#	ARTICLE	IF	CITATIONS
1	Decline of oral functions in old-old adults and their relationship with age and sex: The <sc>SONIC</sc> study. Journal of the American Geriatrics Society, 2022, 70, 541-548.	1.3	2
2	The effects of early post-discharge rehabilitation services on care-needs level deterioration in older adults with functional impairment: A propensity score-matched study. Archives of Physical Medicine and Rehabilitation, 2022, , .	0.5	0
3	The Characteristics of Patients Who Are Unable to Use Rehabilitation Services under the Long-term Care Insurance Service within the Specified Upper Limit. Iryo To Shakai, 2022, 31, 573-582.	0.0	0
4	Association between protein intake and changes in renal function among Japanese community-dwelling older people: The SONIC study. Geriatrics and Gerontology International, 2022, 22, 286-291.	0.7	7
5	Factors associated with psychological well-being among nonagenarians: Well-being in the era of 100+ years of life. Geriatrics and Gerontology International, 2022, 22, 364-366.	0.7	0
6	Simple screening models for cognitive impairment in community settings: The <sc>IRIDE</sc> Cohort Study. Geriatrics and Gerontology International, 2022, 22, 292-297.	0.7	7
7	Predictive factors for tooth loss in older adults vary according to occlusal support: A 6-year longitudinal survey from the SONIC study. Journal of Dentistry, 2022, 121, 104088.	1.7	2
8	Factors Affecting Care-Level Deterioration among Older Adults with Mild and Moderate Disabilities in Japan: Evidence from the Nationally Standardized Survey for Care-Needs Certification. International Journal of Environmental Research and Public Health, 2022, 19, 3065.	1.2	3
9	Association of personality traits with polypharmacy among community-dwelling older adults in Japan: a cross-sectional analysis of data from the SONIC study. BMC Geriatrics, 2022, 22, 372.	1.1	1
10	Self-Monitoring Home Blood Pressure in Community-Dwelling Older People: Age Differences in White-Coat and Masked Phenomena and Related Factors-The SONIC Study. International Journal of Hypertension, 2022, 2022, 1-9.	0.5	1
11	National trends in gastrostomy in older adults between 2014 and 2019 in Japan. Geriatrics and Gerontology International, 2022, 22, 648-652.	0.7	3
12	Association between uric acid and atherosclerosis in community-dwelling older people: The SONIC study. Geriatrics and Gerontology International, 2021, 21, 94-101.	0.7	5
13	Authors'™ Response to Letter to the Editor. Archives of Physical Medicine and Rehabilitation, 2021, 102, 163-164.	0.5	0
14	Association of cognitive impairment severity with potentially avoidable readmissions: A retrospective cohort study of 8897 older patients. Alzheimer's and Dementia: Diagnosis, Assessment and Disease Monitoring, 2021, 13, e12147.	1.2	6
15	Agreement on dementia severity levels between the 8-item and 21-item Dementia Assessment Sheet for Community-based Integrated Care System. Geriatrics and Gerontology International, 2021, 21, 748-749.	0.7	1
16	Associations of coprescribed medications for chronic comorbid conditions in very old adults with clinical dementia: a retrospective cohort study using insurance claims data. BMJ Open, 2021, 11, e043768.	0.8	0
17	Characteristics associated with hospitalization within <sc>30</sc>-days of geriatric intermediate care facility admission. Geriatrics and Gerontology International, 2021, 21, 1010-1017.	0.7	3
18	Oral Functions Are Associated with Muscle Strength and Physical Performance in Old-Old Japanese. International Journal of Environmental Research and Public Health, 2021, 18, 13199.	1.2	4

#	ARTICLE	IF	CITATIONS
19	Occlusal force predicted cognitive decline among 70- and 80-year-old Japanese: A 3-year prospective cohort study. <i>Journal of Prosthodontic Research</i> , 2020, 64, 175-181.	1.1	14
20	Associations of Hospital Discharge Services With Potentially Avoidable Readmissions Within 30 Days Among Older Adults After Rehabilitation in Acute Care Hospitals in Tokyo, Japan. <i>Archives of Physical Medicine and Rehabilitation</i> , 2020, 101, 832-840.	0.5	18
21	Association of pharmacological treatments for hypertension, diabetes, and dyslipidemia with health checkup participation and identification of disease control factors among older adults in Tokyo, Japan. <i>Preventive Medicine Reports</i> , 2020, 17, 101033.	0.8	2
22	Occlusal support predicts tooth loss in older Japanese people. <i>Community Dentistry and Oral Epidemiology</i> , 2020, 48, 163-170.	0.9	12
23	Association of household income with home-based rehabilitation and home help service utilization among long-term home care service users. <i>BMC Geriatrics</i> , 2020, 20, 314.	1.1	11
24	Association between heart diseases, social factors and physical frailty in community-dwelling older populations: The septuagenarians, octogenarians, nonagenarians investigation with centenarians study. <i>Geriatrics and Gerontology International</i> , 2020, 20, 974-979.	0.7	6
25	Association of anemia and SRH in older people: the SONIC study. <i>Geriatrics and Gerontology International</i> , 2020, 20, 720-726.	0.7	6
26	The association of blood pressure with physical frailty and cognitive function in community-dwelling septuagenarians, octogenarians, and nonagenarians: the SONIC study. <i>Hypertension Research</i> , 2020, 43, 1421-1429.	1.5	19
27	Association of long-term care needs, approaching death and age with medical and long-term care expenditures in the last year of life: An analysis of insurance claims data. <i>Geriatrics and Gerontology International</i> , 2020, 20, 277-284.	0.7	6
28	Clinical pictures, treatments, and resource use of norovirus gastroenteritis in long-term care facilities: a survey with a chart review in Japan. <i>BMC Geriatrics</i> , 2020, 20, 148.	1.1	0
29	Associations of multimorbidity with breast, cervical, and colorectal cancer screening delivery: a cross-sectional study of a nationally representative Japanese sample. <i>Cancer Epidemiology</i> , 2020, 69, 101798.	0.8	4
30	Drug prescription patterns and factors associated with polypharmacy in >1 million older adults in Tokyo. <i>Geriatrics and Gerontology International</i> , 2020, 20, 304-311.	0.7	18
31	Association of physical performance and self-rated health with multimorbidity among older adults: Results from a nationwide survey in Japan. <i>Archives of Gerontology and Geriatrics</i> , 2019, 84, 103904.	1.4	22
32	Impact of a national medical fee schedule revision on the cessation of physician home visits among older patients in Tokyo: A retrospective study. <i>Health and Social Care in the Community</i> , 2019, 27, 899-906.	0.7	1
33	Patterns of Co-Occurrence of Chronic Disease Among Older Adults in Tokyo, Japan. <i>Preventing Chronic Disease</i> , 2019, 16, E11.	1.7	57
34	Association of trajectories of cognitive function with cause-specific mortality and medical and long-term care costs. <i>Geriatrics and Gerontology International</i> , 2019, 19, 1236-1242.	0.7	6
35	Association between long-term care and chronic and lifestyle-related disease modified by social profiles in community-dwelling people aged 80 and 90; SONIC study. <i>Archives of Gerontology and Geriatrics</i> , 2019, 81, 176-181.	1.4	4
36	Antipsychotic use and related factors among people with dementia aged 75 years or older in Japan: A comprehensive population-based estimation using medical and long-term care data. <i>International Journal of Geriatric Psychiatry</i> , 2019, 34, 472-479.	1.3	17

#	ARTICLE	IF	CITATIONS
37	Relative validity of brief-type self-administered diet history questionnaire among very old Japanese aged 80 years or older. <i>Public Health Nutrition</i> , 2019, 22, 212-222.	1.1	30
38	Association between recorded medical diagnoses and incidence of long-term care needs certification: a case control study using linked medical and long-term care data in two Japanese cities. <i>Annals of Clinical Epidemiology</i> , 2019, 1, 56-68.	0.3	10
39	Prognostication of superficial Barrett's carcinoma: a Japanese multicenter study. <i>Human Pathology</i> , 2018, 76, 156-166.	1.1	2
40	Potentially avoidable hospitalizations, non-potentially avoidable hospitalizations and in-hospital deaths among residents of long-term care facilities. <i>Geriatrics and Gerontology International</i> , 2018, 18, 1272-1279.	0.7	11
41	Association of handgrip strength with various oral functions in 82- to 84-year-old community-dwelling Japanese. <i>Gerodontology</i> , 2018, 35, 214-220.	0.8	29
42	Occupation-based differences in shared perceptions of older resident needs within multidisciplinary care teams: a cross-sectional study of care workers, nurses, and therapists linked to older residents. <i>Journal of Physical Therapy Science</i> , 2018, 30, 866-873.	0.2	0
43	Cumulative number of hospital bed days among older adults in the last year of life: A retrospective cohort study. <i>Geriatrics and Gerontology International</i> , 2017, 17, 737-743.	0.7	7
44	Longitudinal association of hypertension and diabetes mellitus with cognitive functioning in a general 70-year-old population: the SONIC study. <i>Hypertension Research</i> , 2017, 40, 665-670.	1.5	18
45	Variations in status of preparation of personal protective equipment for preventing norovirus gastroenteritis in long-term care facilities for the elderly. <i>Journal of Evaluation in Clinical Practice</i> , 2017, 23, 1203-1210.	0.9	2
46	SONIC Study, A Longitudinal Cohort Study of the Older People as Part of a Centenarian Study. , 2017, , 2227-2236.		11
47	Differences in the association between high blood pressure and cognitive functioning among the general Japanese population aged 70 and 80 years: The SONIC study. <i>Hypertension Research</i> , 2016, 39, 557-563.	1.5	21
48	Social network analysis of duplicative prescriptions: One-month analysis of medical facilities in Japan. <i>Health Policy</i> , 2016, 120, 334-341.	1.4	15
49	Gaps between the subjective needs of older facility residents and how care workers understand them: a pairwise cross-sectional study. <i>BMC Research Notes</i> , 2016, 9, 52.	0.6	1
50	SONIC Study: A Longitudinal Cohort Study of the Older People as Part of a Centenarian Study. , 2016, , 1-10.		15
51	Testing the Validity and Reliability of a Newly Developed Instrument to Assess the Subjective Needs of Institutionalized Elderly. <i>Clinical Gerontologist</i> , 2015, 38, 88-102.	1.2	2
52	Predictors of hyperglycaemic individuals who do not follow up with physicians after screening in Japan: A cohort study. <i>Diabetes Research and Clinical Practice</i> , 2014, 105, 176-184.	1.1	12
53	The Association between Self-Rated Health Status and Increasing Age among Older Japanese Living in a Rural Community over a 6-Year Period: A Longitudinal Data Analysis. <i>Gerontology</i> , 2009, 55, 344-352.	1.4	22
54	Association between patient age and hospitalization resource use in a teaching hospital in Japan. <i>Health Policy</i> , 2008, 87, 20-30.	1.4	3

#	ARTICLE	IF	CITATIONS
55	How can we improve the quality of health care in Japan?. Health Policy, 2003, 66, 29-49.	1.4	53
56	The role of geriatric intermediate care facilities in long-term care for the elderly in Japan. Health Policy, 1998, 43, 141-151.	1.4	19
57	Factors Influencing Users' Return Home on Discharge from a Geriatric Intermediate Care Facility in Japan. Journal of the American Geriatrics Society, 1995, 43, 623-626.	1.3	17
