

Sanja M Sakan

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2931953/sanja-m-sakan-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

34
papers

848

#	Paper	IF	Citations
34	To Professor Petar Pfenđt, In calidum, et plurium retributivus memoriae: FT IR ATR analysis of post stamps of Principality of Serbia issued in 1866 and 1868 and their forgeries. <i>Journal of the Serbian Chemical Society</i> , 2021 , 90-90	0.9	
33	Evaluation of Element Mobility in River Sediment Using Different Single Extraction Procedures and Assessment of Probabilistic Ecological Risk. <i>Water (Switzerland)</i> , 2021 , 13, 1411	3	
32	Element Content in Volcano Ash, Soil and River Sediments of the Watershed in the Volcanic Area of South Iceland and Assessment of Their Mobility Potential. <i>Water (Switzerland)</i> , 2021 , 13, 1928	3	0
31	Response to Comments by T. Matys Grygar (2019) on Evaluation of potentially toxic element contamination in the riparian zone of the River Sava. <i>Catena</i> , 2020 , 185, 104230	5.8	
30	Geochemical Fractionation and Risk Assessment of Potentially Toxic Elements in Sediments from Kupa River, Croatia. <i>Water (Switzerland)</i> , 2020 , 12, 2024	3	6
29	Can Volcanic Dust Suspended From Surface Soil and Deserts of Iceland Be Transferred to Central Balkan Similarly to African Dust (Sahara)?. <i>Frontiers in Earth Science</i> , 2019 , 7,	3.5	10
28	Pollution and Health Risk Assessments of Potentially Toxic Elements in Soil and Sediment Samples in a Petrochemical Industry and Surrounding Area. <i>Molecules</i> , 2019 , 24,	4.8	10
27	Environmental impact of industrial and agricultural activities to the trace element content in soil of Srem (Serbia). <i>Environmental Monitoring and Assessment</i> , 2019 , 191, 133	3.1	4
26	Geochemical Fractionation and Assessment of Probabilistic Ecological Risk of Potential Toxic Elements in Sediments Using Monte Carlo Simulations. <i>Molecules</i> , 2019 , 24,	4.8	3
25	Comparison of extraction agents for metal determination in sediments from artificial lakes and rivers in Serbia. <i>Acta Periodica Technologica</i> , 2019 , 189-196	0.8	1
24	Natural and anthropogenic sources of chromium, nickel and cobalt in soils impacted by agricultural and industrial activity (Vojvodina, Serbia). <i>Journal of Environmental Science and Health - Part A Toxic/Hazardous Substances and Environmental Engineering</i> , 2019 , 54, 219-230	2.3	13
23	Evaluation of potentially toxic element contamination in the riparian zone of the River Sava. <i>Catena</i> , 2019 , 174, 399-412	5.8	31
22	Fractionation, Mobility, and Contamination Assessment of Potentially Toxic Metals in Urban Soils in Four Industrial Serbian Cities. <i>Archives of Environmental Contamination and Toxicology</i> , 2018 , 75, 335-350	3.2	16
21	Ranking and similarity of conventional, microwave and ultrasound element sequential extraction methods. <i>Chemosphere</i> , 2018 , 198, 103-110	8.4	3
20	Assessment of contamination, environmental risk, and origin of heavy metals in soils surrounding industrial facilities in Vojvodina, Serbia. <i>Environmental Monitoring and Assessment</i> , 2018 , 190, 208	3.1	20
19	Persistent organic pollutants (POPs) in sediments from river and artificial lakes in Serbia. <i>Journal of Geochemical Exploration</i> , 2017 , 180, 91-100	3.8	25
18	Study of potential harmful elements (arsenic, mercury and selenium) in surface sediments from Serbian rivers and artificial lakes. <i>Journal of Geochemical Exploration</i> , 2017 , 180, 24-34	3.8	6

17	Assessment of the environmental significance of nutrients and heavy metal pollution in the river network of Serbia. <i>Environmental Science and Pollution Research</i> , 2016 , 23, 282-97	5.1	25
16	Aquatic sediments pollution estimate using the metal fractionation, secondary phase enrichment factor calculation, and used statistical methods. <i>Environmental Geochemistry and Health</i> , 2016 , 38, 855-67	4.7	24
15	Comparison of single extraction procedures and the application of an index for the assessment of heavy metal bioavailability in river sediments. <i>Environmental Science and Pollution Research</i> , 2016 , 23, 21485-21500	5.1	13
14	Risk assessment of trace element contamination in river sediments in Serbia using pollution indices and statistical methods: a pilot study. <i>Environmental Earth Sciences</i> , 2015 , 73, 6625-6638	2.9	19
13	Evaluation of sediment contamination with heavy metals: the importance of determining appropriate background content and suitable element for normalization. <i>Environmental Geochemistry and Health</i> , 2015 , 37, 97-113	4.7	33
12	Environmental Assessment of Heavy Metal Pollution in Freshwater Sediment, Serbia. <i>Clean - Soil, Air, Water</i> , 2015 , 43, 838-845	1.6	7
11	Freshwater environmental quality parameters of man-made lakes of Serbia. <i>Environmental Monitoring and Assessment</i> , 2014 , 186, 5221-34	3.1	3
10	Natural and anthropogenic factors affecting the groundwater quality in Serbia. <i>Science of the Total Environment</i> , 2014 , 468-469, 933-42	10.2	86
9	Trace element study in Tisa River and Danube alluvial sediment in Serbia. <i>International Journal of Sediment Research</i> , 2013 , 28, 234-245	3	24
8	Conventional, microwave, and ultrasound sequential extractions for the fractionation of metals in sediments within the Petrochemical Industry, Serbia. <i>Environmental Monitoring and Assessment</i> , 2013 , 185, 7627-45	3.1	20
7	Assessment of arsenic and mercury contamination in the Tisa River sediments and industrial canal sediments (Danube alluvial formation), Serbia. <i>Journal of Environmental Science and Health - Part A Toxic/Hazardous Substances and Environmental Engineering</i> , 2012 , 47, 109-16	2.3	12
6	A study of trace element contamination in river sediments in Serbia using microwave-assisted aqua regia digestion and multivariate statistical analysis. <i>Microchemical Journal</i> , 2011 , 99, 492-502	4.8	48
5	Aqua regia extracted metals in sediments from the industrial area and surroundings of Pančevo, Serbia. <i>Journal of Hazardous Materials</i> , 2011 , 186, 1893-901	12.8	18
4	Evaluation of heavy metal contamination in sediments using the method of total digestion and determination of the binding forms-Tisa River Basin, Serbia. <i>Journal of Environmental Science and Health - Part A Toxic/Hazardous Substances and Environmental Engineering</i> , 2010 , 45, 783-94	2.3	12
3	Trace elements as tracers of environmental pollution in the canal sediments (alluvial formation of the Danube River, Serbia). <i>Environmental Monitoring and Assessment</i> , 2010 , 167, 219-33	3.1	16
2	Assessment of heavy metal pollutants accumulation in the Tisza river sediments. <i>Journal of Environmental Management</i> , 2009 , 90, 3382-90	7.9	280
1	Distribution and fractionation of heavy metals in the Tisa (Tisza) river sediments. <i>Environmental Science and Pollution Research</i> , 2007 , 14, 229-36	5.1	60
