#	Paper	IF	Citations
50	Weight loss for overweight and obese individuals with gout: a systematic review of longitudinal studies. <i>Annals of the Rheumatic Diseases</i> , 2017 , 76, 1870-1882	2.4	67
49	Differences between questionnaire- and interview-based measures of activities of daily living (ADL) ability and their association with observed ADL ability in women with rheumatoid arthritis, knee osteoarthritis, and fibromyalgia. <i>Scandinavian Journal of Rheumatology</i> , 2012 , 41, 95-102	1.9	50
48	Test-retest of computerized health status questionnaires frequently used in the monitoring of knee osteoarthritis: a randomized crossover trial. <i>BMC Musculoskeletal Disorders</i> , 2011 , 12, 190	2.8	48
47	Observation-based assessment of functional ability in patients with chronic widespread pain: a cross-sectional study. <i>Pain</i> , 2011 , 152, 2470-2476	8	43
46	Reablement in a community setting. <i>Disability and Rehabilitation</i> , 2015 , 37, 1347-52	2.4	34
45	Self-reported quality of ADL task performance among patients with COPD exacerbations. <i>Scandinavian Journal of Occupational Therapy</i> , 2014 , 21, 313-20	2.1	32
44	Performance of activities of daily living among hospitalized cancer patients. <i>Scandinavian Journal of Occupational Therapy</i> , 2015 , 22, 137-46	2.1	30
43	Managing occupations in everyday life for people with advanced cancer living at home. <i>Scandinavian Journal of Occupational Therapy</i> , 2017 , 24, 57-64	2.1	28
42	Occupational therapy evaluation: use of self-report and/or observation?. <i>Scandinavian Journal of Occupational Therapy</i> , 2015 , 22, 13-23	2.1	27
41	Performance-based assessment of activities of daily living (ADL) ability among women with chronic widespread pain. <i>Pain</i> , 2010 , 150, 535-541	8	27
40	Improving quality of ADL performance after rehabilitation among people with acquired brain injury. <i>Scandinavian Journal of Occupational Therapy</i> , 2007 , 14, 250-7	2.1	22
39	Psychometric properties of the painDETECT questionnaire in rheumatoid arthritis, psoriatic arthritis and spondyloarthritis: Rasch analysis and test-retest reliability. <i>Health and Quality of Life Outcomes</i> , 2017 , 15, 110	3	18
38	Developing linear ADL ability measures based on the ADL Taxonomy: a Rasch analysis. <i>Scandinavian Journal of Occupational Therapy</i> , 2009 , 16, 159-71	2.1	18
37	What is spiritual care? Professional perspectives on the concept of spiritual care identified through group concept mapping. <i>BMJ Open</i> , 2020 , 10, e042142	3	16
36	The Association between ADL Ability and Quality of Life among People with Advanced Cancer. <i>Occupational Therapy International</i> , 2019 , 2019, 2629673	1.4	13
35	Influences of patient informed cognitive complaints on activities of daily living in patients with bipolar disorder. An exploratory cross-sectional study. <i>Psychiatry Research</i> , 2017 , 249, 268-274	9.9	11
34	Factors influencing observed and self-reported functional ability in women with chronic widespread pain: a cross-sectional study. <i>Journal of Rehabilitation Medicine</i> , 2014 , 46, 1014-21	3.4	11

33	Hand exercise for women with rheumatoid arthritis and decreased hand function: an exploratory randomized controlled trial. <i>Arthritis Research and Therapy</i> , 2019 , 21, 158	5.7	10
32	The validity of self-rating depression scales in patients with chronic widespread pain: a Rasch analysis of the Major Depression Inventory. <i>Scandinavian Journal of Rheumatology</i> , 2016 , 45, 236-46	1.9	10
31	Agreement between touch-screen and paper-based patient-reported outcomes for patients with fibromyalgia: a randomized cross-over reproducibility study. <i>Scandinavian Journal of Rheumatology</i> , 2015 , 44, 503-10	1.9	9
30	Liraglutide after diet-induced weight loss for pain and weight control in knee osteoarthritis: a randomized controlled trial. <i>American Journal of Clinical Nutrition</i> , 2021 , 113, 314-323	7	9
29	Reliability of Pain Measurements Using Computerized Cuff Algometry: A DoloCuff Reliability and Agreement Study. <i>Pain Practice</i> , 2017 , 17, 708-717	3	8
28	The Relationship between Mechanical Hyperalgesia Assessed by Manual Tender Point Examination and Disease Severity in Patients with Chronic Widespread Pain: A Cross-Sectional Study. <i>International Journal of Rheumatology</i> , 2014 , 2014, 417596	2	8
27	Identifying, organizing and prioritizing ideas on how to enhance ADL ability. <i>Scandinavian Journal of Occupational Therapy</i> , 2019 , 26, 382-393	2.1	8
26	Everyday activities when living at home with advanced cancer: A cross-sectional study. <i>European Journal of Cancer Care</i> , 2020 , 29, e13258	2.4	7
25	Improving activities of daily living ability in women with fibromyalgia: An exploratory, quasi-randomized, phase-two study, IMPROvE trial. <i>Journal of Rehabilitation Medicine</i> , 2017 , 49, 241-250 ^{3,4}		7
24	Ineffective ADL skills in women with fibromyalgia: a cross-sectional study. <i>Scandinavian Journal of Occupational Therapy</i> , 2016 , 23, 391-7	2.1	6
23	The concept of physical limitations in knee osteoarthritis: as viewed by patients and health professionals. <i>Quality of Life Research</i> , 2015 , 24, 2423-32	3.7	6
22	Protocol for evaluating and implementing a pragmatic value-based healthcare management model for patients with inflammatory arthritis: a Danish population-based regional cohort and qualitative implementation study. <i>BMJ Open</i> , 2018 , 8, e023915	3	6
21	Lessons learned about occupation-focused and occupation-based interventions: A synthesis using group concept mapping methodology. <i>Scandinavian Journal of Occupational Therapy</i> , 2020 , 27, 481-492	2.1	5
20	How widespread should pain be to be defined as widespread?. <i>Pain</i> , 2016 , 157, 1831-1832	8	4
19	Predictors of improvement in observed functional ability in patients with fibromyalgia as an outcome of rehabilitation. <i>Journal of Rehabilitation Medicine</i> , 2016 , 48, 65-71	3.4	4
18	Evaluation of an intervention programme addressing ability to perform activities of daily living among persons with chronic conditions: study protocol for a feasibility trial (ABLE). <i>BMJ Open</i> , 2018 , 8, e020812	3	4
17	Effect of liraglutide on body weight and pain in patients with overweight and knee osteoarthritis: protocol for a randomised, double-blind, placebo-controlled, parallel-group, single-centre trial. <i>BMJ Open</i> , 2019 , 9, e024065	3	3
16	Dynamic weight-bearing assessment of pain in knee osteoarthritis: a reliability and agreement study. <i>Quality of Life Research</i> , 2015 , 24, 2985-92	3.7	3

15	Self-reported quality of activities of daily living task performance in four diagnostic groups with chronic conditions. <i>International Journal of Therapy and Rehabilitation</i> , 2021 , 28, 1-10	0.4	3
14	Feasibility of ABLE 1.0-a program aiming at enhancing the ability to perform activities of daily living in persons with chronic conditions. <i>Pilot and Feasibility Studies</i> , 2021 , 7, 52	1.9	3
13	The benefit of adding a physiotherapy or occupational therapy intervention programme to a standardized group-based interdisciplinary rehabilitation programme for patients with chronic widespread pain: a randomized active-controlled non-blinded trial. <i>Clinical Rehabilitation</i> , 2019 , 33, 1367-1381	3.3	2
12	The association between having assistive devices and activities of daily living ability and health-related quality of life: An exploratory cross-sectional study among people with advanced cancer. <i>European Journal of Cancer Care</i> , 2019 , 28, e13002	2.4	2
11	Hand-related physical function in rheumatic hand conditions: a protocol for developing a patient-reported outcome measurement instrument. <i>BMJ Open</i> , 2016 , 6, e011174	3	2
10	Danish translation, cultural adaptation and initial validation of the Self-Assessment of modes questionnaire (D-SAMQ). <i>Scandinavian Journal of Occupational Therapy</i> , 2021 , 28, 285-293	2.1	2
9	Measuring self-reported ability to perform activities of daily living: a Rasch analysis. <i>Health and Quality of Life Outcomes</i> , 2021 , 19, 243	3	1
8	Occupational therapy addressing the ability to perform activities of daily living among persons living with chronic conditions: a randomised controlled pilot study of ABLE 2.0. <i>Pilot and Feasibility Studies</i> , 2021 , 7, 122	1.9	1
7	Dynamic weight-bearing assessment of pain in knee osteoarthritis: construct validity, responsiveness, and interpretability in a research setting. <i>Health and Quality of Life Outcomes</i> , 2016 , 14, 91	3	1
6	Danish translation, adaptation and initial validation of the clinical assessment of modes questionnaires. <i>Scandinavian Journal of Occupational Therapy</i> , 2021 , 1-15	2.1	1
5	Fostering Change Through Occupation-Based Intervention: An International Joint Group Concept Mapping Study. <i>OTJR Occupation, Participation and Health</i> , 2022 , 42, 10-21	1.3	1
4	Identifying values and preferences around the choice of analgesia for patients with acute trauma pain in emergency and prehospital settings: using group concept mapping methodology. <i>BMJ Open</i> , 2020 , 10, e031863	3	
3	Evaluating a complex intervention addressing ability to perform activities of daily living among persons with chronic conditions: study protocol for a randomised controlled trial (ABLE). <i>BMJ Open</i> , 2021 , 11, e051722	3	
2	Participation and engagement in family activities among girls and young women with Rett syndrome living at home with their parents - a cross-sectional study. <i>Disability and Rehabilitation</i> , 2021 , 1-11	2.4	
1	Prognostic factors for work disability in patients with chronic widespread pain and fibromyalgia: protocol for a cohort study.. <i>BMJ Open</i> , 2021 , 11, e052919	3
