#	ARTICLE	IF	CITATIONS
1	Persons as Contexts: Evaluating Between-Person and Within-Person Effects in Longitudinal Analysis. <i>Research in Human Development</i> , 2009, 6, 97-120.	0.8	471
2	Intraindividual coupling of daily stress and cognition.. <i>Psychology and Aging</i> , 2006, 21, 545-557.	1.4	221
3	Reported exposure and emotional reactivity to daily stressors: The roles of adult age and global perceived stress.. <i>Psychology and Aging</i> , 2008, 23, 52-61.	1.4	215
4	Intraindividual change and variability in daily stress processes: Findings from two measurement-burst diary studies.. <i>Psychology and Aging</i> , 2009, 24, 828-840.	1.4	198
5	Maternal Cortisol Levels and Behavior Problems in Adolescents and Adults with ASD. <i>Journal of Autism and Developmental Disorders</i> , 2010, 40, 457-469.	1.7	163
6	Adult Age and Digit Symbol Substitution Performance: A Meta-Analysis.. <i>Psychology and Aging</i> , 2004, 19, 211-214.	1.4	149
7	Interindividual differences and intraindividual variability in the cortisol awakening response: An examination of age and gender.. <i>Psychology and Aging</i> , 2009, 24, 819-827.	1.4	148
8	Work-family climate, organizational commitment, and turnover: Multilevel contagion effects of leaders. <i>Journal of Vocational Behavior</i> , 2009, 74, 18-29.	1.9	146
9	Emotional Reactivity and Mortality: Longitudinal Findings From the VA Normative Aging Study. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2015, 70, 398-406.	2.4	119
10	Associations among daily stressors and salivary cortisol: Findings from the National Study of Daily Experiences. <i>Psychoneuroendocrinology</i> , 2013, 38, 2654-2665.	1.3	115
11	Psychosocial and Biological Markers of Daily Lives of Midlife Parents of Children with Disabilities. <i>Journal of Health and Social Behavior</i> , 2009, 50, 1-15.	2.7	102
12	Stress-related cognitive interference predicts cognitive function in old age.. <i>Psychology and Aging</i> , 2006, 21, 535-544.	1.4	101
13	Distinguishing Preterminal and Terminal Cognitive Decline. <i>European Psychologist</i> , 2006, 11, 172-181.	1.8	80
14	Fluid cognitive ability is associated with greater exposure and smaller reactions to daily stressors.. <i>Psychology and Aging</i> , 2010, 25, 330-342.	1.4	72
15	A Coordinated Analysis of Variance in Affect in Daily Life. <i>Assessment</i> , 2020, 27, 1683-1698.	1.9	72
16	Everyday stress response targets in the science of behavior change. <i>Behaviour Research and Therapy</i> , 2018, 101, 20-29.	1.6	61
17	Loneliness in a day: Activity engagement, time alone, and experienced emotions.. <i>Psychology and Aging</i> , 2014, 29, 297-305.	1.4	56
18	Cancer survivors' responses to daily stressors: Implications for quality of life.. <i>Health Psychology</i> , 2012, 31, 360-370.	1.3	50

#	ARTICLE	IF	CITATIONS
19	Association of retirement age with mortality: a population-based longitudinal study among older adults in the USA. <i>Journal of Epidemiology and Community Health</i> , 2016, 70, 917-923.	2.0	47
20	Age and the association between negative affective states and diurnal cortisol.. <i>Psychology and Aging</i> , 2013, 28, 47-56.	1.4	46
21	A Double-Edged Sword. <i>Journal of Family Issues</i> , 2014, 35, 1824-1845.	1.0	43
22	Daily positive events and diurnal cortisol rhythms: Examination of between-person differences and within-person variation. <i>Psychoneuroendocrinology</i> , 2017, 83, 91-100.	1.3	42
23	Age differences in everyday stressor-related negative affect: A coordinated analysis.. <i>Psychology and Aging</i> , 2019, 34, 91-105.	1.4	39
24	Visit-to-Visit Blood Pressure Variability and Mortality and Cardiovascular Outcomes Among Older Adults: The Health, Aging, and Body Composition Study. <i>American Journal of Hypertension</i> , 2017, 30, 151-158.	1.0	38
25	A Comprehensive Comparison of Quantifications of Intraindividual Variability in Response Times: A Measurement Burst Approach. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2019, 74, 397-408.	2.4	38
26	Racial Differences in Exposure and Reactivity to Daily Family Stressors. <i>Journal of Marriage and Family</i> , 2012, 74, 572-586.	1.6	31
27	Smoking is Associated with Worse Mood on Stressful Days: Results from a National Diary Study. <i>Annals of Behavioral Medicine</i> , 2008, 36, 259-269.	1.7	30
28	Understanding stress reports in daily life: a coordinated analysis of factors associated with the frequency of reporting stress. <i>Journal of Behavioral Medicine</i> , 2019, 42, 545-560.	1.1	27
29	Between-Person and Within-Person Associations Among Processing Speed, Attention Switching, and Working Memory in Younger and Older Adults. <i>Experimental Aging Research</i> , 2013, 39, 194-214.	0.6	24
30	Marital Transitions and Depressive Symptoms among Older Adults: Examining Educational Differences. <i>Gerontology</i> , 2019, 65, 407-418.	1.4	21
31	The Ups and Downs of Cognitive Function: Neuroticism and Negative Affect Drive Performance Inconsistency. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, 263-273.	2.4	20
32	Age, Daily Stress Processes, and Allostatic Load: A Longitudinal Study. <i>Journal of Aging and Health</i> , 2019, 31, 1671-1691.	0.9	19
33	Associations among fluid and crystallized cognition and daily stress processes in older adults.. <i>Psychology and Aging</i> , 2013, 28, 57-63.	1.4	17
34	Comparing executive function, evoked hemodynamic response, and gait as predictors of variations in mobility for older adults. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2018, 40, 151-160.	0.8	17
35	Selective attrition and intraindividual variability in response time moderate cognitive change. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2016, 38, 227-237.	0.8	16
36	Daily Smoking and Subjective Health Complaints in Adolescence. <i>Nicotine and Tobacco Research</i> , 2017, 19, 102-110.	1.4	14

#	ARTICLE	IF	CITATIONS
37	Daily stressors and self-reported changes in memory in old age: The mediating effects of daily negative affect and cognitive interference. <i>Aging and Mental Health</i> , 2013, 17, 168-172.	1.5	13
38	Comparing individual differences in inconsistency and plasticity as predictors of cognitive function in older adults. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2016, 38, 534-550.	0.8	13
39	Daily Stress Processes as Contributors to and Targets for Promoting Cognitive Health in Later Life. <i>Psychosomatic Medicine</i> , 2019, 81, 81-89.	1.3	12
40	Mean and variability in functional brain activations differentially predict executive function in older adults: an investigation employing functional near-infrared spectroscopy. <i>Neurophotonics</i> , 2017, 5, 1.	1.7	12
41	The influence of social support and perceived stress on response time inconsistency. <i>Aging and Mental Health</i> , 2019, 23, 214-221.	1.5	6
42	Religious and Spiritual Development from Adolescence to Early Adulthood in the U.S.: Changes over Time and Sexual Orientation Differences. <i>Archives of Sexual Behavior</i> , 2021, 50, 973-982.	1.2	6
43	Longitudinal changes in response time mean and inconsistency exhibit predictive dissociations for risk of cognitive impairment.. <i>Neuropsychology</i> , 2020, 34, 264-275.	1.0	6
44	Cognitively-Impaired-Not-Demented Status Moderates the Time-Varying Association between Finger Tapping Inconsistency and Executive Performance. <i>Archives of Clinical Neuropsychology</i> , 2016, 32, 110-116.	0.3	5
45	A New Brief Measure of Executive Function: Adapting the Head-Toes-Knees-Shoulders Task to Older Adults. <i>Gerontologist</i> , The, 2019, 59, e258-e267.	2.3	5
46	Creation and validation of a polysocial score for mortality among community-dwelling older adults in the USA: the health and retirement study. <i>Age and Ageing</i> , 2021, 50, 2214-2221.	0.7	5
47	Associations Between Control Beliefs and Response Time Inconsistency in Older Adults Vary as a Function of Attentional Task Demands. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 75, 1819-1830.	2.4	4
48	Resolution Status and Age as Moderators for Interpersonal Everyday Stress and Stressor-Related Affect. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2021, 76, 1926-1936.	2.4	4
49	Daily linkages among high and low arousal affect and subjective cognitive complaints. <i>Aging and Mental Health</i> , 2021, 25, 844-855.	1.5	3
50	Women's Self-Relevant Goal Pursuit in the Presence of Physical Pain: An Intraindividual Variability Approach. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2020, 76, 1565-1573.	2.4	2
51	A socially-engaged lifestyle moderates the association between gait velocity and cognitive impairment. <i>Aging and Mental Health</i> , 2021, 25, 632-640.	1.5	2
52	Aging-related changes in the association between negative affect and response time inconsistency in older adulthood. <i>International Journal of Behavioral Development</i> , 2021, 45, 109-121.	1.3	1
53	Linking widowhood and later-life depressive symptoms: Do childhood socioeconomic circumstances matter?. <i>Aging and Mental Health</i> , 2021, , 1-11.	1.5	1
54	Age differences in allostatic load among veterans: The importance of combat exposure. <i>Journal of Traumatic Stress</i> , 2021, , .	1.0	1
