David Trafimow

List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/2772424/david-trafimow-publications-by-year.pdf

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
197	Best way not to misuse p values is not to draw definitive conclusions about hypotheses <i>BMJ Evidence-Based Medicine</i> , 2022 ,	2.7	
196	Why we habitually engage in null-hypothesis significance testing: A qualitative study. <i>PLoS ONE</i> , 2021 , 16, e0258330	3.7	О
195	The Falsificationist Foundation for Null Hypothesis Significance Testing. <i>Studies in Computational Intelligence</i> , 2021 , 219-226	0.8	
194	A Viable Approach to Mitigating Irreproducibility. Stats, 2021 , 4, 205-215	0.9	2
193	Estimating the location parameter under skew normal settings: is violating the independence assumption good or bad?. <i>Soft Computing</i> , 2021 , 25, 7795-7802	3.5	1
192	The harmful effect of null hypothesis significance testing on marketing research: An example. <i>Journal of Business Research</i> , 2021 , 125, 39-44	8.7	7
191	Untangling the Theory of Planned Behavior's auxiliary assumptions and theoretical assumptions: Implications for predictive and intervention studies. <i>New Ideas in Psychology</i> , 2021 , 60, 100818	2.5	3
190	Why the Increasing Use of Complex Causal Models Is a Problem: On the Danger Sophisticated Theoretical Narratives Pose to Truth. <i>Organizational Research Methods</i> , 2021 , 24, 616-629	5.7	12
189	Mandatory theorizing and synthesis: A comment on Phaf (2020). <i>Theory and Psychology</i> , 2020 , 30, 286-2	9111	2
188	The inaccuracy of sample-based confidence intervals to estimate a priori ones. <i>Methodology</i> , 2020 , 16, 112-126	1.2	0
187	Making the A Priori Procedure Work for Differences Between Means. <i>Educational and Psychological Measurement</i> , 2020 , 80, 186-198	3.1	8
186	The (im)precision of scholarly consumer behavior research. <i>Journal of Business Research</i> , 2020 , 114, 93-1	I ® 17	7
185	Necessary sample sizes for specified closeness and confidence of matched data under the skew normal setting. <i>Communications in Statistics Part B: Simulation and Computation</i> , 2019 , 1-12	0.6	8
184	Why successful replications across contexts and Operationalizations might not be good for theory building or testing. <i>Journal for the Theory of Social Behaviour</i> , 2019 , 49, 359-368	1.2	3
183	A taxonomy of model assumptions on which P is based and implications for added benefit in the sciences. <i>International Journal of Social Research Methodology: Theory and Practice</i> , 2019 , 22, 571-583	2.8	13
182	Inferential Statistics as Descriptive Statistics: There Is No Replication Crisis if We Donl Expect Replication. <i>American Statistician</i> , 2019 , 73, 262-270	5	125
181	Five Nonobvious Changes in Editorial Practice for Editors and Reviewers to Consider When Evaluating Submissions in a Post p . <i>American Statistician</i> , 2019 , 73, 340-345	5	18

(2017-2019)

180	A Frequentist Alternative to Significance Testing, p-Values, and Confidence Intervals. <i>Econometrics</i> , 2019 , 7, 26	1.2	21	
179	Does Slight Skewness Matter? 2019 , 11,		3	
178	My Ban on Null Hypothesis Significance Testing and Confidence Intervals. <i>Studies in Computational Intelligence</i> , 2019 , 35-48	0.8		
177	The Replacement for Hypothesis Testing. Studies in Computational Intelligence, 2019, 3-17	0.8	2	
176	What to Do Instead of Null Hypothesis Significance Testing or Confidence Intervals. <i>Studies in Computational Intelligence</i> , 2019 , 113-128	0.8		
175	Desired Sample Size for Estimating the Skewness Under Skew Normal Settings. <i>Studies in Computational Intelligence</i> , 2019 , 152-162	0.8	3	
174	The sampling precision of research in five major areas of psychology. <i>Behavior Research Methods</i> , 2019 , 51, 2039-2058	6.1	17	
173	From a Sampling Precision Perspective, Skewness Is a Friend and Not an Enemy!. <i>Educational and Psychological Measurement</i> , 2019 , 79, 129-150	3.1	32	
172	Means and standard deviations, or locations and scales? That is the question!. <i>New Ideas in Psychology</i> , 2018 , 50, 34-37	2.5	14	
171	Some Implications of Distinguishing Between Unexplained Variance That Is Systematic or Random. <i>Educational and Psychological Measurement</i> , 2018 , 78, 482-503	3.1	4	
170	An a priori solution to the replication crisis. <i>Philosophical Psychology</i> , 2018 , 31, 1188-1214	1.1	32	
169	Manipulating the Alpha Level Cannot Cure Significance Testing. Frontiers in Psychology, 2018, 9, 699	3.4	50	
168	Measuring the Strength of the Evidence. <i>Biomedical Journal of Scientific & Technical Research</i> , 2018 , 6,	1.6	2	
167	Why I Do Not Agree That Neurointervention Is Less Ethical Than Incarceration. <i>AJOB Neuroscience</i> , 2018 , 9, 144-146	0.8		
166	The Automaticity of Habitual Behaviours: Inconvenient Questions 2018, 379-395		7	
165	Confidence intervals, precision and confounding. <i>New Ideas in Psychology</i> , 2018 , 50, 48-53	2.5	11	
164	Non Causal Theories and Using Auxiliary Assumptions to Handle Situation-Specificity. <i>Journal for the Theory of Social Behaviour</i> , 2017 , 47, 154-158	1.2		
163	The probability of simple versus complex causal models in causal analyses. <i>Behavior Research Methods</i> , 2017 , 49, 739-746	6.1	13	

162	Implications of an initial empirical victory for the truth of the theory and additional empirical victories. <i>Philosophical Psychology</i> , 2017 , 30, 415-437	1.1	14
161	Null hypothesis significance testing and Type I error: The domain problem. <i>New Ideas in Psychology</i> , 2017 , 45, 19-27	2.5	27
160	A close consideration of effect sizes reviewed by Jussim (2012). <i>Behavioral and Brain Sciences</i> , 2017 , 40, e15	0.9	
159	Why I am not a fan of pragmatic nihilism. <i>Health Psychology Review</i> , 2017 , 11, 122-124	7.1	4
158	Selecting Field Experiment Locations with Archival Data. <i>Journal of Consumer Affairs</i> , 2017 , 51, 448-462	2	
157	Using the Coefficient of Confidence to Make the Philosophical Switch From A Posteriori to A Priori Inferential Statistics. <i>Educational and Psychological Measurement</i> , 2017 , 77, 831-854	3.1	37
156	Performing Inferential Statistics Prior to Data Collection. <i>Educational and Psychological Measurement</i> , 2017 , 77, 204-219	3.1	32
155	Commentary: Reproducibility in Psychological Science: When Do Psychological Phenomena Exist?. <i>Frontiers in Psychology</i> , 2017 , 8, 918	3.4	
154	Evolutionary Influences on Attribution and Affect. Frontiers in Psychology, 2017, 8, 2255	3.4	
153	Why It Is Problematic to Calculate Probabilities of Findings Given Range Null Hypotheses. <i>Open Journal of Statistics</i> , 2017 , 07, 483-499	0.3	1
152	Using Confluence Theory to Make Unusual Predictions about Desire, Expectation, and Intention Attributions. <i>Journal of Social Science Studies</i> , 2016 , 3, 8	0.3	
151	The Invalidity of Drawing Bioethical Conclusions From Statistically Significant Differences Between Male and Female Samples Pertaining to the Use of Neurological Information. <i>AJOB Neuroscience</i> , 2016 , 7, 187-189	0.8	
150	A method for evaluating and selecting field experiment locations. <i>Marketing Letters</i> , 2016 , 27, 437-447	2.3	5
149	The shocking implications of BayesItheorem for diagnosing herniated nucleus pulposus based on MRI scans. <i>Cogent Medicine</i> , 2016 , 3, 1133270	1.4	2
148	Parents Do Not Always Have to Get Their Way: Why Critical Congenital Heart Disease Screening for Newborns Should Be Mandatory. <i>American Journal of Bioethics</i> , 2016 , 16, 35-7	1.1	4
147	The attenuation of correlation coefficients: a statistical literacy issue. <i>Teaching Statistics</i> , 2016 , 38, 25-2	8 0.6	10
146	How Likely Are Impressive Benefits to Ensue From Simulation-Driven Big Neuroscience?. <i>AJOB Neuroscience</i> , 2016 , 7, 26-28	0.8	
145	Recognizing the Role of Consistency in a Delayed Memory Task. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2016 , 60, 1155-1159	0.4	

(2014-2016)

144	Badly specified theories are not responsible for the replication crisis in social psychology: Comment on Klein. <i>Theory and Psychology</i> , 2016 , 26, 540-548	1.1	16
143	On retiring the TRA/TPB without retiring the lessons learned: a commentary on Sniehotta, Presseau and AraJb-Soares. <i>Health Psychology Review</i> , 2015 , 9, 168-71	7.1	12
142	Artificial Enhancement of Motivation Is Typically Not a Bioethical Problem. <i>AJOB Neuroscience</i> , 2015 , 6, 44-45	0.8	
141	The intelligibility of r or r (2) as an effect size statistic: dichotomous variables. <i>Frontiers in Psychology</i> , 2015 , 6, 294	3.4	3
140	THE IMPORTANCE OF NEGATIVE ACCELERATION OF THE LOAD IN FREE-STYLE LIFTING. <i>Perceptual and Motor Skills</i> , 2015 , 121, 163-9	2.2	1
139	Mind attributions about moral actors: intentionality is greater given coherent cues. <i>British Journal of Social Psychology</i> , 2015 , 54, 220-35	6.8	8
138	Predictive Brain Implants Are Unlikely to Decrease Patients' Autonomy. <i>AJOB Neuroscience</i> , 2015 , 6, 22-24	0.8	2
137	The alleged tradeoff between explanatory breadth and predictive power. <i>Theory and Psychology</i> , 2015 , 25, 833-840	1.1	7
136	The Case for Adding Randomness to the Nature-Nurture Debate. <i>Issues in Social Science</i> , 2015 , 3, 121	О	
135	Replication, falsification, and the crisis of confidence in social psychology. <i>Frontiers in Psychology</i> , 2015 , 6, 621	3.4	203
134	Is consistency a domain-general individual differences characteristic?. <i>Journal of General Psychology</i> , 2015 , 142, 1-22	1	2
133	The sufficiency assumption of the reasoned approach to action. <i>Cogent Psychology</i> , 2015 , 2, 1014239	1	1
132	A defense against the alleged unreliability of difference scores. <i>Cogent Mathematics</i> , 2015 , 2, 1064626		39
131	Introduction to the Special Issue on Mediation Analyses: What If Planetary Scientists Used Mediation Analysis to Infer Causation?. <i>Basic and Applied Social Psychology</i> , 2015 , 37, 197-201	1.1	47
130	Attachment-related individual differences in the consistency of relationship behavior interpretation. <i>Journal of Personality</i> , 2014 , 82, 237-49	4.4	2
129	Janteloven and the expression of pride in Norway and the United States. <i>Journal of Social Psychology</i> , 2014 , 154, 375-8	2.3	10
128	The mean as a multilevel issue. Frontiers in Psychology, 2014 , 5, 180	3.4	5

126	Estimating true standard deviations. Frontiers in Psychology, 2014, 5, 235	3.4	7
125	The implication of the coefficient of centrality for assessing the meaning of the mean. <i>Frontiers in Psychology</i> , 2014 , 5, 1356	3.4	1
124	Affect and Morality: A Cross-Cultural Examination of Moral Attribution. <i>Journal of Cross-Cultural Psychology</i> , 2014 , 45, 417-430	1.9	14
123	On speaking up and alcohol and drug testing for health care professionals. <i>American Journal of Bioethics</i> , 2014 , 14, 44-6	1.1	1
122	On teaching about the coefficient of variation in introductory statistics courses. <i>Teaching Statistics</i> , 2014 , 36, 81-82	0.6	3
121	More Reasons Why Diffuse Tensor Imaging Is Problematic in Medicolegal Settings. <i>AJOB Neuroscience</i> , 2014 , 5, 39-41	0.8	
120	Using Priming Methods to Address Self-Concept Problems That Arise From Deep Brain Stimulation. <i>AJOB Neuroscience</i> , 2014 , 5, 52-53	0.8	1
119	Considering Quantitative and Qualitative Issues Together. <i>Qualitative Research in Psychology</i> , 2014 , 11, 15-24	2.2	17
118	A measure of within-participant response consistency. <i>Behavior Research Methods</i> , 2013 , 45, 950-4	6.1	4
117	Augmenting the argument against indirect medical advertising. <i>American Journal of Bioethics</i> , 2013 , 13, 21-3	1.1	2
116	Exemptions from influenza vaccinations for health care personnel based on self or identity issues: are they justified?. <i>American Journal of Bioethics</i> , 2013 , 13, 44-6	1.1	1
115	Are measurement theories falsifiable, and should we care?. <i>Theory and Psychology</i> , 2013 , 23, 397-400	1.1	5
114	The interaction between research consent and random error. <i>American Journal of Bioethics</i> , 2013 , 13, 49-50	1.1	2
113	Using potential performance theory to analyze systematic and random factors in enumeration tasks. <i>American Journal of Psychology</i> , 2013 , 126, 23-32	0.5	1
112	The importance of surprising findings in psychology. Frontiers in Psychology, 2013, 4, 173	3.4	1
111	Descriptive vs. inferential cheating. <i>Frontiers in Psychology</i> , 2013 , 4, 627	3.4	2
110	To disconfirm or not to disconfirm: a null prediction vs. no prediction. <i>Frontiers in Psychology</i> , 2013 , 4, 733	3.4	2
109	Adaptive memory: evaluating alternative forms of fitness-relevant processing in the survival processing paradigm. <i>PLoS ONE</i> , 2013 , 8, e60868	3.7	27

108	Confluence theory: uniting two houses divided. Theoretical Issues in Ergonomics Science, 2012, 13, 411-4	4 29 2	2
107	Time pressure heuristics can improve performance due to increased consistency. <i>Journal of General Psychology</i> , 2012 , 139, 273-88	1	11
106	Inferences about character and motive influence intentionality attributions about side effects. <i>British Journal of Social Psychology</i> , 2012 , 51, 661-73	6.8	14
105	Using PPT to account for randomness in perception. <i>Attention, Perception, and Psychophysics</i> , 2012 , 74, 1355-65	2	5
104	The role of mechanisms, integration, and unification in science and psychology. <i>Theory and Psychology</i> , 2012 , 22, 697-703	1.1	7
103	It is irrelevant, but it matters: Using confluence theory to predict the influence of beliefs on evaluations, attitudes, and intentions. <i>European Journal of Social Psychology</i> , 2012 , 42, 509-520	2.9	1
102	The Concept of Unit Coherence and Its Application to Psychology Theories. <i>Journal for the Theory of Social Behaviour</i> , 2012 , 42, 131-154	1.2	1
101	Testing the Death Thought Suppression and Rebound Hypothesis: Death Thought Accessibility Following Mortality Salience Decreases During a Delay. <i>Social Psychological and Personality Science</i> , 2012 , 3, 622-629	4.3	18
100	The role of auxiliary assumptions for the validity of manipulations and measures. <i>Theory and Psychology</i> , 2012 , 22, 486-498	1.1	68
99	The relevance of auxiliary assumptions in falsification. <i>American Journal of Bioethics</i> , 2012 , 12, 22-4	1.1	1
98	The harder the task, the more inconsistent the performance: a PPT analysis on task difficulty. Journal of General Psychology, 2012 , 139, 1-18	1	7
97	When violations of perfect duties do not cause strong trait attributions. <i>American Journal of Psychology</i> , 2012 , 125, 51-60	0.5	1
96	An alternative statistical procedure in evaluating applied research products. <i>International Journal of Experimental Design and Process Optimisation</i> , 2012 , 3, 198	0.1	
95	Using Pictures to Enhance Students' Understanding of Bayes' Theorem. <i>Teaching Statistics</i> , 2011 , 33, 83-84	0.6	3
94	Virtue Engineering Engenders Potential Benefits at a Fundamental Level. <i>AJOB Neuroscience</i> , 2011 , 2, 15-17	0.8	
93	Using PPT to correct for inconsistency in a speeded task. <i>Journal of General Psychology</i> , 2011 , 138, 12-3	341	6
92	Can priming your self lead to punishing others?. Journal of Social Psychology, 2011, 151, 531-4	2.3	2
91	Using a sharp instrument to parse apart strategy and consistency: an evaluation of PPT and its assumptions. <i>Journal of General Psychology</i> , 2011 , 138, 169-84	1	5

90	Using potential performance theory to test five hypotheses about meta-attribution. <i>Journal of General Psychology</i> , 2011 , 138, 81-93	1	4
89	It's a just world no matter which way you look at it. <i>Journal of General Psychology</i> , 2011 , 138, 229-42	1	8
88	An investigation of the accuracy of standardized path coefficients. <i>Journal of General Psychology</i> , 2011 , 138, 201-14	1	2
87	Korn and Freidlin's misunderstanding of the null hypothesis significance testing procedure. <i>American Journal of Bioethics</i> , 2011 , 11, 15-6	1.1	1
86	Distinguishing psychological issues from scientific issues. <i>American Journal of Bioethics</i> , 2011 , 11, 29-30	1.1	1
85	Analyzing Sub-Optimal Human-Automation Performance across Multiple Sessions. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2010 , 54, 1670-1674	0.4	
84	Using PPT to analyze suboptimal human-automation performance. <i>Journal of General Psychology</i> , 2010 , 137, 310-29	1	16
83	How many people have to die over a type II error?. <i>Theoretical Issues in Ergonomics Science</i> , 2010 , 11, 387-401	2.2	3
82	The role of auxiliary assumptions in the falsification of ergonomics theories. <i>Theoretical Issues in Ergonomics Science</i> , 2010 , 11, 220-229	2.2	2
81	How often is prep close to the true replication probability?. <i>Psychological Methods</i> , 2010 , 15, 300-7	7.1	5
80	The Theory of Reasoned Action: A Case Study of Falsification in Psychology. <i>Theory and Psychology</i> , 2009 , 19, 501-518	1.1	69
79	What If Social Scientists Had Reviewed Great Scientific Works of the Past?. <i>Perspectives on Psychological Science</i> , 2009 , 4, 65-78	9.8	38
78	Different selves, different values: Effects of self-construals on value activation and use. <i>European Journal of Social Psychology</i> , 2009 , 39, 909-919	2.9	31
77	The effects of private and collective self-priming on visual search: taking advantage of organized contextual stimuli. <i>British Journal of Social Psychology</i> , 2009 , 48, 467-86	6.8	4
76	Potential performance theory (PPT): describing a methodology for analyzing task performance. <i>Behavior Research Methods</i> , 2009 , 41, 359-71	6.1	26
75	Reeder's MIM as a Special Case of Confluence Theory. <i>Psychological Inquiry</i> , 2009 , 20, 48-52	2	12
74	The automated cockpit: A comparison of attitudes towards human and automated pilots. <i>Transportation Research Part F: Traffic Psychology and Behaviour</i> , 2009 , 12, 428-439	4.5	16
73	A test of the null hypothesis significance testing procedure correlation argument. <i>Journal of General Psychology</i> , 2009 , 136, 261-9	1	42

(2002-2008)

72	Potential performance theory (PPT): a general theory of task performance applied to morality. <i>Psychological Review</i> , 2008 , 115, 447-62	6.3	30	
71	Why the empirical literature fails to support or disconfirm modular or dual-process models. <i>Behavioral and Brain Sciences</i> , 2007 , 30, 283-284	0.9	1	
70	A test of three hypotheses concerning attributions toward female promiscuity. <i>Social Science Journal</i> , 2007 , 44, 677-686	1.1	9	
69	Mental habits: metacognitive reflection on negative self-thinking. <i>Journal of Personality and Social Psychology</i> , 2007 , 92, 526-41	6.5	144	
68	Using epistemic ratios to evaluate hypotheses: an imprecision penalty for imprecise hypotheses. <i>Genetic, Social, and General Psychology Monographs</i> , 2006 , 132, 431-62		23	
67	Multiplicative invalidity and its application to complex correlational models. <i>Genetic, Social, and General Psychology Monographs</i> , 2006 , 132, 215-39		7	
66	An index of specific behaviors in the moral domain. Behavior Research Methods, 2006, 38, 692-7	6.1	18	
65	The ubiquitous Laplacian assumption: Reply to Lee and Wagenmakers (2005) <i>Psychological Review</i> , 2005 , 112, 669-674	6.3	27	
64	The role of affect in determining the attributional weight of immoral behaviors. <i>Personality and Social Psychology Bulletin</i> , 2005 , 31, 935-48	4.1	45	
63	Attitude Measurement 2004 , 233-243		2	
62	Affective and cognitive control of persons and behaviours. <i>British Journal of Social Psychology</i> , 2004 , 43, 207-24	6.8	74	
61	Problems with change in R2 as applied to theory of reasoned action research. <i>British Journal of Social Psychology</i> , 2004 , 43, 515-30	6.8	37	
60	A test of whether attributions provide for self-enhancement or self-defense. <i>Journal of Social Psychology</i> , 2004 , 144, 453-63	2.3	5	
59	Hypothesis testing and theory evaluation at the boundaries: surprising insights from Bayes's theorem. <i>Psychological Review</i> , 2003 , 110, 526-35	6.3	195	
58	Predicting behaviour from perceived behavioural control: tests of the accuracy assumption of the theory of planned behaviour. <i>British Journal of Social Psychology</i> , 2003 , 42, 393-410	6.8	137	
57	The importance of traits, group memberships, and relationships. Social Science Journal, 2003, 40, 447-4	45 7 .1	2	
56	Predicting Exercise and Health Behavioral Intentions: Attitudes, Subjective Norms, and Other Behavioral Determinants1. <i>Journal of Applied Social Psychology</i> , 2002 , 32, 342-356	2.1	30	

54	Evidence that perceived behavioural control is a multidimensional construct: perceived control and perceived difficulty. <i>British Journal of Social Psychology</i> , 2002 , 41, 101-21	6.8	225
53	Evidence that the type of person affects the strength of the perceived behavioural control-intention relationship. <i>British Journal of Social Psychology</i> , 2002 , 41, 253-70	6.8	51
52	The Relative Influence of Attitudes and Subjective Norms from Childhood to Adolescence: Between-Participant and Within-Participant Analyses. <i>American Journal of Psychology</i> , 2002 , 115, 395	0.5	7
51	Inferences about the morality of an aggressor: The role of perceived motive <i>Journal of Personality and Social Psychology</i> , 2002 , 83, 789-803	6.5	109
50	The influence of patriarchal ideology on outcomes of legal decisions involving woman battering cases: an analysis of five historical eras. <i>Social Science Journal</i> , 2002 , 39, 235-245	1.1	4
49	Inferences about the morality of an aggressor: the role of perceived motive. <i>Journal of Personality and Social Psychology</i> , 2002 , 83, 789-803	6.5	13
48	The relative influence of attitudes and subjective norms from childhood to adolescence: between-participant and within-participant analyses. <i>American Journal of Psychology</i> , 2002 , 115, 395-41	4 ^{0.5}	1
47	The importance of traits and group memberships. European Journal of Social Psychology, 2001, 31, 37-43	32.9	11
46	The Effects of Charismatic Leadership on Followers Belf-Concept Accessibility. <i>Journal of Applied Social Psychology</i> , 2001 , 31, 1821-1842	2.1	39
45	The Effects of Trait Type and Situation Type on the Generalization of Trait Expectancies Across Situations. <i>Personality and Social Psychology Bulletin</i> , 2001 , 27, 1463-1468	4.1	11
44	The accessibility of group memberships. <i>Journal of Social Psychology</i> , 2001 , 141, 509-22	2.3	3
43	The relationship between normatively versus attitudinally controlled people and normatively versus attitudinally controlled behaviors. <i>Social Science Journal</i> , 2001 , 38, 203-216	1.1	18
42	Everybody is doing it: the effects of base rate information on correspondent inferences from violations of perfect and imperfect duties. <i>Social Science Journal</i> , 2001 , 38, 421-433	1.1	18
