagnoses in bruxers?. <i>Cranio - Journal of Craniomandibular Practice</i> , 2014 , 32, 283-8	1.2	15
77	The diagnostic potential of static body-sway recording in orthodontics: a systematic review. <i>European Journal of Orthodontics</i> , 2013 , 35, 696-705	3.3	15
76	Family and school environmental predictors of sleep bruxism in children. <i>Journal of Orofacial Pain</i> , 2013 , 27, 135-41		15
75	Jaw clenching effects in relation to two extreme occlusal features: patterns of diagnoses in a TMD patient population. <i>Cranio - Journal of Craniomandibular Practice</i> , 2014 , 32, 45-50	1.2	14
74	Medications and addictive substances potentially inducing or attenuating sleep bruxism and/or awake bruxism. <i>Journal of Oral Rehabilitation</i> , 2021 , 48, 343-354	3.4	14
73	Ecological Momentary Assessment and Intervention Principles for the Study of Awake Bruxism Behaviors, Part 2: Development of a Smartphone Application for a Multicenter Investigation and Chronological Translation for the Polish Version. <i>Frontiers in Neurology</i> , 2019 , 10, 170	4.1	13

72	Agreement between jaw-muscle activity measurement with portable single-channel electromyography and polysomnography in children. <i>International Journal of Paediatric Dentistry</i> , 2018 , 28, 33-42	3.1	13
71	Association between proxy-reported sleep bruxism and quality of life aspects in Colombian children of different social layers. <i>Clinical Oral Investigations</i> , 2017 , 21, 1351-1358	4.2	13
70	Relationship of self-reported sleep bruxism and awake bruxism with chronotype profiles in Italian dental students. <i>Cranio - Journal of Craniomandibular Practice</i> , 2019 , 37, 147-152	1.2	13
69	Pain Predictors in a Population of Temporomandibular Disorders Patients. <i>Journal of Clinical Medicine</i> , 2020 , 9,	5.1	12
68	Association of possible sleep bruxism in children with different chronotype profiles and sleep characteristics. <i>Chronobiology International</i> , 2018 , 35, 633-642	3.6	12
67	Myositis ossificans traumatica of the temporalis muscle: a case report and diagnostic considerations. <i>Oral and Maxillofacial Surgery</i> , 2012 , 16, 221-5	1.6	11
66	Occlusal Equilibration for the Management of Temporomandibular Disorders. <i>Oral and Maxillofacial Surgery Clinics of North America</i> , 2018 , 30, 257-264	3.4	11
65	Study of Associated Factors With Probable Sleep Bruxism Among Adolescents. <i>Journal of Clinical Sleep Medicine</i> , 2018 , 14, 1369-1376	3.1	10
64	A comparison trial between three treatment modalities for the management of myofascial pain of jaw muscles: A preliminary study. <i>Cranio - Journal of Craniomandibular Practice</i> , 2018 , 36, 327-331	1.2	9
63	An assessment of the usefulness of jaw kinesiography in monitoring temporomandibular disorders: correlation of treatment-related kinesiographic and pain changes in patients receiving temporomandibular joint injections. <i>Journal of the American Dental Association</i> , 2013 , 144, 397-405	1.9	9
62	Development of a quality-assessment tool for experimental bruxism studies: reliability and validity. <i>Journal of Orofacial Pain</i> , 2013 , 27, 111-22		9
61	Evidence-based dentistry or meta-analysis illness? A commentary on current publishing trends in the field of temporomandibular disorders and bruxism. <i>Journal of Oral Rehabilitation</i> , 2019 , 46, 1-4	3.4	9
60	Correlation Between Sleep-Time Masseter Muscle Activity and Tooth Wear: An Electromyographic Study. <i>Journal of Oral and Facial Pain and Headache</i> , 2019 , 33, 199-204	2.5	8
59	Correlates and genetics of self-reported sleep and awake bruxism in a nationwide twin cohort. <i>Journal of Oral Rehabilitation</i> , 2020 , 47, 1110-1119	3.4	8
58	Sleep behaviors in children with different frequencies of parental-reported sleep bruxism. <i>Journal of Dentistry</i> , 2017 , 66, 83-90	4.8	8
57	Surgical treatment of chronic temporomandibular joint dislocation: a case report. <i>Oral and Maxillofacial Surgery</i> , 2008 , 12, 43-6	1.6	8
56	Prevalence of static and dynamic dental malocclusion features in subgroups of temporomandibular disorder patients: Implications for the epidemiology of the TMD-occlusion association. <i>Quintessence International</i> , 2015 , 46, 341-9	2	8
55	Smartphone-based application for EMA assessment of awake bruxism: compliance evaluation in a sample of healthy young adults. <i>Clinical Oral Investigations</i> , 2020 , 24, 1395-1400	4.2	8

54	Oral frailty and neurodegeneration in Alzheimer's disease. <i>Neural Regeneration Research</i> , 2021 , 16, 2149-2153	4.5	8
53	Sleep bruxism and temporomandibular disorders: A scoping review of the literature. <i>Journal of Dentistry</i> , 2021 , 111, 103711	4.8	8
52	No significant differences between conservative interventions and surgical interventions for TMJ disc displacement without reduction. <i>Evidence-Based Dentistry</i> , 2014 , 15, 90-1	1.3	7
51	Oral appliances for the treatment of obstructive sleep apnea in patients with low C-PAP compliance: a long-term case series. <i>Cranio - Journal of Craniomandibular Practice</i> , 2014 , 32, 254-9	1.2	7
50	Signal acquisition and analysis of ambulatory electromyographic recordings for the assessment of sleep bruxism: A scoping review. <i>Journal of Oral Rehabilitation</i> , 2021 , 48, 846-871	3.4	7
49	Self-reported awake bruxism and chronotype profile: a multicenter study on Brazilian, Portuguese and Italian dental students. <i>Cranio - Journal of Craniomandibular Practice</i> , 2021 , 39, 113-118	1.2	7
48	Therapeutic effectiveness of a combined counseling plus stabilization appliance treatment for myofascial pain of the jaw muscles: A pilot study. <i>Cranio - Journal of Craniomandibular Practice</i> , 2017 , 35, 180-186	1.2	6
47	Management of temporomandibular joint degenerative disorders with human amniotic membrane: Hypothesis of action. <i>Medical Hypotheses</i> , 2017 , 104, 68-71	3.8	6
46	Research routes on improved sleep bruxism metrics: Toward a standardised approach. <i>Journal of Sleep Research</i> , 2021 , 30, e13320	5.8	6
45	Comparative analysis of jaw morphology and temporomandibular disorders: A three-dimension imaging study. <i>Cranio - Journal of Craniomandibular Practice</i> , 2020 , 38, 158-167	1.2	6
44	Effects of invisible orthodontic retainers on masticatory muscles activity during sleep: a controlled trial. <i>Progress in Orthodontics</i> , 2018 , 19, 24	3.4	6
43	Dental Angle class asymmetry and temporomandibular disorders. <i>Journal of Orofacial Orthopedics</i> , 2017 , 78, 253-258	2.9	5
42	Correlation Between Physical and Psychosocial Findings in a Population of Temporomandibular Disorder Patients. <i>International Journal of Prosthodontics</i> , 2020 , 33, 155-159	1.9	5
41	Prevalence of Function-Dependent Temporomandibular Joint and Masticatory Muscle Pain, and Predictors of Temporomandibular Disorders among Patients with Lyme Disease. <i>Journal of Clinical Medicine</i> , 2019 , 8,	5.1	5
40	Interrelationship between temporomandibular joint osteoarthritis (OA) and cervical spine pain: Effects of intra-articular injection with hyaluronic acid. <i>Cranio - Journal of Craniomandibular Practice</i> , 2017 , 35, 276-282	1.2	5
39	A better definition of counselling strategies is needed to define effectiveness in temporomandibular disorders management. <i>Evidence-Based Dentistry</i> , 2013 , 14, 118-9	1.3	5
38	Relationship between self-reported bruxism and periodontal status: Findings from a cross-sectional study. <i>Journal of Periodontology</i> , 2019 , 91, 1049	4.6	5
37	Human Amniotic Membrane Positioning in the Surgical Treatment of Temporomandibular Joint Degenerative Disorder. <i>Case Reports in Surgery</i> , 2019 , 2019, 6037191	0.5	4

36	Comparison of magnetic resonance imaging findings in temporomandibular joints of the two sides. <i>Clinical Oral Investigations</i> , 2014 , 18, 499-506	4.2	4
35	Two commentaries on interventions for the management of temporomandibular joint osteoarthritis. <i>Evidence-Based Dentistry</i> , 2013 , 14, 5-7	1.3	4
34	Self-reported sleep bruxism among Finnish symphony orchestra musicians: Associations with perceived sleep-related problems and psychological stress. <i>Cranio - Journal of Craniomandibular Practice</i> , 2020 , 1-8	1.2	4
33	Treating Temporomandibular Disorders in the 21st Century: Can We Finally Eliminate the "Third Pathway"?. <i>Journal of Oral and Facial Pain and Headache</i> , 2020 , 34, 206-216	2.5	4
32	Arthrocentesis of the Temporomandibular Joint: Systematic Review and Clinical Implications of Research Findings. <i>Journal of Oral and Facial Pain and Headache</i> , 2021 , 35, 17-29	2.5	4
31	Indexes of jaw muscle function in asymptomatic individuals with different occlusal features. <i>Clinical and Experimental Dental Research</i> , 2018 , 4, 263-267	1.9	4
30	Tinnitus in Temporomandibular Disorders patients: any clinical implications from research findings?. <i>Evidence-Based Dentistry</i> , 2019 , 20, 30-31	1.3	3
29	Differences between palpation and static/dynamic tests to diagnose painful temporomandibular disorders in patients with Lyme disease. <i>Clinical Oral Investigations</i> , 2019 , 23, 4411-4416	4.2	3
28	Ultrasonography has an acceptable diagnostic efficacy for temporomandibular disc displacement. <i>Evidence-Based Dentistry</i> , 2012 , 13, 84-5	1.3	3
27	Frequency of Sleep Bruxism Behaviors in Healthy Young Adults over a Four-Night Recording Span in the Home Environment. <i>Applied Sciences (Switzerland)</i> , 2021 , 11, 195	2.6	3
26	COVID-19 pandemic and the psyche, bruxism, temporomandibular disorders triangle. <i>Cranio - Journal of Craniomandibular Practice</i> , 2021 , 1-6	1.2	3
25	Comparison between conventional and computerised methods in the assessment of an occlusal scheme. <i>Journal of Oral Rehabilitation</i> , 2020 , 47, 221-228	3.4	3
24	Awake bruxism frequency and psychosocial factors in college preparatory students. <i>Cranio - Journal of Craniomandibular Practice</i> , 2020 , 1-7	1.2	3
23	Bruxism definition: Past, present, and future - What should a prosthodontist know?. <i>Journal of Prosthetic Dentistry</i> , 2021 ,	4	3
22	Transitioning to chronic temporomandibular disorder pain: A combination of patient vulnerabilities and iatrogenesis. <i>Journal of Oral Rehabilitation</i> , 2021 , 48, 1077-1088	3.4	3
21	Smartphone-based evaluation of awake bruxism behaviours in a sample of healthy young adults: findings from two University centres. <i>Journal of Oral Rehabilitation</i> , 2021 , 48, 989-995	3.4	3
20	Do Tourist Attractions of An Itinerary Pull Cruise Ship Lines? A Logit Model Estimation for Southern Hemisphere Destinations. <i>Tourism Planning and Development</i> , 2020 , 17, 37-45	2.9	3
19	Why using Harmless behaviour, Risk factor and Protective factors terms describing the various possible consequences of bruxism is still the best option. <i>Journal of Oral Rehabilitation</i> , 2021 , 48, 762-763	3.4	3

18	Personality traits are potentially associated with the presence of chronic temporomandibular joint pain in patients without effusion as determined by T-2 weighted magnetic resonance. <i>Cranio - Journal of Craniomandibular Practice</i> , 2018 , 36, 91-97	1.2	2
17	Histopathology of the temporomandibular joint disc: Findings in 30 samples from joints with degenerative disease. <i>Journal of Oral Rehabilitation</i> , 2021 , 48, 1025-1034	3.4	2
16	Magnetic Resonance Imaging Evaluation of Closed-Mouth TMJ Disc-Condyle Relationship in a Population of Patients Seeking for Temporomandibular Disorders Advice.. <i>Pain Research and Management</i> , 2021 , 2021, 5565747	2.6	2
15	Oro-facial pain experience among symphony orchestra musicians in Finland is associated with reported stress, sleep bruxism and disrupted sleep-Independent of the instrument group. <i>Journal of Oral Rehabilitation</i> , 2019 , 46, 807-812	3.4	1
14	A cone-beam computerized tomography assessment of the relationship between upper incisors inclination and articular eminence features in orthodontically untreated patients with different facial type. <i>Journal of the World Federation of Orthodontists</i> , 2016 , 5, 56-63	1.2	1
13	Methadone maintenance treatment may be associated with bruxism in male prisoners. <i>Journal of Evidence-based Dental Practice</i> , 2016 , 16, 202-204	1.9	1
12	Letter to the Editor: AuthorsPResponse. <i>Journal of Periodontology</i> , 2016 , 87, 3-4	4.6	1
11	A conservative surgical approach to temporomandibular joint ankylosis. <i>Journal of Craniofacial Surgery</i> , 2014 , 25, 988-90	1.2	1
10	Temporal relationship between sleep-time masseter muscle activity and apnea-hypopnea events: A pilot study. <i>Journal of Oral Rehabilitation</i> , 2022 , 49, 47-53	3.4	1
9	Evaluation of interleukin-1 beta and the ratio of interleukin-1 beta to interleukin-1 receptor antagonist in gingival crevicular fluid during orthodontic canine retraction. <i>Dental and Medical Problems</i> , 2021 , 58, 47-54	1.6	1
8	Awake Bruxism-Single-Point Self-Report versus Ecological Momentary Assessment. <i>Journal of Clinical Medicine</i> , 2021 , 10,	5.1	1
7	How to label bruxism that is a sign of a disorder? That's the question! Response to letter by Meira e Cruz & Ettlin (2018). <i>Journal of Oral Rehabilitation</i> , 2018 , 45, 922-923	3.4	1
6	Utility of Smartphone-based real-time report (Ecological Momentary Assessment) in the assessment and monitoring of awake bruxism: A multiple-week interval study in a Portuguese population of university students. <i>Journal of Oral Rehabilitation</i> , 2021 , 48, 1307-1313	3.4	1
5	STAB-A response to the commentary "Questions on the clinical applicability on the international consensus on the assessment of bruxism" by Skarmeta and Hormazabal Navarrete. <i>Journal of Oral Rehabilitation</i> , 2020 , 47, 1574-1576	3.4	
4	Response to letter by dr. Santana-Penin. <i>Pain Medicine</i> , 2014 , 15, 342-3	2.8	
3	AuthorsPResponse. <i>Journal of the American Dental Association</i> , 2013 , 144, 984, 986, 988	1.9	
2	Computer-assisted surgery with custom prostheses and human amniotic membrane in a patient with bilateral class IV TMJ reankylosis: a case report. <i>Cell and Tissue Banking</i> , 2021 , 1	2.2	
1	Sleep bruxism, chronotype, and cardiovascular issues - an interesting triad. Dr. J̄bia Serra-Negra et al.'s reply. <i>Cranio - Journal of Craniomandibular Practice</i> , 2021 , 39, 459-460	1.2
