#	ARTICLE	IF	CITATIONS
1	Digital self-harm is associated with disordered eating behaviors in adults. <i>Eating and Weight Disorders</i> , 2022, , 1.	2.5	0
2	Ethnic and racial comparisons of weight-loss treatment utilization history and outcomes in patients with obesity and binge-eating disorder. <i>Eating Behaviors</i> , 2022, 44, 101594.	2.0	5
3	12 Months later: Motivational interviewing plus nutrition psychoeducation for weight loss in primary care. <i>Eating and Weight Disorders</i> , 2021, 26, 2077-2081.	2.5	2
4	Characterizing fear of weight gain and sensitivity to weight gain in individuals seeking weight loss treatment. <i>Eating and Weight Disorders</i> , 2021, 26, 385-393.	2.5	2
5	Examining the construct validity of food addiction severity specifiers. <i>Eating and Weight Disorders</i> , 2021, 26, 1503-1509.	2.5	8
6	Getting a head start: identifying pretreatment correlates associated with early weight loss for individuals participating in weight loss treatment. <i>Translational Behavioral Medicine</i> , 2021, 11, 236-243.	2.4	2
7	Examining impairment and distress from food addiction across demographic and weight groups. <i>Eating Behaviors</i> , 2021, 43, 101574.	2.0	7
8	Early weight loss predicts weight loss treatment response regardless of binge-eating disorder status and pretreatment weight change. <i>International Journal of Eating Disorders</i> , 2018, 51, 558-564.	4.0	7
9	Examining motivational interviewing plus nutrition psychoeducation for weight loss in primary care. <i>Journal of Psychosomatic Research</i> , 2018, 104, 101-107.	2.6	14
10	Characterizing emotional overeating among patients with and without binge-eating disorder in primary care. <i>General Hospital Psychiatry</i> , 2018, 55, 38-43.	2.4	27
11	Loss-of-control eating after bariatric/sleeve gastrectomy surgery: Similar to binge-eating disorder despite differences in quantities. <i>General Hospital Psychiatry</i> , 2018, 54, 25-30.	2.4	35
12	Preliminary examination of metabolic syndrome response to motivational interviewing for weight loss as compared to an attentional control and usual care in primary care for individuals with and without binge-eating disorder. <i>Eating Behaviors</i> , 2017, 26, 108-113.	2.0	8
13	Back to Basics? No Weight Loss from Motivational Interviewing Compared to Nutrition Psychoeducation at One-Year Follow-Up. <i>Obesity</i> , 2017, 25, 2074-2078.	3.0	14
14	Loss-of-control eating following sleeve gastrectomy surgery. <i>Surgery for Obesity and Related Diseases</i> , 2017, 13, 392-398.	1.2	39
15	Biopsychosocial Correlates of Binge Eating Disorder in Caucasian and African American Women with Obesity in Primary Care Settings. <i>European Eating Disorders Review</i> , 2016, 24, 181-186.	4.1	10
16	Food Thought Suppression Inventory: Test-retest reliability and relationship to weight loss treatment outcomes. <i>Eating Behaviors</i> , 2016, 22, 93-95.	2.0	1
17	Preferred descriptions for loss of control while eating and weight among patients with binge eating disorder. <i>Psychiatry Research</i> , 2016, 246, 548-553.	3.3	9
18	Validity and Clinical Utility of Subtyping by the Beck Depression Inventory in Women Seeking Gastric Bypass Surgery. <i>Obesity Surgery</i> , 2016, 26, 2068-2073.	2.1	10

#	ARTICLE	IF	CITATIONS
19	Psychosocial and metabolic function by smoking status in individuals with binge eating disorder and obesity. <i>Addictive Behaviors</i> , 2016, 53, 46-52.	3.0	12
20	Medication Use and Metabolic Syndrome Among Overweight/Obese Patients With and Without Binge-Eating Disorder in a Primary Care Sample. <i>primary care companion for CNS disorders, The</i> , 2015, 17, .	0.6	4
21	Menopause and metabolic syndrome in obese individuals with binge eating disorder. <i>Eating Behaviors</i> , 2014, 15, 182-185.	2.0	17
22	Treatment of binge eating disorder in racially and ethnically diverse obese patients in primary care: Randomized placebo-controlled clinical trial of self-help and medication. <i>Behaviour Research and Therapy</i> , 2014, 58, 1-9.	3.1	59
23	An examination of weight bias among treatment-seeking obese patients with and without binge eating disorder. <i>General Hospital Psychiatry</i> , 2014, 36, 177-180.	2.4	23
24	Comparing weight gain in the year prior to treatment for overweight and obese patients with and without binge eating disorder in primary care. <i>Journal of Psychosomatic Research</i> , 2014, 77, 151-154.	2.6	34
25	The factor structure of the metabolic syndrome in obese individuals with binge eating disorder. <i>Journal of Psychosomatic Research</i> , 2014, 76, 152-157.	2.6	13
26	A randomized controlled trial comparing scalable weight loss treatments in primary care. <i>Obesity</i> , 2014, 22, n/a-n/a.	3.0	33
27	Examining the relationship between food thought suppression and binge eating disorder. <i>Comprehensive Psychiatry</i> , 2013, 54, 1077-1081.	3.1	8
28	Factor structure and clinical correlates of the Food Thought Suppression Inventory within treatment seeking obese women with binge eating disorder. <i>Eating Behaviors</i> , 2013, 14, 35-39.	2.0	4
29	Social anxiety and self-consciousness in binge eating disorder: associations with eating disorder psychopathology. <i>Comprehensive Psychiatry</i> , 2012, 53, 740-745.	3.1	29
30	Metabolic syndrome in obese men and women with binge eating disorder: developmental trajectories of eating and weight-related behaviors. <i>Comprehensive Psychiatry</i> , 2012, 53, 1021-1027.	3.1	20
31	Comparison of methods for identifying and assessing obese patients with binge eating disorder in primary care settings. <i>International Journal of Eating Disorders</i> , 2011, 44, 157-163.	4.0	48
32	Exploring pretreatment weight trajectories in obese patients with binge eating disorder. <i>Comprehensive Psychiatry</i> , 2011, 52, 312-318.	3.1	28
33	Food thought suppression: A matched comparison of obese individuals with and without binge eating disorder. <i>Eating Behaviors</i> , 2011, 12, 272-276.	2.0	13
34	Exploring weight gain in year before treatment for binge eating disorder: A different context for interpreting limited weight losses in treatment studies. <i>International Journal of Eating Disorders</i> , 2011, 44, 435-439.	4.0	25
35	It's Not Just a "Woman Thing": The Current State of Normative Discontent. <i>Eating Disorders</i> , 2011, 19, 392-402.	3.0	110
36	Metabolic Syndrome in Obese Patients With Binge-Eating Disorder in Primary Care Clinics. <i>primary care companion for CNS disorders, The</i> , 2011, 13, .	0.6	18

#	ARTICLE	IF	CITATIONS
37	Validation of the Food Thought Suppression Inventory. <i>Journal of Health Psychology</i> , 2010, 15, 373-381.	2.3	25
38	Psychometric Properties of the Food Thought Suppression Inventory in Men. <i>Journal of Health Psychology</i> , 2010, 15, 1113-1120.	2.3	20
39	Food for thought: Examining the relationship between food thought suppression and weight-related outcomes. <i>Eating Behaviors</i> , 2010, 11, 175-179.	2.0	57
40	Accuracy of Self-Reported Weight and Height and Resulting Body Mass Index Among Obese Binge Eaters in Primary Care. <i>Primary Care Companion To the Journal of Clinical Psychiatry</i> , 2010, 12, .	0.6	11
