#	ARTICLE	IF	CITATIONS
1	Perspectives on egressibility of older people with functional limitations. <i>Fire Safety Journal</i> , 2022, 127, 103509.	1.4	3
2	Exploring housing policies in five Swedish municipalities: alternatives and priorities. <i>BMC Public Health</i> , 2022, 22, 260.	1.2	6
3	Enabling Long-term Predictions and Cost-benefit Analysis Related to Housing Adaptation Needs for a Population Aging in Place: Protocol for a Simulation Study. <i>JMIR Research Protocols</i> , 2022, 11, e39032.	0.5	1
4	Awareness of and attitudes towards public involvement in research on ageing and health among older people in Sweden. <i>PLoS ONE</i> , 2022, 17, e0269993.	1.1	3
5	A review on the role of functional limitations on evacuation performance using the International Classification of Functioning, Disability and Health. <i>Fire Technology</i> , 2021, 57, 507-528.	1.5	9
6	The Psychometric Properties of the Meaning of Home and Housing-Related Control Beliefs Scales among 67-70 Year-Olds in Sweden. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4273.	1.2	8
7	“Am I representative (of my age)? No, I’m not” Attitudes to technologies and technology development differ but unite individuals across rather than within generations. <i>PLoS ONE</i> , 2021, 16, e0250425.	1.1	10
8	Exploring Associations of Housing, Relocation, and Active and Healthy Aging in Sweden: Protocol for a Prospective Longitudinal Mixed Methods Study. <i>JMIR Research Protocols</i> , 2021, 10, e31137.	0.5	4
9	What motivates informal carers to be actively involved in research, and what obstacles to involvement do they perceive?. <i>Research Involvement and Engagement</i> , 2021, 7, 80.	1.1	5
10	Bone and joint complications and reduced mobility are associated with pain in children with cerebral palsy. <i>Acta Paediatrica</i> , <i>International Journal of Paediatrics</i> , 2020, 109, 541-549.	0.7	9
11	Associations among housing accessibility, housing-related control beliefs and independence in activities of daily living: a cross-sectional study among younger old in Sweden. <i>Journal of Housing and the Built Environment</i> , 2020, 35, 867-877.	0.9	11
12	Longitudinal association between housing accessibility and activities of daily living: the role of self-efficacy and control in people ageing with Parkinson’s disease. <i>BMC Geriatrics</i> , 2020, 20, 181.	1.1	11
13	Awareness of and Attitudes Toward User Involvement in Research on Aging and Health: Protocol for a Quantitative Large-Scale Panel Study. <i>JMIR Research Protocols</i> , 2020, 9, e17759.	0.5	4
14	Detecting longitudinal changes in activities of daily living (ADL) dependence: Optimizing ADL staircase response choices. <i>British Journal of Occupational Therapy</i> , 2019, 82, 646-652.	0.5	4
15	Disparities in mobility among older people: Findings from a capability-based travel survey. <i>Transport Policy</i> , 2019, 79, 177-192.	3.4	27
16	Relationship between Perceived Indoor Temperature and Self-Reported Risk for Frailty among Community-Dwelling Older People. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 613.	1.2	14
17	Towards a Decision Support System for Improved Accessibility in Multi-Family Housing: Co-Design of an Application for Environmental Barrier Inventory. <i>Studies in Health Technology and Informatics</i> , 2018, 256, 315-323.	0.2	1
18	Perceived home is associated with psychological well-being in a cohort aged 67-70 years. <i>Journal of Environmental Psychology</i> , 2017, 51, 239-247.	2.3	19

#	ARTICLE	IF	CITATIONS
19	The TECH@HOME study, a technological intervention to reduce caregiver burden for informal caregivers of people with dementia: study protocol for a randomized controlled trial. <i>Trials</i> , 2017, 18, 63.	0.7	22
20	Improved Housing Accessibility for Older People in Sweden and Germany: Short Term Costs and Long-Term Gains. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 964.	1.2	14
21	Lower Physical Performance in Colder Seasons and Colder Houses: Evidence from a Field Study on Older People Living in the Community. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 651.	1.2	17
22	Cycling and cycling cessation in later life: Findings from the city of Malmö. <i>Journal of Transport and Health</i> , 2016, 3, 38-47.	1.1	28
23	Synthesizing ENABLE-AGE Research Findings to Suggest Evidence-Based Home and Health Interventions. <i>Journal of Housing for the Elderly</i> , 2016, 30, 330-343.	0.7	28
24	Home and health among different sub-groups of the ageing population: a comparison of two cohorts living in ordinary housing in Sweden. <i>BMC Geriatrics</i> , 2016, 16, 90.	1.1	8
25	The "Free from Housing Accessibility Problems" App. <i>Studies in Health Technology and Informatics</i> , 2016, 229, 567-70.	0.2	1
26	Cross-National User Priorities for Housing Provision and Accessibility – Findings from the European innovAge Project. <i>International Journal of Environmental Research and Public Health</i> , 2015, 12, 2670-2686.	1.2	22
27	Relationships between perceived aspects of home and symptoms in a cohort aged 67–70. <i>Archives of Gerontology and Geriatrics</i> , 2015, 61, 529-534.	1.4	8
28	Exploring public transport as an element of older persons' mobility: A Capability Approach perspective. <i>Journal of Transport Geography</i> , 2015, 48, 105-114.	2.3	82
29	Mortality Benefits From US Population-wide Reduction in Sodium Consumption. <i>Hypertension</i> , 2013, 61, 564-570.	1.3	64
30	Response to Mortality Benefits From US Population-Wide Reduction in Sodium Consumption: Projections From 3 Modeling Approaches. <i>Hypertension</i> , 2013, 61, e60.	1.3	25
31	Training Mental Health Professionals to Assess and Manage Suicidal Behavior: Can Provider Confidence and Practice Behaviors be Altered?. <i>Suicide and Life-Threatening Behavior</i> , 2009, 39, 21-32.	0.9	115
32	Measuring and Training Creativity Competencies: Validation of a New Test. <i>Creativity Research Journal</i> , 2008, 20, 7-12.	1.7	75
33	Tender Points as Predictors of Distress and the Pharmacologic Management of Fibromyalgia Syndrome. <i>American Journal of Therapeutics</i> , 2003, 10, 176-192.	0.5	22
34	Psychological Disorders and Distress in Older Primary Care Patients: A Comparison of Older and Younger Samples. <i>Psychosomatic Medicine</i> , 2002, 64, 635-643.	1.3	63
