#	ARTICLE	IF	CITATIONS
1	Comparison of video and in-hospital consultations during early in-home care for premature infants and their families: A randomised trial. <i>Journal of Telemedicine and Telecare</i> , 2022, 28, 24-36.	1.4	10
2	Video consultation as nursing practice during early in-home care for premature infants and families viewed from the families' homes'. <i>Nursing Open</i> , 2021, 8, 824-832.	1.1	3
3	Improved exclusive breastfeeding rates in preterm infants after a neonatal nurse training program focusing on six breastfeeding-supportive clinical practices. <i>PLoS ONE</i> , 2021, 16, e0245273.	1.1	24
4	Knowledge of mothers and fathers' experiences of the early in-home care of premature infants supported by video consultations with a neonatal nurse. <i>BMC Nursing</i> , 2021, 20, 54.	0.9	12
5	Multifactorial influence on duration of exclusive breastfeeding; a Danish cohort study. <i>PLoS ONE</i> , 2020, 15, e0238363.	1.1	13
6	What are the effects of supporting early parenting by newborn behavioral observations (NBO)? A cluster randomised trial. <i>BMC Psychology</i> , 2020, 8, 107.	0.9	6
7	Randomised oral stimulation and exclusive breastfeeding duration in healthy premature infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, 109, 2017-2024.	0.7	8
8	No long-term effect of oral stimulation on the intra-oral vacuum in healthy premature infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, 109, 2025-2032.	0.7	3
9	The significance of early breastfeeding experiences on breastfeeding self-efficacy one week postpartum. <i>Maternal and Child Nutrition</i> , 2020, 16, e12986.	1.4	18
10	Nipple shield use in preterm infants: Prevalence, motives for use and association with exclusive breastfeeding—Results from a national cohort study. <i>PLoS ONE</i> , 2019, 14, e0222811.	1.1	9
11	Health visitors' competences before and after implementing the newborn behavioral observations (NBO) system in a community setting: A cluster randomised study. <i>Public Health Nursing</i> , 2019, 36, 856-862.	0.7	6
12	Validation of the Breastfeeding Score—A Simple Screening Tool to Predict Breastfeeding Duration. <i>Nutrients</i> , 2019, 11, 2852.	1.7	11
13	Infants' transition from milk to solid foods - the lived experiences of first-time parents. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2019, 14, 1693483.	0.6	7
14	Breastfeeding and skin-to-skin contact as non-pharmacological prevention of neonatal hypoglycemia in infants born to women with gestational diabetes; a Danish quasi-experimental study. <i>Sexual and Reproductive Healthcare</i> , 2019, 19, 1-8.	0.5	14
15	Early breastfeeding problems: A mixed method study of mothers' experiences. <i>Sexual and Reproductive Healthcare</i> , 2018, 16, 167-174.	0.5	79
16	Innovation activity among nurses: The translation and preliminary validation of the Bricolage Measure—a mixed-method study. <i>Nordic Journal of Nursing Research</i> , 2018, 38, 151-159.	0.6	2
17	The role of intention and self-efficacy on the association between breastfeeding of first and second child, a Danish cohort study. <i>BMC Pregnancy and Childbirth</i> , 2018, 18, 454.	0.9	20
18	First-time mothers' confidence mood and stress in the first months postpartum. A cohort study. <i>Sexual and Reproductive Healthcare</i> , 2018, 17, 43-49.	0.5	41

#	ARTICLE	IF	CITATIONS
19	What are the effects of supporting early parenting by enhancing parents'™ understanding of the infant? Study protocol for a cluster-randomized community-based trial of the Newborn Behavioral Observation (NBO) method. BMC Public Health, 2018, 18, 832.	1.2	11
20	Why do mothers use nipple shields and how does this influence duration of exclusive breastfeeding?. Maternal and Child Nutrition, 2017, 13, .	1.4	29
21	Focused breastfeeding counselling improves short- and long-term success in an early-discharge setting: A cluster-randomized study. Maternal and Child Nutrition, 2017, 13, .	1.4	33
22	ARE HEALTH VISITORS'™ OBSERVATIONS OF EARLY PARENT-INFANT INTERACTIONS RELIABLE? A CROSS-SECTIONAL DESIGN. Infant Mental Health Journal, 2017, 38, 276-288.	0.7	14
23	Early discharge following birth - What characterises mothers and newborns?. Sexual and Reproductive Healthcare, 2017, 11, 60-68.	0.5	22
24	Multicentre randomised study of the effect and experience of an early inhome programme (PreHomeCare) for preterm infants using video consultation and smartphone applications compared with inhospital consultations: protocol of the PreHomeCare study. BMJ Open, 2017, 7, e013024.	0.8	9
25	Video feedback promotes relations between infants and vulnerable first-time mothers: a quasi-experimental study. BMC Pregnancy and Childbirth, 2017, 17, 379.	0.9	23
26	Care around birth, infant and mother health and maternal health investments - Evidence from a nurse strike. Social Science and Medicine, 2016, 150, 201-211.	1.8	11
27	First time mothers' experiences of breastfeeding their newborn. Sexual and Reproductive Healthcare, 2015, 6, 82-87.	0.5	60
28	Parental experiences of early postnatal discharge: A meta-synthesis. Midwifery, 2015, 31, 926-934.	1.0	48
29	Breastfeeding and introduction of complementary food in Danish infants. Scandinavian Journal of Public Health, 2015, 43, 138-145.	1.2	20
30	Breastfeeding Progression in Preterm Infants Is Influenced by Factors in Infants, Mothers and Clinical Practice: The Results of a National Cohort Study with High Breastfeeding Initiation Rates. PLoS ONE, 2014, 9, e108208.	1.1	93
31	Predictors for early introduction of solid food among Danish mothers and infants: an observational study. BMC Pediatrics, 2014, 14, 243.	0.7	32
32	Factors Associated with Exclusive Breastfeeding of Preterm Infants. Results from a Prospective National Cohort Study. PLoS ONE, 2014, 9, e89077.	1.1	106
33	Børn med psykosomatiske symptomer og deres perspektiv i sygeplejerskens dokumentation. Klinisk Sygepleje, 2014, 28, 30-45.	0.2	0
34	Face validity and inter-rater reliability of the Danish version of the modified Yale Preoperative Anxiety Scale. Danish Medical Journal, 2014, 61, A4853.	0.5	5
35	The journey towards motherhood after a very preterm birth: Mothers' experiences in hospital and after home-coming. Journal of Neonatal Nursing, 2013, 19, 109-113.	0.3	34
36	Obesity and early cessation of breastfeeding in Denmark. European Journal of Public Health, 2013, 23, 316-322.	0.1	38

#	ARTICLE	IF	CITATIONS
37	When breastfeeding is unsuccessful – mothers' experiences after giving up breastfeeding. <i>Scandinavian Journal of Caring Sciences</i> , 2013, 27, 848-856.	1.0	29
38	Breastfeeding Support in Neonatal Intensive Care. <i>Journal of Human Lactation</i> , 2012, 28, 370-379.	0.8	48
39	The Effect of Early Postpartum Home Visits by Health Visitors: A Natural Experiment. <i>Public Health Nursing</i> , 2012, 29, 289-301.	0.7	34
40	Antenatal training to improve breast feeding: a randomised trial. <i>Midwifery</i> , 2012, 28, 784-790.	1.0	60
41	Development of a Postnatal Educational Program for Breastfeeding Mothers in Community Settings. <i>Journal of Human Lactation</i> , 2011, 27, 339-349.	0.8	7
42	Walking the line between the possible and the ideal: Lived experiences of neonatal nurses. <i>Intensive and Critical Care Nursing</i> , 2010, 26, 307-313.	1.4	22
43	How Are Effective Breastfeeding Technique and Pacifier Use Related to Breastfeeding Problems and Breastfeeding Duration?. <i>Birth</i> , 2009, 36, 34-42.	1.1	82
44	Reply: Pacifiers and Breastfeeding. <i>Birth</i> , 2009, 36, 267-268.	1.1	0
45	Health visitors and breastfeeding support: influence of knowledge and self-efficacy. <i>European Journal of Public Health</i> , 2008, 18, 283-288.	0.1	38
46	Early breastfeeding cessation: validation of a prognostic breastfeeding score. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2007, 96, 688-692.	0.7	14
47	The influence of psychosocial factors on the duration of breastfeeding. <i>Scandinavian Journal of Public Health</i> , 2004, 32, 210-216.	1.2	160
