#	ARTICLE	IF	CITATIONS
1	Implementation of physical activity on prescription for children with obesity in paediatric health care (IMPA): protocol for a feasibility and evaluation study using quantitative and qualitative methods. Pilot and Feasibility Studies, 2022, 8, .	1.2	4
2	Shall we use cryotherapy in the treatment in surgical procedures, in acute pain or injury, or in long term pain or dysfunction? - A systematic review. Journal of Bodywork and Movement Therapies, 2021, 27, 368-387.	1.2	5
3	Clinical assessment of pelvic floor and abdominal muscles 3 months post partum: an inter-rater reliability study. BMJ Open, 2021, 11, e049082.	1.9	0
4	Physiotherapist-guided Free Movement Dance for patients with persistent pain is empowering in everyday living. A qualitative study. European Journal of Physiotherapy, 2020, 22, 2-13.	1.3	3
5	Long-term physical activity on prescription intervention for patients with insufficient physical activity level—a randomized controlled trial. Trials, 2020, 21, 793.	1.6	9
6	Effects of exercise therapy in patients with acute low back pain: a systematic review of systematic reviews. Systematic Reviews, 2020, 9, 182.	5.3	24
7	Tailored physical activity on prescription with follow-ups improved motivation and physical activity levels. A qualitative study of a 5-year Swedish primary care intervention. Scandinavian Journal of Primary Health Care, 2020, 38, 399-410.	1.5	8
8	Prevention of sickness absence through early identification and rehabilitation of at-risk patients with musculoskeletal pain (PREVSAM): a randomised controlled trial protocol. BMC Musculoskeletal Disorders, 2020, 21, 790.	1.9	2
9	Does a tailored guideline implementation strategy have an impact on clinical physiotherapy practice? A nonrandomized controlled study. Journal of Evaluation in Clinical Practice, 2019, 25, 575-584.	1.8	7
10	A preference for dialogue: exploring the influence of patient preferences on clinical decision making and treatment in primary care physiotherapy. European Journal of Physiotherapy, 2019, 21, 107-114.	1.3	13
11	Gothenburg Very Early Supported Discharge study (GOTVED): a randomised controlled trial investigating anxiety and overall disability in the first year after stroke. BMC Neurology, 2019, 19, 277.	1.8	13
12	Which patients benefit from physical activity on prescription (PAP)? A prospective observational analysis of factors that predict increased physical activity. BMC Public Health, 2019, 19, 482.	2.9	18
13	More cost-effective management of patients with musculoskeletal disorders in primary care after direct triaging to physiotherapists for initial assessment compared to initial general practitioner assessment. BMC Musculoskeletal Disorders, 2019, 20, 186.	1.9	28
14	Patients with chronic pain may need extra support when prescribed physical activity in primary care: a qualitative study. Scandinavian Journal of Primary Health Care, 2017, 35, 64-74.	1.5	47
15	Physical Activity on Prescription (PAP), in patients with metabolic risk factors. A 6-month follow-up study in primary health care. PLoS ONE, 2017, 12, e0175190.	2.5	26
16	“Take me seriously and do something!”—a qualitative study exploring patients’ perceptions and expectations of an upcoming orthopaedic consultation. BMC Musculoskeletal Disorders, 2017, 18, 367.	1.9	15
17	Use of outcome measures improved after a tailored implementation in primary care physiotherapy: a prospective, controlled study. Journal of Evaluation in Clinical Practice, 2016, 22, 668-676.	1.8	16
18	Perceived quality of physiotherapist-led orthopaedic triage compared with standard practice in primary care: a randomised controlled trial. BMC Musculoskeletal Disorders, 2016, 17, 257.	1.9	28

#	ARTICLE	IF	CITATIONS
19	A sense of increased living space after participating in multimodal rehabilitation. <i>Disability and Rehabilitation</i> , 2016, 38, 2445-2454.	1.8	5
20	Early identification in primary health care of people at risk for sick leave due to work-related stress â€” study protocol of a randomized controlled trial (RCT). <i>BMC Public Health</i> , 2016, 16, 1193.	2.9	14
21	Clinical practice in line with evidence? A survey among primary care physiotherapists in western <sc>S</sc>weden. <i>Journal of Evaluation in Clinical Practice</i> , 2015, 21, 1169-1177.	1.8	41
22	Person-centred care after acute coronary syndrome, from hospital to primary care â€” A randomised controlled trial. <i>International Journal of Cardiology</i> , 2015, 187, 693-699.	1.7	114
23	Comparison Between the Montgomery-Asberg Depression Rating Scaleâ€”Self and the Beck Depression Inventory II in Primary Care. <i>primary care companion for CNS disorders, The</i> , 2015, 17, .	0.6	17
24	Patientsâ€™ experience of being triaged directly to a psychologist in primary care: a qualitative study. <i>Primary Health Care Research and Development</i> , 2014, 15, 441-451.	1.2	4
25	Determinants of Guideline Use in Primary Care Physical Therapy: A Cross-Sectional Survey of Attitudes, Knowledge, and Behavior. <i>Physical Therapy</i> , 2014, 94, 343-354.	2.4	89
26	Evaluation of a tailored, multi-component intervention for implementation of evidence-based clinical practice guidelines in primary care physical therapy: a non-randomized controlled trial. <i>BMC Health Services Research</i> , 2014, 14, 105.	2.2	32
27	Measuring Evidence-Based Practice in Physical Therapy: Translation, Adaptation, Further Development, Validation, and Reliability Test of a Questionnaire. <i>Physical Therapy</i> , 2013, 93, 819-832.	2.4	30
28	Treatment of patellar tendinopathyâ€”a systematic review of randomized controlled trials. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2012, 20, 1632-1646.	4.2	146
29	Is patient responsibility for managing musculoskeletal disorders related to self-reported better outcome of physiotherapy treatment?. <i>Physiotherapy Theory and Practice</i> , 2010, 26, 308-317.	1.3	11
30	Patients' views on responsibility for the management of musculoskeletal disorders â€” A qualitative study. <i>BMC Musculoskeletal Disorders</i> , 2009, 10, 103.	1.9	14
31	Responsibility for managing musculoskeletal disorders â€” A cross-sectional postal survey of attitudes. <i>BMC Musculoskeletal Disorders</i> , 2008, 9, 110.	1.9	13
