

# Kurt Hanevik

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/3097364/kurt-hanevik-publications-by-year.pdf>

**Version:** 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

85  
papers

1,988  
citations

23  
h-index

43  
g-index

91  
ext. papers

2,305  
ext. citations

5

#	Paper	IF	Citations
85	No difference in serum levels of B-cell activating receptor and antibodies against cytolethal distending toxin B and flagellin in post-infectious irritable bowel syndrome and chronic fatigue syndrome after infection.. <i>JGH Open</i> , <b>2022</b> , 6, 185-188	1.8	
84	Transition to PCR diagnosis of cryptosporidiosis and giardiasis in the Norwegian healthcare system: could the increase in reported cases be due to higher sensitivity or a change in the testing algorithm?. <i>European Journal of Clinical Microbiology and Infectious Diseases</i> , <b>2022</b> , 1	5.3	0
83	Conserved metabolic enzymes as vaccine antigens for giardiasis.. <i>PLoS Neglected Tropical Diseases</i> , <b>2022</b> , 16, e0010323	4.8	1
82	Prevalence of fibromyalgia 10 years after infection with : a controlled prospective cohort study. <i>Scandinavian Journal of Pain</i> , <b>2021</b> ,	1.9	1
81	A site assessment tool for inpatient controlled human infection models for enteric disease pathogens. <i>Clinical Trials</i> , <b>2021</b> , 17407745211052473	2.2	
80	Characteristics of hospitalized patients during a large waterborne outbreak of <i>Campylobacter jejuni</i> in Norway. <i>PLoS ONE</i> , <b>2021</b> , 16, e0248464	3.7	2
79	Performance and operational feasibility of two diagnostic tests for cryptosporidiosis in children (CRYPTO-POC): a clinical, prospective, diagnostic accuracy study. <i>Lancet Infectious Diseases</i> , <b>2021</b> , 21, 722-730	25.5	9
78	Characterization of Glycosylation-Specific Systemic and Mucosal IgA Antibody Responses to Mucinase YghJ (SsIE).. <i>Frontiers in Immunology</i> , <b>2021</b> , 12, 760135	8.4	
77	Bacteraemia, Malaria, and Case Fatality Among Children Hospitalized With Fever in Dar es Salaam, Tanzania. <i>Frontiers in Microbiology</i> , <b>2020</b> , 11, 2118	5.7	3
76	Comparative expression profiling in the intestine of patients with <i>Giardia</i> -induced postinfectious functional gastrointestinal disorders. <i>Neurogastroenterology and Motility</i> , <b>2020</b> , 32, e13868	4	5
75	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan. <i>PLoS ONE</i> , <b>2020</b> , 15, e0229287	3.7	15
74	Genetic Diversity of the Flavohemoprotein Gene of : Evidence for High Allelic Heterozygosity and Copy Number Variation. <i>Infection and Drug Resistance</i> , <b>2020</b> , 13, 4531-4545	4.2	0
73	Human Mucosal IgA Immune Responses against Enterotoxigenic. <i>Pathogens</i> , <b>2020</b> , 9,	4.5	1
72	Giardiasis treatment: an update with a focus on refractory disease. <i>Current Opinion in Infectious Diseases</i> , <b>2020</b> , 33, 355-364	5.4	17
71	Whole blood preservation methods alter chemokine receptor detection in mass cytometry experiments. <i>Journal of Immunological Methods</i> , <b>2020</b> , 476, 112673	2.5	6
70	Plasma levels of guanylin are reduced in patients with Crohn's disease. <i>Scandinavian Journal of Gastroenterology</i> , <b>2020</b> , 55, 449-453	2.4	1
69	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		

68	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
67	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
66	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
65	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
64	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
63	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
62	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
61	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
60	Monocytes from neonates and adults have a similar capacity to adapt their cytokine production after previous exposure to BCG and $\beta$ glucan <b>2020</b> , 15, e0229287		
59	The way forward for ETEC controlled human infection models (CHIMs). <i>Vaccine</i> , <b>2019</b> , 37, 4794-4799	4.1	5
58	Genetic variation in metronidazole metabolism and oxidative stress pathways in clinical assemblage A and B isolates. <i>Infection and Drug Resistance</i> , <b>2019</b> , 12, 1221-1235	4.2	12
57	Identification of Conserved Candidate Vaccine Antigens in the Surface Proteome of <i>Giardia lamblia</i> . <i>Infection and Immunity</i> , <b>2019</b> , 87,	3.7	14
56	Prolonged and persistent diarrhoea is not restricted to children with acute malnutrition: an observational study in Ethiopia. <i>Tropical Medicine and International Health</i> , <b>2019</b> , 24, 1088-1097	2.3	1
55	Experimental Infection of Human Volunteers with the Heat-Stable Enterotoxin-Producing Enterotoxigenic Strain TW11681. <i>Pathogens</i> , <b>2019</b> , 8,	4.5	4
54	Assessment of malaria real-time PCR methods and application with focus on low-level parasitaemia. <i>PLoS ONE</i> , <b>2019</b> , 14, e0218982	3.7	19
53	A new human challenge model for testing heat-stable toxin-based vaccine candidates for enterotoxigenic <i>Escherichia coli</i> diarrhea - dose optimization, clinical outcomes, and CD4+ T cell responses. <i>PLoS Neglected Tropical Diseases</i> , <b>2019</b> , 13, e0007823	4.8	5
52	Quality of life and its association with irritable bowel syndrome and fatigue ten years after giardiasis. <i>Neurogastroenterology and Motility</i> , <b>2019</b> , 31, e13559	4	7
51	Prolonged Duodenal Mucosal Lymphocyte Alterations in Patients With and Without Postinfectious Functional Gastrointestinal Disorders After <i>Giardia</i> Infection. <i>Journal of Infectious Diseases</i> , <b>2019</b> , 220, 321-329	7	3

50	Prevalence of Irritable Bowel Syndrome and Chronic Fatigue 10 Years After Giardia Infection. <i>Clinical Gastroenterology and Hepatology</i> , <b>2018</b> , 16, 1064-1072.e4	6.9	39
49	Giardiasis: a diagnosis that should be considered regardless of the setting. <i>Epidemiology and Infection</i> , <b>2018</b> , 146, 1216-1218	4.3	6
48	Transient elevation of anti-transglutaminase and anti-endomysium antibodies in Giardia infection. <i>Scandinavian Journal of Gastroenterology</i> , <b>2018</b> , 53, 809-812	2.4	6
47	Treatment-refractory giardiasis: challenges and solutions. <i>Infection and Drug Resistance</i> , <b>2018</b> , 11, 1921-1933	4.2	51
46	Genetic and transcriptional analysis of inflammatory bowel disease-associated pathways in patients with GUCY2C-linked familial diarrhea. <i>Scandinavian Journal of Gastroenterology</i> , <b>2018</b> , 53, 1264-1273	2.4	4
45	Proliferation of enterotoxigenic strain TW11681 in stools of experimentally infected human volunteers. <i>Gut Pathogens</i> , <b>2018</b> , 10, 46	5.4	7
44	Longitudinal cohort study of serum antibody responses towards Giardia lamblia variant-specific surface proteins in a non-endemic area. <i>Experimental Parasitology</i> , <b>2018</b> , 191, 66-72	2.1	13
43	Comprehensive Analysis of Prevalence, Epidemiologic Characteristics, and Clinical Characteristics of Monoinfection and Coinfection in Diarrheal Diseases in Children in Tanzania. <i>American Journal of Epidemiology</i> , <b>2017</b> , 186, 1074-1083	3.8	18
42	Giardia-specific cellular immune responses in post-giardiasis chronic fatigue syndrome. <i>BMC Immunology</i> , <b>2017</b> , 18, 5	3.7	15
41	Genetic variation in potential Giardia vaccine candidates cyst wall protein 2 and $\beta$ -giardin. <i>Parasitology Research</i> , <b>2017</b> , 116, 2151-2158	2.4	4
40	Human Memory CD4+ T Cell Immune Responses against Giardia lamblia. <i>Vaccine Journal</i> , <b>2016</b> , 23, 11-8		39
39	A Cross-Sectional Study of the Prevalence of Gastrointestinal Symptoms and Pathology in Patients With Common Variable Immunodeficiency. <i>American Journal of Gastroenterology</i> , <b>2016</b> , 111, 1467-1475	0.7	60
38	Postinfectious and sporadic functional gastrointestinal disorders have different prevalences and rates of overlap: results from a controlled cohort study 3 years after acute giardiasis. <i>Neurogastroenterology and Motility</i> , <b>2016</b> , 28, 1561-9	4	10
37	Long-Term Consequences of Cryptosporidium and Giardia Gastroenteritis. <i>Current Tropical Medicine Reports</i> , <b>2016</b> , 3, 89-93	5	1
36	Excessive daytime sleepiness, sleep need and insomnia 3 years after Giardia infection: a cohort study. <i>Sleep Health</i> , <b>2016</b> , 2, 154-158	4	1
35	Symptomatic and asymptomatic secondary transmission of Cryptosporidium parvum following two related outbreaks in schoolchildren. <i>Epidemiology and Infection</i> , <b>2015</b> , 143, 1702-9	4.3	18
34	The relationship between irritable bowel syndrome, functional dyspepsia, chronic fatigue and overactive bladder syndrome: a controlled study 6 years after acute gastrointestinal infection. <i>BMC Gastroenterology</i> , <b>2015</b> , 15, 66	3	22
33	Perceived food intolerance and irritable bowel syndrome in a population 3 years after a giardiasis-outbreak: a historical cohort study. <i>BMC Gastroenterology</i> , <b>2015</b> , 15, 164	3	13

32	Whole genome sequencing of clinical isolates of <i>Giardia lamblia</i> . <i>Clinical Microbiology and Infection</i> , <b>2015</b> , 21, 192.e1-3	9.5	21
31	Intestinal microbiota and diet in IBS: causes, consequences, or epiphenomena?. <i>American Journal of Gastroenterology</i> , <b>2015</b> , 110, 278-87	0.7	225
30	Prevalence of <i>Cryptosporidium parvum/hominis</i> , <i>Entamoeba histolytica</i> and <i>Giardia lamblia</i> among Young Children with and without Diarrhea in Dar es Salaam, Tanzania. <i>PLoS Neglected Tropical Diseases</i> , <b>2015</b> , 9, e0004125	4.8	54
29	Dogs as the source of <i>Giardia</i> in Bergen in 2004 [barking up the wrong tree?]. <i>Tidsskrift for Den Norske Laegeforening</i> , <b>2015</b> , 135, 1718-20	3.5	1
28	Genetic diversity of norovirus in hospitalised diarrhoeic children and asymptomatic controls in Dar es Salaam, Tanzania. <i>Infection, Genetics and Evolution</i> , <b>2014</b> , 26, 340-7	4.5	20
27	Irritable bowel syndrome and chronic fatigue 6 years after giardia infection: a controlled prospective cohort study. <i>Clinical Infectious Diseases</i> , <b>2014</b> , 59, 1394-400	11.6	90
26	Genetic diversity of circulating rotavirus strains in Tanzania prior to the introduction of vaccination. <i>PLoS ONE</i> , <b>2014</b> , 9, e97562	3.7	31
25	Prevalence and molecular characterisation of human adenovirus in diarrhoeic children in Tanzania; a case control study. <i>BMC Infectious Diseases</i> , <b>2014</b> , 14, 666	4	47
24	Comparison of four methods for extracting DNA from dried blood on filter paper for PCR targeting the mitochondrial <i>Plasmodium</i> genome. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , <b>2014</b> , 108, 488-94	2	21
23	Management of chronic <i>Giardia</i> infection. <i>Expert Review of Anti-Infective Therapy</i> , <b>2014</b> , 12, 1143-57	5.5	26
22	<i>Giardia</i> -infeksjon kan gi irriterabel tarm og kronisk utmattelse. <i>Tidsskrift for Den Norske Laegeforening</i> , <b>2014</b> , 134, 1835-1835	3.5	
21	Chronic fatigue syndrome 5 years after giardiasis: differential diagnoses, characteristics and natural course. <i>BMC Gastroenterology</i> , <b>2013</b> , 13, 28	3	33
20	A novel, single-amplification PCR targeting mitochondrial genome highly sensitive and specific in diagnosing malaria among returned travellers in Bergen, Norway. <i>Malaria Journal</i> , <b>2013</b> , 12, 26	3.6	52
19	The role of arginine and arginine-metabolizing enzymes during <i>Giardia</i> - host cell interactions in vitro. <i>BMC Microbiology</i> , <b>2013</b> , 13, 256	4.5	57
18	Immunophenotyping in post-giardiasis functional gastrointestinal disease and chronic fatigue syndrome. <i>BMC Infectious Diseases</i> , <b>2012</b> , 12, 258	4	13
17	Irritable bowel syndrome and chronic fatigue 3 years after acute giardiasis: historic cohort study. <i>Gut</i> , <b>2012</b> , 61, 214-9	19.2	120
16	The impact of atopic disease on the risk of post-infectious fatigue and irritable bowel syndrome 3 years after <i>Giardia</i> infection. A historic cohort study. <i>Scandinavian Journal of Gastroenterology</i> , <b>2012</b> , 47, 956-61	2.4	11
15	Tolerability and effect of mesalazine in postinfectious irritable bowel syndrome. <i>Alimentary Pharmacology and Therapeutics</i> , <b>2011</b> , 34, 259-60	6.1	6

14	Human cellular immune response against <i>Giardia lamblia</i> 5 years after acute giardiasis. <i>Journal of Infectious Diseases</i> , <b>2011</b> , 204, 1779-86	7	30
13	Relative importance of abnormalities of CCK and 5-HT (serotonin) in <i>Giardia</i> -induced post-infectious irritable bowel syndrome and functional dyspepsia. <i>Alimentary Pharmacology and Therapeutics</i> , <b>2010</b> , 31, 883-91	6.1	67
12	Giardiasis: the ever-present threat of a neglected disease. <i>Infectious Disorders - Drug Targets</i> , <b>2010</b> , 10, 329-48	1.1	55
11	Giardiasis--why do the symptoms sometimes never stop?. <i>Trends in Parasitology</i> , <b>2010</b> , 26, 75-82	6.4	144
10	Post epidemic giardiasis and gastrointestinal symptoms among preschool children in Bergen, Norway. A cross-sectional study. <i>BMC Public Health</i> , <b>2010</b> , 10, 163	4.1	4
9	Development of functional gastrointestinal disorders after <i>Giardia lamblia</i> infection. <i>BMC Gastroenterology</i> , <b>2009</b> , 9, 27	3	110
8	Severity of <i>Giardia</i> infection associated with post-infectious fatigue and abdominal symptoms two years after. <i>BMC Infectious Diseases</i> , <b>2009</b> , 9, 206	4	38
7	High rate of fatigue and abdominal symptoms 2 years after an outbreak of giardiasis. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , <b>2009</b> , 103, 530-2	2	36
6	Sensitivity of a <i>Giardia</i> antigen test in persistent giardiasis following an extensive outbreak. <i>Clinical Microbiology and Infection</i> , <b>2008</b> , 14, 1069-71	9.5	16
5	Effects of albendazole/metronidazole or tetracycline/folate treatments on persisting symptoms after <i>Giardia</i> infection: a randomized open clinical trial. <i>Scandinavian Journal of Infectious Diseases</i> , <b>2008</b> , 40, 517-22		6
4	Treatment-ladder and genetic characterisation of parasites in refractory giardiasis after an outbreak in Norway. <i>Journal of Infection</i> , <b>2008</b> , 56, 268-73	18.9	76
3	Persisting symptoms and duodenal inflammation related to <i>Giardia duodenalis</i> infection. <i>Journal of Infection</i> , <b>2007</b> , 55, 524-30	18.9	100
2	Landmine injuries in Eritrea. <i>BMJ: British Medical Journal</i> , <b>2000</b> , 321, 1189		16
1	Oocyst Shedding Dynamics in Children with Cryptosporidiosis: a Prospective Clinical Case Series in Ethiopia. <i>Microbiology Spectrum</i> ,	8.9	1
