

Mikko P Tulppo

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/286439/mikko-p-tulppo-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

52
papers

1,336
citations

#	Paper	IF	Citations
52	Step detection and energy expenditure at different speeds by three accelerometers in a controlled environment. <i>Scientific Reports</i> , 2021 , 11, 20005	4.9	1
51	Resistin is a risk factor for all-cause mortality in elderly Finnish population: A prospective study in the OPERA cohort. <i>PLoS ONE</i> , 2021 , 16, e0248015	3.7	2
50	Prognostic value of heart rate variability in patients with coronary artery disease in the current treatment era. <i>PLoS ONE</i> , 2021 , 16, e0254107	3.7	4
49	Abdominal aorta plaques are better in predicting future cardiovascular events compared to carotid intima-media thickness: A 20-year prospective study. <i>Atherosclerosis</i> , 2021 , 330, 36-42	3.1	0
48	Temporal variability of T-wave morphology and risk of sudden cardiac death in patients with coronary artery disease. <i>Annals of Noninvasive Electrocardiology</i> , 2021 , 26, e12830	1.5	2
47	Early Growth Patterns and Cardiac Structure and Function at Midlife: Northern Finland 1966 Birth Cohort Study. <i>Journal of Pediatrics</i> , 2020 , 221, 151-158.e1	3.6	3
46	Physical Activity and the Risk for Sudden Cardiac Death in Patients With Coronary Artery Disease. <i>Circulation: Arrhythmia and Electrophysiology</i> , 2020 , 13, e007908	6.4	2
45	Gender differences in prevalence and prognostic value of fragmented QRS complex. <i>Journal of Electrocardiology</i> , 2020 , 61, 1-9	1.4	3
44	Increased Beat-to-Beat Variability of T-Wave Heterogeneity Measured From Standard 12-Lead Electrocardiogram Is Associated With Sudden Cardiac Death: A Case-Control Study. <i>Frontiers in Physiology</i> , 2020 , 11, 1045	4.6	3
43	Postexercise Heart Rate Recovery in Adults Born Preterm. <i>Journal of Pediatrics</i> , 2019 , 214, 89-95.e3	3.6	5
42	Associations of fitness and physical activity with orthostatic responses of heart rate and blood pressure at midlife. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2019 , 29, 874-885	4.6	1
41	Prediabetes and Risk for Cardiac Death Among Patients With Coronary Artery Disease: The ARTEMIS Study. <i>Diabetes Care</i> , 2019 , 42, 1319-1325	14.6	22
40	Recovery of rate-pressure product and cardiac mortality in coronary artery disease patients with type 2 diabetes. <i>Diabetes Research and Clinical Practice</i> , 2019 , 150, 150-157	7.4	3
39	Home Monitoring of Heart Rate as a Predictor of Imminent Cardiovascular Events. <i>Frontiers in Physiology</i> , 2019 , 10, 341	4.6	4
38	Cardiac Autonomic Function in Adults Born Preterm. <i>Journal of Pediatrics</i> , 2019 , 208, 96-103.e4	3.6	8
37	Childhood growth patterns and cardiovascular autonomic modulation in midlife: Northern Finland 1966 Birth Cohort Study. <i>International Journal of Obesity</i> , 2019 , 43, 2264-2272	5.5	3
36	Musculoskeletal pains and cardiovascular autonomic function in the general Northern Finnish population. <i>BMC Musculoskeletal Disorders</i> , 2019 , 20, 45	2.8	3

35	Prognostic significance of P-wave morphology in patients with coronary artery disease. <i>Journal of Cardiovascular Electrophysiology</i> , 2019 , 30, 2051-2060	2.7	0
34	High Home Blood Pressure Variability Associates With Exaggerated Blood Pressure Response to Cold Stress. <i>American Journal of Hypertension</i> , 2019 , 32, 538-546	2.3	3
33	Response to Comment on Kiviniemi et al. Prediabetes and Risk for Cardiac Death Among Patients With Coronary Artery Disease: The ARTEMIS Study. <i>Diabetes Care</i> 2019;42:1319-1325. <i>Diabetes Care</i> , 2019 , 42, e195	14.6	
32	Effect of polycystic ovary syndrome on cardiac autonomic function at a late fertile age: a prospective Northern Finland Birth Cohort 1966 study. <i>BMJ Open</i> , 2019 , 9, e033780	3	3
31	Are 15-Year Trajectories of Low Back Pain and Sciatica Associated With Cardiovascular Autonomic Function in the General Population?: The Northern Finland Birth Cohort 1966 Study. <i>Spine</i> , 2019 , 44, E1325-E1335	3.3	3
30	Life style habits, biochemical factors and their interaction in the prediction of incident hypertension during 21-year follow-up. <i>Blood Pressure</i> , 2019 , 28, 40-48	1.7	1
29	Impaired cardiac autonomic regulation and long-term risk of atrial fibrillation in patients with coronary artery disease. <i>Heart Rhythm</i> , 2018 , 15, 334-340	6.7	8
28	Effect of Changes in Physical Activity on Risk for Cardiac Death in Patients With Coronary Artery Disease. <i>American Journal of Cardiology</i> , 2018 , 121, 143-148	3	27
27	Depressive Symptoms and Risk for Sudden Cardiac Death in Stable Coronary Artery Disease. <i>American Journal of Cardiology</i> , 2018 , 122, 749-755	3	5
26	The OBF Database: A Large Face Video Database for Remote Physiological Signal Measurement and Atrial Fibrillation Detection 2018 ,		22
25	Type 2 diabetes and coronary artery disease: Preserved ejection fraction and sudden cardiac death. <i>Heart Rhythm</i> , 2018 , 15, 1450-1456	6.7	19
24	Effects of a Two-Year Home-Based Exercise Training Program on Oxidized LDL and HDL Lipids in Coronary Artery Disease Patients with and without Type-2 Diabetes. <i>Antioxidants</i> , 2018 , 7,	7.1	8
23	Biomarkers as predictors of sudden cardiac death in coronary artery disease patients with preserved left ventricular function (ARTEMIS study). <i>PLoS ONE</i> , 2018 , 13, e0203363	3.7	12
22	Usefulness of Highly Sensitive Troponin as a Predictor of Short-Term Outcome in Patients With Diabetes Mellitus and Stable Coronary Artery Disease (from the ARTEMIS Study). <i>American Journal of Cardiology</i> , 2016 , 117, 515-521	3	13
21	Association between Birth Characteristics and Cardiovascular Autonomic Function at Mid-Life. <i>PLoS ONE</i> , 2016 , 11, e0161604	3.7	8
20	Hypertension Does Not Alter the Increase in Cardiac Baroreflex Sensitivity Caused by Moderate Cold Exposure. <i>Frontiers in Physiology</i> , 2016 , 7, 204	4.6	7
19	Effects of physical activity and exercise training on cardiovascular risk in coronary artery disease patients with and without type 2 diabetes. <i>Diabetes Care</i> , 2015 , 38, 706-15	14.6	35
18	ECG-derived respiration methods: adapted ICA and PCA. <i>Medical Engineering and Physics</i> , 2015 , 37, 512-72.4		12

17	Exercise capacity and heart rate responses to exercise as predictors of short-term outcome among patients with stable coronary artery disease. <i>American Journal of Cardiology</i> , 2015 , 116, 1495-501	3	14
16	Acute post-exercise change in blood pressure and exercise training response in patients with coronary artery disease. <i>Frontiers in Physiology</i> , 2014 , 5, 526	4.6	15
15	Effects of exercise rehabilitation on cardiac electrical instability assessed by T-wave alternans during ambulatory electrocardiogram monitoring in coronary artery disease patients without and with diabetes mellitus. <i>American Journal of Cardiology</i> , 2014 , 114, 832-7	3	13
14	Prognostic significance of impaired baroreflex sensitivity assessed from Phase IV of the Valsalva maneuver in a population-based sample of middle-aged subjects. <i>American Journal of Cardiology</i> , 2014 , 114, 571-6	3	19
13	Cardiac repolarization and autonomic regulation during short-term cold exposure in hypertensive men: an experimental study. <i>PLoS ONE</i> , 2014 , 9, e99973	3.7	25
12	Impact and management of physiological calibration in spectral analysis of blood pressure variability. <i>Frontiers in Physiology</i> , 2014 , 5, 473	4.6	5
11	Exercise capacity is associated with endothelin-1 release during emotional excitement in coronary artery disease patients. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2014 , 307, H391-6	5.2	4
10	Effects of exercise prescription on daily physical activity and maximal exercise capacity in coronary artery disease patients with and without type 2 diabetes. <i>Clinical Physiology and Functional Imaging</i> , 2012 , 32, 445-54	2.4	21
9	Cardiac autonomic function reveals adaptation to military training. <i>European Journal of Sport Science</i> , 2011 , 11, 231-240	3.9	6
8	Sudden cardiac death after myocardial infarction in patients with type 2 diabetes. <i>Heart Rhythm</i> , 2010 , 7, 1396-403	6.7	66
7	Relationship between heart rate variability and the serum testosterone-to-cortisol ratio during military service. <i>European Journal of Sport Science</i> , 2009 , 9, 277-284	3.9	10
6	Effects of aerobic training on heart rate dynamics in sedentary subjects. <i>Journal of Applied Physiology</i> , 2003 , 95, 364-72	3.7	159
5	Changes in cardiac autonomic regulation after prolonged maximal exercise. <i>Clinical Physiology</i> , 2001 , 21, 238-45		119
4	Time domain, geometrical and frequency domain analysis of cardiac vagal outflow: effects of various respiratory patterns. <i>Clinical Physiology</i> , 2001 , 21, 365-76		317
3	Effects of pharmacological adrenergic and vagal modulation on fractal heart rate dynamics. <i>Clinical Physiology</i> , 2001 , 21, 515-23		93
2	Vagal modulation of heart rate during exercise: effects of age and physical fitness. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 1998 , 274, H424-9	5.2	140
1	Heart rate dynamics during accentuated sympathovagal interaction. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 1998 , 274, H810-6	5.2	56
