

# Anna N Molter

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/2789535/anna-n-molter-publications-by-year.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

37  
papers

3,324  
citations

24

#	Paper	IF	Citations
37	Citizen science and environmental justice: exploring contradictory outcomes through a case study of air quality monitoring in Dublin. <i>Local Environment</i> , <b>2022</b> , 27, 622-638	3.3	
36	Examining the status of improved air quality in world cities due to COVID-19 led temporary reduction in anthropogenic emissions. <i>Environmental Research</i> , <b>2021</b> , 196, 110927	7.9	22
35	Investigating changes in noise pollution due to the COVID-19 lockdown: The case of Dublin, Ireland. <i>Sustainable Cities and Society</i> , <b>2021</b> , 65, 102597	10.1	66
34	Developing land use regression models for environmental science research using the XLUR tool □ More than a one-trick pony. <i>Environmental Modelling and Software</i> , <b>2021</b> , 143, 105108	5.2	1
33	XLUR: A land use regression wizard for ArcGIS Pro. <i>Journal of Open Source Software</i> , <b>2020</b> , 5, 2177	5.2	1
32	Examining the association between socio-demographic composition and COVID-19 fatalities in the European region using spatial regression approach. <i>Sustainable Cities and Society</i> , <b>2020</b> , 62, 102418	10.1	118
31	Antibiotic prescribing for common infections in UK general practice: variability and drivers. <i>Journal of Antimicrobial Chemotherapy</i> , <b>2019</b> , 74, 2440-2450	5.1	28
30	Antibiotic choice in UK general practice: rates and drivers of potentially inappropriate antibiotic prescribing. <i>Journal of Antimicrobial Chemotherapy</i> , <b>2019</b> , 74, 3371-3378	5.1	11
29	The Fort Collins commuter study: Variability in personal exposure to air pollutants by microenvironment. <i>Indoor Air</i> , <b>2019</b> , 29, 231-241	5.4	34
28	Relationship between prescribing of antibiotics and other medicines in primary care: a cross-sectional study. <i>British Journal of General Practice</i> , <b>2019</b> , 69, e42-e51	1.6	13
27	Antibiotic prescribing patterns in general medical practices in England: Does area matter?. <i>Health and Place</i> , <b>2018</b> , 53, 10-16	4.6	10
26	An accurate filter loading correction is essential for assessing personal exposure to black carbon using an Aethalometer. <i>Journal of Exposure Science and Environmental Epidemiology</i> , <b>2017</b> , 27, 409-416	6.7	19
25	The Fort Collins Commuter Study: Impact of route type and transport mode on personal exposure to multiple air pollutants. <i>Journal of Exposure Science and Environmental Epidemiology</i> , <b>2016</b> , 26, 397-404	6.7	50
24	Personal exposure to static and time-varying magnetic fields during MRI procedures in clinical practice in the UK. <i>Occupational and Environmental Medicine</i> , <b>2016</b> , 73, 779-786	2.1	15
23	Influence of walking route choice on primary school children's exposure to air pollution--A proof of concept study using simulation. <i>Science of the Total Environment</i> , <b>2015</b> , 530-531, 257-262	10.2	23
22	Transient health symptoms of MRI staff working with 1.5 and 3.0 Tesla scanners in the UK. <i>European Radiology</i> , <b>2015</b> , 25, 2718-26	8	24
21	A multicentre study of air pollution exposure and childhood asthma prevalence: the ESCAPE project. <i>European Respiratory Journal</i> , <b>2015</b> , 45, 610-24	13.6	99

20	Spatial variation of PM elemental composition between and within 20 European study areas--Results of the ESCAPE project. <i>Environment International</i> , <b>2015</b> , 84, 181-92	12.9	37
19	Meta-analysis of air pollution exposure association with allergic sensitization in European birth cohorts. <i>Journal of Allergy and Clinical Immunology</i> , <b>2014</b> , 133, 767-76.e7	11.5	59
18	Associations between particulate matter elements and early-life pneumonia in seven birth cohorts: results from the ESCAPE and TRANSPHORM projects. <i>International Journal of Hygiene and Environmental Health</i> , <b>2014</b> , 217, 819-29	6.9	29
17	Air pollution and respiratory infections during early childhood: an analysis of 10 European birth cohorts within the ESCAPE Project. <i>Environmental Health Perspectives</i> , <b>2014</b> , 122, 107-13	8.4	175
16	Effects of long-term exposure to PM10 and NO2 on asthma and wheeze in a prospective birth cohort. <i>Journal of Epidemiology and Community Health</i> , <b>2014</b> , 68, 21-8	5.1	29
15	Performance of multi-city land use regression models for nitrogen dioxide and fine particles. <i>Environmental Health Perspectives</i> , <b>2014</b> , 122, 843-9	8.4	53
14	Elemental composition of particulate matter and the association with lung function. <i>Epidemiology</i> , <b>2014</b> , 25, 648-57	3.1	46
13	Evaluation of land use regression models for NO2 and particulate matter in 20 European study areas: the ESCAPE project. <i>Environmental Science &amp; Technology</i> , <b>2013</b> , 47, 4357-64	10.3	82
12	Development of land use regression models for particle composition in twenty study areas in Europe. <i>Environmental Science &amp; Technology</i> , <b>2013</b> , 47, 5778-86	10.3	133
11	Development of NO2 and NOx land use regression models for estimating air pollution exposure in 36 study areas in Europe □The ESCAPE project. <i>Atmospheric Environment</i> , <b>2013</b> , 72, 10-23	5.3	543
10	Air pollution exposure and lung function in children: the ESCAPE project. <i>Environmental Health Perspectives</i> , <b>2013</b> , 121, 1357-64	8.4	256
9	Long-term exposure to PM10 and NO2 in association with lung volume and airway resistance in the MAAS birth cohort. <i>Environmental Health Perspectives</i> , <b>2013</b> , 121, 1232-8	8.4	67
8	Performance of a microenvironmental model for estimating personal NO2 exposure in children. <i>Atmospheric Environment</i> , <b>2012</b> , 51, 225-233	5.3	23
7	Variation of NO2 and NOx concentrations between and within 36 European study areas: Results from the ESCAPE study. <i>Atmospheric Environment</i> , <b>2012</b> , 62, 374-390	5.3	228
6	Spatial variation of PM2.5, PM10, PM2.5 absorbance and PMcoarse concentrations between and within 20 European study areas and the relationship with NO2 □Results of the ESCAPE project. <i>Atmospheric Environment</i> , <b>2012</b> , 62, 303-317	5.3	331
5	Development of Land Use Regression models for PM(2.5), PM(2.5) absorbance, PM(10) and PM(coarse) in 20 European study areas; results of the ESCAPE project. <i>Environmental Science &amp; Technology</i> , <b>2012</b> , 46, 11195-205	10.3	630
4	Estimating Long-term Exposure to Air Pollution in 38 Study Areas in Europe in a Harmonized Way Using Land Use Regression Modeling (ESCAPE Project). <i>Epidemiology</i> , <b>2011</b> , 22, S82	3.1	
3	Modelling air pollution for epidemiologic research--Part I: A novel approach combining land use regression and air dispersion. <i>Science of the Total Environment</i> , <b>2010</b> , 408, 5862-9	10.2	37

2	Modelling air pollution for epidemiologic research--part II: predicting temporal variation through land use regression. <i>Science of the Total Environment</i> , <b>2010</b> , 409, 211-7	10.2	31
1	Examining the status of improved air quality due to COVID-19 lockdown and an associated reduction in anthropogenic emissions		1
