#	ARTICLE	IF	CITATIONS
1	Food biodiversity: Quantifying the unquantifiable in human diets. <i>Critical Reviews in Food Science and Nutrition</i> , 2023, 63, 7837-7851.	10.3	5
2	Multi-mycotoxin profiling in maize reveals prevalence of <i>Fusarium</i> mycotoxins in South and West Ethiopia. <i>World Mycotoxin Journal</i> , 2022, 15, 73-83.	1.4	3
3	Availability, use, and consumption practices of ready-to-use therapeutic foods prescribed to children with uncomplicated severe acute malnutrition aged 6â€“59 months during outpatient treatment in Burkina Faso. <i>Appetite</i> , 2022, 168, 105751.	3.7	2
4	Multiple mycotoxin exposure during pregnancy and risks of adverse birth outcomes: a prospective cohort study in rural Ethiopia. <i>Environment International</i> , 2022, 160, 107052.	10.0	10
5	Essential descriptors for mycotoxin contamination data in food and feed. <i>Food Research International</i> , 2022, 152, 110883.	6.2	8
6	Seasonality and Day-to-Day Variability of Dietary Diversity: Longitudinal Study of Pregnant Women Enrolled in a Randomized Controlled Efficacy Trial in Rural Burkina Faso. <i>Journal of Nutrition</i> , 2022, 152, 2145-2154.	2.9	8
7	Prenatal fortified balanced energy-protein supplementation and birth outcomes in rural Burkina Faso: A randomized controlled efficacy trial. <i>PLoS Medicine</i> , 2022, 19, e1004002.	8.4	13
8	earlyMYCO: A Pilot Mother-Child Cohort Study to Assess Early-Life Exposure to Mycotoxinsâ€”Challenges and Lessons Learned. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 7716.	2.6	2
9	Associating multiple mycotoxin exposure and health outcomes: current statistical approaches and challenges. <i>World Mycotoxin Journal</i> , 2022, 16, 25-32.	1.4	1
10	Effect of fish-oil supplementation on breastmilk long-chain polyunsaturated fatty acid concentration: a randomized controlled trial in rural Ethiopia. <i>European Journal of Clinical Nutrition</i> , 2021, 75, 809-816.	2.9	6
11	Acceptability of 12 fortified balanced energy protein supplements â€”Insights from Burkina Faso. <i>Maternal and Child Nutrition</i> , 2021, 17, e13067.	3.0	12
12	EATâ€“ <i>Lancet</i> diet score requires minimum intake values to predict higher micronutrient adequacy of diets in rural women of reproductive age from five low- and middle-income countries. <i>British Journal of Nutrition</i> , 2021, 126, 92-100.	2.3	28
13	Uptake and impact of priority setting exercises in nutrition research publications. <i>European Journal of Clinical Nutrition</i> , 2021, 75, 198-208.	2.9	2
14	Adequacy of Nutrient Intakes of Severely and Acutely Malnourished Children Treated with Different Doses of Ready-To-Use Therapeutic Food in Burkina Faso. <i>Journal of Nutrition</i> , 2021, 151, 1008-1017.	2.9	8
15	Effect of balanced energy-protein supplementation during pregnancy and lactation on birth outcomes and infant growth in rural Burkina Faso: study protocol for a randomised controlled trial. <i>BMJ Open</i> , 2021, 11, e038393.	1.9	13
16	The Contribution of Thai Fisheries to Sustainable Seafood Consumption: National Trends and Future Projections. <i>Foods</i> , 2021, 10, 880.	4.3	7
17	Dietary Macronutrient Composition in Relation to Circulating HDL and Non-HDL Cholesterol: A Federated Individual-Level Analysis of Cross-Sectional Data from Adolescents and Adults in 8 European Studies. <i>Journal of Nutrition</i> , 2021, 151, 2317-2329.	2.9	8
18	Dietary agrobiodiversity for improved nutrition and health outcomes within a transitioning indigenous Solomon Island food system. <i>Food Security</i> , 2021, 13, 819-847.	5.3	17

#	ARTICLE	IF	CITATIONS
19	Complementary feeding practices and associated factors of dietary diversity among uncomplicated severe acute malnourished children aged 6–23 months in Burkina Faso. <i>Maternal and Child Nutrition</i> , 2021, 17, e13220.	3.0	5
20	Fortified Balanced Energy-Protein Supplements Increase Nutrient Adequacy without Displacing Food Intake in Pregnant Women in Rural Burkina Faso. <i>Journal of Nutrition</i> , 2021, 151, 3831-3840.	2.9	11
21	Course and Survival of COVID-19 Patients with Comorbidities in Relation to the Trace Element Status at Hospital Admission. <i>Nutrients</i> , 2021, 13, 3304.	4.1	28
22	Home consumption of two fortified balanced energy protein supplements by pregnant women in Burkina Faso. <i>Maternal and Child Nutrition</i> , 2021, 17, e13134.	3.0	13
23	Food biodiversity and total and cause-specific mortality in 9 European countries: An analysis of a prospective cohort study. <i>PLoS Medicine</i> , 2021, 18, e1003834.	8.4	7
24	Reverse thinking: taking a healthy diet perspective towards food systems transformations. <i>Food Security</i> , 2021, 13, 1497-1523.	5.3	30
25	Pathways to Diverse Diets – A Retrospective Analysis of a Participatory Nutrition-Sensitive Project in Kenya. <i>Current Developments in Nutrition</i> , 2021, 5, nza140.	0.3	1
26	Dietary mycotoxins exposure and child growth, immune system, morbidity, and mortality: a systematic literature review. <i>Critical Reviews in Food Science and Nutrition</i> , 2020, 60, 3321-3341.	10.3	32
27	Selenium deficiency risk in central Kenya highlands: an assessment from the soil to the body. <i>Environmental Geochemistry and Health</i> , 2020, 42, 2233-2250.	3.4	17
28	How to integrate nutritional recommendations and environmental policy targets at the meal level: A university canteen example. <i>Sustainable Production and Consumption</i> , 2020, 21, 120-131.	11.0	10
29	Minimum Dietary Diversity for Women of Reproductive Age (MDD-W) Data Collection: Validity of the List-Based and Open Recall Methods as Compared to Weighed Food Record. <i>Nutrients</i> , 2020, 12, 2039.	4.1	26
30	Perspective: Towards Automated Tracking of Content and Evidence Appraisal of Nutrition Research. <i>Advances in Nutrition</i> , 2020, 11, 1079-1088.	6.4	4
31	Aquaculture Production and Its Environmental Sustainability in Thailand: Challenges and Potential Solutions. <i>Sustainability</i> , 2020, 12, 2010.	3.2	52
32	The addition of STROBE-nut to the EJCN instructions to authors: some considerations and caveats. <i>European Journal of Clinical Nutrition</i> , 2020, 74, 657-658.	2.9	2
33	Maternal nutritional status mediates the association between maternal age and birth outcomes. <i>Maternal and Child Nutrition</i> , 2020, 16, e13015.	3.0	11
34	Links and Trade-Offs between Fisheries and Environmental Protection in Relation to the Sustainable Development Goals in Thailand. <i>Water (Switzerland)</i> , 2020, 12, 399.	2.7	28
35	Drivers of Under-Five Stunting Trend in 14 Low- and Middle-Income Countries since the Turn of the Millennium: A Multilevel Pooled Analysis of 50 Demographic and Health Surveys. <i>Nutrients</i> , 2019, 11, 2485.	4.1	22
36	Aligning evidence generation and use across health, development, and environment. <i>Current Opinion in Environmental Sustainability</i> , 2019, 39, 81-93.	6.3	16

#	ARTICLE	IF	CITATIONS
37	A Novel Approach to Optimize Vitamin D Intake in Belgium through Fortification Based on Representative Food Consumption Data. <i>Journal of Nutrition</i> , 2019, 149, 1852-1862.	2.9	8
38	An Ontology to Standardize Research Output of Nutritional Epidemiology: From Paper-Based Standards to Linked Content. <i>Nutrients</i> , 2019, 11, 1300.	4.1	20
39	Rising rural body-mass index is the main driver of the global obesity epidemic in adults. <i>Nature</i> , 2019, 569, 260-264.	27.8	469
40	Agronomic biofortification of maize and beans in Kenya through selenium fertilization. <i>Environmental Geochemistry and Health</i> , 2019, 41, 2577-2591.	3.4	40
41	Participatory farm diversification and nutrition education increase dietary diversity in Western Kenya. <i>Maternal and Child Nutrition</i> , 2019, 15, e12803.	3.0	40
42	Adolescent pregnancy and linear growth of infants: a birth cohort study in rural Ethiopia. <i>Nutrition Journal</i> , 2019, 18, 22.	3.4	8
43	Reducing waste in nutritional epidemiology: review and perspectives. <i>Proceedings of the Nutrition Society</i> , 2019, 78, 475-483.	1.0	2
44	From DIKW pyramid to graph database: a tool for machine processing of nutritional epidemiologic research data. , 2019, , .		5
45	Evolution of Fish and Shellfish Supplies Originating from Wild Fisheries in Thailand Between 1995 and 2015. <i>Sustainability</i> , 2019, 11, 7198.	3.2	5
46	Usefulness of applying research reporting guidelines as Writing Aid software: a crossover randomised controlled trial. <i>BMJ Open</i> , 2019, 9, e030943.	1.9	4
47	Large expert-curated database for benchmarking document similarity detection in biomedical literature search. <i>Database: the Journal of Biological Databases and Curation</i> , 2019, , .	3.0	15
48	Endorsing the STrengthening the Reporting of Observational Studies in Epidemiology-nutritional epidemiology (STROBE-nut) statement at Genes & Nutrition. <i>Genes and Nutrition</i> , 2019, 14, 30.	2.5	4
49	Burden and determinants of undernutrition among young pregnant women in Ethiopia. <i>Maternal and Child Nutrition</i> , 2019, 15, e12751.	3.0	27
50	Joint Data Analysis in Nutritional Epidemiology: Identification of Observational Studies and Minimal Requirements. <i>Journal of Nutrition</i> , 2018, 148, 285-297.	2.9	13
51	Feasibility and impact study of a reward-based mobile application to improve adolescentsâ€™ snacking habits. <i>Public Health Nutrition</i> , 2018, 21, 2329-2344.	2.2	20
52	Dietary species richness as a measure of food biodiversity and nutritional quality of diets. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2018, 115, 127-132.	7.1	147
53	Evaluation of artificially contaminated fish with formaldehyde under laboratory conditions and exposure assessment in freshwater fish in Southern Bangladesh. <i>Chemosphere</i> , 2018, 195, 702-712.	8.2	20
54	ONS: an ontology for a standardized description of interventions and observational studies in nutrition. <i>Genes and Nutrition</i> , 2018, 13, 12.	2.5	28

#	ARTICLE	IF	CITATIONS
55	Seasonality and determinants of child growth velocity and growth deficit in rural southwest Ethiopia. <i>BMC Pediatrics</i> , 2018, 18, 20.	1.7	13
56	Contributions of mean and shape of blood pressure distribution to worldwide trends and variations in raised blood pressure: a pooled analysis of 1018 population-based measurement studies with 88.6 million participants. <i>International Journal of Epidemiology</i> , 2018, 47, 872-883i.	1.9	65
57	A pragmatic framework to score and inform about the environmental sustainability and nutritional profile of canteen meals, a case study on a university canteen. <i>Journal of Cleaner Production</i> , 2018, 187, 672-686.	9.3	19
58	Disclosures of Coca-Cola funding: transparent or opaque?. <i>Public Health Nutrition</i> , 2018, 21, 1591-1593.	2.2	4
59	Effects of ω -3 long-chain PUFA supplementation to lactating mothers and their breastfed children on child growth and morbidity: a 2 \times 2 factorial randomized controlled trial in rural Ethiopia. <i>American Journal of Clinical Nutrition</i> , 2018, 107, 454-464.	4.7	13
60	Global, regional, and national comparative risk assessment of 84 behavioural, environmental and occupational, and metabolic risks or clusters of risks for 195 countries and territories, 1990–2017: a systematic analysis for the Global Burden of Disease Study 2017. <i>Lancet, The</i> , 2018, 392, 1923-1994.	13.7	3,269
61	Measuring progress from 1990 to 2017 and projecting attainment to 2030 of the health-related Sustainable Development Goals for 195 countries and territories: a systematic analysis for the Global Burden of Disease Study 2017. <i>Lancet, The</i> , 2018, 392, 2091-2138.	13.7	335
62	Examining food intake and eating out of home patterns among university students. <i>PLoS ONE</i> , 2018, 13, e0197874.	2.5	41
63	Perspective: Consideration of Values When Setting Priorities in Nutrition Research: Guidance for Transparency. <i>Advances in Nutrition</i> , 2018, 9, 671-687.	6.4	6
64	Post-harvest interventions decrease aflatoxin and fumonisin contamination in maize and subsequent dietary exposure in Tanzanian infants: a cluster randomised-controlled trial. <i>World Mycotoxin Journal</i> , 2018, 11, 447-458.	1.4	22
65	Do Current Fortification and Supplementation Programs Assure Adequate Intake of Fat-Soluble Vitamins in Belgian Infants, Toddlers, Pregnant Women, and Lactating Women?. <i>Nutrients</i> , 2018, 10, 223.	4.1	13
66	Adding a reward increases the reinforcing value of fruit. <i>British Journal of Nutrition</i> , 2017, 117, 611-620.	2.3	1
67	Exposure assessment of epoxy fatty acids through consumption of specific foods available in Belgium. <i>Food Additives and Contaminants - Part A Chemistry, Analysis, Control, Exposure and Risk Assessment</i> , 2017, 34, 1000-1011.	2.3	9
68	Eating at restaurants, at work or at home. Is there a difference? A study among adults of 11 European countries in the context of the HECTOR* project. <i>European Journal of Clinical Nutrition</i> , 2017, 71, 407-419.	2.9	25
69	Worldwide trends in body-mass index, underweight, overweight, and obesity from 1975 to 2016: a pooled analysis of 2416 population-based measurement studies in 128.9 million children, adolescents, and adults. <i>Lancet, The</i> , 2017, 390, 2627-2642.	13.7	5,010
70	Global, regional, and national under-5 mortality, adult mortality, age-specific mortality, and life expectancy, 1970–2016: a systematic analysis for the Global Burden of Disease Study 2016. <i>Lancet, The</i> , 2017, 390, 1084-1150.	13.7	573
71	Perspective: Essential Study Quality Descriptors for Data from Nutritional Epidemiologic Research. <i>Advances in Nutrition</i> , 2017, 8, 639-651.	6.4	12
72	Perspective: An Extension of the STROBE Statement for Observational Studies in Nutritional Epidemiology (STROBE-nut): Explanation and Elaboration. <i>Advances in Nutrition</i> , 2017, 8, 652-678.	6.4	44

#	ARTICLE	IF	CITATIONS
73	Evidence-informed decision making for nutrition: African experiences and way forward. Proceedings of the Nutrition Society, 2017, 76, 589-596.	1.0	10
74	The effect of food insecurity on health status of adolescents in Ethiopia: longitudinal study. BMC Public Health, 2017, 17, 465.	2.9	17
75	Fat-soluble vitamin intake from the consumption of food, fortified food and supplements: design and methods of the Belgian VITADEK study. Archives of Public Health, 2017, 75, 31.	2.4	7
76	Feeding practices and growth among young children during two seasons in rural Ethiopia. BMC Nutrition, 2017, 3, 39.	1.6	8
77	Worldwide trends in blood pressure from 1975 to 2015: a pooled analysis of 1479 population-based measurement studies with 19.1 million participants. Lancet, The, 2017, 389, 37-55.	13.7	1,667
78	Dietary behaviour, food and nutrient intake of women do not change during pregnancy in Southern Ethiopia. Maternal and Child Nutrition, 2017, 13, .	3.0	29
79	Development and validation of a quantitative snack and beverage food frequency questionnaire for adolescents. Journal of Human Nutrition and Dietetics, 2017, 30, 141-150.	2.5	12
80	Factors influencing the reinforcing value of fruit and unhealthy snacks. European Journal of Nutrition, 2017, 56, 2589-2598.	3.9	7
81	Risk of Exposure to Multiple Mycotoxins from Maize-Based Complementary Foods in Tanzania. Journal of Agricultural and Food Chemistry, 2017, 65, 7106-7114.	5.2	37
82	Intake of Fat-Soluble Vitamins in the Belgian Population: Adequacy and Contribution of Foods, Fortified Foods and Supplements. Nutrients, 2017, 9, 860.	4.1	21
83	Validity and Reproducibility of a Food Frequency Questionnaire for Dietary Factors Related to Colorectal Cancer. Nutrients, 2017, 9, 1257.	4.1	16
84	A school-based intervention improved dietary intake outcomes and reduced waist circumference in adolescents: a cluster randomized controlled trial. Nutrition Journal, 2017, 16, 79.	3.4	31
85	Use of Fitness and Nutrition Apps: Associations With Body Mass Index, Snacking, and Drinking Habits in Adolescents. JMIR MHealth and UHealth, 2017, 5, e58.	3.7	25
86	Risk of dietary exposure to aflatoxins and fumonisins in infants less than 6 months of age in Rombia, Northern Tanzania. Maternal and Child Nutrition, 2016, 12, 516-527.	3.0	54
87	Dietary diversity predicts dietary quality regardless of season in 12-month-old infants in south-west Ethiopia. Public Health Nutrition, 2016, 19, 2485-2494.	2.2	15
88	Household dietary diversity and Animal Source Food consumption in Ethiopia: evidence from the 2011 Welfare Monitoring Survey. BMC Public Health, 2016, 16, 1192.	2.9	90
89	On the pitfalls of disclosure statements. Public Health Nutrition, 2016, 19, 383-385.	2.2	1
90	Worldwide trends in diabetes since 1980: a pooled analysis of 751 population-based studies with 4.4 million participants. Lancet, The, 2016, 387, 1513-1530.	13.7	2,842

#	ARTICLE	IF	CITATIONS
91	Trends in adult body-mass index in 200 countries from 1975 to 2014: a pooled analysis of 1698 population-based measurement studies with 19.2 million participants. <i>Lancet</i> , The, 2016, 387, 1377-1396.	13.7	3,941
92	Determinants and morbidities of multiple anthropometric deficits in southwest rural Ethiopia. <i>Nutrition</i> , 2016, 32, 1243-1249.	2.4	18
93	Occurrence and risk assessment of mycotoxins in subsistence farmed maize from Zimbabwe. <i>Food Control</i> , 2016, 69, 36-44.	5.5	50
94	Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) – nutritional epidemiology (STROBE-nut): An extension of the STROBE statement. <i>Nutrition Bulletin</i> , 2016, 41, 240-251.	1.8	184
95	Using a gamified monitoring app to change adolescents'™ snack intake: the development of the REWARD app and evaluation design. <i>BMC Public Health</i> , 2016, 16, 725.	2.9	23
96	Two years of school-based intervention program could improve the physical fitness among Ecuadorian adolescents at health risk: subgroups analysis from a cluster-randomized trial. <i>BMC Pediatrics</i> , 2016, 16, 51.	1.7	8
97	Sensitivity to reward and adolescents'™ unhealthy snacking and drinking behavior: the role of hedonic eating styles and availability. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016, 13, 17.	4.6	24
98	Barriers to Eating Traditional Foods Vary by Age Group in Ecuador With Biodiversity Loss as a Key Issue. <i>Journal of Nutrition Education and Behavior</i> , 2016, 48, 258-268.e1.	0.7	24
99	Sensitivity to reward is associated with snack and sugar-sweetened beverage consumption in adolescents. <i>European Journal of Nutrition</i> , 2016, 55, 1623-1632.	3.9	45
100	Resource use profile and nutritional value assessment of a typical Belgian meal, catered or home cooked, with pork or Quorn, as protein source. <i>Journal of Cleaner Production</i> , 2016, 112, 196-204.	9.3	26
101	Strengthening the Reporting of Observational Studies in Epidemiology – Nutritional Epidemiology (STROBE-nut): An Extension of the STROBE Statement. <i>PLoS Medicine</i> , 2016, 13, e1002036.	8.4	274
102	Food Insecurity and Common Mental Disorders among Ethiopian Youth: Structural Equation Modeling. <i>PLoS ONE</i> , 2016, 11, e0165931.	2.5	37
103	Concordance of poor child feeding and preventive behavior and its predictors in southwest rural Ethiopia. <i>Food and Nutrition Research</i> , 2016, 60, 32207.	2.6	0
104	Eating out is different from eating at home among individuals who occasionally eat out. A cross-sectional study among middle-aged adults from eleven European countries. <i>British Journal of Nutrition</i> , 2015, 113, 1951-1964.	2.3	45
105	Introducing PRISMA as a requirement. <i>Public Health Nutrition</i> , 2015, 18, 2509-2510.	2.2	1
106	School-based intervention on healthy behaviour among Ecuadorian adolescents: effect of a cluster-randomized controlled trial on screen-time. <i>BMC Public Health</i> , 2015, 15, 942.	2.9	24
