#	Article	IF	CITATIONS
1	A comparative evaluation of the strengths of association between different emergency department crowding metrics and repeat visits within 72Âhours. Canadian Journal of Emergency Medicine, 2022, 24, 27-34.	1.1	7
2	Subgroups of people who make frequent emergency department visits in Ontario and Alberta: a retrospective cohort study. CMAJ Open, 2022, 10, E232-E246.	2.4	3
3	People who make frequent emergency department visits based on persistence of frequent use in Ontario and Alberta: a retrospective cohort study. CMAJ Open, 2022, 10, E220-E231.	2.4	7
4	Reasons for repeated emergency department visits among communityâ€dwelling older adults with dementia in Ontario, Canada. Journal of the American Geriatrics Society, 2022, 70, 1745-1753.	2.6	10
5	Characterizing people with frequent emergency department visits and substance use: a retrospective cohort study of linked administrative data in Ontario, Alberta, and B.C., Canada. BMC Emergency Medicine, 2022, 22, .	1.9	2
6	Improving Quality of Care Through a Mandatory Provincial Audit Program: Ontario's Emergency Department Return Visit Quality Program. Annals of Emergency Medicine, 2021, 77, 193-202.	0.6	10
7	Association Between ABO and Rh Blood Groups and SARS-CoV-2 Infection or Severe COVID-19 Illness. Annals of Internal Medicine, 2021, 174, 308-315.	3.9	146
8	Identifying subgroups and risk among frequent emergency department users in British Columbia. Journal of the American College of Emergency Physicians Open, 2021, 2, e12346.	0.7	11
9	A Value-Based Comparison of the Management of Ambulatory Respiratory Diseases in Walk-in Clinics, Primary Care Practices, and Emergency Departments: Protocol for a Multicenter Prospective Cohort Study. JMIR Research Protocols, 2021, 10, e25619.	1.0	10
10	Despite Interventions, Emergency Flow Stagnates in Urban Western Canada. Healthcare Policy, 2021, 16, 70-83.	0.6	0
11	Non-ABO red cell antibodies and risk of COVID-19. International Journal of Infectious Diseases, 2021, 108, 179-182.	3.3	3
12	Process evaluation of an implementation strategy to support uptake of a tuberculosis treatment adherence intervention to improve TB care and outcomes in Malawi. BMJ Open, 2021, 11, e048499.	1.9	5
13	Rationale and design of the comparison of outcomes and access to care for heart failure (COACH) trial: A stepped wedge cluster randomized trial. American Heart Journal, 2021, 240, 1-10.	2.7	8
14	Characteristics of frequent emergency department users in British Columbia, Canada: a retrospective analysis. CMAJ Open, 2021, 9, E134-E141.	2.4	16
15	ABO Blood Group, SARS-CoV-2 Infection, and Risk of Venous Thromboembolism: Population-Based Cohort Study. Clinical and Applied Thrombosis/Hemostasis, 2021, 27, 107602962110089.	1.7	3
16	Application of the Informatics Stack framework to describe a population-level emergency department return visit continuous quality improvement program. International Journal of Medical Informatics, 2020, 133, 103937.	3.3	3
17	Clinical outcomes for chest pain patients discharged home from emergency departments using high-sensitivity versus conventional cardiac troponin assays. American Heart Journal, 2020, 221, 84-94.	2.7	10
18	CJEM Debate Series: #EDRedirection – Efforts to divert patients from the emergency department – Stop blaming the patients! An argument against redirection. Canadian Journal of Emergency Medicine, 2020, 22, 641-643.	1.1	4

#	Article	IF	CITATIONS
19	PROM-ED: Development and Testing of a Patient-Reported Outcome Measure for Emergency Department Patients Who Are Discharged Home. Annals of Emergency Medicine, 2020, 76, 219-229.	0.6	11
20	Impact of a tuberculosis treatment adherence intervention versus usual care on treatment completion rates: results of a pragmatic cluster randomized controlled trial. Implementation Science, 2020, 15, 107.	6.9	4
21	Estimated surge in hospital and intensive care admission because of the coronavirus disease 2019 pandemic in the Greater Toronto Area, Canada: a mathematical modelling study. CMAJ Open, 2020, 8, E593-E604.	2.4	7
22	Readmission rates following heart failure: a scoping review of sex and gender based considerations. BMC Cardiovascular Disorders, 2020, 20, 223.	1.7	17
23	Authentic emergency department leadership during a pandemic. Canadian Journal of Emergency Medicine, 2020, 22, 400-403.	1.1	6
24	Essential Requirements for Establishing and Operating Data Trusts. International Journal of Population Data Science, 2020, 5, 1353.	0.1	9
25	The SPOR-Canadian Data Platform: a national initiative to facilitate data rich multi-jurisdictional research. International Journal of Population Data Science, 2020, 5, 1374.	0.1	3
26	Prospective data linkage to facilitate COVID-19 trials – A call to action. International Journal of Population Data Science, 2020, 5, 1383.	0.1	1
27	A challenge to all. A primer on inter-country differences of high-need, high-cost patients. PLoS ONE, 2019, 14, e0217353.	2.5	15
28	Prospective Validation of the Emergency Heart Failure Mortality Risk Grade for Acute Heart Failure. Circulation, 2019, 139, 1146-1156.	1.6	79
29	The use of a self-check-in kiosk for early patient identification and queuing in the emergency department. Canadian Journal of Emergency Medicine, 2019, 21, 789-792.	1.1	17
30	Development and validation of a data dictionary for a feasibility analysis of emergency department key performance indicators. International Journal of Medical Informatics, 2019, 126, 59-64.	3.3	7
31	Comparison of emergency department time performance between a Canadian and an Australian academic tertiary hospital. EMA - Emergency Medicine Australasia, 2019, 31, 605-611.	1.1	4
32	Social licence and the general public's attitudes toward research based on linked administrative health data: a qualitative study. CMAJ Open, 2019, 7, E40-E46.	2.4	39
33	Association of Follow-Up Care With Long-Term Death and Subsequent Hospitalization in Patients With Atrial Fibrillation Who Receive Emergency Care in the Province of Ontario. Circulation: Arrhythmia and Electrophysiology, 2019, 12, e006498.	4.8	9
34	CAEP 2018 Academic Symposium: Recommendations for developing and supporting Global Emergency Medicine in Canadian academic emergency departments and divisions. Canadian Journal of Emergency Medicine, 2019, 21, 600-606.	1.1	1
35	Notches on the dial: a call to action to develop plain language communication with the public about users and uses of health data. International Journal of Population Data Science, 2019, 4, 1106.	0.1	9
36	Physician follow-up and long-term use of evidence-based medication for patients with hypertension who were discharged from an emergency department: a prospective cohort study. CMAJ Open, 2018, 6, E151-E161.	2.4	7

#	Article	IF	CITATIONS
37	Emergency Heart Failure Mortality Risk Grade score performance for 7-day mortality prediction in patients with heart failure attended at the emergency department: validation in a Spanish cohort. European Journal of Emergency Medicine, 2018, 25, 169-177.	1.1	32
38	Factors associated with failure of emergency wait-time targets for high acuity discharges and intensive care unit admissions. Canadian Journal of Emergency Medicine, 2018, 20, 112-124.	1.1	14
39	Predictors of obtaining follow-up care in the province of Ontario, Canada, following a new diagnosis of atrial fibrillation, heart failure, and hypertension in the emergency department. Canadian Journal of Emergency Medicine, 2018, 20, 377-391.	1.1	9
40	Effect of early physician follow-up on mortality and subsequent hospital admissions after emergency care for heart failure: a retrospective cohort study. Cmaj, 2018, 190, E1468-E1477.	2.0	22
41	Emergency Department Volume and Outcomes for Patients After Chest Pain Assessment. Circulation: Cardiovascular Quality and Outcomes, 2018, 11, e004683.	2.2	22
42	Comparing the Effect of Throughput and Output Factors on Emergency Department Crowding: A Retrospective Observational Cohort Study. Annals of Emergency Medicine, 2018, 72, 410-419.	0.6	11
43	Patients' Perspectives on Outcomes of Care After Discharge From the Emergency Department: AÂQualitative Study. Annals of Emergency Medicine, 2017, 70, 648-658.e2.	0.6	44
44	Characteristics and Outcomes of Patients Discharged Home from an Emergency Department with AKI. Clinical Journal of the American Society of Nephrology: CJASN, 2017, 12, 1215-1225.	4.5	28
45	Study protocol for evaluating the implementation and effectiveness of an emergency department longitudinal patient monitoring system using a mixed-methods approach. BMC Health Services Research, 2017, 17, 67.	2.2	3
46	A qualitative study of emergency physicians' perspectives on PROMS in the emergency department. BMJ Quality and Safety, 2017, 26, 714-721.	3.7	22
47	Preoperative Laboratory Investigations. Anesthesiology, 2016, 124, 804-814.	2.5	42
48	Are reductions in emergency department length of stay associated with improvements in quality of care? A difference-in-differences analysis. BMJ Quality and Safety, 2016, 25, 489-498.	3.7	38
49	The impact of a knowledge translation intervention employing educational outreach and a point-of-care reminder tool vs standard lay health worker training on tuberculosis treatment completion rates: study protocol for a cluster randomized controlled trial. Trials, 2016, 17, 439.	1.6	9
50	Paramedics assessing Elders at Risk for Independence Loss (PERIL): Derivation, Reliability and Comparative Effectiveness of a Clinical Prediction Rule. Canadian Journal of Emergency Medicine, 2016, 18, 121-132.	1.1	11
51	CAEP 2015 Academic Symposium: Recommendations for University Governance and Administration for Emergency Medicine. Canadian Journal of Emergency Medicine, 2016, 18, S18-S25.	1.1	5
52	Design and rationale for the Acute Congestive Heart Failure Urgent Care Evaluation: The ACUTE Study. American Heart Journal, 2016, 181, 60-65.	2.7	12
53	Care Setting Intensity and Outcomes After Emergency Department Presentation Among Patients With Acute Heart Failure. Journal of the American Heart Association, 2016, 5, .	3.7	5
54	Lay Health Workers experience of a tailored knowledge translation intervention to improve job skills and knowledge: a qualitative study in Zomba district Malawi. BMC Medical Education, 2016, 16, 54.	2.4	14

#	Article	IF	CITATIONS
55	The Effect of Pay for Performance in the Emergency Department on Patient Waiting Times and Quality of Care in Ontario, Canada: A Difference-in-Differences Analysis. Annals of Emergency Medicine, 2016, 67, 496-505.e7.	0.6	16
56	In reply:. Annals of Emergency Medicine, 2015, 66, 686-687.	0.6	0
57	Ontario's Emergency Department Process Improvement Program: The Experience of Implementation. Academic Emergency Medicine, 2015, 22, 720-729.	1.8	21
58	Capturing the experiences of patients across multiple complex interventions: a meta-qualitative approach: TableA1. BMJ Open, 2015, 5, e007664.	1.9	20
59	A knowledge translation intervention to improve tuberculosis care and outcomes in Malawi: a pragmatic cluster randomized controlled trial. Implementation Science, 2015, 10, 38.	6.9	19
60	Incident atrial fibrillation in the emergency department in Ontario: a population-based retrospective cohort study of follow-up care. CMAJ Open, 2015, 3, E182-E191.	2.4	12
61	The Association Between Emergency Department Crowding and the Disposition of Patients With Transient Ischemic Attack or Minor Stroke. Academic Emergency Medicine, 2015, 22, 1145-1154.	1.8	18
62	Preoperative testing before low-risk surgical procedures. Cmaj, 2015, 187, E349-E358.	2.0	65
63	Comments on "Using Lean-Based Systems Engineering to Increase Capacity in the Emergency Department". Western Journal of Emergency Medicine, 2015, 16, 210-210.	1.1	0
64	Finding the Holy Grail Is Not a Short-Term Project. Circulation: Cardiovascular Quality and Outcomes, 2015, 8, 135-137.	2.2	1
65	Better performance on length-of-stay benchmarks associated with reduced risk following emergency department discharge: an observational cohort study. Canadian Journal of Emergency Medicine, 2015, 17, 253-262.	1.1	11
66	Repeated Emergency Department Visits Among Children Admitted With Meningitis or Septicemia: A Population-Based Study. Annals of Emergency Medicine, 2015, 65, 625-632.e3.	0.6	29
67	Factors associated with physician follow-up among patients with chest pain discharged from the emergency department. Cmaj, 2015, 187, E160-E168.	2.0	16
68	Making Aftercare More Than an Afterthought: Patient Follow-up after Emergency Department Discharge in Ontario. Healthcare Quarterly, 2014, 17, 11-13.	0.7	4
69	Socioeconomic status and the use of computed tomography in the emergency department. Canadian Journal of Emergency Medicine, 2014, 16, 288-295.	1.1	8
70	Outcomes in patients with heart failure treated in hospitals with varying admission rates: population-based cohort study. BMJ Quality and Safety, 2014, 23, 981-988.	3.7	20
71	Evaluation of an Emergency Department Lean Process Improvement Program to Reduce Length of Stay. Annals of Emergency Medicine, 2014, 64, 427-438.	0.6	57
72	The role of primary care physician and cardiologist follow-up for low-risk patients with chest pain after emergency department assessment. American Heart Journal, 2014, 168, 289-295.	2.7	25

#	Article	IF	CITATIONS
73	Supporting middle-cadre health care workers in Malawi: lessons learned during implementation of the PALM PLUS package. BMC Health Services Research, 2014, 14, S8.	2.2	17
74	Emergency Department Computed Tomography Utilization in the United States and Canada. Annals of Emergency Medicine, 2013, 62, 486-494.e3.	0.6	132
75	Quality Measurement In The Emergency Department: Past And Future. Health Affairs, 2013, 32, 2129-2138.	5.2	73
76	Implementing wait-time reductions under Ontario government benchmarks (Pay-for-Results): a Cluster Randomized Trial of the Effect of a Physician-Nurse Supplementary Triage Assistance team (MDRNSTAT) on emergency department patient wait times. BMC Emergency Medicine, 2013, 13, 17.	1.9	47
77	Effect of a brief emergency medicine education course on emergency department work intensity of family physicians. Canadian Journal of Emergency Medicine, 2013, 15, 34-41.	1.1	Ο
78	Association Between Physician Follow-Up and Outcomes of Care After Chest Pain Assessment in High-Risk Patients. Circulation, 2013, 127, 1386-1394.	1.6	35
79	Heart failure and dysrhythmias after maternal placental syndromes: HAD MPS Study. Heart, 2012, 98, 1136-1141.	2.9	75
80	The role of a rapid assessment zone/pod on reducing overcrowding in emergency departments: a systematic review. Emergency Medicine Journal, 2012, 29, 372-378.	1.0	59
81	Wait times in the emergency department for patients with mental illness. Cmaj, 2012, 184, E969-E976.	2.0	16
82	Evaluation of lay health workers' needs to effectively support anti-tuberculosis treatment adherence in Malawi. International Journal of Tuberculosis and Lung Disease, 2012, 16, 1492-1497.	1.2	12
83	Prediction of Heart Failure Mortality in Emergent Care. Annals of Internal Medicine, 2012, 156, 767.	3.9	228
84	Recent Health Care Transitions and Emergency Department Use by Chronic LongÂTerm Care Residents: A Population-Based Cohort Study. Journal of the American Medical Directors Association, 2012, 13, 202-206.	2.5	38
85	The role of full capacity protocols on mitigating overcrowding in EDs. American Journal of Emergency Medicine, 2012, 30, 412-420.	1.6	29
86	140 Children Discharged From the Emergency Department With Serious Infections: A Population-based Study in Ontario. Annals of Emergency Medicine, 2012, 60, S51.	0.6	0
87	The Challenge of Heart Failure Discharge from the Emergency Department. Current Heart Failure Reports, 2012, 9, 252-259.	3.3	22
88	Evaluating the Effect of Clinical Decision Units on Patient Flow in Seven Canadian Emergency Departments. Academic Emergency Medicine, 2012, 19, 828-836.	1.8	25
89	A framework for measuring quality in the emergency department. Emergency Medicine Journal, 2011, 28, 735-740.	1.0	35
90	The Pre-Hospital Fibrinolysis Experience in Europe and North America and Implications for Wider Dissemination. JACC: Cardiovascular Interventions, 2011, 4, 877-883.	2.9	14

#	Article	IF	CITATIONS
91	Association between waiting times and short term mortality and hospital admission after departure from emergency department: population based cohort study from Ontario, Canada. BMJ: British Medical Journal, 2011, 342, d2983-d2983.	2.3	511
92	Temporal changes in emergency department triage of patients with acute myocardial infarction and the effect on outcomes. American Heart Journal, 2011, 162, 451-459.	2.7	18
93	Prediction of Emergent Heart Failure Death by Semi-Quantitative Triage Risk Stratification. PLoS ONE, 2011, 6, e23065.	2.5	21
94	The Role of Triage Liaison Physicians on Mitigating Overcrowding in Emergency Departments: A Systematic Review. Academic Emergency Medicine, 2011, 18, 111-120.	1.8	90
95	The Role of Triage Nurse Ordering on Mitigating Overcrowding in Emergency Departments: A Systematic Review. Academic Emergency Medicine, 2011, 18, 1349-1357.	1.8	75
96	A Population-based Study of the Association Between Socioeconomic Status and Emergency Department Utilization in Ontario, Canada. Academic Emergency Medicine, 2011, 18, 836-843.	1.8	80
97	International Perspectives on Emergency Department Crowding. Academic Emergency Medicine, 2011, 18, 1358-1370.	1.8	463
98	On Easy Solutions. Annals of Emergency Medicine, 2011, 58, 235-238.	0.6	12
99	Evaluating a streamlined clinical tool and educational outreach intervention for health care workers in Malawi: the PALM PLUS case study. BMC International Health and Human Rights, 2011, 11, S11.	2.5	15
100	From PALSA PLUS to PALM PLUS: adapting and developing a South African guideline and training intervention to better integrate HIV/AIDS care with primary care in rural health centers in Malawi. Implementation Science, 2011, 6, 82.	6.9	20
101	The effect of a charted history of depression on emergency department triage and outcomes in patients with acute myocardial infarction. Cmaj, 2011, 183, 663-669.	2.0	25
102	Effect of time to electrocardiogram on time from electrocardiogram to fibrinolysis in acute myocardial infarction patients. Canadian Journal of Emergency Medicine, 2011, 13, 79-89.	1.1	7
103	Prioritizing performance measurement for emergency department care: consensus on evidencebased quality of care indicators. Canadian Journal of Emergency Medicine, 2011, 13, 300-309.	1.1	89
104	Barriers and facilitators to the implementation of Ontario's emergency department clinical decision unit pilot program: a qualitative study. Canadian Journal of Emergency Medicine, 2011, 13, 363-371.	1.1	4
105	Association Between Hospital Cardiac Management and Outcomes for Acute Myocardial Infarction Patients. Medical Care, 2010, 48, 157-165.	2.4	28
106	Strengthening health human resources and improving clinical outcomes through an integrated guideline and educational outreach in resource-poor settings: a cluster-randomized trial. Trials, 2010, 11, 118.	1.6	17
107	Frequency and Pattern of Emergency Department Visits by Longâ€Term Care Residents—A Populationâ€Based Study. Journal of the American Geriatrics Society, 2010, 58, 510-517.	2.6	174
108	Development of the Canadian Emergency Department Diagnosis Shortlist. Canadian Journal of Emergency Medicine, 2010, 12, 311-319.	1.1	9
