Seyed Reza Hejazi

List of Publications by Year
in descending order

24 papers	735 citations	623734 14 h-index	610901 24 g-index
24 all docs	24 docs citations	24 times ranked	724 citing authors

#	Article	IF	Citations
1	Exploring the relationship between open innovation and organisational ambidexterity: the moderating effect of entrepreneurial orientation. Innovation: Management, Policy and Practice, 2021, 23, 71-92.	3.9	15
2	Pricing, greening, and transparency decisions considering the impact of government subsidies and CSR behavior in supply chain decisions. Journal of Retailing and Consumer Services, 2021, 60, 102485.	9.4	40
3	Capacitated location routing problem with simultaneous pickup and delivery under the risk of disruption. RAIRO - Operations Research, 2021, 55, 1371-1399.	1.8	8
4	A game theoretic approach for analyzing the competition between national and store brands by considering store loyalty. Journal of Retailing and Consumer Services, 2021, 60, 102449.	9.4	17
5	The origins, development and future directions of data envelopment analysis approach in transportation systems. Socio-Economic Planning Sciences, 2020, 69, 100672.	5.0	76
6	Game theoretical approach to price a product under two-echelon supply chain containing e-tail selling channel. International Journal of Services and Operations Management, 2020, 36, 131.	0.2	1
7	An evolutionary game theoretic model for analyzing retailers' behavior when introducing economy and premium private labels. Journal of Retailing and Consumer Services, 2020, 57, 102227.	9.4	21
8	A fuzzy-based roadmapping model for enhancing high-tech small firms' technological entrepreneurship capabilities: cases of Iran. Technology Analysis and Strategic Management, 2020, 32, 634-652.	3.5	2
9	A game theoretic approach for the duopoly pricing of energy-efficient appliances regarding innovation protection and social welfare. Energy, 2020, 200, 117517.	8.8	20
10	A hybrid egalitarian bargaining game-DEA and sustainable network design approach for evaluating, selecting and scheduling urban road construction projects. Transportation Research, Part E: Logistics and Transportation Review, 2019, 130, 161-183.	7.4	29
11	Determining the relative importance of sustainability evaluation criteria of urban transportation network. Sustainable Cities and Society, 2019, 47, 101493.	10.4	55
12	A game theoretic approach for pricing decisions considering CSR and a new consumer satisfaction index using transparency-dependent demand in sustainable supply chains. Journal of Cleaner Production, 2019, 208, 1065-1080.	9.3	44
13	A multi-objective integrated model for selecting, scheduling, and budgeting road construction projects. European Journal of Operational Research, 2018, 271, 262-277.	5.7	41
14	The effect of open innovation on technological entrepreneurship capabilities in high-tech firms: a fuzzy analysis. International Journal of Technoentrepreneurship, 2017, 3, 173.	0.2	2
15	Pricing decisions in dual-channel supply chain with one manufacturer and multiple retailers: A game-theoretic approach. RAIRO - Operations Research, 2017, 51, 1269-1287.	1.8	30
16	Cornered Quadtrees/Octrees and Multiple Gateways Between Each Two Nodes; A Structure for Path Planning in 2D and 3D Environments. 3D Research, 2016, 7, 1.	1.8	1
17	Pricing Decisions in Dual-Channel Supply Chain Including Monopolistic Manufacturer and Duopolistic Retailers: A Game-Theoretic Approach. Journal of Industry, Competition and Trade, 2016, 16, 323-343.	0.7	27
18	MCPN, Octree Neighbor Finding During Tree Model Construction Using Parental Neighboring Rule. 3D Research, 2015, 6, 1.	1.8	5

#	Article	IF	Citations
19	The vehicle routing problem with multiple prioritized time windows: A case study. Computers and Industrial Engineering, 2015, 90, 402-413.	6.3	43
20	Lie group analysis, Hamiltonian equations and conservation laws of Bornâ€"Infeld equation. Asian-European Journal of Mathematics, 2014, 07, 1450040.	0.5	5
21	Two-sided assembly line balancing considering the relationships between tasks. Computers and Industrial Engineering, 2013, 66, 1096-1105.	6.3	45
22	A new hybrid for improvement of auto-regressive integrated moving average models applying particle swarm optimization. Expert Systems With Applications, 2012, 39, 5332-5337.	7.6	31
23	International Journal of Management Science and Engineering Management. International Journal of Management Science and Engineering Management, 2009, 4, 39-48.	3.1	4
24	A new hybrid artificial neural networks and fuzzy regression model for time series forecasting. Fuzzy Sets and Systems, 2008, 159, 769-786.	2.7	173
