Natalia V Nizyaeva

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/283445/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Accelerated Growth, Differentiation, and Ploidy with Reduced Proliferation of Right Ventricular Cardiomyocytes in Children with Congenital Heart Defect Tetralogy of Fallot. Cells, 2022, 11, 175.	4.1	6
2	SERPINA1 Peptides in Urine as A Potential Marker of Preeclampsia Severity. International Journal of Molecular Sciences, 2020, 21, 914.	4.1	19
3	Enhanced Expression of TLR8 in Placental Tissue in Preeclampsia. Bulletin of Experimental Biology and Medicine, 2020, 168, 395-399.	0.8	3
4	Peculiarities of RIG-1 Expression in Placental Villi in Preeclampsia. Bulletin of Experimental Biology and Medicine, 2019, 167, 791-794.	0.8	3
5	Peculiarities of the Expression of TLR4 and Inhibitor of TLR-Cascade Tollip in the Placenta in Earlyand Late-Onset Preeclampsia. Bulletin of Experimental Biology and Medicine, 2019, 166, 507-511.	0.8	15
6	Content of Free Fetal DNA in Maternal Blood and Expression of DNA Recognition Receptors ZBP-1 in Placental Tissue in Preeclampsia and Preterm Labor. Bulletin of Experimental Biology and Medicine, 2019, 168, 145-149.	0.8	0
7	Placental ultrastructural and immunohistochemical changes in preeclampsia with concomitant fetal growth restriction. Akusherstvo I Ginekologiya (Russian Federation), 2019, 11_2019, 97-106.	0.3	3
8	Clinical and morphological features of the placenta in acute intrauterine hypoxia during childbirth. Akusherstvo I Ginekologiya (Russian Federation), 2019, 12_2019, 96-104.	0.3	2
9	The dynamics of renin, angiotensin (1-7) and angiotensin II in severe and moderate preeclampsia. Akusherstvo I Ginekologiya (Russian Federation), 2019, 1_2019, 62-66.	0.3	0
10	Structural features of fetal membranes in preterm labor. Akusherstvo I Ginekologiya (Russian) Tj ETQq0 0 0 rgBT	/Overlock	10 Tf 50 382
11	Ultrastructural and Immunohistochemical Features of Telocytes in Placental Villi in Preeclampsia. Scientific Reports, 2018, 8, 3453.	3.3	14
12	Change in OncomicroRNA Expression in the Placenta during Preeclampsia. Bulletin of Experimental Biology and Medicine, 2018, 165, 793-797.	0.8	5
13	Dynamics of Renin, Angiotensin II, and Angiotensin (1–7) during Pregnancy and Predisposition to Hypertension-Associated Complications. Bulletin of Experimental Biology and Medicine, 2018, 165, 438-439.	0.8	5
14	Conditions for Collection of Placental Tissue Samples for Culturing of Multipotent Mesenchymal Stromal Cells. Bulletin of Experimental Biology and Medicine, 2017, 162, 501-506.	0.8	1
15	Ultrastructural Characteristics of Placental Telocytes. Bulletin of Experimental Biology and Medicine, 2017, 162, 693-698.	0.8	6
16	Expression of MicroRNA-146a and MicroRNA-155 in Placental Villi in Early- and Late-Onset Preeclampsia. Bulletin of Experimental Biology and Medicine, 2017, 163, 394-399.	0.8	12
17	DAI-1 Receptor Expression in Placenta in Earlyand Late-Onset Preeclampsia. Bulletin of Experimental Biology and Medicine, 2017, 164, 109-114.	0.8	1
18	Differences of glycocalyx composition in the structural elements of placenta in preeclampsia. Placenta, 2016, 43, 69-76.	1.5	33

NATALIA V NIZYAEVA

#	Article	IF	CITATIONS
19	Specific Features of TLR4 Expression in Structural Elements of Placenta in Patients with Preeclampsia. Bulletin of Experimental Biology and Medicine, 2016, 160, 718-721.	0.8	15
20	Identification of preeclampsia-related miRNA by a deep sequencing technique and a real-time quantitative PCR. Akusherstvo I Ginekologiya (Russian Federation), 2016, 8_2016, 60-70.	0.3	2
21	Somatic tissue chromosomal mosaicism in monozygotic triplets concurrent with early preeclampsia. Akusherstvo I Ginekologiya (Russian Federation), 2016, 7_2016, 111-118.	0.3	Ο
22	MicroRNAs As An Important Precursors of Diagnostic Obstetric Pathology. Vestnik Rossiiskoi Akademii Meditsinskikh Nauk, 2015, 70, 484-492.	0.6	2
23	Expression and Intracellular Localization of ACA and TRA-1-81 in Smooth Muscle Cell Tumors. Bulletin of Experimental Biology and Medicine, 2013, 155, 530-535.	0.8	1
