|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | The Pneumatic Retinopexy versus Vitrectomy for the Management of Primary Rhegmatogenous Retinal Detachment Outcomes Randomized Trial (PIVOT). <i>Ophthalmology</i> , 2019, 126, 531-539.                                                                       | 2.5 | 135       |
| 2  | MACULAR HOLE HYDRODISSECTION. <i>Retina</i> , 2019, 39, 743-752.                                                                                                                                                                                               | 1.0 | 40        |
| 3  | Postoperative Photoreceptor Integrity Following Pneumatic Retinopexy vs Pars Plana Vitrectomy for Retinal Detachment Repair. <i>JAMA Ophthalmology</i> , 2021, 139, 620.                                                                                       | 1.4 | 29        |
| 4  | Toronto tele-retinal screening program for detection of diabetic retinopathy and macular edema. <i>Canadian Journal of Ophthalmology</i> , 2019, 54, 203-211.                                                                                                  | 0.4 | 23        |
| 5  | Aqueous Humor Cytokines and Long-Term Response to Anti-“Vascular Endothelial Growth Factor Therapy in Diabetic Macular Edema. <i>American Journal of Ophthalmology</i> , 2019, 206, 176-183.                                                                   | 1.7 | 21        |
| 6  | HealthBrain: an innovative smartphone application to improve cognitive function in older adults. <i>MHealth</i> , 2017, 3, 17-17.                                                                                                                              | 0.9 | 17        |
| 7  | Vision-Related Functioning in Patients Undergoing Pneumatic Retinopexy vs Vitrectomy for Primary Rhegmatogenous Retinal Detachment. <i>JAMA Ophthalmology</i> , 2020, 138, 826.                                                                                | 1.4 | 17        |
| 8  | Pay Gap among Female and Male Ophthalmologists Compared with Other Specialties. <i>Ophthalmology</i> , 2022, 129, 111-113.                                                                                                                                     | 2.5 | 16        |
| 9  | Aqueous level abatement profiles of intracameral antibiotics: A comparative mathematical model of moxifloxacin, cefuroxime, and vancomycin with determination of relative efficacies. <i>Journal of Cataract and Refractive Surgery</i> , 2019, 45, 1568-1574. | 0.7 | 15        |
| 10 | Long-term dupilumab treatment for chronic refractory generalized prurigo nodularis: A retrospective cohort study. <i>Journal of the American Academy of Dermatology</i> , 2021, 85, 1049-1051.                                                                 | 0.6 | 14        |
| 11 | Real-Time In Vivo Assessment of Retinal Reattachment in Humans Using Swept-Source Optical Coherence Tomography. <i>American Journal of Ophthalmology</i> , 2021, 227, 265-274.                                                                                 | 1.7 | 13        |
| 12 | Family physician awareness of Charles Bonnet syndrome. <i>Family Practice</i> , 2018, 35, 595-598.                                                                                                                                                             | 0.8 | 12        |
| 13 | Influence of Age, Sex, and Generation on Physician Payments and Clinical Activity in Ontario, Canada: An Age-Period-Cohort Analysis. <i>American Journal of Ophthalmology</i> , 2019, 197, 23-35.                                                              | 1.7 | 12        |
| 14 | Two-year efficacy, safety, and drug survival of dupilumab for atopic dermatitis: A real-world Canadian multicenter retrospective study. <i>JAAD International</i> , 2021, 4, 67-69.                                                                            | 1.1 | 12        |
| 15 | The ophthalmic surgical backlog associated with the COVID-19 pandemic: a population-based and microsimulation modelling study. <i>CMAJ Open</i> , 2021, 9, E1063-E1072.                                                                                        | 1.1 | 10        |
| 16 | Diagnostic accuracy of teleretinal screening for detection of diabetic retinopathy and age-related macular degeneration: a systematic review and meta-analysis. <i>BMJ Open Ophthalmology</i> , 2022, 7, e000915.                                              | 0.8 | 10        |
| 17 | Sucrose and fat content significantly affects palatable food consumption in adolescent male and female rats. <i>Appetite</i> , 2017, 118, 49-59.                                                                                                               | 1.8 | 9         |
| 18 | Spread of Respiratory Droplets in a Simulated Ophthalmic Surgery. <i>Ophthalmology</i> , 2021, 128, 945-947.                                                                                                                                                   | 2.5 | 9         |

| #  | ARTICLE                                                                                                                                                                                                                                               | IF  | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Assessment of Simulated Respiratory Droplet Spread During an Ophthalmologic Slitlamp Examination. JAMA Ophthalmology, 2020, 138, 1099.                                                                                                                | 1.4 | 8         |
| 20 | Screening for obstructive sleep apnea amongst patients with retinal vein occlusion. Canadian Journal of Ophthalmology, 2020, 55, 310-316.                                                                                                             | 0.4 | 8         |
| 21 | Prevalence and Characteristics of Dupilumab-Induced Ocular Surface Disease in Adults With Atopic Dermatitis. Cornea, 2022, 41, 1242-1247.                                                                                                             | 0.9 | 8         |
| 22 | Referral characteristics and wait times for uveitis consultation at academic tertiary care centres in Toronto. Canadian Journal of Ophthalmology, 2018, 53, 639-645.                                                                                  | 0.4 | 7         |
| 23 | Hypotensive efficacy of topical brimonidine for intraocular pressure spikes following intravitreal injections of antivascular endothelial growth factor agents: a randomised crossover trial. British Journal of Ophthalmology, 2019, 103, 1388-1394. | 2.1 | 7         |
| 24 | Sociodemographics Associated With Risk of Diabetic Retinopathy Detected by Tele-Ophthalmology: 5-Year Results of the Toronto Tele-Retinal Screening Program. Canadian Journal of Diabetes, 2022, 46, 26-31.                                           | 0.4 | 7         |
| 25 | MINIMAL GAS VITRECTOMY TECHNIQUE FOR REDUCING RISK OF RETINAL DISPLACEMENT FOLLOWING RHEGMATOGENOUS RETINAL DETACHMENT REPAIR. Retinal Cases and Brief Reports, 2022, 16, 681-684.                                                                    | 0.3 | 7         |
| 26 | The role of occult hypertension in retinal vein occlusions and diabetic retinopathy. Canadian Journal of Ophthalmology, 2017, 52, 225-228.                                                                                                            | 0.4 | 6         |
| 27 | Utility of patient face masks to limit droplet spread from simulated coughs at the slit lamp. Canadian Journal of Ophthalmology, 2020, 55, e163-e165.                                                                                                 | 0.4 | 6         |
| 28 | The role of occult hypertension in retinal vein occlusions and diabetic retinopathy. Canadian Journal of Ophthalmology, 2017, 52, S30-S33.                                                                                                            | 0.4 | 5         |
| 29 | SUTURELESS CLOSURE OF 23- AND 25-GAUGE LEAKING SCLEROTOMIES WITH THE SCLERAL NEEDLING TECHNIQUE. Retina, 2020, 40, 838-844.                                                                                                                           | 1.0 | 4         |
| 30 | Long-term outcomes of pediatric traumatic cataracts and retinal detachments due to self-inflicted injuries. European Journal of Ophthalmology, 2021, 31, 271-276.                                                                                     | 0.7 | 3         |
| 31 | Combined Pars Plana Vitrectomy and Segmental Scleral Buckle for Rhegmatogenous Retinal Detachment with Inferior Retinal Breaks. Clinical Ophthalmology, 2021, Volume 15, 3515-3519.                                                                   | 0.9 | 3         |
| 32 | Trends in payments among male and female ophthalmologists in Ontario from 1992 to 2018. Canadian Journal of Ophthalmology, 2022, 57, 47-57.                                                                                                           | 0.4 | 3         |
| 33 | Efficacy and Safety of Adalimumab and Infliximab for Noninfectious Uveitis. Ophthalmology, 2022, 129, 357-359.                                                                                                                                        | 2.5 | 3         |
| 34 | Temporal trends in ophthalmic surgical demand in a universal healthcare system: an Ontario population-based study of over two decades. BMJ Open Ophthalmology, 2022, 7, e000937.                                                                      | 0.8 | 3         |
| 35 | Eye complications from self-injury in a child. Cmaj, 2018, 190, E114-E114.                                                                                                                                                                            | 0.9 | 2         |
| 36 | The Evolution of Retinal Detachment Surgery Outcomes: Putting "PIVOT" Into Perspective. Journal of Vitreoretinal Diseases, 2019, 3, 363-365.                                                                                                          | 0.2 | 2         |

| #  | ARTICLE                                                                                                                                                                                                                      | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Influence of Age, Sex, and Generation on Physician Payments and Clinical Activity in Ontario, Canada: An Age-Period-Cohort Analysis. <i>American Journal of Ophthalmology</i> , 2019, 205, 184-196.                          | 1.7 | 2         |
| 38 | University of Toronto's redesigned ophthalmology curriculum and eye dissection lab. <i>Canadian Journal of Ophthalmology</i> , 2022, 57, 394-401.                                                                            | 0.4 | 2         |
| 39 | Preoperative Gas for Pars Plana Vitrectomy. <i>Retinal Cases and Brief Reports</i> , 2021, Publish Ahead of Print, .                                                                                                         | 0.3 | 2         |
| 40 | Human Amniotic Membrane Plug for Chronic or Persistent Macular Holes. <i>Ophthalmology Retina</i> , 2022, 6, 431-433.                                                                                                        | 1.2 | 2         |
| 41 | Representation of women on editorial boards of ophthalmology journals: protocol for a cross-sectional study. <i>BMJ Open</i> , 2022, 12, e060665.                                                                            | 0.8 | 2         |
| 42 | Prevalence and predictors for being unscreened for diabetic retinopathy: a population-based study over a decade. <i>Canadian Journal of Ophthalmology</i> , 2022, , .                                                        | 0.4 | 2         |
