| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 1  | Relationship Between Basal Metabolic Rate, Gender, Age, and Body Composition in 8,780 White Obese<br>Subjects. Obesity, 2010, 18, 71-78.  | 1.5 | 135       |
| 2  | Prediction of resting energy expenditure in severely obese Italian males. Journal of Endocrinological<br>Investigation, 2007, 30, 754-761.  | 1.8 | 43        |
| 3  | The relationship between body composition and muscle power output in men and women with obesity.<br>Journal of Endocrinological Investigation, 2004, 27, 854-861.   | 1.8 | 32        |
| 4  | Growth hormone abuse: methods of detection. Trends in Endocrinology and Metabolism, 2005, 16, 160-166.  | 3.1 | 32        |
| 5  | Combined evaluation of resting IGF-I, N-terminal propeptide of type III procollagen (PIIINP) and C-terminal cross-linked telopeptide of type I collagen (ICTP) levels might be useful for detecting inappropriate GH administration in athletes: a preliminary report. Clinical Endocrinology, 2004, 61, 487-493.       | 1.2 | 24        |
| 6  | Anorexigenic postprandial responses of PYY and GLP1 to slow ice cream consumption: preservation in obese adults. European Journal of Endocrinology, 2013, 168, 429-436.   | 1.9 | 24        |
| 7  | The use of local reference growth charts for clinical use or a universal standard: A balanced appraisal. Journal of Endocrinological Investigation, 2012, 35, 224-226.  | 1.8 | 22        |
| 8  | External validation of equations to estimate resting energy expenditure in 14952 adults with<br>overweight and obesity and 1948 adults with normal weight from Italy. Clinical Nutrition, 2019, 38,<br>457-464.   | 2.3 | 22        |
| 9  | The burden of chronic noncommunicable diseases in undocumented migrants: a 1-year survey of drugs dispensation by a non–governmental organization in Italy. Public Health, 2016, 141, 26-31.  | 1.4 | 21        |
| 10 | Feasibility, Validity, and Reliability of the Italian Pediatric Quality of Life Inventory Multidimensional<br>Fatigue Scale for Adults in Inpatients with Severe Obesity. Obesity Facts, 2018, 11, 25-36.   | 1.6 | 21        |
| 11 | Comparison of dual-energy X-ray absorptiometry, air displacement plethysmography and bioelectrical impedance analysis for the assessment of body composition in morbidly obese women. European Journal of Clinical Nutrition, 2013, 67, 1129-1132.  | 1.3 | 20        |
| 12 | Growth hormone and lactate responses induced by maximal isometric voluntary contractions and whole-body vibrations in healthy subjects. Journal of Endocrinological Investigation, 2011, 34, 216-221.   | 1.8 | 19        |
| 13 | Gender-, age-, body composition- and training workloaddependent differences of GH response to a<br>disciplinespecific training session in elite athletes: A study on the field. Journal of Endocrinological<br>Investigation, 2004, 27, 121-129.  | 1.8 | 17        |
| 14 | GH responses to two consecutive bouts of whole body vibration, maximal voluntary contractions or vibration alternated with maximal voluntary contractions administered at 2-h intervals in healthy adults. Growth Hormone and IGF Research, 2010, 20, 416-421.  | 0.5 | 17        |
| 15 | The Cholestyramine-induced Decrease of PYY Postprandial Response is Negatively Correlated with Fat<br>Mass in Obese Women. Hormone and Metabolic Research, 2011, 43, 569-573.   | 0.7 | 17        |
| 16 | Changes in plasma levels of ghrelin, leptin, and other hormonal and metabolic parameters following<br>standardized breakfast, lunch, and physical exercise before and after a multidisciplinary<br>weight-reduction intervention in obese adolescents. Journal of Endocrinological Investigation, 2010,<br>33, 633-639. | 1.8 | 16        |
| 17 | Growth hormone responses to growth hormone-releasing hormone and hexarelin in fed and fasted dogs: effect of somatostatin infusion or pretreatment with pirenzepine. Journal of Endocrinology, 1998, 156, 341-348.  | 1.2 | 15        |
| 18 | Elite volunteer athletes of different sport disciplines may have elevated baseline GH levels divorced<br>from unaltered levels of both IGF-I and GH-dependent bone and collagen markers: A study on-the-field.<br>Journal of Endocrinological Investigation, 2004, 27, 410-415.   | 1.8 | 13        |

NICOLETTA MARAZZI

| #  | Article   | IF  | CITATIONS |
|----|---|-----|-----------|
| 19 | A follow-up of GH-dependent biomarkers during a 6-month period of the sporting season of male and female athletes. Journal of Endocrinological Investigation, 2006, 29, 237-243.  | 1.8 | 13        |
| 20 | Six-week treatment with hexarelin in young dogs: evaluation of the GH responsiveness to acute<br>hexarelin or GHRH administration, and of the orexigenic effect of hexarelin. European Journal of<br>Endocrinology, 1999, 141, 313-320.   | 1.9 | 12        |
| 21 | The GHRH+arginine stimulated pituitary GH secretion in children and adults with Prader–Willi<br>syndrome shows age- and BMI-dependent and genotype-related differences. Growth Hormone and IGF<br>Research, 2013, 23, 261-266.  | 0.5 | 12        |
| 22 | Post-prandial anorexigenic gut peptide, appetite and glucometabolic responses at different eating rates in obese patients undergoing laparoscopic sleeve gastrectomy. Endocrine, 2017, 55, 113-123.   | 1.1 | 12        |
| 23 | Multidisciplinary Integrated Metabolic Rehabilitation in Elderly Obese Patients: Effects on<br>Cardiovascular Risk Factors, Fatigue and Muscle Performance. Nutrients, 2019, 11, 1240.  | 1.7 | 12        |
| 24 | Does segmental body composition differ in women with Prader–Willi syndrome compared to women with essential obesity?. Journal of Endocrinological Investigation, 2015, 38, 957-961.   | 1.8 | 11        |
| 25 | GH responses to two consecutive bouts of neuromuscular electrical stimulation in healthy adults.<br>European Journal of Endocrinology, 2008, 158, 311-316.  | 1.9 | 10        |
| 26 | Severely Obese Adolescents and Adults Exhibit a Different Association of Circulating Levels of<br>Adipokines and Leukocyte Expression of the Related Receptors with Insulin Resistance. International<br>Journal of Endocrinology, 2013, 2013, 1-12.  | 0.6 | 9         |
| 27 | Different Effects of Cholestyramine on Postprandial Secretions of Cholecystokinin and Peptide YY in<br>Women with Bulimia Nervosa. Neuropsychobiology, 2014, 70, 228-234.   | 0.9 | 9         |
| 28 | Unaltered ratio of circulating levels of growth hormone/GH isoforms in adults with Prader–Willi<br>syndrome after GHRH plus arginine administration. Growth Hormone and IGF Research, 2015, 25,<br>168-173.   | 0.5 | 9         |
| 29 | Hypogonadotropic hypogonadism and pituitary hypoplasia as recurrent features in Ulnar-Mammary syndrome. Endocrine Connections, 2018, 7, 1432-1441.  | 0.8 | 9         |
| 30 | Nitric oxide modulation of the growth hormone—releasing activity of hexarelin in young and old<br>dogs. Metabolism: Clinical and Experimental, 1999, 48, 176-182.   | 1.5 | 8         |
| 31 | Combined evaluation of resting IGF1, N-terminal propeptide of type III procollagen and C-terminal cross-linked telopeptide of type I collagen levels might be useful for detecting inappropriate GH administration in female athletes. European Journal of Endocrinology, 2009, 160, 753-758. | 1.9 | 8         |
| 32 | The relationship between hyperthyrotropinemia and metabolic and cardiovascular risk factors in a<br>large group of overweight and obese children and adolescents. Journal of Endocrinological<br>Investigation, 2017, 40, 1311-1319.  | 1.8 | 8         |
| 33 | Muscle Strength and Power, Maximum Oxygen Consumption, and Body Composition in Middle-Aged<br>Short-stature Adults with Childhood-onset Growth Harmone Deficiency. Archives of Medical<br>Research, 2008, 39, 78-83.  | 1.5 | 6         |
| 34 | External Validation of Equations to Estimate Resting Energy Expenditure in 2037 Children and Adolescents with and 389 without Obesity: A Cross-Sectional Study. Nutrients, 2020, 12, 1421.  | 1.7 | 6         |
| 35 | Psychotropic drugs prescription in undocumented migrants and indigent natives in Italy.<br>International Clinical Psychopharmacology, 2017, 32, 294-297.  | 0.9 | 5         |
| 36 | Nonalcoholic Fatty Liver Is Not Associated with the Relationship between Insulin Secretion and<br>Insulin Sensitivity in Obese Children: Matched Case–Control Study. Childhood Obesity, 2016, 12,<br>426-431.   | 0.8 | 4         |

NICOLETTA MARAZZI

| #  | Article  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | Gender and age related differences in the use of medicines for chronic diseases among undocumented migrants. International Journal of Migration, Health and Social Care, 2018, 14, 221-229.  | 0.2 | 3         |
| 38 | Will undocumented migrants contribute to change epidemiology, presentation and pharmacologic treatment of diabetes in Western countries?. Primary Care Diabetes, 2020, 14, 21-28.  | 0.9 | 3         |
| 39 | Impact of percent body fat on oral glucose tolerance testing: a cross-sectional study in 1512 obese children. Journal of Endocrinological Investigation, 2012, 35, 893-6.  | 1.8 | 3         |
| 40 | Cardiometabolic risk factors differ among adolescents with obesity in three European countries - a<br>cross-sectional study. Acta Paediatrica, International Journal of Paediatrics, 2019, 108, 493-501.   | 0.7 | 2         |
| 41 | Factor structure, reliability, inter-rater agreement and convergent validity of the parent and child<br>Italian versions of the paediatric quality of life inventory multidimensional fatigue scale for children<br>and adolescents in paediatric inpatients with obesity and their parents. Eating and Weight Disorders,<br>2021 1. | 1.2 | 1         |
| 42 | GH responses to two consecutive bouts of respiratory muscle endurance training in healthy adults.<br>Journal of Endocrinological Investigation, 2013, 36, 255-60.  | 1.8 | 1         |
| 43 | Changes in the Oswestry Disability Index after a 3-Week In-Patient Multidisciplinary Body Weight<br>Reduction Program in Adults with Obesity. Journal of Clinical Medicine, 2022, 11, 3175.  | 1.0 | 1         |
| 44 | Drugs Delivery by Charities: A Possible Epidemiologic Indicator in Children of Undocumented<br>Migrants. Journal of Immigrant and Minority Health, 2017, 19, 1379-1385.  | 0.8 | 0         |
