#	ARTICLE	IF	CITATIONS
1	Child abuse and negative explicit and automatic self-associations: The cognitive scars of emotional maltreatment. <i>Behaviour Research and Therapy</i> , 2010, 48, 486-494.	3.1	138
2	Disorder-specific automatic self-associations in depression and anxiety: results of The Netherlands Study of Depression and Anxiety. <i>Psychological Medicine</i> , 2010, 40, 1101-1111.	4.5	98
3	Take a look at the bright side: Effects of positive body exposure on selective visual attention in women with high body dissatisfaction. <i>Behaviour Research and Therapy</i> , 2016, 83, 19-25.	3.1	59
4	The role of body image disturbance in the onset, maintenance, and relapse of anorexia nervosa: A systematic review. <i>Clinical Psychology Review</i> , 2019, 74, 101771.	11.4	58
5	Measuring automatic associations: Validation of algorithms for the Implicit Association Test (IAT) in a laboratory setting. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2013, 44, 105-113.	1.2	47
6	Heightened sensitivity to punishment and reward in anorexia nervosa. <i>Appetite</i> , 2014, 75, 97-102.	3.7	43
7	Cognitive Reactivity, Implicit Associations, and the Incidence of Depression: A Two-Year Prospective Study. <i>PLoS ONE</i> , 2013, 8, e70245.	2.5	40
8	Negative body image: Relationships with heightened disgust propensity, disgust sensitivity, and self-directed disgust. <i>PLoS ONE</i> , 2018, 13, e0198532.	2.5	39
9	Reward and punishment sensitivity and alcohol use: The moderating role of executive control. <i>Addictive Behaviors</i> , 2014, 39, 945-948.	3.0	36
10	Low implicit self-esteem and dysfunctional automatic associations in social anxiety disorder. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2013, 44, 262-270.	1.2	35
11	Time to make a change: A call for more experimental research on key mechanisms in anorexia nervosa. <i>European Eating Disorders Review</i> , 2020, 28, 361-367.	4.1	33
12	Do Automatic Self-Associations Relate to Suicidal Ideation?. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2010, 32, 428-437.	1.2	30
13	Hidden scars in depression? Implicit and explicit self-associations following recurrent depressive episodes.. <i>Journal of Abnormal Psychology</i> , 2013, 122, 951-960.	1.9	28
14	Attentional engagement with and disengagement from food cues in Anorexia Nervosa. <i>Behaviour Research and Therapy</i> , 2019, 114, 15-24.	3.1	23
15	Predictive validity of automatic self-associations for the onset of anxiety disorders.. <i>Journal of Abnormal Psychology</i> , 2011, 120, 607-616.	1.9	22
16	Prognostic value of implicit and explicit self-associations for the course of depressive and anxiety disorders. <i>Behaviour Research and Therapy</i> , 2012, 50, 479-486.	3.1	21
17	Reduced automatic approach tendencies towards task-relevant and task-irrelevant food pictures in Anorexia Nervosa. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2019, 65, 101496.	1.2	21
18	Implicit Measures of Actual Versus Ideal Body Image: Relations with Self-Reported Body Dissatisfaction and Dieting Behaviors. <i>Cognitive Therapy and Research</i> , 2018, 42, 622-635.	1.9	20

#	ARTICLE	IF	CITATIONS
19	Implicit and Explicit Self-Esteem in Current, Remitted, Recovered, and Comorbid Depression and Anxiety Disorders: The NESDA Study. PLoS ONE, 2016, 11, e0166116.	2.5	19
20	Implicit and explicit self-associations in bipolar disorder: A comparison with healthy controls and unipolar depressive disorder. Psychiatry Research, 2014, 215, 329-334.	3.3	18
21	Evaluative conditioning as a body image intervention for adolescents with eating disorders.. Journal of Consulting and Clinical Psychology, 2018, 86, 1046-1055.	2.0	18
22	The revolting body: Self-disgust as a key factor in anorexia nervosa. Current Opinion in Psychology, 2021, 41, 78-83.	4.9	17
23	Attentional Bias for Reward and Punishment in Overweight and Obesity: The TRAILS Study. PLoS ONE, 2016, 11, e0157573.	2.5	16
24	Individuals with Fear of Blushing Explicitly and Automatically Associate Blushing with Social Costs. Journal of Psychopathology and Behavioral Assessment, 2011, 33, 540-546.	1.2	11
25	Self-Esteem Instability in Current, Remitted, Recovered, and Comorbid Depression and Anxiety. Cognitive Therapy and Research, 2018, 42, 813-822.	1.9	9
26	Depression recurrence after recovery: Prognostic value of implicit and explicit self-depressed associations. Behaviour Research and Therapy, 2018, 107, 76-82.	3.1	9
27	A new approach to facilitating attentional disengagement from food cues in unsuccessful dieters: The bouncing image training task. Behaviour Research and Therapy, 2019, 120, 103445.	3.1	9
28	Heightened self-reported punishment sensitivity, but no differential attention to cues signaling punishment or reward in anorexia nervosa. PLoS ONE, 2020, 15, e0229742.	2.5	9
29	High dose benzodiazepines prolong reaction times in chronic users who have major depressive and/or anxiety disorders. British Journal of Clinical Pharmacology, 2014, 77, 571-577.	2.4	7
30	Reducing body dissatisfaction by means of an evaluative conditioning procedure in undergraduate women: A replication study. Behaviour Research and Therapy, 2019, 121, 103435.	3.1	7
31	Low satisfaction with normative life domains in adolescents with anorexia nervosa. Clinical Psychology and Psychotherapy, 2021, 28, 1266-1274.	2.7	7
32	“What I believe is true”: Belief-confirming reasoning bias in social anxiety disorder. Journal of Behavior Therapy and Experimental Psychiatry, 2016, 53, 9-16.	1.2	6
33	No Differential Reward Responsivity and Drive, Punishment Sensitivity or Attention for Cues Signaling Reward or Punishment in Adolescents With Obesity. Frontiers in Psychology, 2019, 10, 2363.	2.1	6
34	Negative Body Image Is Not Related to Spontaneous Body-Scaled Motoric Behavior in Undergraduate Women. Frontiers in Psychology, 2019, 10, 580.	2.1	6
35	A personalized approach-avoidance modification intervention to reduce negative body image. A placebo-controlled pilot study. Journal of Behavior Therapy and Experimental Psychiatry, 2020, 68, 101544.	1.2	6
36	Escaping from revulsion - disgust and escape in response to body-relevant autobiographical memories. Memory, 2022, 30, 104-116.	1.7	5

#	ARTICLE	IF	CITATIONS
37	Individual differences in avoiding feelings of disgust: Development and construct validity of the disgust avoidance questionnaire. <i>PLoS ONE</i> , 2021, 16, e0248219.	2.5	3
38	Averting Repulsion? Body-Directed Self-Disgust and Autobiographical Memory Retrieval. <i>Journal of Experimental Psychopathology</i> , 2022, 13, 204380872110732.	0.8	3
39	Satisfaction with normative life domains and the course of anorexia nervosa. <i>International Journal of Eating Disorders</i> , 2022, 55, 553-563.	4.0	3
40	Visual attention to food cues and the course of anorexia nervosa. <i>Behaviour Research and Therapy</i> , 2020, 132, 103649.	3.1	2
41	The Causal Influence of Life Meaning on Weight and Shape Concerns in Women at Risk for Developing an Eating Disorder. <i>Frontiers in Psychology</i> , 2021, 12, 593393.	2.1	2
42	Punishment sensitivity and the persistence of anorexia nervosa: High punishment sensitivity is related to a less favorable course of anorexia nervosa. <i>International Journal of Eating Disorders</i> , 2022, 55, 697-702.	4.0	2
43	Whatâ€™s not to like? Enhancing womenâ€™s body satisfaction by means of an evaluative conditioning procedure with positive social feedback. <i>Journal of Experimental Psychopathology</i> , 2022, 13, 204380872210857.	0.8	2
