#	Article	IF	CITATIONS
1	Treatment With Multi-Species Probiotics Changes the Functions, Not the Composition of Gut Microbiota in Postmenopausal Women With Obesity: A Randomized, Double-Blind, Placebo-Controlled Study. Frontiers in Cellular and Infection Microbiology, 2022, 12, 815798.	3.9	13
2	Availability of Cardiodiabetological Drugs in Poland during the First Year of COVID-19 Pandemic: Retrospective Study. BioMed, 2022, 2, 117-126.	1.1	3
3	Prevalence of uncoupling protein one genetic polymorphisms and their relationship with cardiovascular and metabolic health. PLoS ONE, 2022, 17, e0266386.	2.5	2
4	Nutritional Approach Targeting Gut Microbiota in NAFLDâ€"To Date. International Journal of Environmental Research and Public Health, 2021, 18, 1616.	2.6	9
5	Uncovering genetic mechanisms of hypertension through multi-omic analysis of the kidney. Nature Genetics, 2021, 53, 630-637.	21.4	37
6	The effect of endurance and endurance-strength training on body composition and cardiometabolic markers in abdominally obese women: a randomised trial. Scientific Reports, 2021, 11, 12339.	3.3	13
7	Hypertension and renin-angiotensin system blockers are not associated with expression of angiotensin-converting enzyme 2 (ACE2) in the kidney. European Heart Journal, 2020, 41, 4580-4588.	2.2	41
8	You Are What You Eatâ€"The Relationship between Diet, Microbiota, and Metabolic Disordersâ€"A Review. Nutrients, 2020, 12, 1096.	4.1	185
9	The Multispecies Probiotic Effectively Reduces Homocysteine Concentration in Obese Women: A Randomized Double-Blind Placebo-Controlled Study. Journal of Clinical Medicine, 2020, 9, 998.	2.4	21
10	Effects of Endurance and Endurance–Strength Training on Endothelial Function in Women with Obesity: A Randomized Trial. International Journal of Environmental Research and Public Health, 2019, 16, 4291.	2.6	25
11	Uncovering genetic mechanisms of kidney aging through transcriptomics, genomics, and epigenomics. Kidney International, 2019, 95, 624-635.	5.2	40
12	Influence of endurance and endurance–strength training on mineral status in women with abdominal obesity: a randomized trial. Medicine (United States), 2019, 98, e14909.	1.0	15
13	Garlic extract favorably modifies markers of endothelial function in obese patients –randomized double blind placebo-controlled nutritional intervention. Biomedicine and Pharmacotherapy, 2018, 102, 792-797.	5.6	38
14	Effect of hypotensive therapy combined with modified diet or zinc supplementation on biochemical parameters and mineral status in hypertensive patients. Journal of Trace Elements in Medicine and Biology, 2018, 47, 140-148.	3.0	21
15	Conjugated linoleic acid does not affect digestion and absorption of fat and starch—a randomized, double-blinded, placebo-controlled parallel study. Journal of Breath Research, 2018, 12, 016010.	3.0	3
16	Multispecies Probiotic Supplementation Favorably Affects Vascular Function and Reduces Arterial Stiffness in Obese Postmenopausal Women—A 12-Week Placebo-Controlled and Randomized Clinical Study. Nutrients, 2018, 10, 1672.	4.1	64
17	Molecular insights into genome-wide association studies of chronic kidney disease-defining traits. Nature Communications, 2018, 9, 4800.	12.8	52
18	Conservative management of acute calculous cholecystitis complicated by pancreatitis in an elderly woman. Medicine (United States), 2018, 97, e11200.	1.0	4

#	Article	IF	CITATIONS
19	Diuretics, Ca-Antagonists, and Angiotensin-Converting Enzyme Inhibitors Affect Zinc Status in Hypertensive Patients on Monotherapy: A Randomized Trial. Nutrients, 2018, 10, 1284.	4.1	18
20	The effect of nebivolol and ramipril on selected biochemical parameters, arterial stiffness, and circadian profile of blood pressure in young men with primary hypertension. Medicine (United States), 2018, 97, e11717.	1.0	7
21	Dose-Dependent Effects of Multispecies Probiotic Supplementation on the Lipopolysaccharide (LPS) Level and Cardiometabolic Profile in Obese Postmenopausal Women: A 12-Week Randomized Clinical Trial. Nutrients, 2018, 10, 773.	4.1	118
22	Non-pharmacological modification of endothelial function: An important lesson for clinical practice. Postepy Higieny I Medycyny Doswiadczalnej, 2018, 72, 89-100.	0.1	4
23	Body Composition, Anthropometric Indices and Hydration Status of Obstructive Sleep Apnea Patients: Can Cachexia Coexist with Obesity?. Advances in Experimental Medicine and Biology, 2017, 1020, 43-51.	1.6	7
24	Effects of green tea supplementation on inflammation markers, antioxidant status and blood pressure in NaCl-induced hypertensive rat model. Food and Nutrition Research, 2017, 61, 1295525.	2.6	32
25	The Effect of VASER Abdominal Liposuction on Metabolic Profile in Overweight Males. American Journal of Men's Health, 2017, 11, 284-293.	1.6	12
26	The effect of orlistat versus metformin on body composition and insulin resistance in obese premenopausal women: 3-month randomized prospective open-label study. Archives of Medical Science, 2017, 4, 725-731.	0.9	13
27	Effects of Endurance and Endurance-strength Exercise on Renal Function in Abdominally Obese Women with Renal Hyperfiltration: A Prospective Randomized Trial. Biomedical and Environmental Sciences, 2016, 29, 706-712.	0.2	21
28	l-Arginine and vitamin C attenuate pro-atherogenic effects of high-fat diet on biomarkers of endothelial dysfunction in rats. Biomedicine and Pharmacotherapy, 2015, 76, 100-106.	5.6	13
29	Changes in mineral status are associated with improvements in insulin sensitivity in obese patients following l-arginine supplementation. European Journal of Nutrition, 2014, 53, 387-393.	3.9	37
30	The assessment of selected factors influencing intent to get pregnant in the Greater Poland Region. Annals of Agricultural and Environmental Medicine, 2014, 21, 435-439.	1.0	0
31	Iron Excess Disturbs Metabolic Status and Relative Gonad Mass in Rats on High Fat, Fructose, and Salt Diets. Biological Trace Element Research, 2013, 151, 263-268.	3. 5	6
32	Green tea extract reduces blood pressure, inflammatory biomarkers, and oxidative stress and improves parameters associated with insulin resistance in obese, hypertensive patients. Nutrition Research, 2012, 32, 421-427.	2.9	262
33	Short-Term Effects of Sibutramine on Mineral Status and Selected Biochemical Parameters in Obese Women. Biological Trace Element Research, 2012, 149, 163-170.	3.5	4
34	Effects of Green Tea Supplementation on Elements, Total Antioxidants, Lipids, and Glucose Values in the Serum of Obese Patients. Biological Trace Element Research, 2012, 149, 315-322.	3.5	142
