#	Paper	IF	Citations
73	Predicting obesity in early adulthood from childhood and parental obesity. <i>International Journal of Obesity</i> , <b>2003</b> , 27, 505-13	5.5	332
72	Twelve-month effectiveness of a parent-led, family-focused weight-management program for prepubertal children: a randomized, controlled trial. <i>Pediatrics</i> , <b>2007</b> , 119, 517-25	7.4	179
71	The NOURISH randomised control trial: positive feeding practices and food preferences in early childhood - a primary prevention program for childhood obesity. <i>BMC Public Health</i> , <b>2009</b> , 9, 387	4.1	152
70	Evaluation of an intervention to promote protective infant feeding practices to prevent childhood obesity: outcomes of the NOURISH RCT at 14 months of age and 6 months post the first of two intervention modules. <i>International Journal of Obesity</i> , <b>2012</b> , 36, 1292-8	5.5	122
69	Assessing dietary intake in children and adolescents: Considerations and recommendations for obesity research. <i>Pediatric Obesity</i> , <b>2011</b> , 6, 2-11		119
68	Outcomes of an early feeding practices intervention to prevent childhood obesity. <i>Pediatrics</i> , <b>2013</b> , 132, e109-18	7.4	110
67	Determinants of rapid weight gain during infancy: baseline results from the NOURISH randomised controlled trial. <i>BMC Pediatrics</i> , <b>2011</b> , 11, 99	2.6	104
66	Reliability and validity of the Children's Dietary Questionnaire; a new tool to measure children's dietary patterns. <i>Pediatric Obesity</i> , <b>2009</b> , 4, 257-65		102
65	A parent-led family-focused treatment program for overweight children aged 5 to 9 years: the PEACH RCT. <i>Pediatrics</i> , <b>2011</b> , 127, 214-22	7.4	97
64	An Early Feeding Practices Intervention for Obesity Prevention. <i>Pediatrics</i> , <b>2015</b> , 136, e40-9	7.4	90
63	Toddlers' food preferences. The impact of novel food exposure, maternal preferences and food neophobia. <i>Appetite</i> , <b>2012</b> , 59, 818-25	4.5	88
62	Comparison of metabolic syndrome prevalence using six different definitions in overweight pre-pubertal children enrolled in a weight management study. <i>International Journal of Obesity</i> , <b>2006</b> , 30, 853-60	5.5	80
61	BMI, health behaviors, and quality of life in children and adolescents: a school-based study. <i>Pediatrics</i> , <b>2014</b> , 133, e868-74	7.4	73
60	Child eating behavior outcomes of an early feeding intervention to reduce risk indicators for child obesity: the NOURISH RCT. <i>Obesity</i> , <b>2014</b> , 22, E104-11	8	70
59	Maternal report of young children's eating styles. Validation of the Children's Eating Behaviour Questionnaire in three ethnically diverse Australian samples. <i>Appetite</i> , <b>2013</b> , 64, 48-55	4.5	65
58	Fruit and vegetable intakes of Australians aged 2-18 years: an evaluation of the 1995 National Nutrition Survey data. <i>Australian and New Zealand Journal of Public Health</i> , <b>2001</b> , 25, 155-61	2.3	63
57	Food neophobia and its association with diet quality and weight in children aged 24 months: a cross sectional study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , <b>2015</b> , 12, 13	8.4	55

56	Associations between infant temperament and early feeding practices. A cross-sectional study of Australian mother-infant dyads from the NOURISH randomised controlled trial. <i>Appetite</i> , <b>2013</b> , 60, 239-245	4.5	53
55	Recognition and management of childhood overweight and obesity by clinicians. <i>Journal of Paediatrics and Child Health</i> , <b>2006</b> , 42, 411-8	1.3	52
54	Randomised controlled trials in overweight children: practicalities and realities. <i>Pediatric Obesity</i> , <b>2007</b> , 2, 73-85		51
53	Double disadvantage: the influence of ethnicity over socioeconomic position on childhood overweight and obesity: findings from an inner urban population of primary school children. <i>Pediatric Obesity</i> , <b>2008</b> , 3, 196-204		47
52	Dietary patterns of Australian children aged 14 and 24 months, and associations with socio-demographic factors and adiposity. <i>European Journal of Clinical Nutrition</i> , <b>2013</b> , 67, 638-45	5.2	46
51	The importance of long-term follow-up in child and adolescent obesity prevention interventions. <i>Pediatric Obesity</i> , <b>2011</b> , 6, 178-81		43
50	The quality of dietary intake methodology and reporting in child and adolescent obesity intervention trials: a systematic review. <i>Obesity Reviews</i> , <b>2012</b> , 13, 1125-38	10.6	40
49	Recruiting and engaging new mothers in nutrition research studies: lessons from the Australian NOURISH randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , <b>2012</b> , 9, 129	8.4	40
48	Child dietary and eating behavior outcomes up to 3.5 years after an early feeding intervention: The NOURISH RCT. <i>Obesity</i> , <b>2016</b> , 24, 1537-45	8	40
47	The Early Prevention of Obesity in CHildren (EPOCH) Collaboration--an individual patient data prospective meta-analysis. <i>BMC Public Health</i> , <b>2010</b> , 10, 728	4.1	39
46	Food and beverage intake in Australian children aged 12-16 months participating in the NOURISH and SAIDI studies. <i>Australian and New Zealand Journal of Public Health</i> , <b>2014</b> , 38, 326-31	2.3	38
45	Cluster randomised trial of a school-community child health promotion and obesity prevention intervention: findings from the evaluation of fun 5+ healthy in Moreland!. <i>BMC Public Health</i> , <b>2017</b> , 18, 92	4.1	37
44	Obesity prevention programs demand high-quality evaluations. <i>Australian and New Zealand Journal of Public Health</i> , <b>2007</b> , 31, 305-7	2.3	35
43	Relationship between the home environment and fruit and vegetable consumption in children aged 6-12 years: a systematic review. <i>Public Health Nutrition</i> , <b>2017</b> , 20, 464-480	3.3	34
42	Interventions commenced by early infancy to prevent childhood obesity-The EPOCH Collaboration: An individual participant data prospective meta-analysis of four randomized controlled trials. <i>Pediatric Obesity</i> , <b>2020</b> , 15, e12618	4.6	32
41	Evaluation of fruit and vegetable intakes of Australian adults: the National Nutrition Survey 1995. <i>Australian and New Zealand Journal of Public Health</i> , <b>2006</b> , 30, 32-7	2.3	30
40	Dietary intake, physical activity and TV viewing as mediators of the association of socioeconomic status with body composition: a cross-sectional analysis of Australian youth. <i>International Journal of Obesity</i> , <b>2007</b> , 31, 45-52	5.5	27
39	A short food-group-based dietary questionnaire is reliable and valid for assessing toddlers' dietary risk in relatively advantaged samples. <i>British Journal of Nutrition</i> , <b>2014</b> , 112, 627-37	3.6	25

38	Improving weight status in childhood: results from the eat well be active community programs. <i>International Journal of Public Health</i> , <b>2014</b> , 59, 43-50	4	23
37	Australian children's views about food advertising on television. <i>Appetite</i> , <b>2010</b> , 55, 49-55	4.5	21
36	Family-focused weight management program for five- to nine-year-olds incorporating parenting skills training with healthy lifestyle information to support behaviour modification. <i>Nutrition and Dietetics</i> , <b>2007</b> , 64, 144-150	2.5	21
35	Food-based recommendations to reduce fat intake: an evidence-based approach to the development of a family-focused child weight management programme. <i>Journal of Paediatrics and Child Health</i> , <b>2005</b> , 41, 112-8	1.3	20
34	Children's food and activity patterns following a six-month child weight management program. <i>Pediatric Obesity</i> , <b>2011</b> , 6, 409-14		18
33	Feeding Mode of Australian Infants in the First 12 Months of Life. <i>Journal of Human Lactation</i> , <b>2016</b> , 32, NP95-NP104	2.6	17
32	Working at the interface in Aboriginal and Torres Strait Islander health: focussing on the individual health professional and their organisation as a means to address health equity. <i>International Journal for Equity in Health</i> , <b>2016</b> , 15, 187	4.6	16
31	Prevalence and socio-economic distribution of eating, physical activity and sedentary behaviour among South Australian children in urban and rural communities: baseline findings from the OPAL evaluation. <i>Public Health</i> , <b>2016</b> , 140, 196-205	4	15
30	The Influence of Home and School Environments on Children's Diet and Physical Activity, and Body Mass Index: A Structural Equation Modelling Approach. <i>Maternal and Child Health Journal</i> , <b>2018</b> , 22, 364-375	2.4	13
29	Parent engagement and attendance in PEACH <sup>QLD</sup> - an up-scaled parent-led childhood obesity program. <i>BMC Public Health</i> , <b>2017</b> , 17, 559	4.1	13
28	Practicalities and Research Considerations for Conducting Childhood Obesity Prevention Interventions with Families. <i>Children</i> , <b>2016</b> , 3,	2.8	13
27	A narrative account of implementation lessons learnt from the dissemination of an up-scaled state-wide child obesity management program in Australia: PEACH <sup>QLD</sup> (Parenting, Eating and Activity for Child Health) Queensland. <i>BMC Public Health</i> , <b>2018</b> , 18, 347	4.1	12
26	Relative validation of a short food frequency questionnaire to assess calcium intake in older adults. <i>Australian and New Zealand Journal of Public Health</i> , <b>2007</b> , 31, 450-8	2.3	10
25	Prevalence of overweight, obesity and underweight in Western Australian school-aged children; 2008 compared with 2003. <i>Public Health Nutrition</i> , <b>2014</b> , 17, 2687-91	3.3	8
24	Evaluation of tools used to measure calcium and/or dairy consumption in adults. <i>Public Health Nutrition</i> , <b>2015</b> , 18, 1225-36	3.3	7
23	Is higher formula intake and limited dietary diversity in Australian children at 14 months of age associated with dietary quality at 24 months?. <i>Appetite</i> , <b>2018</b> , 120, 240-245	4.5	7
22	Working together in Aboriginal health: a framework to guide health professional practice. <i>BMC Health Services Research</i> , <b>2020</b> , 20, 601	2.9	6
21	Evaluation of tools used to measure calcium and/or dairy consumption in children and adolescents. <i>Public Health Nutrition</i> , <b>2014</b> , 17, 1745-56	3.3	6

20	A longitudinal investigation of overweight children's body perception and satisfaction during a weight management program. <i>Appetite</i> , <b>2015</b> , 85, 48-51	4.5	5
19	Beverage intake of Australian children and relationship with intake of fruit, vegetables, milk and body weight at 2, 3.7 and 5 years of age. <i>Nutrition and Dietetics</i> , <b>2018</b> , 75, 159-166	2.5	5
18	Minimal change in children's lifestyle behaviours and adiposity following a home-based obesity intervention: results from a pilot study. <i>BMC Research Notes</i> , <b>2016</b> , 9, 26	2.3	5
17	Maternal perception of weight status in first-born Australian toddlers aged 12-16 months--the Nourish and SAIDI cohorts. <i>Child: Care, Health and Development</i> , <b>2016</b> , 42, 375-81	2.8	5
16	Reliability of questionnaires to assess the healthy eating and activity environment of a child's home and school. <i>Journal of Obesity</i> , <b>2013</b> , 2013, 720368	3.7	5
15	Positive influences of home food environment on primary-school children's diet and weight status: a structural equation model approach. <i>Public Health Nutrition</i> , <b>2016</b> , 19, 2525-34	3.3	5
14	Reliability and validity of the Children's Dietary Questionnaire; A new tool to measure children's dietary patterns. <i>Pediatric Obesity</i> , 1-9		4
13	Dietary risk scores of toddlers are associated with nutrient intakes and socio-demographic factors, but not weight status. <i>Nutrition and Dietetics</i> , <b>2016</b> , 73, 73-80	2.5	4
12	Serve sizes and frequency of food consumption in Australian children aged 14 and 24 months. <i>Australian and New Zealand Journal of Public Health</i> , <b>2017</b> , 41, 38-44	2.3	3
11	Australasian nutrition research for prevention and management of child obesity: innovation and progress in the last decade. <i>Pediatric Obesity</i> , <b>2014</b> , 9, e132-6	4.6	3
10	Community-based obesity prevention initiatives in aboriginal communities: The experience of the eat well be active community programs in South Australia. <i>Health</i> , <b>2012</b> , 04, 1500-1508	0.4	3
9	Impact of a 6-month family-based weight management programme on child food and activity behaviours: short-term and long-term outcomes of the PEACH intervention. <i>Pediatric Obesity</i> , <b>2018</b> , 13, 744-751	4.6	3
8	A guide to undertaking a literature review. <i>Australian Family Physician</i> , <b>2001</b> , 30, 1013-5		3
7	Changes in weight status, quality of life and behaviours of South Australian primary school children: results from the Obesity Prevention and Lifestyle (OPAL) community intervention program. <i>BMC Public Health</i> , <b>2019</b> , 19, 1338	4.1	2
6	Repeatability of a short food frequency questionnaire to assess calcium intake in older Australians. <i>Journal of Aging Research</i> , <b>2010</b> , 2010, 905056	2.3	2
5	Childhood obesity epidemic: further evidence but it's action that we need. <i>Nutrition and Dietetics</i> , <b>2008</b> , 65, 190-191	2.5	2
4	Lecture in honour of Karen Cashel. <i>Nutrition and Dietetics</i> , <b>2011</b> , 68, 231-235	2.5	
3	Six-month interventions - parent-centred dietary modification alone or in combination with child-centred physical activity may reduce child BMI at 2 years. <i>Evidence-Based Medicine</i> , <b>2012</b> , 17, 11-2		

- 2 Swinburn right of reply. *Australian and New Zealand Journal of Public Health*, **2008**, 32, 86 2.3
- 1 Nutrition and oral health in early childhood: associations with formal and informal childcare. *Public Health Nutrition*, **2021**, 24, 1438-1448 3.3
