#	ARTICLE	IF	CITATIONS
1	Ulipristal acetate versus levonorgestrel for emergency contraception: a randomised non-inferiority trial and meta-analysis. <i>Lancet, The</i> , 2010, 375, 555-562.	6.3	462
2	Can we identify women at risk of pregnancy despite using emergency contraception? Data from randomized trials of ulipristal acetate and levonorgestrel. <i>Contraception</i> , 2011, 84, 363-367.	0.8	271
3	Progesterone Antagonists Increase Androgen Receptor Expression in the Rhesus Macaque and Human Endometrium1. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2001, 86, 2668-2679.	1.8	107
4	Effect of contraception provided at termination of pregnancy and incidence of subsequent termination of pregnancy. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2012, 119, 1074-1080.	1.1	92
5	Effect of two antiprogestins (mifepristone and onapristone) on endometrial factors of potential importance for implantation. <i>Fertility and Sterility</i> , 1997, 67, 1046-1053.	0.5	74
6	Postpartum contraception: a missed opportunity to prevent unintended pregnancy and short inter-pregnancy intervals. <i>Journal of Family Planning and Reproductive Health Care</i> , 2016, 42, 93-98.	0.9	73
7	Telephone follow-up and self-performed urine pregnancy testing after early medical abortion: a service evaluation. <i>Contraception</i> , 2012, 86, 67-73.	0.8	67
8	Low-Dose Mifepristone Inhibits Endometrial Proliferation and Up-Regulates Androgen Receptor. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2004, 89, 2491-2497.	1.8	63
9	Telemedicine medical abortion at home under 12 weeksâ€™ gestation: a prospective observational cohort study during the COVID-19 pandemic. <i>BMJ Sexual and Reproductive Health</i> , 2021, 47, 246-251.	0.9	56
10	Abortion regulation in Europe in the era of COVID-19: a spectrum of policy responses. <i>BMJ Sexual and Reproductive Health</i> , 2021, 47, e14-e14.	0.9	55
11	Impact of the introduction of new medical methods on therapeutic abortions at the Royal Infirmary of Edinburgh. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 1996, 103, 1222-1229.	1.1	50
12	Emergency contraception. Widely available and effective but disappointing as a public health intervention: a review. <i>Human Reproduction</i> , 2015, 30, 751-760.	0.4	43
13	Simplified follow-up after early medical abortion: 12-month experience of a telephone call and self-performed low-sensitivity urine pregnancy test. <i>Contraception</i> , 2014, 89, 440-445.	0.8	41
14	Novel interventions to reduce re-infection in women with chlamydia: a randomized controlled trial. <i>Human Reproduction</i> , 2009, 24, 888-895.	0.4	40
15	Pilot study of home self-administration of subcutaneous depo-medroxyprogesterone acetate for contraception. <i>Contraception</i> , 2012, 85, 458-464.	0.8	40
16	Can women determine the success of early medical termination of pregnancy themselves?. <i>Contraception</i> , 2015, 91, 6-11.	0.8	39
17	Feasibility and acceptability of introducing routine antenatal contraceptive counselling and provision of contraception after delivery: the <scp>APPLES</scp> pilot evaluation. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2017, 124, 2009-2015.	1.1	39
18	Immediate versus delayed insertion of an etonogestrel releasing implant at medical abortionâ€™a randomized controlled equivalence trial. <i>Human Reproduction</i> , 2016, 31, 2484-2490.	0.4	35

#	ARTICLE	IF	CITATIONS
19	Induced abortion. <i>Human Reproduction</i> , 2017, 32, 1160-1169.	0.4	35
20	Induced abortion and psychological sequelae. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2010, 24, 657-665.	1.4	33
21	Contraceptive care at the time of medical abortion: experiences of women and health professionals in a hospital or community sexual and reproductive health context. <i>Contraception</i> , 2016, 93, 170-177.	0.8	33
22	Access to and Experience of Later Abortion: Accounts from Women in Scotland. <i>Perspectives on Sexual and Reproductive Health</i> , 2014, 46, 101-108.	0.9	32
23	Pharmacy-based interventions for initiating effective contraception following the use of emergency contraception: a pilot study. <i>Contraception</i> , 2014, 90, 447-453.	0.8	32
24	Postabortal and postpartum contraception. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2014, 28, 871-880.	1.4	32
25	Identifying women in need of further discussion about the decision to have an abortion and eventual outcome. <i>Contraception</i> , 2013, 88, 128-132.	0.8	31
26	Midwives's experiences and views of giving postpartum contraceptive advice and providing long-acting reversible contraception: a qualitative study: Table A1. <i>Journal of Family Planning and Reproductive Health Care</i> , 2014, 40, 177-183.	0.9	30
27	Postpartum contraception. <i>The Obstetrician and Gynaecologist</i> , 2018, 20, 159-166.	0.2	30
28	Women's experiences of the final stage of early medical abortion at home: results of a pilot survey. <i>Journal of Family Planning and Reproductive Health Care</i> , 2010, 36, 213-216.	0.9	29
29	Pain during medical abortion, the impact of the regimen: A neglected issue? A review. <i>European Journal of Contraception and Reproductive Health Care</i> , 2014, 19, 404-419.	0.6	29
30	Barriers to accessing termination of pregnancy in a remote and rural setting: a qualitative study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2016, 123, 1684-1691.	1.1	29
31	Effect of daily low dose mifepristone on the ovarian cycle and on dynamics of follicle growth. <i>Clinical Endocrinology</i> , 1995, 43, 407-414.	1.2	28
32	Myths and misconceptions about intrauterine contraception among women seeking termination of pregnancy. <i>Journal of Family Planning and Reproductive Health Care</i> , 2014, 40, 36-40.	0.9	28
33	The changing body work of abortion: a qualitative study of the experiences of health professionals. <i>Sociology of Health and Illness</i> , 2017, 39, 78-94.	1.1	27
34	Routine provision of intrauterine contraception at elective cesarean section in a national public health service: a service evaluation. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2017, 96, 1144-1151.	1.3	27
35	Follow-up strategies to confirm the success of medical abortion of pregnancies up to 10 weeks gestation: a systematic review with meta-analyses. <i>American Journal of Obstetrics and Gynecology</i> , 2020, 222, 551-563.e13.	0.7	27
36	Expedited partner therapy for <i>Chlamydia trachomatis</i> at the community pharmacy. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2010, 117, 1074-1079.	1.1	24

#	ARTICLE	IF	CITATIONS
37	Self-management of first trimester medical termination of pregnancy: a qualitative study of women's experiences. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 2001-2008.	1.1	24
38	Use of effective contraception following provision of the progestogen-only pill for women presenting to community pharmacies for emergency contraception (Bridge-It): a pragmatic cluster-randomised crossover trial. Lancet, The, 2020, 396, 1585-1594.	6.3	24
39	Women's experiences of a telemedicine abortion service (up to 12 weeks) implemented during the coronavirus (COVID-19) pandemic: a qualitative evaluation. BJOG: an International Journal of Obstetrics and Gynaecology, 2021, 128, 1752-1761.	1.1	24
40	The effect on use of making emergency contraception available free of charge. Contraception, 2012, 86, 366-369.	0.8	23
41	Views of general practitioners on providing contraceptive advice and long-acting reversible contraception at the 6-week postnatal visit: a qualitative study: Table A1. Journal of Family Planning and Reproductive Health Care, 2016, 42, 99-106.	0.9	23
42	Current controversies with oral emergency contraception. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 1948-1956.	1.1	23
43	Willingness of gynaecologists, doctors in family planning, GPs, practice nurses and pharmacists to adopt novel interventions for treating sexual partners of women with chlamydia. BJOG: an International Journal of Obstetrics and Gynaecology, 2007, 114, 1516-1521.	1.1	21
44	Provision of immediate postpartum intrauterine contraception after vaginal birth within a public maternity setting: Health services research evaluation. Acta Obstetrica Et Gynecologica Scandinavica, 2020, 99, 598-607.	1.3	21
45	Benefits of using a digital video disk for providing information about abortion to women requesting termination of pregnancy. Contraception, 2010, 81, 537-541.	0.8	20
46	Ongoing contraception after use of emergency contraception from a specialist contraceptive service. Contraception, 2011, 84, 368-371.	0.8	20
47	Comparison of transvaginal ultrasound, saline infusion sonography and hysteroscopy to investigate postmenopausal bleeding and unscheduled bleeding on HRT. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2001, 41, 291-294.	0.4	19
48	Universal prophylaxis compared with screen-and-treat for Chlamydia trachomatis prior to termination of pregnancy. BJOG: an International Journal of Obstetrics and Gynaecology, 2002, 109, 606-609.	1.1	19
49	Successful implementation of immediate postpartum intrauterine contraception services in Edinburgh and framework for wider dissemination. International Journal of Gynecology and Obstetrics, 2018, 143, 56-61.	1.0	19
50	Recent advances in improving the effectiveness and reducing the complications of abortion. F1000Research, 2018, 7, 1881.	0.8	19
51	Assessment of a "fast-track" referral service for intrauterine contraception following early medical abortion: Table 1. Journal of Family Planning and Reproductive Health Care, 2012, 38, 175-178.	0.9	18
52	Post pregnancy contraception. Best Practice and Research in Clinical Obstetrics and Gynaecology, 2020, 66, 41-54.	1.4	18
53	Do women seeking termination of pregnancy need pre-abortion counselling?. Journal of Family Planning and Reproductive Health Care, 2015, 41, 181-185.	0.9	16
54	Provision of contraception after emergency contraception from the pharmacy: evaluating the acceptability of pharmacy for providing sexual and reproductive health services. Public Health, 2016, 135, 97-103.	1.4	16

#	ARTICLE	IF	CITATIONS
55	Can we reduce costs and prevent more unintended pregnancies? A cost of illness and cost-effectiveness study comparing two methods of EHC. <i>BMJ Open</i> , 2013, 3, e003815.	0.8	15
56	Termination of pregnancy at very early gestation without visible yolk sac on ultrasound. <i>Journal of Family Planning and Reproductive Health Care</i> , 2015, 41, 90-95.	0.9	15
57	Women's experiences of self-administration of misoprostol at home as part of early medical abortion: a qualitative evaluation. <i>BMJ Sexual and Reproductive Health</i> , 2021, 47, 144-149.	0.9	15
58	Women's preferences for method of abortion and management of miscarriage. <i>Journal of Family Planning and Reproductive Health Care</i> , 2009, 35, 233-235.	0.9	14
59	Community sexual health providers' views on immediate postpartum provision of intrauterine contraception. <i>BMJ Sexual and Reproductive Health</i> , 2018, 44, 97-102.	0.9	14
60	Comparison of unscheduled re-attendance and contraception at discharge, among women having the final stage of early medical abortion at home and those remaining in hospital. <i>Journal of Family Planning and Reproductive Health Care</i> , 2012, 38, 35-40.	0.9	13
61	A survey regarding acceptability of oral emergency contraception according to the posited mechanism of action. <i>Contraception</i> , 2017, 96, 81-88.	0.8	13
62	Impact of self-administration of misoprostol for early medical abortion: a prospective observational cohort study. <i>BMJ Sexual and Reproductive Health</i> , 2019, 45, 296-301.	0.9	12
63	Information on early medical abortion for women using an audiovisual animation vs face-to-face consultation: A consortium randomized and quasi-randomized trial. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2020, 99, 1611-1617.	1.3	12
64	Effects of onapristone on postmenopausal endometrium. <i>Steroids</i> , 2003, 68, 1053-1059.	0.8	10
65	Contraceptive use among women presenting to pharmacies for emergency contraception: an opportunity for intervention. <i>Journal of Family Planning and Reproductive Health Care</i> , 2014, 40, 190-195.	0.9	10
66	Characteristics of women who present for abortion towards the end of the mid-trimester in Scotland: national audit 2013-2014. <i>European Journal of Contraception and Reproductive Health Care</i> , 2016, 21, 183-188.	0.6	10
67	Emergency contraception from the pharmacy 20 years on: a mystery shopper study. <i>BMJ Sexual and Reproductive Health</i> , 2021, 47, 55-60.	0.9	10
68	A qualitative study of abortion care providers' perspectives on telemedicine medical abortion provision in the context of COVID-19. <i>BMJ Sexual and Reproductive Health</i> , 2022, 48, 199-204.	0.9	10
69	A single dose of mifepristone (200 mg) in the immediate preovulatory phase offers contraceptive potential without cycle disruption. <i>Contraception</i> , 2003, 68, 203-209.	0.8	9
70	Does a full bladder assist insertion of intrauterine contraception? A randomised trial. <i>Journal of Family Planning and Reproductive Health Care</i> , 2013, 39, 207-210.	0.9	9
71	Women's experiences of more than one termination of pregnancy within two years: a mixed-methods study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2017, 124, 1983-1992.	1.1	9
72	Increasing access to contraceptive implants in the postnatal period via a home insertion service by community midwives. <i>BMJ Sexual and Reproductive Health</i> , 2018, 44, 61-64.	0.9	9

#	ARTICLE	IF	CITATIONS
73	Current barriers, facilitators and future improvements to advance quality of abortion care: views of women. <i>BMJ Sexual and Reproductive Health</i> , 2019, 45, 207-212.	0.9	9
74	Sexual and reproductive healthcare providers'™ opinions on expansion of pharmacy-led provision of contraception. <i>BMJ Sexual and Reproductive Health</i> , 2019, 45, 183-189.	0.9	9
75	Preferred strategies of men and women for managing chlamydial infection. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2009, 116, 357-365.	1.1	8
76	Pragmatic cluster randomised cohort cross-over trial to determine the effectiveness of bridging from emergency to regular contraception: the Bridge-It study protocol. <i>BMJ Open</i> , 2019, 9, e029978.	0.8	8
77	Initiation of abortion before there is definitive ultrasound evidence of intrauterine pregnancy: A systematic review with meta-analyses. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2020, 99, 451-458.	1.3	8
78	Expulsion at home for early medical abortion: A systematic review with meta-analyses. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2021, 100, 727-735.	1.3	8
79	Adherence to treatment and prevalence of side effects when medical abortion is delivered via telemedicine: a prospective observational cohort study during COVID-19. <i>BMJ Sexual and Reproductive Health</i> , 2022, 48, 185-192.	0.9	8
80	Pain management for medical abortion before 14 weeks'™ gestation. <i>The Cochrane Library</i> , 2022, 5, CD013525.	1.5	8
81	Shifting abortion care from a hospital to a community sexual and reproductive health care setting. <i>Journal of Family Planning and Reproductive Health Care</i> , 2016, 42, 127-132.	0.9	7
82	Initiatives to close the gap in inequalities in abortion provision in a remote and rural UK setting. <i>Journal of Family Planning and Reproductive Health Care</i> , 2016, 42, 68-70.	0.9	7
83	Emergency contraception and impact on abortion rates. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2020, 63, 111-119.	1.4	7
84	Women'™s experiences of self-referral to an abortion service: qualitative study. <i>BMJ Sexual and Reproductive Health</i> , 2021, 47, 37-42.	0.9	7
85	Should COVID-specific arrangements for abortion continue? The views of women experiencing abortion in Britain during the pandemic. <i>BMJ Sexual and Reproductive Health</i> , 2022, 48, 288-294.	0.9	7
86	Patient-delivered partner therapy for chlamydia'™ a realistic public health measure in the UK. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2009, 116, 345-346.	1.1	6
87	Outcome of first trimester medical termination of pregnancy: definitions and management. <i>European Journal of Contraception and Reproductive Health Care</i> , 2018, 23, 451-457.	0.6	6
88	EBCOG position statement '™ Public health role of sexual health and relationships education. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2019, 234, 223-224.	0.5	6
89	Antenatal contraception counselling and provision of contraception after delivery for first-time young mothers enrolled with a Family Nurse Partnership programme. <i>BMJ Sexual and Reproductive Health</i> , 2019, 45, 243-248.	0.9	6
90	Management of pain associated with up-to-9-weeks medical termination of pregnancy (MToP) using mifepristone'™ misoprostol regimens: expert consensus based on a systematic literature review. <i>Journal of Obstetrics and Gynaecology</i> , 2020, 40, 591-601.	0.4	6

#	ARTICLE	IF	CITATIONS
91	Women's experiences of accessing postpartum intrauterine contraception in a public maternity setting: a qualitative service evaluation. <i>European Journal of Contraception and Reproductive Health Care</i> , 2020, 25, 465-473.	0.6	6
92	pH-balanced tampons: do they effectively control vaginal pH?. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2008, 115, 639-645.	1.1	5
93	Attitudes of Scottish abortion care providers towards provision of abortion after 16 weeks' gestation within Scotland. <i>European Journal of Contraception and Reproductive Health Care</i> , 2013, 18, 215-220.	0.6	5
94	Contraception and gynaecological care. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2009, 23, 211-220.	1.4	4
