#	ARTICLE	IF	CITATIONS
1	Impact of a Theory-Based Intervention to Promote Medication Adherence in Patients With a History of Myocardial Infarction. <i>Journal of Cardiovascular Nursing</i> , 2022, 37, E1-E10.	1.1	0
2	Content Validity of a Questionnaire Based on the Theory of Planned Behavior to Assess the Psychosocial Determinants of Insulin Adherence. <i>Value in Health Regional Issues</i> , 2022, 29, 76-85.	1.2	0
3	Autocuidado e risco cardiometabólico em pessoas com hipertensão arterial em seguimento na atenção primária. <i>Saúde E Pesquisa</i> , 2022, 15, 1-14.	0.1	0
4	A Mobile Phone App Intervention to Promote Healthy Salt Intake Among Adults: Protocol for a Randomized Controlled Study. <i>JMIR Research Protocols</i> , 2022, 11, e37853.	1.0	1
5	Perspectivas de pacientes com história de infarto do miocárdio e do enfermeiro na adequação de uma intervenção para adesão medicamentosa. <i>Research, Society and Development</i> , 2022, 11, e3811931511.	0.1	0
6	Systematic review and meta-analysis of the efficacy of Unna boot in the treatment of venous leg ulcers. <i>Wound Repair and Regeneration</i> , 2021, 29, 443-451.	3.0	2
7	Atividade da intervenção para redução do consumo de sal entre pacientes com insuficiência cardíaca: estudo qualitativo. <i>Revista Recien - Revista Científica De Enfermagem</i> , 2021, 11, 324-333.	0.1	0
8	Musculoskeletal symptoms, psychosocial factors and work ability in Brazilian labor justice workers. <i>Work</i> , 2021, 69, 917-926.	1.1	2
9	Validation of the Brazilian Version of Functional Assessment of Cancer Therapy-Prostate (FACT-P (Version 4) in Prostate Cancer Patients. <i>Journal of Cancer Education</i> , 2021, , 1.	1.3	0
10	Psychometric properties of medication adherence instruments in cardiovascular diseases and type 2 diabetes mellitus: systematic review protocol. <i>Systematic Reviews</i> , 2021, 10, 202.	5.3	3
11	Instruments to evaluate undergraduate healthcare student learning styles globally: A scoping review. <i>Nurse Education Today</i> , 2021, 107, 105141.	3.3	0
12	Musculoskeletal symptoms and work ability in a context of electronic judicial process. <i>Revista Brasileira De Medicina Do Trabalho</i> , 2021, 19, 03-12.	0.4	2
13	Linguistic validation of the Diabetic foot ulcer scale short form (DFS-SF): a methodological approach. <i>Medicina</i> , 2021, 54, .	0.1	0
14	Factors related to patient adherence to the use of new oral anticoagulants. <i>Revista Da Escola De Enfermagem Da U S P</i> , 2021, 56, e20210191.	0.9	2
15	Effect of an "implementation intention"™ intervention on adherence to oral anti-diabetic medication in Brazilians with type 2 diabetes. <i>Patient Education and Counseling</i> , 2020, 103, 582-588.	2.2	17
16	Psychosocial determinants of adherence to oral antidiabetic medication among people with type 2 diabetes. <i>Journal of Clinical Nursing</i> , 2020, 29, 909-921.	3.0	11
17	Relationship Between Anticoagulant Medication Adherence and Satisfaction in Patients With Stroke. <i>Journal of Neuroscience Nursing</i> , 2019, 51, 229-234.	1.1	8
18	Cultural adaptation of the 5-D itch scale and its reliability for Brazilian burn survivors. <i>Burns</i> , 2019, 45, 717-724.	1.9	3

#	ARTICLE	IF	CITATIONS
19	Psychometric Properties of the Brazilian Version of the Nurses' Knowledge of High-Alert Medications Scale: A Pilot Study. <i>Research and Theory for Nursing Practice</i> , 2019, 33, 23-38.	0.4	1
20	Non-exhaustive double effort test is reliable and estimates the first ventilatory threshold intensity in running exercise. <i>Journal of Sport and Health Science</i> , 2018, 7, 197-203.	6.5	1
21	Psychometric performance of the Brazilian version the "Insulin Management Diabetes Self-Efficacy Scale" for patient with Type 2 Diabetes Mellitus. <i>Medicina</i> , 2018, 51, 121-130.	0.1	1
22	Psychometric Properties of the Freiburg Life Quality Assessment for Wounds Among Burned Patients. <i>Journal of Nursing Measurement</i> , 2018, 26, 90-105.	0.3	2
23	Association between self-efficacy and sociodemographic and clinical variables in patients with Diabetes Mellitus. <i>Medicina</i> , 2018, 51, 112-120.	0.1	0
24	A randomized controlled trial on the effect of behavioral strategies for adherence to oral antidiabetic drugs: study protocol. <i>Contemporary Nurse</i> , 2017, 53, 658-668.	1.0	3
25	Adaptation and evaluation of the measurement properties of the Brazilian version of the Self-efficacy for Appropriate Medication Adherence Scale. <i>Revista Latino-Americana De Enfermagem</i> , 2016, 24, e2692.	1.0	12
26	Influência das características sociodemográficas e clínicas no impacto da doença em valvopatias. <i>Revista Brasileira De Enfermagem</i> , 2016, 69, 40-46.	0.7	4
27	Análise de fatores do instrumento de medida do impacto da doença no cotidiano. <i>Revista Brasileira De Enfermagem</i> , 2016, 69, 697-704.	0.7	7
28	Reliability and construct validity of the Instrument to Measure the Impact of Valve Heart Disease on the Patient's Daily Life. <i>Revista Latino-Americana De Enfermagem</i> , 2016, 24, e2730.	1.0	2
29	Satisfaction with medication in coronary disease treatment: psychometrics of the Treatment Satisfaction Questionnaire for Medication. <i>Revista Latino-Americana De Enfermagem</i> , 2016, 24, .	1.0	14
30	Reliability and validity of the Treatment Satisfaction Questionnaire for Medication among Portuguese-speaking Brazilian patients with hypertension. <i>Journal of Clinical Nursing</i> , 2016, 25, 1931-1940.	3.0	3
31	Construct Validity of the Brazilian Version of the Self-Efficacy for Appropriate Medication Adherence Scale. <i>Journal of Nursing Measurement</i> , 2016, 24, 18-31.	0.3	8
32	Effect of a behavioral intervention of the SALDável program to reduce salt intake among hypertensive women: A randomized controlled pilot study. <i>European Journal of Cardiovascular Nursing</i> , 2016, 15, e85-e94.	0.9	17
33	Psychometric Performance of the Brazilian Version of the Diabetes Distress Scale in Patients With Diabetes Mellitus Type 2. <i>Journal of Nursing Measurement</i> , 2016, 24, 101-113.	0.3	5
34	Validity of the Brazilian version of the Godin-Shephard Leisure-Time Physical Activity Questionnaire. <i>Cadernos De Saude Publica</i> , 2015, 31, 1825-1838.	1.0	5
35	Quality of Life on Arterial Hypertension: Validity of Known Groups of MINICHAL. <i>Arquivos Brasileiros De Cardiologia</i> , 2015, 104, 299-307.	0.8	7
36	Quality of life of coronary artery disease patients after the implementation of planning strategies for medication adherence. <i>Revista Latino-Americana De Enfermagem</i> , 2015, 23, 11-19.	1.0	3

#	ARTICLE	IF	CITATIONS
37	Tradução, adaptação e praticabilidade do Nurses' knowledge of high alert medications para a cultura brasileira. Revista Eletrônica De Enfermagem, 2015, 17, .	0.1	3
38	Medication adherence and quality of life among the elderly with diabetic retinopathy. Revista Latino-Americana De Enfermagem, 2014, 22, 902-910.	1.0	8
39	Beliefs related to adherence to oral antidiabetic treatment according to the Theory of Planned Behavior. Revista Latino-Americana De Enfermagem, 2014, 22, 529-537.	1.0	21
40	A randomized controlled trial of the effectiveness of planning strategies in the adherence to medication for coronary artery disease. Journal of Advanced Nursing, 2014, 70, 1616-1628.	3.3	23
41	Implementation Intentions on the Effect of Salt Intake among Hypertensive Women: A Pilot Study. Nursing Research and Practice, 2014, 2014, 1-8.	1.0	9
42	Development of the SALdível programme to reduce salt intake among hypertensive Brazilian women: an intervention mapping approach. European Journal of Cardiovascular Nursing, 2013, 12, 385-392.	0.9	9
43	Conceptual framework for research and clinical practice concerning cardiovascular health-related behaviors. Revista Latino-Americana De Enfermagem, 2013, 21, 207-215.	1.0	7
44	Characterization of salt consumption among hypertensives according to socio-demographic and clinical factors. Revista Latino-Americana De Enfermagem, 2013, 21, 1013-1021.	1.0	13
45	Reliability and practical aspects of the disease impact measure on hypertensive patients. Revista Latino-Americana De Enfermagem, 2013, 21, 1258-1265.	1.0	4
46	The "Moving Heart Program": an intervention to improve physical activity among patients with coronary heart disease. Revista Latino-Americana De Enfermagem, 2013, 21, 180-189.	1.0	19
47	Analysis of action plans and coping plans for reducing salt consumption among women with hypertension. Revista Latino-Americana De Enfermagem, 2012, 20, 486-494.	1.0	8
48	Validation of persuasive messages for the promotion of physical activity among people with coronary heart disease. Revista Latino-Americana De Enfermagem, 2012, 20, 1015-1023.	1.0	5
49	Action and coping plans related to the behavior of adherence to drug therapy among coronary heart disease outpatients. Revista Latino-Americana De Enfermagem, 2012, 20, 821-829.	1.0	7
50	The Pain Disability Questionnaire: a reliability and validity study. Revista Latino-Americana De Enfermagem, 2012, 20, 76-83.	1.0	16
51	Validation of an instrument to measure the impact of coronary disease on patient's daily life. Journal of Clinical Nursing, 2012, 21, 485-494.	3.0	7
52	Behavioural determinants of salt consumption among hypertensive individuals. Journal of Human Nutrition and Dietetics, 2012, 25, 334-344.	2.5	23
53	Relationship Between Beliefs Regarding a Low Salt Diet in Chronic Renal Failure Patients on Dialysis. , 2011, 21, 160-168.		30
54	Psychometric performance of the brazilian version of the Mini-cuestionario de calidad de vida en la hipertensión arterial (MINICHAL). Revista Latino-Americana De Enfermagem, 2011, 19, 855-864.	1.0	4

#	ARTICLE	IF	CITATIONS
55	AdaptaÃ§Ã£o cultural de instrumento para avaliaÃ§Ã£o da capacidade fÃsica em cardiopatas. Revista De Saude Publica, 2011, 45, 276-285.	1.7	10
56	Sodium Intake Is Associated with Carotid Artery Structure Alterations and Plasma Matrix Metalloproteinase-9 Upregulation in Hypertensive Adults1â€³. Journal of Nutrition, 2011, 141, 877-882.	2.9	30
57	Quality of life, dyspnea and ventricular function in patients with hypertension. Journal of Advanced Nursing, 2010, 66, 2287-2296.	3.3	4
58	Cultural Adaptation and Reliability Analysis of the Modified Dyspnea Index for the Brazilian Culture. Revista Latino-Americana De Enfermagem, 2010, 18, 1020-1030.	1.0	7
