#	ARTICLE	IF	CITATIONS
1	Patterns of Co-Occurrence of Chronic Disease Among Older Adults in Tokyo, Japan. Preventing Chronic Disease, 2019, 16, E11.	1.7	57
2	How can we improve the quality of health care in Japan?. Health Policy, 2003, 66, 29-49.	1.4	53
3	Relative validity of brief-type self-administered diet history questionnaire among very old Japanese aged 80 years or older. Public Health Nutrition, 2019, 22, 212-222.	1.1	30
4	Association of handgrip strength with various oral functions in 82- to 84-year-old community-dwelling Japanese. Gerodontology, 2018, 35, 214-220.	0.8	29
5	The Association between Self-Rated Health Status and Increasing Age among Older Japanese Living in a Rural Community over a 6-Year Period: A Longitudinal Data Analysis. Gerontology, 2009, 55, 344-352.	1.4	22
6	Association of physical performance and self-rated health with multimorbidity among older adults: Results from a nationwide survey in Japan. Archives of Gerontology and Geriatrics, 2019, 84, 103904.	1.4	22
7	Differences in the association between high blood pressure and cognitive functioning among the general Japanese population aged 70 and 80 years: The SONIC study. Hypertension Research, 2016, 39, 557-563.	1.5	21
8	The role of geriatric intermediate care facilities in long-term care for the elderly in Japan. Health Policy, 1998, 43, 141-151.	1.4	19
9	The association of blood pressure with physical frailty and cognitive function in community-dwelling septuagenarians, octogenarians, and nonagenarians: the SONIC study. Hypertension Research, 2020, 43, 1421-1429.	1.5	19
10	Longitudinal association of hypertension and diabetes mellitus with cognitive functioning in a general 70-year-old population: the SONIC study. Hypertension Research, 2017, 40, 665-670.	1.5	18
11	Associations of Hospital Discharge Services With Potentially Avoidable Readmissions Within 30 Days Among Older Adults After Rehabilitation in Acute Care Hospitals in Tokyo, Japan. Archives of Physical Medicine and Rehabilitation, 2020, 101, 832-840.	0.5	18
12	Drug prescription patterns and factors associated with polypharmacy in >1 million older adults in Tokyo. Geriatrics and Gerontology International, 2020, 20, 304-311.	0.7	18
13	Factors Influencing Users' Return Home on Discharge from a Geriatric Intermediate Care Facility in Japan. Journal of the American Geriatrics Society, 1995, 43, 623-626.	1.3	17
14	Antipsychotic use and related factors among people with dementia aged 75 years or older in Japan: a comprehensive population-based estimation using medical and long-term care data. International Journal of Geriatric Psychiatry, 2019, 34, 472-479.	1.3	17
15	Social network analysis of duplicative prescriptions: One-month analysis of medical facilities in Japan. Health Policy, 2016, 120, 334-341.	1.4	15
16	SONIC Study: A Longitudinal Cohort Study of the Older People as Part of a Centenarian Study. , 2016, , 1-10.		15
17	Occlusal force predicted cognitive decline among 70- and 80-year-old Japanese: A 3-year prospective cohort study. Journal of Prosthodontic Research, 2020, 64, 175-181.	1.1	14
18	Predictors of hyperglycaemic individuals who do not follow up with physicians after screening in Japan: A cohort study. Diabetes Research and Clinical Practice, 2014, 105, 176-184.	1.1	12

#	ARTICLE	IF	CITATIONS
19	Occlusal support predicts tooth loss in older Japanese people. <i>Community Dentistry and Oral Epidemiology</i> , 2020, 48, 163-170.	0.9	12
20	Potentially avoidable hospitalizations, non-potentially avoidable hospitalizations and in-hospital deaths among residents of long-term care facilities. <i>Geriatrics and Gerontology International</i> , 2018, 18, 1272-1279.	0.7	11
21	Association of household income with home-based rehabilitation and home help service utilization among long-term home care service users. <i>BMC Geriatrics</i> , 2020, 20, 314.	1.1	11
22	SONIC Study, A Longitudinal Cohort Study of the Older People as Part of a Centenarian Study. , 2017, , 2227-2236.		11
23	Association between recorded medical diagnoses and incidence of long-term care needs certification: a case control study using linked medical and long-term care data in two Japanese cities. <i>Annals of Clinical Epidemiology</i> , 2019, 1, 56-68.	0.3	10
24	Cumulative number of hospital bed days among older adults in the last year of life: A retrospective cohort study. <i>Geriatrics and Gerontology International</i> , 2017, 17, 737-743.	0.7	7
25	Association between protein intake and changes in renal function among Japanese community-dwelling older people: The SONIC study. <i>Geriatrics and Gerontology International</i> , 2022, 22, 286-291.	0.7	7
26	Simple screening models for cognitive impairment in community settings: The IRIDE Cohort Study. <i>Geriatrics and Gerontology International</i> , 2022, 22, 292-297.	0.7	7
27	Association of trajectories of cognitive function with cause-specific mortality and medical and long-term care costs. <i>Geriatrics and Gerontology International</i> , 2019, 19, 1236-1242.	0.7	6
28	Association between heart diseases, social factors and physical frailty in community-dwelling older populations: The septuagenarians, octogenarians, nonagenarians investigation with centenarians study. <i>Geriatrics and Gerontology International</i> , 2020, 20, 974-979.	0.7	6
29	Association of anemia and SRH in older people: the SONIC study. <i>Geriatrics and Gerontology International</i> , 2020, 20, 720-726.	0.7	6
30	Association of long-term care needs, approaching death and age with medical and long-term care expenditures in the last year of life: An analysis of insurance claims data. <i>Geriatrics and Gerontology International</i> , 2020, 20, 277-284.	0.7	6
31	Association of cognitive impairment severity with potentially avoidable readmissions: A retrospective cohort study of 8897 older patients. <i>Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring</i> , 2021, 13, e12147.	1.2	6
32	Association between uric acid and atherosclerosis in community-dwelling older people: The SONIC study. <i>Geriatrics and Gerontology International</i> , 2021, 21, 94-101.	0.7	5
33	Association between long-term care and chronic and lifestyle-related disease modified by social profiles in community-dwelling people aged 80 and 90; SONIC study. <i>Archives of Gerontology and Geriatrics</i> , 2019, 81, 176-181.	1.4	4
34	Associations of multimorbidity with breast, cervical, and colorectal cancer screening delivery: a cross-sectional study of a nationally representative Japanese sample. <i>Cancer Epidemiology</i> , 2020, 69, 101798.	0.8	4
35	Oral Functions Are Associated with Muscle Strength and Physical Performance in Old-Old Japanese. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 13199.	1.2	4
36	Association between patient age and hospitalization resource use in a teaching hospital in Japan. <i>Health Policy</i> , 2008, 87, 20-30.	1.4	3

#	ARTICLE	IF	CITATIONS
37	Characteristics associated with hospitalization within <sc>30</sc> days of geriatric intermediate care facility admission. <i>Geriatrics and Gerontology International</i> , 2021, 21, 1010-1017.	0.7	3
38	Factors Affecting Care-Level Deterioration among Older Adults with Mild and Moderate Disabilities in Japan: Evidence from the Nationally Standardized Survey for Care-Needs Certification. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 3065.	1.2	3
39	National trends in gastrostomy in older adults between 2014 and 2019 in Japan. <i>Geriatrics and Gerontology International</i> , 2022, 22, 648-652.	0.7	3
40	Testing the Validity and Reliability of a Newly Developed Instrument to Assess the Subjective Needs of Institutionalized Elderly. <i>Clinical Gerontologist</i> , 2015, 38, 88-102.	1.2	2
41	Variations in status of preparation of personal protective equipment for preventing norovirus gastroenteritis in long-term care facilities for the elderly. <i>Journal of Evaluation in Clinical Practice</i> , 2017, 23, 1203-1210.	0.9	2
42	Prognostication of superficial Barrett's carcinoma: a Japanese multicenter study. <i>Human Pathology</i> , 2018, 76, 156-166.	1.1	2
43	Association of pharmacological treatments for hypertension, diabetes, and dyslipidemia with health checkup participation and identification of disease control factors among older adults in Tokyo, Japan. <i>Preventive Medicine Reports</i> , 2020, 17, 101033.	0.8	2
44	Decline of oral functions in old-old adults and their relationship with age and sex: The <sc>SONIC</sc> study. <i>Journal of the American Geriatrics Society</i> , 2022, 70, 541-548.	1.3	2
45	Predictive factors for tooth loss in older adults vary according to occlusal support: A 6-year longitudinal survey from the SONIC study. <i>Journal of Dentistry</i> , 2022, 121, 104088.	1.7	2
46	Gaps between the subjective needs of older facility residents and how care workers understand them: a pairwise cross-sectional study. <i>BMC Research Notes</i> , 2016, 9, 52.	0.6	1
47	Impact of a national medical fee schedule revision on the cessation of physician home visits among older patients in Tokyo: A retrospective study. <i>Health and Social Care in the Community</i> , 2019, 27, 899-906.	0.7	1
48	Agreement on dementia severity levels between the 8-item and 21-item Dementia Assessment Sheet for Community-based Integrated Care System. <i>Geriatrics and Gerontology International</i> , 2021, 21, 748-749.	0.7	1
49	Association of personality traits with polypharmacy among community-dwelling older adults in Japan: a cross-sectional analysis of data from the SONIC study. <i>BMC Geriatrics</i> , 2022, 22, 372.	1.1	1
50	Self-Monitoring Home Blood Pressure in Community-Dwelling Older People: Age Differences in White-Coat and Masked Phenomena and Related Factors—The SONIC Study. <i>International Journal of Hypertension</i> , 2022, 2022, 1-9.	0.5	1
51	Occupation-based differences in shared perceptions of older resident needs within multidisciplinary care teams: a cross-sectional study of care workers, nurses, and therapists linked to older residents. <i>Journal of Physical Therapy Science</i> , 2018, 30, 866-873.	0.2	0
52	Clinical pictures, treatments, and resource use of norovirus gastroenteritis in long-term care facilities: a survey with a chart review in Japan. <i>BMC Geriatrics</i> , 2020, 20, 148.	1.1	0
53	Authors' Response to Letter to the Editor. <i>Archives of Physical Medicine and Rehabilitation</i> , 2021, 102, 163-164.	0.5	0
54	Associations of coprescribed medications for chronic comorbid conditions in very old adults with clinical dementia: a retrospective cohort study using insurance claims data. <i>BMJ Open</i> , 2021, 11, e043768.	0.8	0

#	ARTICLE	IF	CITATIONS
55	The effects of early post-discharge rehabilitation services on care-needs level deterioration in older adults with functional impairment: A propensity score-matched study. Archives of Physical Medicine and Rehabilitation, 2022, , .	0.5	0
56	The Characteristics of Patients Who Are Unable to Use Rehabilitation Services under the Long-term Care Insurance Service within the Specified Upper Limit. Iryo To Shakai, 2022, 31, 573-582.	0.0	0
57	Factors associated with psychological well-being among nonagenarians: Well-being in the era of 100+ years of life. Geriatrics and Gerontology International, 2022, 22, 364-366.	0.7	0
