#	ARTICLE	IF	CITATIONS
1	The design of agri-environmental schemes: Farmers'™ preferences in southern Spain. <i>Land Use Policy</i> , 2015, 46, 142-154.	2.5	80
2	Agricultural landscapes, ecosystem services and regional competitiveness"Assessing drivers and mechanisms in nine European case study areas. <i>Land Use Policy</i> , 2018, 76, 735-745.	2.5	65
3	Protest Responses and Willingness to Accept: Ecosystem Services Providers'™ Preferences towards Incentive-Based Schemes. <i>Journal of Agricultural Economics</i> , 2017, 68, 801-821.	1.6	43
4	Heterogeneity of farmers' preferences towards agri-environmental schemes across different agricultural subsystems. <i>Journal of Environmental Planning and Management</i> , 2017, 60, 684-707.	2.4	41
5	What do we know about decision support systems for landscape and environmental management? A review and expert survey within EU research projects. <i>Environmental Modelling and Software</i> , 2017, 98, 63-74.	1.9	26
6	Analysing the provision of agricultural public goods: The case of irrigated olive groves in Southern Spain. <i>Land Use Policy</i> , 2014, 38, 300-313.	2.5	24
7	Environmental challenges of intensive woody crops: The case of super high-density olive groves. <i>Science of the Total Environment</i> , 2021, 798, 149212.	3.9	21
8	Optimal Design of Agri-Environmental Schemes under Asymmetric Information for Improving Farmland Biodiversity. <i>Journal of Agricultural Economics</i> , 2019, 70, 153-177.	1.6	20
9	Willingness to pay for improved irrigation water supply reliability: An approach based on probability density functions. <i>Agricultural Water Management</i> , 2019, 217, 11-22.	2.4	20
10	TYPIFYING IRRIGATED AREAS TO SUPPORT POLICY DESIGN AND IMPLEMENTATION: THE CASE OF THE GUADALQUIVIR RIVER BASIN. <i>Irrigation and Drainage</i> , 2013, 62, 322-329.	0.8	16
11	Assessment of greening and collective participation in the context of agri-environmental schemes: The case of Andalusian irrigated olive groves. <i>Spanish Journal of Agricultural Research</i> , 2015, 13, e0108.	0.3	14
12	Assessing the role of economic actors in the production of private and public goods in three EU agricultural landscapes. <i>Journal of Environmental Planning and Management</i> , 2015, 58, 2113-2136.	2.4	13
13	Exploring the commodification of biodiversity using olive oil producers'™ willingness to accept. <i>Land Use Policy</i> , 2021, 107, 104348.	2.5	12
14	Unraveling determinants of inferred and stated attribute nonattendance: Effects on farmers'™ willingness to accept to join agri-environmental schemes. <i>Canadian Journal of Agricultural Economics</i> , 2019, 67, 31-52.	1.2	10
15	Valoración de la oferta de bienes públicos por parte de los sistemas agrarios: el caso del olivar de montaña en Andalucía. <i>Economía Agraria Y Recursos Naturales</i> , 2017, 17, 25.	0.1	6
16	Irrigators'™ preferences for policy instruments to improve water supply reliability. <i>Journal of Environmental Management</i> , 2021, 280, 111844.	3.8	5
17	Consumers'™ preferences for traditional meat products: production system and objective quality cues in Iberian ham. <i>Italian Journal of Animal Science</i> , 2021, 20, 1987-2001.	0.8	5
18	Spatial analysis of demand for sparsely located ecosystem services using alternative index approaches. <i>European Review of Agricultural Economics</i> , 0, , .	1.5	4

#	ARTICLE	IF	CITATIONS
19	Willingness to accept for rewilding farmland in environmentally sensitive areas. Land Use Policy, 2022, 116, 106052.	2.5	4
20	¿ResultarÃa econÃ3micamente eficiente un programa de reconversiÃ3n ecolÃ3gica para el olivar de montaÃ±a andaluz?. Economia Agraria Y Recursos Naturales, 2020, 20, 103.	0.1	1
21	The Use of the Analytic Network Process for the Analysis of Public Goods Supply from Agricultural Systems: Advances and Challenges Ahead. Multiple Criteria Decision Making, 2018, , 99-132.	0.6	0
