

Harry Scheinin

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2955715/harry-scheinin-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

56
papers

2,887
citations

#	Paper	IF	Citations
56	Foundations of Human Consciousness: Imaging the Twilight Zone. <i>Journal of Neuroscience</i> , 2021 , 41, 1769-1778	6.6	14
55	Seasonal Variation in the Brain μ Opioid Receptor Availability. <i>Journal of Neuroscience</i> , 2021 , 41, 1265-1273	6.6	3
54	On no man's land: Subjective experiences during unresponsive and responsive sedative states induced by four different anesthetic agents. <i>Consciousness and Cognition</i> , 2021 , 96, 103239	2.6	
53	Effect of Inhaled Xenon on Cardiac Function in Comatose Survivors of Out-of-Hospital Cardiac Arrest-A Substudy of the Xenon in Combination With Hypothermia After Cardiac Arrest Trial 2021 , 3, e0502		0
52	Interindividual variability and lateralization of μ opioid receptors in the human brain. <i>NeuroImage</i> , 2020 , 217, 116922	7.9	21
51	Alpha band frontal connectivity is a state-specific electroencephalographic correlate of unresponsiveness during exposure to dexmedetomidine and propofol. <i>British Journal of Anaesthesia</i> , 2020 , 125, 518-528	5.4	2
50	Single-subject analysis of N400 event-related potential component with five different methods. <i>International Journal of Psychophysiology</i> , 2019 , 144, 14-24	2.9	8
49	The influence of dexmedetomidine and propofol on circulating cytokine levels in healthy subjects. <i>BMC Anesthesiology</i> , 2019 , 19, 222	2.4	6
48	Differentiating Drug-related and State-related Effects of Dexmedetomidine and Propofol on the Electroencephalogram. <i>Anesthesiology</i> , 2018 , 129, 22-36	4.3	23
47	Using Positron Emission Tomography in Revealing the Mystery of General Anesthesia: Study Design Challenges and Opportunities. <i>Methods in Enzymology</i> , 2018 , 603, 279-303	1.7	3
46	Alterations in heart rate variability in patients with peripheral arterial disease requiring surgical revascularization have limited association with postoperative major adverse cardiovascular and cerebrovascular events. <i>PLoS ONE</i> , 2018 , 13, e0203519	3.7	9
45	Inhaled Xenon Attenuates Myocardial Damage in Comatose Survivors of Out-of-Hospital Cardiac Arrest: The Xe-Hypotheca Trial. <i>Journal of the American College of Cardiology</i> , 2017 , 70, 2652-2660	15.1	24
44	Effect of Inhaled Xenon on Cerebral White Matter Damage in Comatose Survivors of Out-of-Hospital Cardiac Arrest: A Randomized Clinical Trial. <i>JAMA - Journal of the American Medical Association</i> , 2016 , 315, 1120-8	27.4	70
43	Detecting a dexmedetomidine-evoked reduction of noradrenaline release in the human brain with the alpha ₂ C-adrenoceptor PET ligand [11C]ORM-13070. <i>Synapse</i> , 2016 , 70, 57-65	2.4	9
42	Sensitivity of [(11)C]ORM-13070 to increased extracellular noradrenaline in the CNS - a PET study in human subjects. <i>Psychopharmacology</i> , 2015 , 232, 4169-78	4.7	11
41	Intravenous ethanol increases dopamine release in the ventral striatum in humans: PET study using bolus-plus-infusion administration of [(11)C]raclopride. <i>Journal of Cerebral Blood Flow and Metabolism</i> , 2015 , 35, 424-31	7.3	28
40	Validation of [(11) C]ORM-13070 as a PET tracer for alpha _{2c} -adrenoceptors in the human brain. <i>Synapse</i> , 2015 , 69, 172-81	2.4	10

39	Directional connectivity between frontal and posterior brain regions is altered with increasing concentrations of propofol. <i>PLoS ONE</i> , 2014 , 9, e113616	3.7	20
38	Sleep apnoea is associated with major cardiac events in peripheral arterial disease. <i>European Respiratory Journal</i> , 2014 , 43, 1652-60	13.6	13
37	Harnessing anesthesia and brain imaging for the study of human consciousness. <i>Current Pharmaceutical Design</i> , 2014 , 20, 4211-24	3.3	6
36	Returning from oblivion: imaging the neural core of consciousness. <i>Journal of Neuroscience</i> , 2012 , 32, 4935-43	6.6	169
35	Consciousness lost and found: subjective experiences in an unresponsive state. <i>Brain and Cognition</i> , 2011 , 77, 327-34	2.7	32
34	Measurement of central mu-opioid receptor binding in vivo with PET and [11C]carfentanil: a test-retest study in healthy subjects. <i>European Journal of Nuclear Medicine and Molecular Imaging</i> , 2009 , 36, 275-86	8.8	55
33	The effects of xenon anesthesia on the relationship between cerebral glucose metabolism and blood flow in healthy subjects: a positron emission tomography study. <i>Anesthesia and Analgesia</i> , 2009 , 108, 593-600	3.9	19
32	Xenon does not affect gamma-aminobutyric acid type A receptor binding in humans. <i>Anesthesia and Analgesia</i> , 2008 , 106, 129-34, table of contents	3.9	27
31	The role of heart rate variability in risk stratification for adverse postoperative cardiac events. <i>Anesthesia and Analgesia</i> , 2007 , 105, 1548-60	3.9	62
30	Effects of xenon anesthesia on cerebral blood flow in humans: a positron emission tomography study. <i>Anesthesiology</i> , 2007 , 106, 1128-33	4.3	46
29	Subanesthetic ketamine does not affect 11C-flumazenil binding in humans. <i>Anesthesia and Analgesia</i> , 2005 , 101, 722-725	3.9	20
28	S-ketamine anesthesia increases cerebral blood flow in excess of the metabolic needs in humans. <i>Anesthesiology</i> , 2005 , 103, 258-68	4.3	109
27	Analysis of rapid heart rate variability in the assessment of anticholinergic drug effects in humans. <i>European Journal of Clinical Pharmacology</i> , 2005 , 61, 559-65	2.8	26
26	Cardiovascular and parasympathetic effects of dexmedetomidine in healthy subjects. <i>Canadian Journal of Physiology and Pharmacology</i> , 2004 , 82, 359-62	2.4	54
25	Sevoflurane and propofol increase 11C-flumazenil binding to gamma-aminobutyric acidA receptors in humans. <i>Anesthesia and Analgesia</i> , 2004 , 99, 1420-1426	3.9	40
24	Effects of subanesthetic ketamine on regional cerebral glucose metabolism in humans. <i>Anesthesiology</i> , 2004 , 100, 1065-71	4.3	92
23	Effects of sevoflurane, propofol, and adjunct nitrous oxide on regional cerebral blood flow, oxygen consumption, and blood volume in humans. <i>Anesthesiology</i> , 2003 , 99, 603-13	4.3	286
22	Effects of subanesthetic doses of ketamine on regional cerebral blood flow, oxygen consumption, and blood volume in humans. <i>Anesthesiology</i> , 2003 , 99, 614-23	4.3	167

21	Bioavailability of dexmedetomidine after extravascular doses in healthy subjects. <i>British Journal of Clinical Pharmacology</i> , 2003 , 56, 691-3	3.8	175
20	Effects of surgical levels of propofol and sevoflurane anesthesia on cerebral blood flow in healthy subjects studied with positron emission tomography. <i>Anesthesiology</i> , 2002 , 96, 1358-70	4.3	217
19	The effects of amitriptyline, citalopram and reboxetine on autonomic nervous system. A randomised placebo-controlled study on healthy volunteers. <i>Psychopharmacology</i> , 2001 , 154, 343-9	4.7	31
18	Pharmacokinetic-pharmacodynamic model for the anticholinergic effect of glycopyrrolate. <i>European Journal of Clinical Pharmacology</i> , 2001 , 57, 153-8	2.8	9
17	Time domain, geometrical and frequency domain analysis of cardiac vagal outflow: effects of various respiratory patterns. <i>Clinical Physiology</i> , 2001 , 21, 365-76		317
16	Pharmacokinetics of finrozole (MPV-2213ad), a novel selective aromatase inhibitor, in healthy men. <i>British Journal of Clinical Pharmacology</i> , 2001 , 52, 702-4	3.8	5
15	Biological Day-to-Day Variation and Reference Change Limits of Serum Cortisol and Aldosterone in Healthy Young Men on Unrestricted Diets. <i>Clinical Chemistry</i> , 1999 , 45, 1097-1099	5.5	18
14	Epileptiform discharges during 2 MAC sevoflurane anesthesia in two healthy volunteers. <i>Anesthesiology</i> , 1999 , 91, 1952-5	4.3	92
13	Spectral analysis of heart rate variability as a quantitative measure of parasympatholytic effect--integrated pharmacokinetics and pharmacodynamics of three anticholinergic drugs. <i>Therapeutic Drug Monitoring</i> , 1999 , 21, 141-51	3.2	32
12	CYP2D6 polymorphism is not crucial for the disposition of selegiline. <i>Clinical Pharmacology and Therapeutics</i> , 1998 , 64, 402-11	6.1	20
11	Nocturnal body movements and hypoxemia in middle-aged females after lower abdominal surgery under general anesthesia: a study with the static-charge-sensitive bed (SCSB). <i>Journal of Clinical Monitoring and Computing</i> , 1998 , 14, 239-44	2	4
10	Hormonal effects of MPV-2213ad, a new selective aromatase inhibitor, in healthy male subjects. A phase I study. <i>British Journal of Clinical Pharmacology</i> , 1998 , 45, 141-6	3.8	17
9	The influence of drug input rate on the development of tolerance to frusemide. <i>British Journal of Clinical Pharmacology</i> , 1998 , 46, 479-87	3.8	12
8	Reversal of the sedative and sympatholytic effects of dexmedetomidine with a specific alpha2-adrenoceptor antagonist atipamezole: a pharmacodynamic and kinetic study in healthy volunteers. <i>Anesthesiology</i> , 1998 , 89, 574-84	4.3	108
7	Buccal delivery of an alpha 2-adrenergic receptor antagonist, atipamezole, in humans. <i>Clinical Pharmacology and Therapeutics</i> , 1995 , 58, 506-11	6.1	6
6	Intramuscular dexmedetomidine as premedication for general anesthesia. A comparative multicenter study. <i>Anesthesiology</i> , 1993 , 78, 1065-75	4.3	89
5	Pharmacodynamics and pharmacokinetics of intramuscular dexmedetomidine. <i>Clinical Pharmacology and Therapeutics</i> , 1992 , 52, 537-46	6.1	55
4	Effects of dexmedetomidine, a selective alpha 2-adrenoceptor agonist, on hemodynamic control mechanisms. <i>Clinical Pharmacology and Therapeutics</i> , 1989 , 46, 33-42	6.1	175
