#	ARTICLE	IF	CITATIONS
1	Reliability and validity of a semi-quantitative FFQ for sodium intake in low-income and low-literacy Brazilian hypertensive subjects. <i>Public Health Nutrition</i> , 2009, 12, 2168-2173.	1.1	44
2	Longitudinal Mitral Annulus Velocities Are Reduced in Hypertensive Subjects With or Without Left Ventricle Hypertrophy. <i>Hypertension</i> , 2006, 47, 854-860.	1.3	37
3	Development and reliability of an instrument to measure psychosocial determinants of salt consumption among hypertensive patients. <i>Revista Latino-Americana De Enfermagem</i> , 2009, 17, 701-707.	0.4	30
4	Relationship Between Beliefs Regarding a Low Salt Diet in Chronic Renal Failure Patients on Dialysis. , 2011, 21, 160-168.		30
5	Sodium Intake Is Associated with Carotid Artery Structure Alterations and Plasma Matrix Metalloproteinase-9 Upregulation in Hypertensive Adults <sup>1</sup> â€“3. <i>Journal of Nutrition</i> , 2011, 141, 877-882.	1.3	30
6	Non-effect of p22-phox $\hat{\sim}$ 930A/G polymorphism on end-organ damage in Brazilian hypertensive patients. <i>Journal of Human Hypertension</i> , 2007, 21, 504-506.	1.0	23
7	Behavioural determinants of salt consumption among hypertensive individuals. <i>Journal of Human Nutrition and Dietetics</i> , 2012, 25, 334-344.	1.3	23
8	A randomized controlled trial of the effectiveness of planning strategies in the adherence to medication for coronary artery disease. <i>Journal of Advanced Nursing</i> , 2014, 70, 1616-1628.	1.5	23
9	Beliefs related to adherence to oral antidiabetic treatment according to the Theory of Planned Behavior. <i>Revista Latino-Americana De Enfermagem</i> , 2014, 22, 529-537.	0.4	21
10	The "Moving Heart Program": an intervention to improve physical activity among patients with coronary heart disease. <i>Revista Latino-Americana De Enfermagem</i> , 2013, 21, 180-189.	0.4	19
11	Effect of a behavioral intervention of the SALdÃ¡vel program to reduce salt intake among hypertensive women: A randomized controlled pilot study. <i>European Journal of Cardiovascular Nursing</i> , 2016, 15, e85-e94.	0.4	17
12	Effect of an "implementation intention"™ intervention on adherence to oral anti-diabetic medication in Brazilians with type 2 diabetes. <i>Patient Education and Counseling</i> , 2020, 103, 582-588.	1.0	17
13	Psychometric properties of MacNew Heart Disease Healthâ€related Quality of Life Questionnaire: Brazilian version. <i>Journal of Advanced Nursing</i> , 2009, 65, 1084-1094.	1.5	16
14	The Pain Disability Questionnaire: a reliability and validity study. <i>Revista Latino-Americana De Enfermagem</i> , 2012, 20, 76-83.	0.4	16
15	Satisfaction with medication in coronary disease treatment: psychometrics of the Treatment Satisfaction Questionnaire for Medication. <i>Revista Latino-Americana De Enfermagem</i> , 2016, 24, .	0.4	14
16	Characterization of salt consumption among hypertensives according to socio-demographic and clinical factors. <i>Revista Latino-Americana De Enfermagem</i> , 2013, 21, 1013-1021.	0.4	13
17	Occupational accidents and health-related quality of life: a study in three hospitals. <i>Revista Latino-Americana De Enfermagem</i> , 2009, 17, 101-107.	0.4	13
18	Development of an instrument to measure beliefs and attitudes from heart valve disease patients. <i>Revista Latino-Americana De Enfermagem</i> , 2004, 12, 453-459.	0.4	12

#	ARTICLE	IF	CITATIONS
19	Validity of an instrument to measure the impact of valve heart disease on the patient's daily life. <i>Journal of Clinical Nursing</i> , 2007, 16, 1285-1291.	1.4	12
20	Adaptation and evaluation of the measurement properties of the Brazilian version of the Self-efficacy for Appropriate Medication Adherence Scale. <i>Revista Latino-Americana De Enfermagem</i> , 2016, 24, e2692.	0.4	12
21	Psychosocial determinants of adherence to oral antidiabetic medication among people with type 2 diabetes. <i>Journal of Clinical Nursing</i> , 2020, 29, 909-921.	1.4	11
22	Upper Arm Circumference Is an Independent Predictor of Left Ventricular Concentric Hypertrophy in Hypertensive Women. <i>Hypertension Research</i> , 2008, 31, 1177-1183.	1.5	10
23	Adaptaçãõ cultural de instrumento para avaliaçãõ da capacidade fãsica em cardiopatas. <i>Revista De Saude Publica</i> , 2011, 45, 276-285.	0.7	10
24	Development of the SALdãvel programme to reduce salt intake among hypertensive Brazilian women: an intervention mapping approach. <i>European Journal of Cardiovascular Nursing</i> , 2013, 12, 385-392.	0.4	9
25	Implementation Intentions on the Effect of Salt Intake among Hypertensive Women: A Pilot Study. <i>Nursing Research and Practice</i> , 2014, 2014, 1-8.	0.4	9
26	Analysis of action plans and coping plans for reducing salt consumption among women with hypertension. <i>Revista Latino-Americana De Enfermagem</i> , 2012, 20, 486-494.	0.4	8
27	Medication adherence and quality of life among the elderly with diabetic retinopathy. <i>Revista Latino-Americana De Enfermagem</i> , 2014, 22, 902-910.	0.4	8
28	Construct Validity of the Brazilian Version of the Self-Efficacy for Appropriate Medication Adherence Scale. <i>Journal of Nursing Measurement</i> , 2016, 24, 18-31.	0.2	8
29	Relationship Between Anticoagulant Medication Adherence and Satisfaction in Patients With Stroke. <i>Journal of Neuroscience Nursing</i> , 2019, 51, 229-234.	0.7	8
30	Cultural Adaptation and Reliability Analysis of the Modified Dyspnea Index for the Brazilian Culture. <i>Revista Latino-Americana De Enfermagem</i> , 2010, 18, 1020-1030.	0.4	7
31	Action and coping plans related to the behavior of adherence to drug therapy among coronary heart disease outpatients. <i>Revista Latino-Americana De Enfermagem</i> , 2012, 20, 821-829.	0.4	7
32	Validation of an instrument to measure the impact of coronary disease on patientâ€™s daily life. <i>Journal of Clinical Nursing</i> , 2012, 21, 485-494.	1.4	7
33	Conceptual framework for research and clinical practice concerning cardiovascular health-related behaviors. <i>Revista Latino-Americana De Enfermagem</i> , 2013, 21, 207-215.	0.4	7
34	Quality of Life on Arterial Hypertension: Validity of Known Groups of MINICHAL. <i>Arquivos Brasileiros De Cardiologia</i> , 2015, 104, 299-307.	0.3	7
35	Anãlise de fatores do instrumento de medida do impacto da doenãsa no cotidiano. <i>Revista Brasileira De Enfermagem</i> , 2016, 69, 697-704.	0.2	7
36	Validation of persuasive messages for the promotion of physical activity among people with coronary heart disease. <i>Revista Latino-Americana De Enfermagem</i> , 2012, 20, 1015-1023.	0.4	5

#	ARTICLE	IF	CITATIONS
37	Validity of the Brazilian version of the Godin-Shephard Leisure-Time Physical Activity Questionnaire. <i>Cadernos De Saude Publica</i> , 2015, 31, 1825-1838.	0.4	5
38	Psychometric Performance of the Brazilian Version of the Diabetes Distress Scale in Patients With Diabetes Mellitus Type 2. <i>Journal of Nursing Measurement</i> , 2016, 24, 101-113.	0.2	5
39	Integrative review: behavioral interventions for physical activity practice. <i>Revista Latino-Americana De Enfermagem</i> , 2009, 17, 1057-1064.	0.4	4
40	Quality of life, dyspnea and ventricular function in patients with hypertension. <i>Journal of Advanced Nursing</i> , 2010, 66, 2287-2296.	1.5	4
41	Psychometric performance of the brazilian version of the Mini-cuestionario de calidad de vida en la hipertensi3n arterial (MINICHAL). <i>Revista Latino-Americana De Enfermagem</i> , 2011, 19, 855-864.	0.4	4
42	Reliability and practical aspects of the disease impact measure on hypertensive patients. <i>Revista Latino-Americana De Enfermagem</i> , 2013, 21, 1258-1265.	0.4	4
43	Influ3ncia das caracter3sticas sociodemogr3ficas e cl3nicas no impacto da doen3sa em valvopatas. <i>Revista Brasileira De Enfermagem</i> , 2016, 69, 40-46.	0.2	4
44	Psychometric evaluation of a brazilian portuguese version of the spitzer quality of life index in patients with low back pain. <i>Revista Latino-Americana De Enfermagem</i> , 2008, 16, 943-950.	0.4	3
45	Quality of life of coronary artery disease patients after the implementation of planning strategies for medication adherence. <i>Revista Latino-Americana De Enfermagem</i> , 2015, 23, 11-19.	0.4	3
46	Reliability and validity of the Treatment Satisfaction Questionnaire for Medication among Portuguese3speaking Brazilian patients with hypertension. <i>Journal of Clinical Nursing</i> , 2016, 25, 1931-1940.	1.4	3
47	A randomized controlled trial on the effect of behavioral strategies for adherence to oral antidiabetic drugs: study protocol. <i>Contemporary Nurse</i> , 2017, 53, 658-668.	0.4	3
48	Cultural adaptation of the 5-D itch scale and its reliability for Brazilian burn survivors. <i>Burns</i> , 2019, 45, 717-724.	1.1	3
49	Psychometric properties of medication adherence instruments in cardiovascular diseases and type 2 diabetes mellitus: systematic review protocol. <i>Systematic Reviews</i> , 2021, 10, 202.	2.5	3
50	Tradu33o, adapta33o e praticabilidade do Nurses3™ knowledge of high alert medications para a cultura brasileira. <i>Revista Eletr3nica De Enfermagem</i> , 2015, 17, .	0.1	3
51	Nurses' attitudinal and normative beliefs concerning hemodynamic assesement by pulmonary artery catheterization. <i>Revista Latino-Americana De Enfermagem</i> , 2006, 14, 915-922.	0.4	2
52	Reliability and construct validity of the Instrument to Measure the Impact of Valve Heart Disease on the Patient's Daily Life. <i>Revista Latino-Americana De Enfermagem</i> , 2016, 24, e2730.	0.4	2
53	Systematic review and meta3nalysis of the efficacy of Unna boot in the treatment of venous leg ulcers. <i>Wound Repair and Regeneration</i> , 2021, 29, 443-451.	1.5	2
54	Musculoskeletal symptoms, psychosocial factors and work ability in Brazilian labor justice workers. <i>Work</i> , 2021, 69, 917-926.	0.6	2

#	ARTICLE	IF	CITATIONS
55	Musculoskeletal symptoms and work ability in a context of electronic judicial process. Revista Brasileira De Medicina Do Trabalho, 2021, 19, 03-12.	0.1	2
56	Psychometric Properties of the Freiburg Life Quality Assessment for Wounds Among Burned Patients. Journal of Nursing Measurement, 2018, 26, 90-105.	0.2	2
57	Factors related to patient adherence to the use of new oral anticoagulants. Revista Da Escola De Enfermagem Da U S P, 2021, 56, e20210191.	0.3	2
58	Non-exhaustive double effort test is reliable and estimates the first ventilatory threshold intensity in running exercise. Journal of Sport and Health Science, 2018, 7, 197-203.	3.3	1
59	Psychometric performance of the Brazilian version the "Insulin Management Diabetes Self-Efficacy Scale" for patient with Type 2 Diabetes Mellitus. Medicina, 2018, 51, 121-130.	0.0	1
60	Psychometric Properties of the Brazilian Version of the Nurses' Knowledge of High-Alert Medications Scale: A Pilot Study. Research and Theory for Nursing Practice, 2019, 33, 23-38.	0.2	1
61	A Mobile Phone App Intervention to Promote Healthy Salt Intake Among Adults: Protocol for a Randomized Controlled Study. JMIR Research Protocols, 2022, 11, e37853.	0.5	1
62	Ativação da intenção para redução do consumo de sal entre pacientes com insuficiência cardíaca: estudo qualitativo. Revista Recien - Revista Científica De Enfermagem, 2021, 11, 324-333.	0.0	0
63	Validation of the Brazilian Version of Functional Assessment of Cancer Therapy-Prostate "FACT-P (Version 4) in Prostate Cancer Patients. Journal of Cancer Education, 2021, , 1.	0.6	0
64	Impact of a Theory-Based Intervention to Promote Medication Adherence in Patients With a History of Myocardial Infarction. Journal of Cardiovascular Nursing, 2022, 37, E1-E10.	0.6	0
65	Instruments to evaluate undergraduate healthcare student learning styles globally: A scoping review. Nurse Education Today, 2021, 107, 105141.	1.4	0
66	Linguistic validation of the Diabetic foot ulcer scale short form (DFS-SF): a methodological approach. Medicina, 2021, 54, .	0.0	0
67	Association between self-efficacy and sociodemographic and clinical variables in patients with Diabetes Mellitus. Medicina, 2018, 51, 112-120.	0.0	0
68	Retorno ao trabalho de pacientes com Síndrome Coronariana Aguda. Revista Brasileira De Saúde Ocupacional, 0, 44, .	0.2	0
69	Content Validity of a Questionnaire Based on the Theory of Planned Behavior to Assess the Psychosocial Determinants of Insulin Adherence. Value in Health Regional Issues, 2022, 29, 76-85.	0.5	0
70	Autocuidado e risco cardiometabólico em pessoas com hipertensão arterial em seguimento na atenção primária. Saude E Pesquisa, 2022, 15, 1-14.	0.0	0
71	Perspectivas de pacientes com história de infarto do miocárdio e do enfermeiro na adequação de uma intervenção para adesão medicamentosa. Research, Society and Development, 2022, 11, e3811931511.	0.0	0
