#	Article	IF	CITATIONS
1	Self-reported contraceptive use and satisfaction among women accessing telemedicine medical abortion at the onset of the COVID-19 pandemic at 3–6-month follow-up. BMJ Sexual and Reproductive Health, 2023, 49, 21-26.	0.9	1
2	Adherence to treatment and prevalence of side effects when medical abortion is delivered via telemedicine: a prospective observational cohort study during COVID-19. BMJ Sexual and Reproductive Health, 2022, 48, 185-192.	0.9	8
3	Acceptability of different mechanisms of action of contraception in women: a questionnaire survey. BMJ Sexual and Reproductive Health, 2022, 48, 117-122.	0.9	1
4	A qualitative study of abortion care providers' perspectives on telemedicine medical abortion provision in the context of COVID-19. BMJ Sexual and Reproductive Health, 2022, 48, 199-204.	0.9	10
5	Improving access to sexual and reproductive health care. Lancet Public Health, The, 2022, 7, e4-e5.	4.7	4
6	Improving effective contraception uptake through provision of bridging contraception within community pharmacies: findings from the Bridge-it Study process evaluation. BMJ Open, 2022, 12, e057348.	0.8	4
7	Mifepristone at home. BMJ, The, 2022, 376, o819.	3.0	1
8	Should COVID-specific arrangements for abortion continue? The views of women experiencing abortion in Britain during the pandemic. BMJ Sexual and Reproductive Health, 2022, 48, 288-294.	0.9	7
9	Views of clinicians towards providing contraceptive advice and contraception to women following early pregnancy loss: a qualitative study. BMJ Sexual and Reproductive Health, 2022, 48, 281-287.	0.9	2
10	Pain management for medical abortion before 14 weeks' gestation. The Cochrane Library, 2022, 5, CD013525.	1.5	8
11	Uptake of long-acting reversible contraception after telemedicine delivered abortion during Covid-19. European Journal of Contraception and Reproductive Health Care, 2022, 27, 284-288.	0.6	4
12	Abortion regulation in Europe in the era of COVID-19: a spectrum of policy responses. BMJ Sexual and Reproductive Health, 2021, 47, e14-e14.	0.9	55
13	Influence of culture, religion and experience on the decision of Pakistani women in Lothian, Scotland to use postnatal contraception: a qualitative study. BMJ Sexual and Reproductive Health, 2021, 47, 43-48.	0.9	2
14	Expulsion at home for early medical abortion: A systematic review with metaâ€analyses. Acta Obstetricia Et Gynecologica Scandinavica, 2021, 100, 727-735.	1.3	8
15	Women's experiences of self-administration of misoprostol at home as part of early medical abortion: a qualitative evaluation. BMJ Sexual and Reproductive Health, 2021, 47, 144-149.	0.9	15
16	Womenâ \in TM s experiences of self-referral to an abortion service: qualitative study. BMJ Sexual and Reproductive Health, 2021, 47, 37-42.	0.9	7
17	Emergency contraception from the pharmacy 20 years on: a mystery shopper study. BMJ Sexual and Reproductive Health, 2021, 47, 55-60.	0.9	10
18	Telemedicine medical abortion at home under 12 weeks' gestation: a prospective observational cohort study during the COVID-19 pandemic. BMJ Sexual and Reproductive Health, 2021, 47, 246-251.	0.9	56

#	Article	IF	CITATIONS
19	Provision of the progestogen-only pill by community pharmacies as bridging contraception for women receiving emergency contraception: the Bridge-it RCT. Health Technology Assessment, 2021, 25, 1-92.	1.3	2
20	UTAH: Using Telemedicine to improve early medical Abortion at Home: a protocol for a randomised controlled trial comparing face-to-face with telephone consultations for women seeking early medical abortion. BMJ Open, 2021, 11, e046628.	0.8	1
21	Perspectives of obstetricians and midwives on the provision of immediate postpartum intrauterine devices: a qualitative service evaluation. BMJ Sexual and Reproductive Health, 2021, , bmjsrh-2021-201170.	0.9	2
22	Women's experiences of a telemedicine abortion service (up to 12Âweeks) implemented during the coronavirus (COVIDâ€19) pandemic: a qualitative evaluation. BJOG: an International Journal of Obstetrics and Gynaecology, 2021, 128, 1752-1761.	1.1	24
23	Bone mineral density in progestogen-only implant and pill users with amenorrhoea: a pilot study. BMJ Sexual and Reproductive Health, 2021, , bmjsrh-2021-201184.	0.9	1
24	Contraception after childbirth in the UK: beyond the COVID-19 pandemic. BMJ Sexual and Reproductive Health, 2021, , bmjsrh-2021-201310.	0.9	0
25	Prevention of Unintended Pregnancy. , 2021, , 449-456.		0
26	Management of Unintended Pregnancy. , 2021, , 175-181.		0
27	Emergency contraception and impact on abortion rates. Best Practice and Research in Clinical Obstetrics and Gynaecology, 2020, 63, 111-119.	1.4	7
28	Management of pain associated with up-to-9-weeks medical termination of pregnancy (MToP) using mifepristone–misoprostol regimens: expert consensus based on a systematic literature review. Journal of Obstetrics and Gynaecology, 2020, 40, 591-601.	0.4	6
29	Follow-up strategies to confirm the success ofÂmedical abortion of pregnancies up to 10Âweeks' gestation: a systematic review withÂmeta-analyses. American Journal of Obstetrics and Gynecology, 2020, 222, 551-563.e13.	0.7	27
30	Provision of immediate postpartum intrauterine contraception after vaginal birth within a public maternity setting: Health services research evaluation. Acta Obstetricia Et Gynecologica Scandinavica, 2020, 99, 598-607.	1.3	21
31	Initiation of abortion before there is definitive ultrasound evidence of intrauterine pregnancy: A systematic review with metaâ€analyses. Acta Obstetricia Et Gynecologica Scandinavica, 2020, 99, 451-458.	1.3	8
32	Women's experiences of accessing postpartum intrauterine contraception in a public maternity setting: a qualitative service evaluation. European Journal of Contraception and Reproductive Health Care, 2020, 25, 465-473.	0.6	6
33	Use of effective contraception following provision of the progestogen-only pill for women presenting to community pharmacies for emergency contraception (Bridge-It): a pragmatic cluster-randomised crossover trial. Lancet, The, 2020, 396, 1585-1594.	6.3	24
34	Post pregnancy contraception. Best Practice and Research in Clinical Obstetrics and Gynaecology, 2020, 66, 41-54.	1.4	18
35	Information on early medical abortion for women using an audiovisual animation vs faceâ€toâ€face consultation: A consortium randomized and quasiâ€randomized trial. Acta Obstetricia Et Gynecologica Scandinavica, 2020, 99, 1611-1617.	1.3	12
36	Utility of a routine ultrasound for detection of ectopic pregnancies among women requesting abortion: a retrospective review. BMJ Sexual and Reproductive Health, 2020, , bmjsrh-2020-200888.	0.9	2

#	Article	IF	CITATIONS
37	Editor-in-Chief welcome. BMJ Sexual and Reproductive Health, 2020, 46, 1-1.	0.9	O
38	Follow up after early medical abortion: less is more. BJOG: an International Journal of Obstetrics and Gynaecology, 2019, 126, 1545-1545.	1.1	0
39	EBCOG position statement – Public health role of sexual health and relationships education. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2019, 234, 223-224.	0.5	6
40	Self-assessment of success of early medical abortion using a self-performed urine pregnancy test. European Journal of Contraception and Reproductive Health Care, 2019, 24, 319-321.	0.6	1
41	Current barriers, facilitators and future improvements to advance quality of abortion care: views of women. BMJ Sexual and Reproductive Health, 2019, 45, 207-212.	0.9	9
42	Pragmatic cluster randomised cohort cross-over trial to determine the effectiveness of bridging from emergency to regular contraception: the Bridge-It study protocol. BMJ Open, 2019, 9, e029978.	0.8	8
43	Sexual and reproductive healthcare providers' opinions on expansion of pharmacy-led provision of contraception. BMJ Sexual and Reproductive Health, 2019, 45, 183-189.	0.9	9
44	Antenatal contraception counselling and provision of contraception after delivery for first-time young mothers enrolled with a Family Nurse Partnership programme. BMJ Sexual and Reproductive Health, 2019, 45, 243-248.	0.9	6
45	Developing the role of midwives as â€ ⁻ contraceptive champions' to support early access to effective postnatal contraception for women. BMJ Sexual and Reproductive Health, 2019, 45, 309-312.	0.9	3
46	Impact of self-administration of misoprostol for early medical abortion: a prospective observational cohort study. BMJ Sexual and Reproductive Health, 2019, 45, 296-301.	0.9	12
47	Community sexual health providers' views on immediate postpartum provision of intrauterine contraception. BMJ Sexual and Reproductive Health, 2018, 44, 97-102.	0.9	14
48	Increasing access to contraceptive implants in the postnatal period via a home insertion service by community midwives. BMJ Sexual and Reproductive Health, 2018, 44, 61-64.	0.9	9
49	Outcome of first trimester medical termination of pregnancy: definitions and management. European Journal of Contraception and Reproductive Health Care, 2018, 23, 451-457.	0.6	6
50	Successful implementation of immediate postpartum intrauterine contraception services in Edinburgh and framework for wider dissemination. International Journal of Gynecology and Obstetrics, 2018, 143, 56-61.	1.0	19
51	Postpartum contraception. The Obstetrician and Gynaecologist, 2018, 20, 159-166.	0.2	30
52	Initiating intramuscular depot medroxyprogesterone acetate 24–48 hours after mifepristone administration does not affect success of early medical abortion. BMJ Sexual and Reproductive Health, 2018, 44, 242-247.	0.9	4
53	Contraception after pregnancy: Making the right choices. NursePrescribing, 2018, 16, 274-279.	0.1	0
54	Recent advances in improving the effectiveness and reducing the complications of abortion. F1000Research, 2018, 7, 1881.	0.8	19

#	Article	IF	CITATIONS
55	Comparison of uptake of long-acting reversible contraception after abortion from a hospital or a community sexual and reproductive healthcare setting: an observational study. Journal of Family Planning and Reproductive Health Care, 2017, 43, 31-36.	0.9	4
56	The changing body work of abortion: a qualitative study of the experiences of health professionals. Sociology of Health and Illness, 2017, 39, 78-94.	1.1	27
57	Selfâ€management of first trimester medical termination of pregnancy: a qualitative study of women's experiences. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 2001-2008.	1.1	24
58	Routine provision of intrauterine contraception at elective cesarean section in a national public health service: a service evaluation. Acta Obstetricia Et Gynecologica Scandinavica, 2017, 96, 1144-1151.	1.3	27
59	Feasibility and acceptability of introducing routine antenatal contraceptive counselling and provision of contraception after delivery: the <scp>APPLES</scp> pilot evaluation. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 2009-2015.	1.1	39
60	A survey regarding acceptability of oral emergency contraception according to the posited mechanism of action. Contraception, 2017, 96, 81-88.	0.8	13
61	Induced abortion. Human Reproduction, 2017, 32, 1160-1169.	0.4	35
62	Women's experiences of more than one termination of pregnancy within two years: aÂmixedâ€methods study. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 1983-1992.	1.1	9
63	Current controversies with oral emergency contraception. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 1948-1956.	1.1	23
64	Quick starting hormonal contraception after using oral emergency contraception: a systematic review. Journal of Family Planning and Reproductive Health Care, 2017, 43, 319-326.	0.9	2
65	Barriers to accessing termination of pregnancy in a remote and rural setting: a qualitative study. BJOG: an International Journal of Obstetrics and Gynaecology, 2016, 123, 1684-1691.	1.1	29
66	Shifting abortion care from a hospital to a community sexual and reproductive health care setting. Journal of Family Planning and Reproductive Health Care, 2016, 42, 127-132.	0.9	7
67	Contraceptive care at the time of medical abortion: experiences of women and health professionals in a hospital or community sexual and reproductive health context. Contraception, 2016, 93, 170-177.	0.8	33
68	Provision of contraception after emergency contraception from the pharmacy: evaluating the acceptability of pharmacy for providing sexual and reproductive health services. Public Health, 2016, 135, 97-103.	1.4	16
69	Routine misoprostol before all surgical abortions. Contraception, 2016, 94, 575-576.	0.8	1
70	Immediate versus delayed insertion of an etonogestrel releasing implant at medical abortion—a randomized controlled equivalence trial. Human Reproduction, 2016, 31, 2484-2490.	0.4	35
71	Initiatives to close the gap in inequalities in abortion provision in a remote and rural UK setting. Journal of Family Planning and Reproductive Health Care, 2016, 42, 68-70.	0.9	7
72	Evaluating the attractiveness of the availability of injectable progestogen contraceptives at the community pharmacy setting in the United Kingdom. International Journal of Pharmacy Practice, 2016, 24, 247-252.	0.3	2
