#	ARTICLE	IF	CITATIONS
1	Extended cardiopulmonary resuscitation: from high fidelity simulation scenario to the first clinical applications in Poznan out-of-hospital cardiac arrest program. <i>Perfusion (United Kingdom)</i> , 2022, 37, 46-55.	1.0	5
2	Coronary Stent Thrombosis in COVID-19 Patients: A Systematic Review of Cases Reported Worldwide. <i>Viruses</i> , 2022, 14, 260.	3.3	10
3	Association of Electrocardiographic Signs of Right Ventricular Hypertrophy and Clot Localization in Chronic Thromboembolic Pulmonary Hypertension. <i>Journal of Clinical Medicine</i> , 2022, 11, 625.	2.4	6
4	An expert opinion of the Association of Cardiovascular Interventions and the Working Group on Cardiovascular Pharmacotherapy of the Polish Cardiac Society related to the place of prasugrel in the prevention of cardiovascular events in patients with acute coronary syndromes. <i>Kardiologia Polska</i> , 2022, 80, 113-122.	0.6	1
5	AngioVac: The first in Poland percutaneous solid thrombus aspiration from the right atrium. <i>Kardiologia Polska</i> , 2022, 80, 103-104.	0.6	0
6	The ALSTER-FLX Registry: 3-Month outcomes after left atrial appendage occlusion using a next-generation device, a matched-pair analysis to EWOLUTION. <i>Heart Rhythm</i> , 2022, 19, 917-926.	0.7	8
7	Short- and Long-Term Outcomes of Left Main Coronary Artery Stenting in Patients Disqualified from Coronary Artery Bypass Graft Surgery. <i>Journal of Personalized Medicine</i> , 2022, 12, 348.	2.5	1
8	A novel hybrid catheter-directed technique to treat intermediate-high risk pulmonary embolism. <i>Cardiology Journal</i> , 2022, , .	1.2	0
9	Management of patients after heart valve interventions. Expert opinion of the Working Group on Valvular Heart Diseases, Working Group on Cardiac Surgery, and Association of Cardiovascular Interventions of the Polish Cardiac Society. <i>Kardiologia Polska</i> , 2022, 80, 386-402.	0.6	1
10	Impella-supported intracoronary lithotripsy of left main in-stent restenosis. <i>Kardiologia Polska</i> , 2022, 80, 357-358.	0.6	0
11	Very long-term follow-up of patients with coronary bifurcation lesions treated with bioresorbable scaffolds. <i>Kardiologia Polska</i> , 2022, 80, 302-306.	0.6	3
12	Circulating microRNAs in patients with aneurysmal dilatation of coronary arteries. <i>Experimental and Therapeutic Medicine</i> , 2022, 23, .	1.8	1
13	Chronic thromboembolic pulmonary hypertension complicated by left main compression syndrome. <i>Kardiologia Polska</i> , 2022, 80, 499-500.	0.6	0
14	Clinical use of intracoronary imaging modalities in Poland. Expert opinion of the Association of Cardiovascular Interventions of the Polish Cardiac Society. <i>Kardiologia Polska</i> , 2022, 80, 509-519.	0.6	6
15	Prognostic Value of Pulmonary Artery Pulsatility Index in Right Ventricle Failure-Related Mortality in Inoperable Chronic Thromboembolic Pulmonary Hypertension. <i>Journal of Clinical Medicine</i> , 2022, 11, 2735.	2.4	0
16	Neutrophil-to-lymphocyte ratio as a predictor of inflammatory response in patients with acute kidney injury after transcatheter aortic valve implantation. <i>Advances in Clinical and Experimental Medicine</i> , 2022, 31, 937-945.	1.4	1
17	Pulmonary artery systolic pressure at 1-month predicts 1-year survival after transcatheter aortic valve implantation. <i>Kardiologia Polska</i> , 2022, 80, 825-833.	0.6	2
18	Inflammatory state does not affect the antiplatelet efficacy of potent P2Y12 inhibitors in ACS. <i>Platelets</i> , 2021, 32, 498-506.	2.3	3

#	ARTICLE	IF	CITATIONS
19	Non-calcific aortic tissue quantified from computed tomography angiography improves diagnosis and prognostication of patients referred for transcatheter aortic valve implantation. <i>European Heart Journal Cardiovascular Imaging</i> , 2021, 22, 626-635.	1.2	16
20	Erysipelothrix rhusiopathiae Endocarditis in a Patient With Severe Unicuspid Aortic Valve Damage Complicated With Acquired Ventricular Septal Defect. <i>Canadian Journal of Cardiology</i> , 2021, 37, 523.e1-523.e3.	1.7	0
21	Chronic total occlusion percutaneous coronary intervention in everyday clinical practice – an expert opinion of the Association of Cardiovascular Interventions of the Polish Cardiac Society. <i>Postępy W Kardiologii Interwencyjnej</i> , 2021, 17, 6-20.	0.2	0
22	Transcatheter Aortic Valve Replacement With the LOTUS Edge System. <i>JACC: Cardiovascular Interventions</i> , 2021, 14, 172-181.	2.9	6
23	Small buddy balloon catheter technique facilitates deliverability of other balloons or stents in challenging cases. <i>Postępy W Kardiologii Interwencyjnej</i> , 2021, 17, 101-104.	0.2	0
24	Interventional cardiology in Poland in 2020 – impact of the COVID-19 pandemic. Annual summary report of the Association of Cardiovascular Interventions of the Polish Cardiac Society and Jagiellonian University Medical College*. <i>Postępy W Kardiologii Interwencyjnej</i> , 2021, 17, 131-134.	0.2	11
25	Characteristics of patients from the Polish Registry of Acute Coronary Syndromes during the COVID-19 pandemic: the first report. <i>Kardiologia Polska</i> , 2021, 79, 192-195.	0.6	6
26	How the COVID-19 pandemic changed treatment of severe aortic stenosis: a single cardiac center experience. <i>Journal of Thoracic Disease</i> , 2021, 13, 906-917.	1.4	5
27	First implantation of the Acurate neo2 prosthesis in a patient with aortic stenosis in Poland. <i>Kardiologia Polska</i> , 2021, 79, 207-208.	0.6	0
28	Percutaneous Occlusion of the Left Atrial Appendage with Thrombus Irrespective to Antithrombotic Therapy. <i>Journal of Clinical Medicine</i> , 2021, 10, 726.	2.4	6
29	The Polish Interventional Cardiology TAVI Survey (PICTS): 10 years of transcatheter aortic valve implantation in Poland. The landscape after the first stage of Valve for Life initiative. <i>Polish Archives of Internal Medicine</i> , 2021, 131, 413-420.	0.4	0
30	The impact of right coronary artery support on the outcomes of patients with unprotected left main disease undergoing percutaneous coronary intervention. <i>Kardiologia Polska</i> , 2021, 79, 631-637.	0.6	1
31	Multivessel Intervention in Myocardial Infarction with Cardiogenic Shock: CULPRIT-SHOCK Trial Outcomes in the PL-ACS Registry. <i>Journal of Clinical Medicine</i> , 2021, 10, 1832.	2.4	3
32	Platelet function in patients undergoing surgical and transcatheter aortic valve replacement: a comparative study. <i>Kardiologia Polska</i> , 2021, 79, 554-561.	0.6	2
33	Peculiarities in coronary sinus anatomy: implications for successful cannulation from an autoptical study. <i>Europace</i> , 2021, 23, 1787-1794.	1.7	3
34	Closure of secundum atrial septal defect with a fenestrated occluder in a patient with severe pulmonary hypertension. <i>Kardiologia Polska</i> , 2021, 79, 463-464.	0.6	0
35	Feasibility of intravascular lithotripsy for calcific coronary lesions: A multi-institutional experience. <i>Catheterization and Cardiovascular Interventions</i> , 2021, 98, E540-E547.	1.7	5
36	Impact of acute total occlusion of the culprit artery on outcome in NSTEMI based on the results of a large national registry. <i>BMC Cardiovascular Disorders</i> , 2021, 21, 297.	1.7	6

#	ARTICLE	IF	CITATIONS
37	A Personalized Approach to Percutaneous Coronary Interventions in the Left Main Coronary Artery—Is the Female Gender Associated with Worse Outcomes?. <i>Journal of Personalized Medicine</i> , 2021, 11, 581.	2.5	2
38	Development and Validation of a Practical Model to Identify Patients at Risk of Bleeding After TAVR. <i>JACC: Cardiovascular Interventions</i> , 2021, 14, 1196-1206.	2.9	24
39	The importance of autopsy studies in elucidating coronary venous diseases: Authors'™ reply. <i>Europace</i> , 2021, 23, 1867-1868.	1.7	1
40	Involvement of Angiogenesis in the Pathogenesis of Coronary Aneurysms. <i>Biomedicines</i> , 2021, 9, 1269.	3.2	5
41	Incidence, predictors and outcomes of device-related thrombus after left atrial appendage closure with the WATCHMAN device—Insights from the EWOLUTION real world registry. <i>Catheterization and Cardiovascular Interventions</i> , 2021, 97, E1019-E1024.	1.7	27
42	Association between time-related changes in routine blood morphological parameters and renal function after transcatheter aortic valve implantation — a preliminary study. <i>Kardiochirurgia I Torakochirurgia Polska</i> , 2021, 18, 152-158.	0.1	2
43	Innovative medical technologies in the percutaneous treatment of tricuspid regurgitation in Poland. <i>Cardiology Journal</i> , 2021, , .	1.2	1
44	One-Year Outcome of Glycoprotein IIb/IIIa Inhibitor Therapy in Patients with Myocardial Infarction-Related Cardiogenic Shock. <i>Journal of Clinical Medicine</i> , 2021, 10, 5059.	2.4	6
45	Percutaneous tricuspid edge-to-edge repair — patient selection, imaging considerations, and the procedural technique. Expert opinion of the Working Group on Echocardiography and Association of Cardiovascular Interventions of the Polish Cardiac Society. <i>Kardiologia Polska</i> , 2021, 79, 1178-1191.	0.6	0
46	Young women with acute myocardial infarction. Where to look for the causes?. <i>Kardiologia Polska</i> , 2021, 79, 1143-1144.	0.6	0
47	Transcatheter mitral valve repair and replacement. Expert consensus statement of the Polish Cardiac Society and the Polish Society of Cardiothoracic Surgeons. <i>Kardiologia Polska</i> , 2021, 79, 1165-1177.	0.6	2
48	Intravascular ultrasound-guided lithotripsy in a calcified saphenous vein graft. <i>Kardiologia Polska</i> , 2021, 79, 1290-1291.	0.6	1
49	Increased neutrophil-to-lymphocyte ratio is associated with higher incidence of acute kidney injury and worse survival after transcatheter aortic valve implantation. <i>Cardiology Journal</i> , 2021, , .	1.2	6
50	Navitor valve — a new TAVI solution for patients with aortic stenosis. <i>Kardiologia Polska</i> , 2021, 79, 1278-1279.	0.6	4
51	Mechanical circulatory support. An expert opinion of the Association of Intensive Cardiac Care and the Association of Cardiovascular Interventions of the Polish Cardiac Society. <i>Kardiologia Polska</i> , 2021, 79, 1399-1410.	0.6	5
52	Sutureless aortic bioprosthesis: Competitor or alternative for transcatheter aortic valve implantation? Single center experience with Perceval valves. <i>Cardiology Journal</i> , 2021, , .	1.2	0
53	Transcatheter aortic valve implantation in patients with bicuspid aortic valve stenosis utilizing the next-generation fully retrievable and repositionable valve system: mid-term results from a prospective multicentre registry. <i>Clinical Research in Cardiology</i> , 2020, 109, 570-580.	3.3	10
54	Transcatheter versus surgical aortic valve replacement in low-risk patients: a meta-analysis of randomized trials. <i>Clinical Research in Cardiology</i> , 2020, 109, 761-775.	3.3	9

#	ARTICLE	IF	CITATIONS
55	Challenging clinical and organizational scenarios in cardiovascular diseases during the SARS-CoV-2 pandemic in Poland. Can we do better?. <i>Postępy W Kardiologii Interwencyjnej</i> , 2020, 16, 121-122.	0.2	4
56	Clinical and procedural characteristics of COVID-19 patients treated with percutaneous coronary interventions. <i>Catheterization and Cardiovascular Interventions</i> , 2020, 96, E568-E575.	1.7	26
57	Procedural and Short-Term Results With the New Watchman FLX Left Atrial Appendage Occlusion Device. <i>JACC: Cardiovascular Interventions</i> , 2020, 13, 2732-2741.	2.9	49
58	Interventional cardiology in Poland in 2019. Summary report of the Association of Cardiovascular Interventions of the Polish Cardiac Society (AISN PTK) and Jagiellonian University Medical College*. <i>Postępy W Kardiologii Interwencyjnej</i> , 2020, 16, 123-126.	0.2	8
59	Continuous Aspiration Thrombectomy in High- and Intermediate-High-Risk Pulmonary Embolism in Real-World Clinical Practice. <i>Journal of Interventional Cardiology</i> , 2020, 2020, 1-9.	1.2	15
60	Initial and long-term antithrombotic therapy after left atrial appendage closure with the WATCHMAN. <i>Europace</i> , 2020, 22, 1036-1043.	1.7	17
61	Predictors of Long-Term Infections After Cardiac Implantable Electronic Device Surgery – Utility of Novel PADIT and PACE DRAP Scores. <i>Circulation Journal</i> , 2020, 84, 1754-1763.	1.6	7
62	Watchman FLX: the initial Polish experience with a new device for left atrial appendage occlusion. <i>Kardiologia Polska</i> , 2020, 78, 240-242.	0.6	9
63	Atrial flow regulator as a bridge to lung transplant in a young patient with drug-resistant idiopathic pulmonary arterial hypertension. <i>Kardiologia Polska</i> , 2020, 78, 461-462.	0.6	5
64	Implementation of a regional multidisciplinary pulmonary embolism response team: PERT-POZ initial 1-year experience. <i>Kardiologia Polska</i> , 2020, 78, 300-310.	0.6	8
65	A concept for the development of a pioneer regional Out-of-Hospital Cardiac Arrest Program to improve patient outcomes. <i>Kardiologia Polska</i> , 2020, 78, 875-881.	0.6	5
66	Successful intravascular lithotripsy for covered stent underexpansion due to severely calcified plaque. <i>Kardiologia Polska</i> , 2020, 78, 247-248.	0.6	0
67	Management of valvular and structural heart diseases during the coronavirus disease 2019 pandemic: an expert opinion of the Working Group on Valvular Heart Diseases, the Working Group on Cardiac Surgery, and the Association of Cardiovascular Interventions of the Polish Cardiac Society. <i>Kardiologia Polska</i> , 2020, 78, 498-507.	0.6	5
68	The importance of detection and percutaneous closure of patent foramen ovale during the coronavirus disease 2019 pandemic. Authors' reply. <i>Kardiologia Polska</i> , 2020, 78, 616-617.	0.6	0
69	Early results of the ongoing Polish Registry of Valve Thrombosis after Transcatheter Aortic Valve Implantation (ZAKPOLTAVI). <i>Kardiologia Polska</i> , 2020, 78, 681-687.	0.6	3
70	PACE DRAP: a simple score for predicting significant bleeding complications after cardiac implantable electronic device surgery. <i>Polish Archives of Internal Medicine</i> , 2020, 130, 206-215.	0.4	3
71	Thromboembolic or atherosclerotic? Optical coherence tomography in determining the cause of myocardial infarction with ST-segment elevation. <i>Kardiologia Polska</i> , 2020, 78, 1045-1046.	0.6	2
72	Percutaneous closure of atrial septal defect: a consensus document of the joint group of experts from the Association of Cardiovascular Interventions and the Grown-Up Congenital Heart Disease Section of the Polish Cardiac Society. <i>Kardiologia Polska</i> , 2020, 78, 1066-1083.	0.6	1

#	ARTICLE	IF	CITATIONS
73	Pre-procedural abnormal function of von Willebrand Factor is predictive of bleeding after surgical but not transcatheter aortic valve replacement. <i>Journal of Thrombosis and Thrombolysis</i> , 2019, 48, 610-618.	2.1	8
74	Antithrombotic/Antiplatelet Treatment in Transcatheter Structural Cardiac Interventions – PFO/ASD/LAA Occluder and Interatrial Shunt Devices. <i>Frontiers in Cardiovascular Medicine</i> , 2019, 6, 75.	2.4	17
75	Ischemic postconditioning reduces infarct size and microvascular obstruction zone in acute ST-elevation myocardial infarction – a randomized study. <i>Postepy W Kardiologii Interwencyjnej</i> , 2019, 15, 292-300.	0.2	0
76	Transcatheter Aortic Valve Replacement Is Associated with Less Oxidative Stress and Faster Recovery of Antioxidant Capacity than Surgical Aortic Valve Replacement. <i>Journal of Clinical Medicine</i> , 2019, 8, 1364.	2.4	4
77	Optimal Timing of P2Y12 Inhibitor Loading in Patients Undergoing PCI: A Meta-Analysis. <i>Thrombosis and Haemostasis</i> , 2019, 119, 1000-1020.	3.4	15
78	Evaluating Real-World Clinical Outcomes in Atrial Fibrillation Patients Receiving the WATCHMAN Left Atrial Appendage Closure Technology. <i>Circulation: Arrhythmia and Electrophysiology</i> , 2019, 12, e006841.	4.8	199
79	Interventional cardiology procedures in Poland in 2018. Summary report of the Association of Cardiovascular Interventions of the Polish Cardiac Society (AISN PTK) and Jagiellonian University Medical College. <i>Postepy W Kardiologii Interwencyjnej</i> , 2019, 15, 391-393.	0.2	9
80	Rapid clinical and haemodynamic improvement in a patient with intermediate-high risk pulmonary embolism treated with transcatheter aspiration thrombectomy. <i>Postepy W Kardiologii Interwencyjnej</i> , 2019, 15, 497-498.	0.2	2
81	Bivalirudin use in acute coronary syndrome patients undergoing percutaneous coronary interventions in Poland: Clinical update from expert group of the Association on Cardiovascular Interventions of the Polish Cardiac Society. <i>Cardiology Journal</i> , 2019, 26, 1-7.	1.2	5
82	Acute myocardial infarction due to paradoxical embolism in a young man with ostium secundum atrial septal defect. <i>Kardiologia Polska</i> , 2019, 77, 645-646.	0.6	0
83	Myocardial infarction with nonobstructive coronary arteries in a young woman: the key role of optical coherence tomography. <i>Kardiologia Polska</i> , 2019, 77, 728-729.	0.6	1
84	High-risk closure of atrial septal defect type II in a patient with pulmonary hypertension. <i>Kardiologia Polska</i> , 2019, 77, 1092-1093.	0.6	0
85	First implantation of the new Lotus Edge transcatheter aortic valve in Poland. <i>Kardiologia Polska</i> , 2019, 77, 1084-1086.	0.6	1
86	Transcatheter aortic valve implantation in degenerated aortic bioprosthesis complicated by a –frozen –leaflet. <i>Kardiologia Polska</i> , 2019, 77, 1089-1091.	0.6	0
87	Interventional closure of patent foramen ovale in prevention of thromboembolic events. Consensus document of the Association of Cardiovascular Interventions and the Section of Grown –up Congenital Heart Disease of the Polish Cardiac Society. <i>Kardiologia Polska</i> , 2019, 77, 1094-1105.	0.6	4
88	Interventional closure of patent foramen ovale with –occlud – device in prevention of recurrent neurologic events – Long –term results. <i>Catheterization and Cardiovascular Interventions</i> , 2018, 92, 159-164.	1.7	5
89	Concomitant coronary artery disease and its management in patients referred to transcatheter aortic valve implantation: Insights from the POL –TAVI Registry. <i>Catheterization and Cardiovascular Interventions</i> , 2018, 91, 115-123.	1.7	23
90	Transcatheter aortic valve –in – valve implantation in failed stentless bioprostheses. <i>Journal of Interventional Cardiology</i> , 2018, 31, 861-869.	1.2	13

#	ARTICLE	IF	CITATIONS
91	Real-world safety and efficacy of WATCHMAN LAA closure at one year in patients on dual antiplatelet therapy: results of the DAPT subgroup from the EWOLUTION all-comers study. <i>EuroIntervention</i> , 2018, 13, 2003-2011.	3.2	41
92	Complete percutaneous approach versus surgical access in transfemoral transcatheter aortic valve implantation: results from a multicentre registry. <i>Kardiologia Polska</i> , 2018, 76, 202-208.	0.6	9
93	Dual antiplatelet therapy is safe and efficient after left atrial appendage closure. <i>Kardiologia Polska</i> , 2018, 76, 459-463.	0.6	9
94	Patients treated with bivalirudin are still at higher risk of stent thrombosis: a comprehensive meta-analysis of randomised clinical trials of bivalirudin and heparin for percutaneous coronary interventions. <i>Kardiologia Polska</i> , 2018, 76, 740-749.	0.6	3
95	Rotational atherectomy in everyday clinical practice. Association of Cardiovascular Interventions of the Polish Society of Cardiology (Asocjacja Interwencji Sercowo-Naczyniowych Polskiego) <i>Tj ETQq1 1 0.784314 rgBT6Overlokb 10 Tf 50</i>	0.7	10
96	Percutaneous Closure of Postâ€œInfarction Ventricular Septal Defectsâ€œ”An Over Decadeâ€œlong Experience. <i>Journal of Interventional Cardiology</i> , 2017, 30, 63-71.	1.2	18
97	Right heart catheterization procedures in patients with suspicion of pulmonary hypertension â€œ experiences of a tertiary center. <i>Postepy W Kardiologii Interwencyjnej</i> , 2017, 4, 295-301.	0.2	5
98	Transapical aortic valve implantation using a Symetis Acurate self-expandable bioprosthesis: initial outcomes of 10 patients. <i>Wideochirurgia I Inne Techniki Maloinwazyjne</i> , 2017, 2, 172-177.	0.7	0
