#	ARTICLE	IF	CITATIONS
1	Efficacy of Yigu [®] versus Aclasta [®] in Chinese postmenopausal women with osteoporosis: a multicenter prospective study. <i>Archives of Osteoporosis</i> , 2022, 17, 14.	2.4	2
2	MicroRNAs in Serum Exosomes as Circulating Biomarkers for Postmenopausal Osteoporosis. <i>Frontiers in Endocrinology</i> , 2022, 13, 819056.	3.5	8
3	Association between bone turnover markers, BMD and height loss of cemented vertebrae after percutaneous vertebroplasty in patients with osteoporotic vertebral compression fractures. <i>Journal of Orthopaedic Surgery and Research</i> , 2022, 17, 202.	2.3	5
4	ZEB1 Mediates Bone Marrow Mesenchymal Stem Cell Osteogenic Differentiation Partly via Wnt/ β 2-Catenin Signaling. <i>Frontiers in Molecular Biosciences</i> , 2021, 8, 682728.	3.5	9
5	Serum concentrations of oxytocin, DHEA and follistatin are associated with osteoporosis or sarcopenia in community-dwelling postmenopausal women. <i>BMC Geriatrics</i> , 2021, 21, 542.	2.7	9
6	East meets West: current practices and policies in the management of musculoskeletal aging. <i>Aging Clinical and Experimental Research</i> , 2019, 31, 1351-1373.	2.9	32
7	Sex differences in the prevalence and adverse outcomes of sarcopenia and sarcopenic obesity in community dwelling elderly in East China using the AWGS criteria. <i>BMC Endocrine Disorders</i> , 2019, 19, 109.	2.2	97
8	Eldecalcitol increases bone mineral density in Chinese osteoporotic patients without vitamin D or calcium supplementation. <i>Journal of Bone and Mineral Metabolism</i> , 2019, 37, 1036-1047.	2.7	14
9	Epidemiological and clinical study of hip fracture in hospitalized elderly patients in Shanghai, China. <i>Archives of Osteoporosis</i> , 2019, 14, 37.	2.4	12
10	PTH1-34 improves bone healing by promoting angiogenesis and facilitating MSCs migration and differentiation in a stabilized fracture mouse model. <i>PLoS ONE</i> , 2019, 14, e0226163.	2.5	26
11	Levels of serum sclerostin, FGF-23, and intact parathyroid hormone in postmenopausal women treated with calcitriol. <i>Clinical Interventions in Aging</i> , 2018, Volume 13, 2367-2374.	2.9	12
12	Bone Marrow-derived Endothelial Progenitor Cells Are Associated with Bone Mass and Strength. <i>Journal of Rheumatology</i> , 2018, 45, 1696-1704.	2.0	4
13	Calcifediol (25-hydroxyvitamin D) improvement and calcium-phosphate metabolism of alendronate sodium/vitamin D3 combination in Chinese women with postmenopausal osteoporosis: a post hoc efficacy analysis and safety reappraisal. <i>BMC Musculoskeletal Disorders</i> , 2018, 19, 210.	1.9	12
14	Age and sex effects on the relationship between body composition and hip geometric structure in males and females from East China. <i>Archives of Osteoporosis</i> , 2018, 13, 79.	2.4	9
15	Factors associated to serum 25-hydroxyvitamin D levels among older adult populations in urban and suburban communities in Shanghai, China. <i>BMC Geriatrics</i> , 2017, 17, 246.	2.7	21
16	Plasma homocysteine level is a risk factor for osteoporotic fractures in elderly patients. <i>Clinical Interventions in Aging</i> , 2016, Volume 11, 1117-1121.	2.9	12
17	Circulating TGF- β 1 levels are negatively correlated with sclerostin levels in early postmenopausal women. <i>Clinica Chimica Acta</i> , 2016, 455, 87-92.	1.1	13
18	Prevalence of Sarcopenia and Its Relationship with Sites of Fragility Fractures in Elderly Chinese Men and Women. <i>PLoS ONE</i> , 2015, 10, e0138102.	2.5	64

#	ARTICLE	IF	CITATIONS
19	A cross-sectional study of loss of muscle mass corresponding to sarcopenia in healthy Chinese men and women: reference values, prevalence, and association with bone mass. <i>Journal of Bone and Mineral Metabolism</i> , 2014, 32, 78-88.	2.7	94
20	Age and sex effects on the association between body composition and bone mineral density in healthy Chinese men and women. <i>Menopause</i> , 2012, 19, 448-455.	2.0	44
