

Marlena Plonka

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3107130/marlena-plonka-publications-by-citations.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
7	Chromatographic methods for the determination of active substances and characterization of their impurities in pesticide formulations. <i>TrAC - Trends in Analytical Chemistry</i> , 2016 , 85, 67-80	14.6	26
6	Official control of plant protection products in Poland: detection of illegal products. <i>Environmental Science and Pollution Research</i> , 2018 , 25, 31906-31916	5.1	8
5	Simultaneous gas chromatographic determination of chlorpyrifos and its impurity sulfotep in liquid pesticide formulations. <i>Journal of Environmental Science and Health - Part B Pesticides, Food Contaminants, and Agricultural Wastes</i> , 2016 , 51, 736-41	2.2	6
4	Determination of azoxystrobin and its impurity in pesticide formulations by liquid chromatography. <i>Journal of Environmental Science and Health - Part B Pesticides, Food Contaminants, and Agricultural Wastes</i> , 2020 , 55, 599-603	2.2	5
3	Application of chemometric analysis based on physicochemical and chromatographic data for the differentiation origin of plant protection products containing chlorpyrifos. <i>Journal of Environmental Science and Health - Part B Pesticides, Food Contaminants, and Agricultural Wastes</i> , 2015 , 50, 744-51	2.2	4
2	Application of different chromatographic techniques and chemometric analysis in authenticity testing of plant protection products containing azoxystrobin as an active substance. <i>Journal of Environmental Science and Health - Part B Pesticides, Food Contaminants, and Agricultural Wastes</i> , 2019 , 54, 590-597	2.2	0
1	Determination of metaldehyde in different commercial pesticide formulations using green analytical procedure and gas chromatography flame ionization detection. <i>Acta Chromatographica</i> , 2019 , 31, 286-290	1.5
